Dear Ros,
See email below from Musgrave Methodist Church regarding the protection of the interior.
Regards
Lindsay

Hi Lindsay,

We at the Church are equally concerned with regards to the interior fixtures and fittings in the Church – we are for instance arranging for scaffold towers to be erected around each of the hanging light fittings with shutterboard to be placed around and above each fitting.

We will deal with each internal item in a similar manner.

I will be chatting to Ugasen with regards to matching the tongue and groove exactly as is – the successful tenderer will need to get a sample on site and to apply the necessary coatings to ensure that the colour and appearance is identical to the existing.

Regards,

Colin

Thanks, attached is a brief spec that I prepared for Amafa.

They are concerned about the protection of the interior during construction and the gutters.

Please alert contractors to allow for the special conditions of protection of historical material and fittings.
