PUBLIC PARTICIPATION PROCESS: WORKING FOR WETLANDS PROGRAMME

Programme Title: The Working for Wetland's Programme

Proposal: The South African National Biodiversity Institute's (SANBI) Working for Wetlands Programme intends to rehabilitate a number of degraded wetlands within the nine Provinces of South Africa. Wetland rehabilitation involves the construction of a variety of interventions that could include gabion, and concrete structures; as well as soft options such as re-vegetation and/ or alien removal. The number, type, scale and location of each of these interventions within the wetlands would vary according to the nature and magnitude of the problem and the state of the receiving environment.

Legal Framework: Authorisations are required under both laws described below:

A. National Environment Management Act, No. 107 of 1998 (NEMA): Rehabilitation proposals trigger the requirement for Basic Assessment (BA) in terms of the 2010 Environmental Impact Assessment (EIA) Regulations pursuant to NEMA. Aurecon South Africa (Pty) Ltd (Aurecon) has been appointed to undertake the BA processes; and separate applications for each of the nine Provinces have been submitted to the Department of Environmental Affairs (DEA) as the competent authority. The Listed Activities that are relevant to each application in terms of the 2010 EIA Regulations are Government Notice Regulations (GN.R) 544: 11 & 18 (Listing Notice 1) and GN.R 546: 12, 13 & 16 (Listing Notice 3).

NEMA Exemptions: Furthermore, the intention is to apply for exemption from the following provisions of NEMA:

- GN No. R. 543 10(2)d 'Publish a notice of the Department's decision'. Aurecon applied for exemption from the placement of adverts to notify the public of the DEA's decision and to rather informing only registered Interested & Affected Party's (I&APs) directly.
- GN No. R. 543 16(1) 'Appointment of an Environmental Assessment Practitioner (EAP) to manage applications'. Aurecon applied for exemption from independence as their engineers are undertaking the design work for the interventions.

B. National Water Act, No. 36 of 1998(NWA): In terms of Section 39 of the NWA, a General authorisation (GA) has been granted for certain activities that are listed under the Act that usually require a Water Use Licence; as long as these activities are undertaken for wetland rehabilitation and the primary purpose of the rehabilitation is for conservation purposes.

Opportunity to Participate: Notice is hereby given of a public participation process in terms of the NEMA EIA Regulations (2010) and the NWA (1998). Draft BA Reports for the nine affected Provinces are available to I&APs for public comment from **4 March 2014** until **14 April 2014**. Digital copies of the report will be available for download from Aurecon's website (www.aurecongroup.com - click on "South Africa", "Public Participation", "Environmental Projects" and finally the "SANBI Working for Wetlands" project).

EXPANDED PUBLIC WORKS PROGRAMME

PUBLIEKE DEELNAME PROSES: WERK-VIR-VLEILANDE-PROGRAM

Program Titel: Die Werk vir Vleilande Program

Voorstel: Die Suid-Afrikaanse Nasionale Biodiversiteit-instituut (SANBI) se Werk-vir-Vleilande-Program beoog om 'n aantal afgetakelde vleilande in al nege provinsies van Suid-Afrika te rehabiliteer. Die rehabilitasie van vleilande behels die konstruksie van 'n verskeidenheid intervensies, wat skanskorf-strukture ("Gabions") en betonstrukture; asook sagte opsies wat herplanting en/of die verwydering van indringers kan insluit. Die aantal, tipe, bestek en ligging van elkeen van hierdie intervensies in die vleilande sal verskil na gelang van die natuur en omvang van die probleem en die toestand van die betrokke omgewing.

Wetlike Vereistes: Goedkeurings word vereis deur beide van die onderstaande wette soos hieronder beskryf:

A. Die Wet op Nasionale Omgewingsbestuur, No. 107 van 1998 (WNOB): Die voorstel om te rehabiliteer vereis 'n Basiese Omgewingsinvloedbepaling (BOIB) in terme van die 2010 Omgewingsinvloedbepalings (OIB) Regulasies ingevolge die WNOB. Aurecon Suid-Afrika (Pty) Ltd (Aurecon) is aangestel om die BOIB-proses te onderneem, en aparte aansoeke vir elk van die nege provinsies is ingedien by die bevoegde owerheid, die Departement van Omgewingsake (DOS). Die gelyste aktiwiteite wat relevant is vir elke aansoek in terme van die 2010 OIB Regulasies is Goewermentskennisgewing Regulasies (GK.R) 544: 11 & 18 (Kennisgewinglys 1) en GK.R 546: 12, 13 & 16 (Kennisgewinglys 3).

WNOB Vrystellings: Die voorneme is om aansoek te doen vir vrystelling van die volgende bepalings van die WNOB:

- GK No. R. 543 10(2)d 'Plaas 'n kennisgewing van die Departement se besluit'. Aurecon het aansoek gedoen vir vrystelling van die plasing van advertensies om die publiek in kennis te stel van die DOS se besluit en om eerder slegs geregistreerde B&GPe direk in kennis te stel.
- GK No. R. 543 16(1) 'Aanstelling van 'n Omgewingsimpakbepalingpraktisyn ("EAP") om die aansoeke te bestuur'. Aurecon het aansoek gedoen vir vrystelling van onafhanklikheid aangesien hulle ingenieurs die ontwerp werk onderneem vir die nodige intervensies.

B. Nasionale Waterwet, No. 36 van 1998 (NWW): In terme van Artikel 39 van die NWW is 'n Algemene Magtiging (AM) toegestaan vir sekere aktiwiteite wat normaalweg 'n Watergebruik lisensie vereis kragtens die NWW; so lank as wat die aktiwiteite onderneem word vir Vleiland rehabilitasie en solank die primêre doel van die rehabilitasie vir bewaring is.

Geleentheid om Deel te Neem: Kennisgewing geskied hiermee van die publieke deelname proses in terme van die WNOB OIB Regulasies (2010) en die NWW (1998). Konsep BOIB Verslae vir die nege geaffekteerde provinsies is beskikbaar aan B&GPe vir openbare kommentaar vanaf **4 Maart 2014** tot en met **14 April 2014**. Digitale kopieë van die verslag sal ook beskikbaar wees om af te laai vanaf Aurecon se webtuiste (www.aurecongroup.com – klik op "South Africa", "Public Partipation", "Environmental Projects" en laastens op "SANBI Working for Wetlands" projek).

Provinsie	DOS Verwysingsnommers	Provinsie	DOS Verwysingsnommers

PUBLIC PARTICIPATION PROCESS: WORKING FOR WETLANDS PROGRAMME Programme Title: The Working for Wetland's Programme Proposals: The South African National Biodiversity Institute's (SANBI) Working for Wetlands Programme intends to rehabilitate a number of degraded wetlands within the nine Provinces of South Africa.

The following information can be made available in any of the official languages upon request:

PUBLIC PARTICIPATION PROCESS: WORKING FOR WETLANDS PROGRAMME GAUTENG PROVINCE - DEA REF: 14/12/16/3/3/1/1132

Programme Title: The Working for Wetland's Programme

Proposal: The South African National Biodiversity Institute's (SANBI) Working for Wetlands Programme intends to rehabilitate a number of degraded wetlands within the nine Provinces of South Africa. Wetland rehabilitation involves the construction of a variety of interventions that could include gabion, and concrete structures; as well as soft options such as re-vegetation and/ or alien removal. The number, type, scale and location of each of these interventions within the wetlands would vary according to the nature and magnitude of the problem and the state of the receiving environment. Each Province has been considered separately and includes a number of Wetland Projects within which specific wetlands have been identified for rehabilitation. The following wetland rehabilitation projects are proposed in the Gauteng Province for the 2014/2015 planning cycle:

PROJECT	WETLAND NAME	WETLAND NUMBER	LATITUDE (DDMMSS)	LONGITUDE (DDMMSS)
GAUTENG NORTH	Sokhulumi Wetland	Currently recorded as B20H-04 but this is expected to change as another wetland exists with the same code	25°35'54.45"S	28°52'35.44"E

Legal Framework: Authorisations are required under both laws described below:

A. National Environment Management Act, No. 107 of 1998 (NEMA): Rehabilitation proposals trigger the requirement for Basic Assessment (BA) in terms of the 2010 Environmental Impact Assessment (EIA) Regulations pursuant to NEMA. Aurecon South Africa (Pty) Ltd has been appointed to undertake BA process, and an application has been submitted to the Department of Environmental Affairs (DEA) as the competent authority. The Listed Activities that are relevant to this application in terms of the 2010 EIA Regulations are Government Notice Regulations (GN.R) 544: 11 & 18 (Listing Notice 1) and GN.R 546: 12, 13 & 16 (Listing Notice 3).

NEMA Exemptions: Furthermore, the intention is to apply for exemption from the following provisions of NEMA:

- GN No. R. 543 10(2)d 'Publish a notice of the Department's decision'. Aurecon applied for exemption from the placement of adverts to notify the public of the DEA's decision and to rather informing only registered I&APs directly.
- GN No. R. 543 16(1) 'Appointment of an EAP to manage applications'. Aurecon applied for exemption from independence as their engineers are undertaking the design work for the interventions.

B. National Water Act, No. 36 of 1998(NWA): In terms of Section 39 of the NWA, a General authorisation (GA) has been granted for certain activities that are listed under the Act that usually require a Water Use Licence; as long as these activities are undertaken for wetland rehabilitation and the primary purpose of the rehabilitation is for conservation purposes.

Opportunity to Participate: Notice is hereby given of a public participation process in terms of the NEMA EIA Regulations (2010) and the NWA (1998). A Draft BA Report for the Gauteng Province is available to Interested and Affected Parties (I&APs) for public comment from **4 March 2014** until **14 April 2014**. Digital copies of the report will also be available for download from Aurecon's website (www.aurecongroup.com) click on "South Africa", "Public Participation", "Environmental Projects", the "SANBI Working for Wetlands" project and finally the "Gauteng Province".

I&APs should refer to the DEA reference number for the Province, and provide their comments together with their name, contact details and an indication of any direct business, financial, personal or other interest which they have in the applications to the contact person indicated below.

This letter is available in any of the official languages on written request.

This letter serves to inform you of the South African National Biodiversity Institute's (SANBI's) proposal to rehabilitate a number of wetlands in South Africa. We would also like to notify you of your opportunity to comment on the proposed wetlands in which rehabilitation is proposed in terms of Regulations pursuant to the National Environmental Management Act, No. 107 of 1998 (as amended) (NEMA).

1. BACKGROUND INFORMATION

Working for Wetlands (WfWetlands) is a government programme managed by SANBI, and is a joint initiative of the Departments of Environmental Affairs (DEA), Water Affairs (DWA) and Agriculture, Forestry and Fisheries. The programme is mandated to rehabilitate damaged wetlands and to protect pristine wetlands throughout South Africa. Emphasis is placed on complying with the principles of the Expanded Public Works Programme which seeks to draw significant numbers of unemployed people into the productive sector of the economy, gaining skills while they work and increasing their ability to earn an income.

Aurecon South Africa (Pty) Ltd (Aurecon) has been appointed to undertake the project activities and associated reporting required by the WfWetlands Programme. The Aurecon team comprises Design Engineers and Environmental Assessment Practitioners (EAPs) who undertake the planning, design and authorisation components of the project. The Aurecon Team is assisted by an external team of Wetland Ecologists who provide scientific insight into the operation of wetlands and bring expert and often local knowledge of the wetlands. The project team is also complimented by the SANBI Provincial Coordinators (PCs) who are each responsible for provincial planning and implementation.

2. THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, NO. 107 OF 1998 (NEMA)

2.1 Basic Assessment

In terms of the environmental management principles of NEMA certain activities that may have a detrimental impact on the environment (termed Listed Activities) require Environmental Authorisation (EA) from DEA. Many activities associated with the rehabilitation of wetlands are Listed Activities in terms of GN.R544 Listing Notice 1 and GN.R546 Listing Notice 3 of NEMA:

- 11 and 18 of Listing Notice 1 in GN.R. 544, 2010; and
- 13 and 16 of Listing Notice 3 in GN.R. 546, 2010.

The requisite procedures for applying for an EA require that the Basic Assessment Process be undertaken where the biophysical and socio-economic impacts are identified and assessed. The process of Basic Assessment has been undertaken on behalf of SANBI by Aurecon (independent Environmental Assessment Practitioners), and separate Basic Assessment applications for each province have been submitted to DEA.

The Basic Assessment Reports (BARs) provide the findings of the associated investigations, and draft versions of these have been prepared and are available for public comment. The Draft BARs also include a description of all of the Wetland Projects that are proposed in each province, together with baseline information regarding the quaternary catchments and the wetland units that have been prioritised for the next planning cycle (2014/15). An EA is sought for each province, and if EA's are granted then they will permit the commencement of Listed Activities in the proposed Wetland Project areas.

A condition of the EA's will be that annual Rehabilitation Plans be submitted to DEA for approval after sufficient annual field work has been undertaken for each of the authorised Wetland Projects. These Rehabilitation Plans will include specialist reports prepared by the Wetland Ecologists (which provide a site description, detailed baseline information, and the wetland context within the greater catchment). The Rehabilitation Plans will also include the proposed interventions, their design details and specifications, and proposed locations. Opportunity will be provided at a later stage for registered I&APs (including landowners and State Departments) to comment on the annual Rehabilitation Plans.

2.2 Exemptions

SANBI has applied for two exemptions from the mandatory requirements of Basic Assessment. Firstly an exemption from NEMA GN R.543 16(1) 'Appointment of an EAP to manage applications' has been sought in order to address the involvement of both the Aurecon Design Engineers and the Aurecon EAPs in different phases of the same project as it may be deemed to be "circumstances that may compromise the objectivity of the EAP" (Definition of Independence: GN R.543). Since Exemption from "Independence" is not permitted, SANBI has requested an Exemption from appointing an EAP.

Secondly exemption has been sought from NEMA GN R.543 10 (2)(d) 'Publish a notice of the Department's decision'. Given the rural nature of the locations, it is anticipated that the general interest in the project will be limited to immediate and adjacent landowners / businesses, stakeholders, environmental watchdogs and authorities, all of whom will be notified directly of the Department's decision.

Please note that an integrated Public Participation Process (PPP) to simultaneously notify Interested and Affected Parties (I&APs) of the Basic Assessment and the exemption applications will be undertaken.

3. THE NATIONAL WATER ACT, NO. 36 OF 1998 (NWA)

Activities associated with rehabilitation of wetlands may constitute "water uses" in terms of the NWA, and may therefore require authorisations or licenses from DWA. In general, a water use must be licensed unless: a) it is listed in Schedule I of the NWA, b) is an existing lawful use, c) is permissible under a General Authorisation (GA), or if a responsible authority waives the need for a licence. GN. R. 1198 of 18 December 2009 introduced a GA for activities undertaken for the rehabilitation of wetlands for conservation purposes. Applications for a GA will be submitted to DWA simultaneously with the other authorisations required for this work.

4. OPORTUNITY TO PARTICIPATE

Public participation procedures are specified as a minimum requirement of Basic Assessment and must ensure that all I&APs (including State Departments) have an opportunity to participate in the process. The requisite Public Participation Process (PPP) in terms of NEMA has commenced, and to date has included the publication of national advertisements in the *Sunday Times* and *Die Rapport* on 2 March 2014 and the placement of site notices. The Draft BARs for each of the nine provinces will be made available for a **40 day** comment period from **Tuesday 4 March 2014 to Monday 14 April 2014** (please note that the Draft Rehabilitation Plans will be made available for comment at a later stage if EAs are obtained for the Wetland Projects in question). The Draft BARs are also available for download from the Aurecon website: <http://www.aurecongroup.com> (please indicate "Current Location" as "South Africa" and click on the "Public Participation" link, then "Environmental Projects" and then "SANBI Working for Wetlands" project).

In terms of regulations pursuant to NEMA, DEA will also contact any State Department that administers a law relating to a matter affecting the environment relevant to an application for EA. The State Department must submit comments within 40 days from the date on which DEA requests such comment. We anticipate this request to be made by 4 March 2014.

I&APs have until **14 April 2014** to submit their comments on the Draft BARs to the contact person below. I&APs should refer to the relevant DEA reference numbers for the relevant province as provided above. They must include their name, contact details and an indication of any direct business, financial, personal or other interest which they have in the applications in their submission.

Franci Gresse Tel: (021) 526 6022; Email: Franci.Gresse@aurecongroup.com; or
Claire Blanché Tel: (021) 526 6937; Email: Claire.Blanche@aurecongroup.com;
or Fax: (021) 526 9500 or Mail: PO Box 494, Cape Town, 8000.

5. WAY FORWARD

Following the 40 day public comment period, the Draft BAR will be updated by incorporating any I&AP comments received on the reports. The updated Final BARs will then be submitted to DEA for their decision. Registered I&APs will simultaneously be afforded a further **21 days** to provide comment on the Final BAR. Any further comments received after the 21 day comment period will be collated by Aurecon and submitted to DEA directly.

Once DEA have made their decision on the proposed project, all registered I&APs on the project database will be notified of the outcome of the decision within twelve (12) calendar days of the date of the decision. Should anyone (a member of public, registered I&AP or the Applicant) wish to appeal DEA's decision, a Notice of Intention to Appeal must be lodged with the Minister within twenty (20) calendar days of the date of the decision. If appeals are not received, then the Annual Rehabilitation Plans will be prepared for each authorised Wetland Project, circulated for comment to registered I&APs,

and submitted to DEA for approval. Interventions detailed in the 2014 Rehabilitation Plans will be carried out from April 2014 until March 2015.

Yours sincerely
AURECON

28 February 2014

Dear Sir / Madam,

WORKING FOR WETLANDS REHABILITATION PROJECT
PUBLIC PARTICIPATION PROCESS: 40 DAY COMMENT PERIOD ON DRAFT BASIC ASSESSMENT REPORT

DEA REFERENCE NUMBERS:
GAUTENG Province Wetlands rehabilitation projects: 14/12/16/3/3/1/1132

This letter is available in any of the official languages on written request.

The South African National Biodiversity Institute (SANBI) proposes to rehabilitate a number of wetlands in South Africa. This letter serves to notify you, as the landowner/manager/occupant of a property on which such wetland rehabilitation work is proposed, that SANBI have applied to the Department of Environmental Affairs (DEA) to undertake certain activities associated with the rehabilitation in terms of Regulations pursuant to the National Environmental Management Act, No. 107 of 1998 (as amended) (NEMA). We would also like to inform you of your opportunity to comment on the Draft Basic Assessment Report.

1. BACKGROUND INFORMATION

Working for Wetlands (WfWetlands) is a government programme managed by SANBI, and is a joint initiative of the DEA, Water Affairs (DWA) and Agriculture, Forestry and Fisheries. The programme is mandated to rehabilitate damaged wetlands and to protect pristine wetlands throughout South Africa. Emphasis is placed on complying with the principles of the Expanded Public Works Programme which seeks to draw significant numbers of unemployed people into the productive sector of the economy, gaining skills while they work and increasing their ability to earn an income.

Aurecon South Africa (Pty) Ltd (Aurecon) has been appointed to undertake the project activities and associated reporting required by the WfWetlands Programme. The Aurecon team comprises Design Engineers and Environmental Assessment Practitioners (EAPs) who undertake the planning, design and authorisation components of the project. The Aurecon Team is assisted by an external team of Wetland Ecologists who provide scientific insight into the operation of wetlands and bring expert and often local knowledge of the wetlands. The project team is also complimented by the SANBI Provincial Coordinators (PCs) who are each responsible for provincial planning and implementation.

2. THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, NO. 107 OF 1998 (NEMA)

2.1 Basic Assessment

In terms of the environmental management principles of NEMA certain activities that may have a detrimental impact on the

environment (termed Listed Activities) require Environmental Authorisation (EA) from DEA. Many of the activities associated with the rehabilitation of wetlands are Listed Activities in terms of GN.R544 Listing Notice 1 and GN.R546 Listing Notice 3 of NEMA:

- 11 and 18 of Listing Notice 1 in GN.R. 544, 2010; and
- 13 and 16 of Listing Notice 3 in GN.R. 546, 2010.

The requisite procedures for applying for an EA require that the Basic Assessment Process be undertaken where the biophysical and socio-economic impacts are identified and assessed. The process of Basic Assessment has been undertaken on behalf of SANBI by Aurecon (independent Environmental Assessment Practitioners), and separate Basic Assessment applications for each province have been submitted to DEA.

The Basic Assessment Reports (BARs) provide the findings of the associated investigations, and draft versions of these have been prepared and are available for public comment. The Draft BARs also include a description of all of the Wetland Projects that are proposed in each province, together with baseline information regarding the quaternary catchments and the wetland units that have been prioritised for the next planning cycle (2014/15). An EA is sought for each province, and if EA's are granted then they will permit the commencement of Listed Activities in the proposed Wetland Project areas.

A condition of the EA's will be that annual Rehabilitation Plans be submitted to DEA for approval after sufficient annual field work has been undertaken for each of the authorised Wetland Projects. These Rehabilitation Plans will include specialist reports prepared by the Wetland Ecologists (which provide a site description, detailed baseline information, and the wetland context within the greater catchment). The Rehabilitation Plans will also include the proposed interventions, their design details and specifications, and proposed locations. Opportunity will be provided at a later stage for registered I&APs (including landowners and State Departments) to comment on the annual Rehabilitation Plans.

2.2 Exemptions

SANBI has applied for two exemptions from the mandatory requirements of Basic Assessment. Firstly an exemption from NEMA GN R.543 16(1) 'Appointment of an EAP to manage applications' has been sought in order to address the involvement of both the Aurecon Design Engineers and the Aurecon EAPs in different phases of the same project as it may be deemed to be "circumstances that may compromise the objectivity of the EAP" (Definition of Independence: GN R.543). Since Exemption from "Independence" is not permitted, SANBI has requested an Exemption from appointing an EAP.

Secondly exemption has been sought from NEMA GN R.543 10 (2)(d) 'Publish a notice of the Department's decision'. Given the rural nature of the locations, it is anticipated that the general interest in the project will be limited to immediate and adjacent landowners / businesses, stakeholders, environmental watchdogs and authorities, all of whom will be notified directly of the Department's decision.

Please note that an integrated Public Participation Process (PPP) to simultaneously notify Interested and Affected Parties (I&APs) of the Basic Assessment and the exemption applications will be undertaken.

3. THE NATIONAL WATER ACT, NO. 36 OF 1998 (NWA)

Activities associated with rehabilitation of wetlands may constitute "water uses" in terms of the NWA, and may therefore require authorisations or licenses from DWA. In general, a water use must be licensed unless: a) it is listed in Schedule I of the NWA, b) is an existing lawful use, c) is permissible under a General Authorisation (GA), or if a responsible authority waives the need for a licence. GN. R. 1198 of 18 December 2009 introduced a GA for activities undertaken for the rehabilitation of wetlands for conservation purposes. Applications for a GA will be submitted to DWA simultaneously with the other authorisations required for this work.

4. OPORTUNITY TO PARTICIPATE

Public participation procedures are specified as a minimum requirement of Basic Assessment and must ensure that all I&APs (including State Departments) have an opportunity to participate in the process. The requisite Public Participation Process (PPP) in terms of NEMA has commenced, and to date has included the publication of national advertisements in the *Sunday Times* and *Die Rapport* on 2 March 2014 and the placement of site notices. The Draft BARs for each of the nine provinces will be made available for a **40 day** comment period from **Tuesday 4 March 2014 to Monday 14 April 2014** (please note that the Draft Rehabilitation Plans will be made available for comment at a later stage if EAs are obtained for the Wetland Projects in question). We include herewith a CD containing the Draft BARS and associated Annexure documents for your convenience. The Draft BARs are also available for download from the Aurecon website: <http://www.aurecongroup.com> (please indicate "**Current Location**" as "**South Africa**" and click on the "**Public Participation**" link, then "**Environmental Projects**" and then "**SANBI Working for Wetlands**" project).

I&APs have until **14 April 2014** to submit their comments on the Draft BARs to the contact person below. I&APs should refer to the relevant DEA reference numbers for the relevant province as provided above. They must include their name, contact details and an indication of any direct business, financial, personal or other interest which they have in the applications in their submission.

Franci Gresse Tel: (021) 526 6022; Email: Franci.Gresse@aurecongroup.com; or
Claire Blanché Tel: (021) 526 6937; Email: Claire.Blanche@aurecongroup.com;
or Fax: (021) 526 9500 or Mail: PO Box 494, Cape Town, 8000.

5. WAY FORWARD

Following the 40 day public comment period, the Draft BAR will be updated by incorporating any I&AP comments received on the reports. The updated Final BARs will then be submitted to DEA for their decision. Registered I&APs will simultaneously be afforded a further **21 days** to provide comment on the Final BAR. Any further comments received after the 21 day comment period will be collated by Aurecon and submitted to DEA directly.

Once DEA have made their decision on the proposed project, all registered I&APs on the project database will be notified of the outcome of the decision within twelve (12) calendar days of the date of the decision. Should anyone (a member of public, registered I&AP or the Applicant) wish to appeal DEA's decision, a Notice of Intention to Appeal must be lodged with the Minister within twenty (20) calendar days of the date of the decision. If appeals are not received, then the Annual Rehabilitation Plans will be prepared for each authorised Wetland Project, circulated for comment to registered I&APs, and submitted to DEA for approval. Interventions detailed in the 2014 Rehabilitation Plans will be carried out from April 2014 until March 2015.

Yours sincerely
AURECON

Subject: RE: WfWetlands Draft Basic Assessment Reports open for Public Comment 04 March 2014

Good Afternoon Zoe,

Please assist, City Parks is planning to undertake open space enhancements along Diepkloof Spruit in Soweto in terms of park developments for recreational purposes. I have attached the aerial photograph below indicating the location of the study area.

Will it be possible to explore common areas where City Parks and SANBI can collaborate with regards to the environmental authorisation and other relevant technical studies.

Kind Regards,
Cebo

Subject: WfWetlands Draft Basic Assessment Reports open for Public Comment 04 March 2014

Dear Sir / Madam,

WORKING FOR WETLANDS REHABILITATION PROJECT

PUBLIC PARTICIPATION PROCESS: 40 DAY COMMENT PERIOD ON DRAFT BASIC ASSESSMENT REPORT

DEA REFERENCE NUMBERS:

GAUTENG: 14/12/16/3/3/1/1132

This email serves to inform you of the South African National Biodiversity Institute's (SANBI's) proposal to rehabilitate a number of wetlands in South Africa. We would also like to notify you of your opportunity to comment on the proposed wetlands in which rehabilitation is proposed in terms of Regulations pursuant to the National Environmental Management Act, No. 107 of 1998 (as amended) (NEMA).

Please find a letter attached which provides a brief background to the Working for Wetlands Programme, as well as more information on the Environmental Process and opportunities to participate.

The Draft Basic Assessment Reports (Draft BARs) for each of the nine provinces will be made available for a 40 day comment period from **Tuesday 4 March 2014** to **Monday 14 April 2014** (please note that the Draft Rehabilitation Plans will be made available for comment at a later stage if Environmental Authorisations are obtained for the Wetland Projects in question). The Draft BARs will be available to download from the Aurecon website: <http://www.aurecongroup.com> (please indicate "Current Location" as "South Africa" and click on the "Public Participation" link, then "Environmental Projects" and then "SANBI Working for Wetlands" project). Please note that due to technical difficulties, the reports will only be available **after 12pm** on Tuesday 4 March 2014. Electronic copies of the Draft BAR have also been sent via mail to Landowners and Organs of State.

Should you wish to register as an I&AP, please submit your comments on the Draft BARs to the contact people below. I&APs should refer to the relevant DEA reference numbers for the relevant province as provided above. They must include their **name, contact details** and an indication of any **direct business, financial, personal or other interest** which they have in the applications in their submission.

DRAFT BASIC ASSESSMENT FOR WORKING FOR WETLANDS REHABILITATION PROJECT (WETLAND NUMBER A21C-01 CLUNY FARM)

DEA REF.NO:14/12/16/3/3/1/1132

Your report dated 28 February 2014 refers. This Department only received the report on 24 March 2014.

In terms of CoJ Biodiversity Sector Plan, the wetland in question is mapped as Critical Biodiversity Area 1 and 2, and Ecological Support Area 1 and 2. The extent of the site proposed for rehabilitation is 7 626 000m² (762.6 ha) and it is situated within Cluny Farm at Blue Hills. In the absence of rehabilitation of this wetland, the important role in terms of flood attenuation, nutrient retention and water quality amelioration, as well as ecological service provision will not be realised. In many instances the current degradation issues result in severe erosion, which may impact on the agricultural or land-use potential of adjacent sites, as well as result in sedimentation and eutrophication impacts for downstream users.

The Wetland Projects have been selected through a Catchment and Wetland Prioritisation Process because of their potential contribution to wetland conservation and water resource protection. Approval of this application would not compromise the integrity of the CoJ IDP's and SDF's, but would actually contribute towards additional ecological goods and services. The Working for Wetlands Programme is in line with the objectives of the City of Johannesburg in that it aims to restore the hydrological integrity of wetland systems, recreate wetland habitat, prevent/halt sediment loss, enhance biodiversity and the conservation thereof and create job opportunities while also contributing to social upliftment.

EMP:

- The EMP must be kept on site and must be used as a reference document.
- The EMP should form part of the contract with contractors appointed to construct and maintain the proposed development, and must be used to ensure compliance with environmental specifications and management measures.
- The implementation of this EMP for all life cycle phases of the proposed project is considered to be key in achieving the appropriate environmental management standards as detailed for this project.

Conclusion and recommendations

In light of the above, the Environmental Infrastructure and Services Department has no objections to the proposed rehabilitation plan for the Working for Wetlands Rehabilitation Programme.

Should you have any queries please do not hesitate to contact Etienne Allers on the numbers indicated above.

Yours faithfully

MASHUDU RATSHITANGA

Subject: WfWetlands Draft Basic Assessment Reports open for Public Comment 04 March 2014

Sent: Mon 3/3/2014 5:20 PM

Message I&AP Letter 28022014.pdf (243 KB)

Dear Sir / Madam,

**WORKING FOR WETLANDS REHABILITATION PROJECT
PUBLIC PARTICIPATION PROCESS: 40 DAY COMMENT PERIOD ON DRAFT BASIC ASSESSMENT REPORT**

**DEA REFERENCE NUMBERS:
GAUTENG: 14/12/16/3/1/1132**

This email serves to inform you of the South African National Biodiversity Institute's (SANBI's) proposal to rehabilitate a number of wetlands in South Africa. We would also like to notify you of your opportunity to comment on the proposed wetlands in which rehabilitation is proposed in terms of Regulations pursuant to the National Environmental Management Act, No. 107 of 1998 (as amended) (NEMA).

Please find a letter attached which provides a brief background to the Working for Wetlands Programme, as well as more information on the Environmental Process and opportunities to participate.

The Draft Basic Assessment Reports (Draft BARs) for each of the nine provinces will be made available for a 40 day comment period from **Tuesday 4 March 2014 to Monday 14 April 2014** (please note that the Draft Rehabilitation Plans will be made available for comment at a later stage if Environmental Authorisations are obtained for the Wetland Projects in question). The Draft BARs will be available to download from the Aurecon website: <http://www.aurecongroup.com> (please indicate "Current Location" as "South Africa" and click on the "Public Participation" link, then "Environmental Projects" and then "SANBI Working for Wetlands" project). Please note that due to technical difficulties, the reports will only be available **after 12pm** on Tuesday 4 March 2014. Electronic copies of the Draft BAR have also been sent via mail to Landowners and Organs of State.

Should you wish to register as an I&AP, please submit your comments on the Draft BARs to the contact people below. I&APs should refer to the relevant DEA reference numbers for the relevant province as provided above. They must include their **name, contact details** and an indication of any **direct business, financial, personal or other interest** which they have in the applications in their submission.

Franci Gresse Tel: (021) 526 6022; Email: Franci.Gresse@aurecongroup.com; or
Zoë Palmer Tel: (021) 526 6069; Email: Zoe.Palmer@aurecongroup.com;
Or Fax: (021) 526 9500 or Mail: PO Box 494, Cape Town, 8000

Yours Sincerely,

Zoë Palmer
