

of the EIA Regulations of 4 December 2014, as amended. Should you wish to register as an I&AP for the proposed project and be kept informed of the progress of the project and public participation opportunities, please request and complete an "Interested and Affected Party" registration form (obtainable from the EAP). Completed I&AP registration forms should be submitted to the EAP, Lourens de Villiers, at the contact details provided below. Alternatively, you may also submit your name, contact information and interest in the matter, in writing, to the EAP at the contact details provided. As required in the EIA Regulations, site notice boards will be placed on the project property boundary. The Basic Assessment Report will be made available to the public for review and commenting for a period of 30 days, (exact dates will be communicated to registered I&APs). Electronic copies of the report will be provided to registered I&APs via email or registered post. Please inform us should you require a hard copy of the report. Should you require any additional information, please do not hesitate to contact the EAP at the details provided below.

• Portion 79 (A Portion of Portion 35) of the Farm Naauwpoort 335 JS, eMalahleni Local Municipality, Mpumalanga Province.

APPLICABLE LEGISLATION:
The project requires Section 24(G) Environmental Authorisation (ex post facto approval) for the following listed activities in terms of the National Environmental Management Act, Act No. 107 of 1998 (Environmental Impact Assessment Regulations, 2006):

- GNR. 386 of 21 April 2006, Activity No. 1(j): Agri- industrial purposes, outside areas with an existing land use zoning for industrial purposes, that cover an area of 1000 square metres or more.
- GNR. 386 of 21 April 2006: Activity No. 16: The transformation of undeveloped, vacant or derelict land to (a) establish infill development covering an area of 5 hectares or more, but less than 20 hectares; or (b) residential, mixed, retail, commercial, industrial or institutional use where such development does not constitute infill and where the total area to be transformed is bigger than 1 hectare.

The above-mentioned activities require a Section 24(G) Environmental Authorisation process (ex post facto approval) to be conducted in support of Section 24(G) of the National Environmental Management Act, Act No. 107 of 1998, as amended. The application will be submitted to the Competent Authority, the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs in due course. Upon acceptance of the application, the Competent Authority will issue a reference number for the application. This reference number will be communicated upon its receipt from the Competent Authority.

PUBLIC PARTICIPATION PROCESSES:
The public participation processes for the above mentioned applications are conducted in accordance with the requirements outlined in Government Notice 698 of 20 July 2017, in terms of the National Environmental Management Act, Act No. 107 of 1998, as amended. Registration of Interested

and Affected Parties for the Section 24(G) Environmental Authorisation application will be available for a period of 20 days (from 19 March 2021 to 9 April 2021). Should you wish to register as an I&AP for the project and be kept informed of the progress of the project and public participation opportunities, please request and complete an "Interested and Affected Party" registration form (obtainable from the EAP). Completed I&AP registration forms should be submitted to the EAP, Lourens de Villiers, at the contact details provided below. Alternatively, you may also submit your name, contact information and interest in the matter, in writing, to the EAP at the contact details provided. Please send the registration information to the EAP before or on 9 April 2021. Should you require any additional information, please do not hesitate to contact the EAP at the details provided below.

Rural Development, Land and Environmental Affairs (the Competent Authority (CA) in terms of the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), as amended. Labesh (Pty) Ltd has been appointed by the applicant, Inala Mining (Pty) Ltd, in terms of Regulation 12 of the EIA Regulations (GNR. 982 of 4 December 2014), as amended, as the independent Environmental Assessment Practitioner (EAP) tasked with conducting the above mentioned application processes. Labesh complies with the necessary requirements of Regulation 13 of GNR. 982 of 4 December 2014, as amended.

PROJECT DESCRIPTION:
The development consists of 40 structures that include offices, workshops, gas refill station, garages, spray booth, pump rooms, compressor and generator rooms, storage areas, training centre, staff canteens, lapa and a security house. The storage and treatment of hydrocarbon contaminated soil also occurs on-site. The development footprint is approximately 12.7Ha.

PROJECT LOCATION:
Project site GPS co-ordinates: 25°58' 6.50"S; 29°16' 17.98"E

- Portion 568 (A Portion of Portion 567) of the Farm Naauwpoort 335 JS, eMalahleni Local Municipality, Mpumalanga Province.

APPLICABLE LEGISLATION:
The project requires Section 24(G) Environmental Authorisation (ex post facto approval) for the following listed activities in terms of the Environment Conservation Act, Act No. 73 of 1989 and National Environmental Management Act, Act No. 107 of 1998 (Environmental Impact Assessment Regulations, 2006):

- GNR. 1182 of 5 September 1997, Activity No. 2 (c): The change of land use from agricultural or undetermined use to any other land use.
- GNR. 387 of 21 April 2006, Activity No. 1(g): The use, recycling, handling, treatment, storage or final disposal of hazardous waste. The above-mentioned activities require a Section 24(G) Environmental Authorisation process (ex post facto approval) to be

conducted in support of Section 24(G) of the National Environmental Management Act, Act No. 107 of 1998, as amended. The application will be submitted to the Competent Authority, the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs in due course. Upon acceptance of the application, the Competent Authority will issue a reference number for the application. This reference number will be communicated upon its receipt from the Competent Authority.

PUBLIC PARTICIPATION PROCESSES:
The public participation processes for the above mentioned applications are conducted in accordance with the requirements

outlined in Government Notice 698 of 20 July 2017, in terms of the National Environmental Management Act, Act No. 107 of 1998, as amended. Registration of Interested and Affected Parties for the Section 24(G) Environmental Authorisation application will be available for a period of 20 days (from 19 March 2021 to 9 April 2021). Should you wish to register as an I&AP for the project and be kept informed of the progress of the project and public participation opportunities, please request and complete an "Interested and Affected Party" registration form (obtainable from the EAP). Completed I&AP registration forms should be submitted to the EAP, Lourens de Villiers,

at the contact details provided below. Alternatively, you may also submit your name, contact information and interest in the matter, in writing, to the EAP at the contact details provided. Please send the registration information to the EAP before or on 9 April 2021. Should you require any additional information, please do not hesitate to contact the EAP at the details provided below.

Dear Interested and Affected Party,

NOTICE AND BACKGROUND INFORMATION ON THE PUBLIC PARTICIPATION PROCESS FOR THE APPLICATION OF WATER USE LICENCE APPLICATION AND AMENDMENTS FOR WATER USES AT MATLA POWER STATION, KRIEL, MPUMALANGA.

Notice is hereby in terms of the section 41(4) of the National Water Act (Act 36 of 1998) (NWA) and regulations of an application for Water Use Licence and Amendments that M2 Environmental Connections (MENCO) submitted to the Department of Water and Sanitation (DWS) on behalf of Eskom Holdings SOC Ltd, Matla Power Station (the applicant)'s intent to carry out activities that require Water Use Licence Application and amendments process. This letter serves as a background information to provide Interested and Affected Party (IAPs) with the opportunity to comment.

Background

Matla Power Station, owned by Eskom Holding SOC (Ltd) (Eskom) is operating under Water Use Licence (WUL) number 27/2/1/C211/1/1 for abstraction of water and WUL 04/B11D/BCFGI/2293 and 27/2/1/C211/1/1 for the abstraction issued in terms of the National Water Act. Various Water Uses authorised in 2013 e.g. Sewage Treatment Plant and Water Facilities do not include associated infrastructure such as pipelines. It is for this reasons together with other licence conditions that the application is applying for amendment. New water uses have been identified hence new WULA was submitted.

Location

Matla Power Station falls within the jurisdiction of the Emalahleni Town Council, Mpumalanga Province. The nearest towns include Kriel, Secunda, eMalahleni. The Power Station is located on the watershed between the B11E and B11D quaternary catchments which forms part of the Steenkool Spruit sub-catchment.

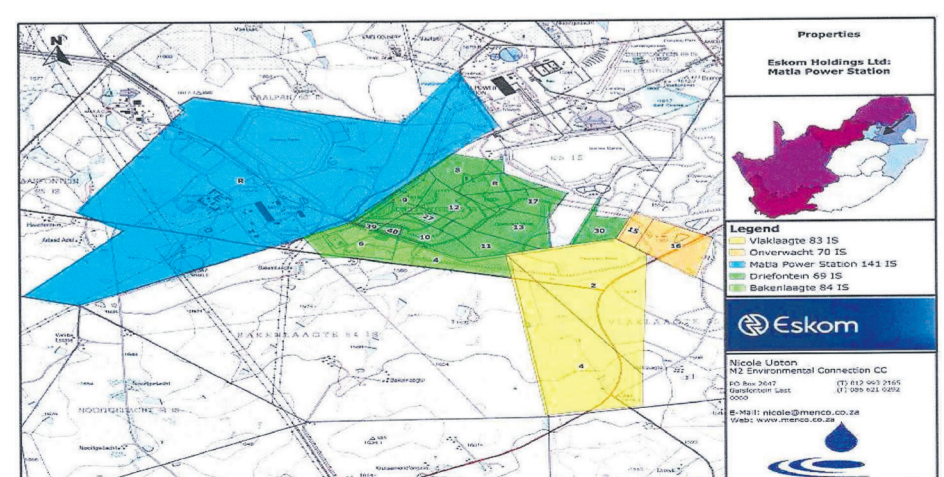

Description of New Water Uses

The water uses taking place at the power station are within the close proximity, if not within the wetlands. Accordingly, WUL amendment which will also include the new Water Use Licence Application (WULA) for the existing unauthorised water uses is required. The proposed Water Use Licence (WUL) amendment and new WUL application triggers the following water uses defined in Section 21 of the National Water Act (Act 36 of 1998) (NWA):

- The water uses at the Matla Power Station that require authorisation are as follow:
- Section 21 (c) & (i) impeding or diverting the flow of water in a watercourse or altering a watercourse -
 - Matla Power Station and associated infrastructure (e.g. sewage Treatment Plant reclaim lines,
 - Waste water pipelines
 - Reverse Osmosis (RO) Plant (Final Cut)
- located within or in close proximity to wetlands
- Section 21 (g) disposing of waste in a manner which may detrimentally impact on a water resource -
 - dust suppression with waste water,
 - trenching of sludge and
 - forced evaporation

Public Participation

You are requested to register as an Interested and/or Affected Party (I&AP) and are invited to participate in this WULA process by providing comments and raising any issues of concern that you may have, before or on 30 April 2021. Please forward them to via email to Refilwe Mokobodi MokoboMR@eskom.co.za or Tel: 017 612 6262. Electronic copies of the application will be made available on request.

Locality map of Matla Power Station

NOTICE OF A BASIC ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS TO EXPAND THE BUSHVELD VANCHEM (PTY) LTD CHEMICAL PLANT TO INCLUDE ADDITIONAL STORAGE AND HANDLING FACILITIES

In terms of the National Environmental Management Act (NEMA), 1998 (Act 107 of 1998) as amended and the Environmental Impact Assessment (EIA) Regulations of 2014 as amended, an application for environmental authorisation will be submitted to the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs (MDARDLEA). Notification is hereby given to all Interested and Affected Parties in terms of Sections 39 to 44 of GNR326, that a **Basic Assessment Report** (GNR 327, Activity 50 relating to expansion of dangerous goods storage and handling facilities) will be submitted to the competent authority (MDARDLEA) to apply for environmental authorization for **the proposed expansion of the Chemical Plant at Bushveld Vanchem to install another two (2) reactors / tanks of 60m³ each as well as a filter press on Erf 94 in Ferrobank, eMalahleni Local Municipality, Nkangala District Municipality, Mpumalanga Province.**

Locality: Erf 94, Van Eck Road, Ferrobank, eMalahleni Local Municipality, Nkangala District Municipality, Mpumalanga Province

Nature: The existing Chemical Plant of Bushveld Vanchem's operations in Ferrobank, eMalahleni will be expanded to add facilities for the storage and handling of a dangerous good. Another two (2) reactors / tanks of 60m³ each (total capacity of 120m³) as well as a filter press will be installed at the chemical plant with associated linkages and modifications. The purpose of this is to utilise the pregnant solution produced by Kiln 3 in the Chemical Plant while the Oxide Section is not operational. The pregnant solution will be processed to produce ammonium vanadate (AMV). No amendment to the Water Use License (WUL), Waste Management License (WML) or Atmospheric Emissions License (AEL) is required. The expansion will be within the current larger plant and operational footprint.

To register as an Interested and Affected Party or to obtain further information regarding the project, contact HydroScience on or before 19 May 2021 via fax or email at:

HydroScience
Person: Paulette Jacobs
Tel: 082 850 5482
Fax: 086 692 8820
E-mail: paulette@hydroscience.co.za

Please submit any issues of concern or interest in the matter, in writing, on or before 19 May 2021 by fax or email to the contact person listed above. The draft report will be available for public review from 19 April – 19 May 2021 (30 days) at the eMalahleni Public Library in Hofmeyer Street (013 690 6229/31) or upon request an electronic link will be provided to access the document (due to the pandemic).
