Good day

Kindly find attached the image of the first grave as per the screening document. The existing pole is less than 10m from the fence where the grave is, however, in this area work will be done on the existing pylons without them being moved (excavated).

Good day

Please see attached the PIA, I will send the pictures in separate emails as I'm getting feedback that the mail cannot be sent based on size so I will be separating them.

Good day Thabelo, Complements of the new season

I would be happy to upload the documents and make the amendments to the case before issuing a comment on it. Please sent the documents to me via email and I'll let you know when I have uploaded them.

Kind Regards
Sityhilelo Ngcatsha

Good day

Kindly note that I have gone through the interim comment dated 16 November 2021 for the Eskom Tahiti-Fontein proposed project. I have attached all thew information already on the website and I do not know why you cannot see the information. I have the pictures attached as well as the distances specified. A PIA was also done by a Palaeontologist and I loaded bit on the site as well.

The day I loaded all that information, the site seemed to have issues and I loaded around 3 times. Kindly assist on how I can make sure I load correctly as I'm seeming to struggle and I have all the information/Documents requested.
