

NOTIFICATION OF BASIC ASSESSMENT PROCESS
AND PUBLIC PARTICIPATION PROCESS

17 August 2018

Dear Stakeholder

**BASIC ASSESSMENT AND
 PUBLIC PARTICIPATION PROCESS**

NAMAS WIND FARM, NORTHERN CAPE

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

A wind farm is proposed to be developed within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. The wind farm is known as the **Namas Wind Farm** and is located within the Nama Khoi Local Municipality and the Namakwa District Municipality. A suitable project site for the development of the wind farm has been identified by the project development company. The details of the project are as follows:

Project Name	Namas Wind Farm
Applicant	Genesis Namas Wind (Pty) Ltd
Area of project site	~5092ha
Affected properties	<ul style="list-style-type: none"> » Portion 3 of the Farm Zonnekwa 328 » Portion 4 of the Farm Zonnekwa 328 » Remaining Extent of the Farm Rooivlei 327 » Portion 3 of the Farm Rooivlei 327
Contracted Capacity of wind farm	up to 140MW
No of turbines	up to 43
Turbine hub height	up to 130m
Turbine tip height	up to 205m
Grid connection	At the existing Gromis Substation, approx. 26km north of the site
On-site substation size	100m x 100m

Power line	Overhead 132kV power line (assessed as a 300m power line corridor), with a servitude of 32m
Affected properties - 132kV grid connection	<ul style="list-style-type: none"> » Portion 3 of the Farm Zonnekwa 328 » Portion 2 of the Farm Zonnekwa 328 » Portion 1 of the Farm Zonnekwa 326 » Remaining extent of the Farm Zonnekwa 326 » Remaining extent of the Farm Honde Vlei 325 » Remaining extent of the Farm Kannabieduin 324 » Remaining extent of the Farm Sand Kop 322 » Remaining extent of the Farm Mannels Vley 321 » Remaining extent of the Farm Dikgat 195 » Portion 15 of the Farm Dikgat 195 » Remaining Extent of Farm Rooivlei 327
Access roads (internal and main)	~8m in width

Other associated infrastructure will be required for the wind farm, including:

- » Concrete turbine foundations and hardstand areas;
- » Temporary laydown areas which will accommodate storage and assembly areas;
- » Cabling between the turbines, to be laid underground where practical;
- » A temporary concrete batching plant; and
- » Operation and Maintenance buildings including a gate house, security building, control centre, offices, warehouses, a workshop and visitors centre.

It is the developer's intention to bid the Namas Wind Farm project under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with achieving the electricity generation goals as set out in the Integrated Resources Plan.

Another wind farm is proposed to be developed directly north of the Namas Wind Farm, known as the Zonnequa Wind Farm. This wind farm will be assessed as part of a separate Environmental Impact Assessment (EIA) process.

BASIC ASSESSMENT PROCESS

As per the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, Act No 107 of 1998), the applicant will require authorisation from the National Department of Environmental Affairs (DEA) (in consultation with Northern Cape Department of Environment and Nature Conservation (DENC)) for the undertaking of the project. Due to the location of the project site within the REDZ, a Basic Assessment (BA) process is required to be undertaken for the Namas Wind Farm in accordance with GN114, as formally gazetted on 16 February 2018. The application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014, as amended.

Genesis Namas Wind (Pty) Ltd has appointed Savannah Environmental, as the independent environmental consultant, to undertake a Basic Assessment for the project to identify and assess all

potential environmental impacts associated with the wind farm, and recommend appropriate mitigation measures in an Environmental Management Programme (EMPr). As part of the environmental studies, I&APs will be actively involved through the public involvement process being undertaken by Savannah Environmental.

The department and/or the organisation which you represent has been identified as a commenting authority for the proposed wind farm. In this regard, please can you provide us with the name and contact details of the relevant contact person at your department who we would liaise with regarding this project. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the BA process.

A background information document, which provides further information on the BA process as well as the nature and extent of the proposed wind farm, is attached to this letter and is also available for download on the Savannah Environmental Website (www.savannahsa.com).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Rozanne Els
Public Participation Co-ordinator

Mr J du Plessis
Manager: Land-Use Management
Dawid Kruiper Local Municipality
UPINGTON

Dear Mr Du Plessis,

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upingont, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

Please refer to the attached Notification Letter and background Information Document for further information.

Additional to the projects' information, we request your Department's written confirmation of any of the adjacent properties which are owned by Dawid Kruiper Local Municipality.

We are looking forward to hear from you.

Kind regards,

Namas & Zonnequa Wind Farms

Namas & Zonnequa Wind Farms, Northern Cape Province.

Project Name: Namas Wind Farm, Northern Cape Province

Applicant: Genesis Namas Wind (Pty) Ltd

Proposed Activity: The development of a wind farm with a contracted capacity of up to 140MW which will include up to 43 wind turbines and associated infrastructure including a substation, a power line to connect at Gromis Substation, access roads and laydown areas.

Location: The project site is located approximately 20km south-east of Kleinse, within the Nama Khoi Local Municipality and the Namakwa District Municipality in the Northern Cape Province. The site falls within Focus Area 8 of the Renewable Energy Development Zones (REDZ), which is known as the Springbok REDZ.

Four properties comprise the wind farm site: Portion 3 of the Farm Zonnekwa 328, Portion 4 of the Farm Zonnekwa 328, Remaining Extent of the Farm Rooivlei 327 and Portion 3 of the Farm Rooivlei 327

Dear Peter,

Thank you so much for taking my call earlier today!

Peter, as discussed it is envisaged that the Basic Assessment Reports for both the projects will be made available for comments on Friday, 12 October 2018 or shortly thereafter. Please be informed that your Department will be notified of the availability of the Reports.

Should the Reports be released on Friday, 12 October 2018, we tentatively book the following meeting dates and time with you:

- Wednesday, 24 October 2018: morning;
- Thursday, 25 October 2018: morning; or
- Friday, 26 October 2018: morning

Attached as requested is the Background Information Document (BID) for the proposed Namas and Sonnequa Wind Farm Projects situated near Kleinzee, Northern Cape Province.

You are most welcome to distribute the BID to your colleagues who you believe should also be informed.

Kind regards,

Nicolene Venter

Dear Mr Abrahams,

Thank you for taking my call a few minutes ago.

The Basic Assessment Reports (BARs) for the above-mentioned projects will be available for your Department's review and comments shortly.

This e-mail confirm our discussion that hard copies of the BARs can be courier to your Offices and if needed, your Office will forward the Reports to the National Department.

I would like to thank you for this confirmation and it is envisaged that the Reports will be at your offices tomorrow or Wednesday.

Kind regards

(Nicolene Venter)

Dear Peter,

Thank you so much for taking my call earlier today!

Peter, as discussed it is envisaged that the Basic Assessment Reports for both the projects will be made available for comments on Friday, 12 October 2018 or shortly thereafter. Please be informed that your Department will be notified of the availability of the Reports.

Should the Reports be released on Friday, 12 October 2018, we tentatively book the following meeting dates and time with you:

- Wednesday, 24 October 2018: morning;
- Thursday, 25 October 2018: morning; or
- Friday, 26 October 2018: morning

Attached as requested is the Background Information Document (BID) for the proposed Namas and Sonnequa Wind Farm Projects situated near Kleinzee, Northern Cape Province.

You are most welcome to distribute the BID to your colleagues who you believe should also be informed.

Kind regards,

NOTIFICATION OF BASIC ASSESSMENT REPORT
FOR PUBLIC REVIEW AND COMMENT

23 October 2018

Dear Stakeholder

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS NAMAS WIND FARM, NORTHERN CAPE

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

A wind farm is proposed to be developed within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. The wind farm is known as the **Namas Wind Farm** and is located within the Nama Khoi Local Municipality and the Namakwa District Municipality.

It is Genesis Namas Wind (Pty) Ltd's, the developer, intention to bid the Namas Wind Farm project under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with achieving the electricity generation goals as set out in the Integrated Resources Plan.

Another wind farm is proposed to be developed directly north of the Namas Wind Farm, known as the Zonnequa Wind Farm. This wind farm will be assessed as part of a separate Basic Assessment (BA) process.

AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Basic Assessment Report is available for review and comment. The report can be viewed at the Kleinsee Public Library (3rd Avenue, Kleinsee, open on Tuesdays & Thursdays between 11h00 and 17h00) from **Wednesday, 24 October 2018** to **Friday, 23 November 2018**. The report can also be downloaded from the Savannah Environmental's website: www.savannahsa.com. A password will be required to access the download, and the password can be requested from our Public Participation Office (contact details below).

We kindly request that you submit your written comment(s) on the BA Report before or by **Friday, 23 November 2018** via fax, post or email (contact details below). All comments received during this 30-day review period will be recorded and included in the Final Basic Assessment Report for submission to the Department of Environmental Affairs in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

A handwritten signature in black ink, appearing to read 'Nicolene Venter', written in a cursive style.

Namas Wind Farm, Northern Cape Province

Project Name: Namas Wind Farm, Northern Cape Province

Applicant: Genesis Namas Wind (Pty) Ltd

Proposed Activity: The development of a wind farm with a contracted capacity of up to 140MW which will include up to 43 wind turbines and associated infrastructure including a substation, a power line to connect at Gromis Substation, access roads and laydown areas.

Location: The project site is located approximately 20km south-east of Kleinsee, within the Nama Khoi Local Municipality and the Namakwa District Municipality in the Northern Cape Province. The site falls within Focus Area 8 of the Renewable Energy Development Zones (REDZ), which is known as the Springbok REDZ.

Four properties comprise the wind farm site: Portion 3 of the Farm Zonnekwa 328, Portion 4 of the Farm Zonnekwa 328, Remaining Extent of the Farm Rooivlei 327 and Portion 3 of the Farm Rooivlei 327.

The power line corridor traverses ten affected properties: Portion 3 of the Farm Zonnekwa 328, Portion 2 of the Farm Zonnekwa 328, Portion 1 of the Farm Zonnekwa 326, Remaining extent of the Farm Zonnekwa 326, Remaining extent of the Farm Honde Vlei 325, Remaining extent of the Farm Kannabieduin 324, Remaining extent of the Farm Leliefontein 322, Remaining extent of the Farm Mannels Vley 321, Remaining extent of the Farm Dikgat 195 and Portion 15 of the Farm Dikgat 195.

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the project. As the project site is located within a REDZ, a Basic Assessment (BA) process is required to be undertaken in accordance with GN114 (February 2018). Savannah Environmental is undertaking the required environmental assessment and public participation process.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

**ENVIRONMENTAL BASIC ASSESSMENT AND
PUBLIC PARTICIPATION PROCESS**

NAMAS WIND FARM, NORTHERN CAPE PROVINCE

BASIC ASSESSMENT REPORT FOR REVIEW

Dear Registry/EIA Admin,

Savannah Environmental has been appointed to undertake the Basic Assessment Process for the Namas Wind Farm located within the Springbok Renewable energy Development Zone (REDZ), Northern Cape Province.

A pre-application meeting was held with the DEA on 14 May 2018. The following DEA officials attended the pre-application meeting for the wind farm:

NAME	ORGANISATION
Coenrad Agenbach	Department of Environmental Affairs
Adika Rambally	Department of Environmental Affairs
Mahlatse Shubane	Department of Environmental Affairs
Herman Alberts	Department of Environmental Affairs
Karen Jodas	Savannah Environmental
Lisa Opperman	Savannah Environmental
Davin Chown	Genesis Eco-Energy Developments

Please find herewith attached the Basic Assessment (2 hard copies and 1 USB) report for review. The electronic copy of the application for Environmental Authorisation is included on the USB. The 30-day review period for the report is from **24 October 2018 – 23 November 2018**. Please submit your written comments by **23 November 2018**.

Please contact me with any queries in this regard, and advise should the Department require any additional information pertaining to this project.

Kind regards

LISA OPPERMAN
SAVANNAH ENVIRONMENTAL
(lisa.o@savannahsa.com)

UPINGTON 8801

Per Courier

Dear Ms Mans,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE DEVELOPMENT OF THE
PROPOSED NAMAS AND ZONNEQUA WIND FARM PROJECTS NEAR KLEINSEE IN THE NORTHERN CAPE
PROVINCE**

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND WRITTEN COMMENTS

Genesis Namas Wind (Pty) Ltd is proposing two (2) 140MW wind farms and associated infrastructures on sites located approximately 20km south-east of Kleinsee. The wind farms are known as the **Namas Wind Farm** and **Zonnequa Wind Farm** and are located within the Nama Khoi Local Municipality and the Namakwa District Municipality in the Northern Cape Province.

This letter serves to inform you that the Basic Assessment Reports (BARs) are available for your Department's review and written comments, and a CD containing the BARs is included in this envelope.

Please note that the BARs' review period is from **Wednesday, 24 October** to **Friday, 23 November 2018** and we are looking forward receiving your Department's written comment on the BARs before or on the closing date of the review period.

Kind regards

Nicolene Venter

KIMBERLEY 8301

Per Courier

Dear Mr Jansen,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE DEVELOPMENT OF THE
PROPOSED NAMAS AND ZONNEQUA WIND FARM PROJECTS NEAR KLEINSEE IN THE NORTHERN CAPE
PROVINCE**

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND WRITTEN COMMENTS

Genesis Namas Wind (Pty) Ltd is proposing two (2) 140MW wind farms and associated infrastructures on sites located approximately 20km south-east of Kleinsee. The wind farms are known as the **Namas Wind Farm** and **Zonnequa Wind Farm** and are located within the Nama Khoi Local Municipality and the Namakwa District Municipality in the Northern Cape Province.

This letter serves to inform you that the Basic Assessment Reports (BARs) are available for your Organisation's review and written comments, and a CD containing the BARs is included in this envelope.

Please note that the BARs' review period is from **Wednesday, 24 October** to **Friday, 23 November 2018** and we are looking forward receiving your Organisation's written comment on the BARs before or on the closing date of the review period.

Kind regards

Dear Ms Abrahams,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE DEVELOPMENT OF THE
PROPOSED NAMAS AND ZONNEQUA WIND FARM PROJECTS NEAR KLEINSEE IN THE NORTHERN CAPE
PROVINCE**

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND WRITTEN COMMENTS

Genesis Namas Wind (Pty) Ltd is proposing two (2) 140MW wind farms and associated infrastructures on sites located approximately 20km south-east of Kleinsee. The wind farms are known as the **Namas Wind Farm** and **Zonnequa Wind Farm** and are located within the Nama Khoi Local Municipality and the Namakwa District Municipality in the Northern Cape Province.

This letter serves to inform you that the Basic Assessment Reports (BARs) are available for your Company's review and written comments, and a CD containing the BARs is included in this envelope.

Please note that the BARs' review period is from **Wednesday, 24 October** to **Friday, 23 November 2018** and we are looking forward receiving your Company's written comment on the BARs before or on the closing date of the review period.

Kind regards

Nicolene Venter

Dear Stakeholder,

A wind farm is proposed to be developed within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. The wind farm is

known as the **Namas Wind Farm** and is located within the Nama Khoi Local Municipality and the Namakwa District Municipality.

It is Genesis Namas Wind (Pty) Ltd's, the developer, intention to bid the Namas Wind Farm project under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with achieving the electricity generation goals as set out in the Integrated Resources Plan.

This e-mail serves to inform you, as a registered Interested and Affected Party (I&AP), that in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations, as amended in April 2017, that the Basic Assessment Report (BAR) is available for your review and comment.

The hard copy of the BAR can be viewed at the Kleinsee Library (3rd Avenue, Kleinsee, open on Tuesdays & Thursdays between 11h00 and 17h00) from **Wednesday, 24 October 2018 to Friday, 23 November 2018**. An electronic copy can be downloaded from our website (<http://www.savannahsa.com/public-documents/energy-generation/namas-wind-farm/>).

Please refer to the attached letter for further details in this regard.

Kind regards,

Nicolene Venter

Dear Nicolene,

comments by officials on assessments follow the line function within the department with supervisors/managers signing off on comments and recommendations as part of the EIA review process. The comments in our consultation meeting can therefore not be recorded as official comments on the assessments, since these were just discussion topics, questions for clarity and background information. I think you could however document the meeting we had for your records of course.

Note that Peter's laptop is in for repairs, so he may be delayed in responding to your email.

Regards
Conrad

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

EXECUTIVE SUMMARY

In recent decades, the use of wind turbines, concentrated solar plants and photovoltaic plants have been on the increase as it serves as an abundant source of energy. This document specifies setbacks for wind turbines and the reasons for these setbacks from infrastructure as well as setbacks for concentrated solar plants and photovoltaic plants. Setbacks for wind turbines employed in other countries were compared and a general setback to be used by Eskom was suggested for use with wind turbines and other renewable energy generation plants.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

1. INTRODUCTION

During the last few decades, a large amount of wind turbines have been installed in wind farms to accommodate for the large demand of energy and depleting fossil fuels. Wind is one of the most abundant sources of renewable energy. Wind turbines harness the energy of this renewable resource for integration in electricity networks. The extraction of wind energy is its primary function and thus the aerodynamics of the wind turbine is important. There are many different types of wind turbines which will all exhibit different wind flow characteristics. The most common wind turbine used commercially is the Horizontal Axis Wind Turbine. Wind flow characteristics of this turbine are important to analyse as it may have an effect on surrounding infrastructure.

Wind turbines also cause large turbulence downwind that may affect existing infrastructure. Debris or parts of the turbine blade, in the case of a failure, may be tossed behind the turbine and may lead to damage of infrastructure in the wake path.

This document outlines the minimum distances that need to be introduced between a wind turbine and Eskom infrastructure to ensure that debris and / or turbulence would not negatively impact on the infrastructure.

Safety distances of wind turbines from other structures as implemented by other countries were also considered and the reasons for their selection were noted.

Concentrated solar plants and photovoltaic plants setbacks away from substations were also to be considered to prevent restricting possible power line access routes to the substation.

2. SUPPORTING CLAUSES

2.1 SCOPE

This document provides guidance on the safe distance that a wind turbine should be located from any Eskom power line or substation. The document specifies setback distances for transmission lines (220 kV to 765 kV), distribution lines (6.6 kV to 132 kV) and all Eskom substations. Setbacks for concentrated solar plants and photovoltaic plants are also specified away from substations.

2.1.1 Purpose

Setbacks for wind turbines and power lines / substations are required for various reasons. These include possible catastrophic failure of the turbine blade that may release fragments and which may be thrown onto nearby power lines that may result in damage with associated unplanned outages. Turbulence behind the turbine may affect helicopter flight during routine Eskom live line maintenance and

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

inspections that may lead to safety risk of the aircraft / personnel. Concentrated solar plants and photovoltaic plants setback away from substations were required to prevent substations from being boxed in by these renewable generation plants limiting line route access to the substations.

2.1.2 Applicability

This document is applicable to the siting of all new and existing wind turbines, concentrated solar plants and photovoltaic plants near power lines and substations.

2.4 ABBREVIATIONS

Abbreviation	Description
None	

2.5 ROLES AND RESPONSIBILITIES

All personnel involved in the positioning wind turbines, concentrated solar plants and photovoltaic plants near power lines/substations must follow the setbacks outlined in this guideline.

2.6 PROCESS FOR MONITORING

Approval by Eskom in writing.

2.7 RELATED/SUPPORTING DOCUMENTS

None

3. DOCUMENT CONTENT

3.1 INTERNATIONAL SETBACK COMPARISON

Wind Turbine setbacks employed by various countries were considered. It was found that setbacks were determined for various reasons that include noise, flicker, turbine blade failure and wind effects. The distances (setbacks) varied based on these factors and were influenced by the type of infrastructure

Wind turbine setbacks varied for roads, power lines, dwellings, buildings and property and it was noted that the largest setbacks were employed for reasons of noise and flicker related issues [1-7]. Very few countries specified setbacks for power lines.

The literature survey [1-7], yielded information about studies and experiments were conducted to determine the distance that a broken fragment from a wind turbine might be thrown. Even though of low probability of hitting a power line [5.0×10^{-5}]^[8], the distances recorded were significant [750m]^[8]

Setbacks were thus introduced to prevent any damage to Eskom infrastructure.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

Wind turbines may also cause changes in wind patterns with turbulent effects behind the hub. These factors dictate the wind turbine setbacks specified in this document.

Concentrated solar plants and photovoltaic plants also can limit access into the substation for power lines of all voltages. A setback distance must therefore be employed to prevent the substation from being boxed in by these generation plants. These setback distances are specified in this document.

3.2 ESKOM REQUIRED SETBACKS

- Eskom requires a setback distance of 3 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for transmission lines.
- Eskom requires a setback distance of 1 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for distribution Lines.
- Eskom must be informed of any proposed wind turbine, concentrated solar plants and photovoltaic activity within a 5 km radius of a substation. No wind turbine structure shall be built within a 2 km radius of the closest point of the substation. Where concentrated solar plants and photovoltaic structures fall within a 2 km radius of the closest point of a substation, Eskom should be informed in writing during the planning phase of the construction of such plant or structure.
- Applicants must show that Eskom radio telecommunication systems (mainly microwave systems) will not be affected in any way by wind turbines.

Eskom requirements for work at or near Eskom infrastructure.

1. Eskom's rights and services must be acknowledged and respected at all times.
2. Eskom shall at all times retain unobstructed access to and egress from its servitudes.
3. Eskom's consent does not relieve the developer from obtaining the necessary statutory, land owner or municipal approvals.
4. Any cost incurred by Eskom as a result of non-compliance to any relevant environmental legislation will be charged to the developer.
5. If Eskom has to incur any expenditure in order to comply with statutory clearances or other regulations as a result of the developer's activities or because of the presence of his equipment or installation within the servitude restriction area, the developer shall pay such costs to Eskom on demand.
6. The use of explosives of any type within 500 metres of Eskom's services shall only occur with Eskom's previous written permission. If such permission is granted the developer must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process. It is advisable to make application separately in this regard.
7. Changes in ground level may not infringe statutory ground to conductor clearances or statutory visibility clearances. After any changes in ground level, the surface shall be rehabilitated and stabilised so as to prevent erosion. The measures taken shall be to Eskom's satisfaction.
8. Eskom shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the developer, his/her agent, contractors, employees, successors in title, and assignees. The developer indemnifies Eskom against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom's services or apparatus or otherwise. Eskom will not be held responsible for damage to the developer's equipment.
9. No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom's apparatus and/or services, without prior written permission having been granted by Eskom. If such permission is granted the developer must give at least seven working days' notice prior to the commencement of work. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued by the relevant Eskom Manager

Note: Where and electrical outage is required, at least fourteen work days are required to arrange it.

10. Eskom's rights and duties in the servitude shall be accepted as having prior right at all times and shall not be obstructed or interfered with.
11. Under no circumstances shall rubble, earth or other material be dumped within the servitude restriction area. The developer shall maintain the area concerned to Eskom's satisfaction. The developer shall be liable to Eskom for the cost of any remedial action which has to be carried out by Eskom.
12. The clearances between Eskom's live electrical equipment and the proposed construction work shall be observed as stipulated by *Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)*.
13. Equipment shall be regarded electrically live and therefore dangerous at all times.
14. In spite of the restrictions stipulated by Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993), as an additional safety precaution, Eskom will not approve the erection of houses, or structures occupied or frequented by human beings, under the power lines or within the servitude restriction area.
15. Eskom may stipulate any additional requirements to highlight any possible exposure to Customers or Public to coming into contact or be exposed to any dangers of Eskom plant.
16. It is required of the developer to familiarise himself with all safety hazards related to Electrical plant.
17. Any third party servitudes encroaching on Eskom servitudes shall be registered against Eskom's title deed at the developer's own cost. If such a servitude is brought into being, its existence should be endorsed on the Eskom servitude deed concerned, while the third party's servitude deed must also include the rights of the affected Eskom servitude.

Dear Stakeholder,

A wind farm is proposed to be developed within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. The wind farm is known as the **Zonnequa Wind Farm** and is located within the Nama Khoi Local Municipality and the Namakwa District Municipality.

It is Genesis Zonnequa Wind (Pty) Ltd's, the developer, intention to bid the Zonnequa Wind Farm project under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with achieving the electricity generation goals as set out in the Integrated Resources Plan.

This e-mail serves to inform you, as a registered Interested and Affected Party (I&AP), that in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations, as amended in April 2017, that the Basic Assessment Report (BAR) is available for your review and comment.

The hard copy of the BAR can be viewed at the Kleinsee Library (3rd Avenue, Kleinsee, open on Tuesdays & Thursdays between 11h00 and 17h00) from **Wednesday, 24 October 2018** to **Friday, 23 November 2018**. An electronic copy can be downloaded from our website (<http://www.savannahsa.com/public-documents/energy-generation/zonnequa-wind-farm/>).

Please refer to the attached letter for further details in this regard.

Subject: Namas Wind Farm and Zonnequa Wind Farm - DEA Application Forms

Dear Dineo,

I trust you are well.

Savannah Environmental is in the process of undertaking two separate Basic Assessments for the Namas Wind Farm and the Zonnequa Wind Farm near Kleinsee. The projects are also located within the Springbok REDZ.

As per the requirements of the DEA Application Form for Environmental Authorisation, the DEA application form must also be provided to the Provincial Environmental Department. This is as per number 15 of the requirements included on page 2 of the applications as attached.

Therefore, this email serves to formally submit the application forms for the two projects to you as per the requirement.

Kindly also note that a CD containing the Basic Assessment reports for review has been couriered to the DENC for comment.

Kindly acknowledge receipt of this email.

Please let me know should you require any further information.

Kind regards
Lisa

Department of Environment and Nature Conservation
KIMBERLEY

By e-mail: dmoleko@ncpg.gov.za

**BASIC ASSESSMENTS: NAMAS AND ZONNEQUA WIND FARM PROJECTS NEAR KLEINSEE,
NORTHERN CAPE PROVINCE**

FOCUS GROUP MEETING: Tuesday, 13 November 2018

Two 140MW wind farms are proposed to be developed on adjacent sites within the Springbok REDZ, approximately 20 km south of the town of Kleinsee in the Northern Cape. The wind farms are known as the **Namas Wind Farm** and the **Zonnequa Wind Farm** and are within the Nama Khoi Local Municipality and the Namakwa District Municipality. A suitable project site for the development of each of the wind farms has been identified by the project development companies. The affected properties will include the following:

Project Name	Namas Wind Farm	Zonnequa Wind Farm
Applicant	Genesis Namas Wind (Pty) Ltd	Genesis Zonnequa Wind (Pty) Ltd
Affected properties	<ul style="list-style-type: none"> » Portion 3 of the Farm Zonnekwa 328 » Portion 4 of the Farm Zonnekwa 328 » Remaining Extent of the Farm Rooivlei 327 » Portion 3 of the Farm Rooivlei 327 	<ul style="list-style-type: none"> » Portion 1 of the Farm Zonnekwa 328 » Remaining Extent of the Farm Zonnekwa 326

We would like to take this opportunity to invite the Northern Cape Department of Environment and Nature Conservation (DENC) to attend the Focus Group Meeting (FGM) to take place on:

DATE: Tuesday, 13 November 2018

TIME: 09h00 – 10h30

VENUE: Boardroom, Department of Environment and Nature Conservation, Springbok

The purpose of inviting the FGM is to present the following:

- background to the proposed project;
- an overview of the Basic Assessments process followed;
- an opportunity to seek clarity and raise comments; and
- an opportunity to liaise with the project team members.

Officials from the DENC are also welcome to nominate a colleague to attend the meeting should they not be available to attend.

We encourage the DENC Officials to attend the Focus Group Meeting and to participate in the Public Participation Process. We would like to thank you in anticipation for your active and meaningful contribution to the BAs' process.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the proposed project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Dear Stakeholder,

A wind farm is proposed to be developed within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. The wind farm is known as the **Namas Wind Farm** and is located within the Nama Khoi Local Municipality and the Namakwa District Municipality.

It is Genesis Namas Wind (Pty) Ltd's, the developer, intention to bid the Namas Wind Farm

Resources Plan.

Attachments: Namas Wind Farm Project Site.kmz; Zonnequa Wind Farm Project Site.kmz; 2215_001.pdf

Dear Simphiwe,

The ATNS is welcome to submit their comments on the Basic Assessment Reports (BARs) for the Namas and Zonnequa Wind Farms by next week Tuesday, 27 November 2018 by COB.

Please find attached the KMZ files for each of the project sites.

We take note of the fact that ATNS (your department) received the CD containing both the above-mentioned projects' BARs at such a late stage. For easy reference, please see our proof of delivery.

Kind regards,

Nicolene Venter

Subject: RE: ZONNEQUA WIND FARM: NOTIFICATION OF AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

Dear Rozanne,

Kindly allow for us to make comment on all your basic report reviews and comments by Tuesday COB.

We are having difficulty locating these sites because your notifications do not include coordinates and we have to request for a password in order to access the information, so if it is possible please provide us with kmz files sourced from google earth for us to easily locate the sites.

We have received the discs this week, however we have not yet had the time to go over them

The sites in Question:

- ZONNEQUA WIND FARM
- NAMAS WIND FARM

Thank you for your patience.

Kind Regards,

[Simphiwe Masilela](#)

Dear Stakeholder,

A wind farm is proposed to be developed within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. The wind farm is known as the **Zonnequa Wind Farm** and is located within the Nama Khoi Local Municipality and the Namakwa District Municipality.

It is Genesis Zonnequa Wind (Pty) Ltd's, the developer, intention to bid the Zonnequa Wind Farm project under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP)

Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with achieving the electricity generation goals as set out in the Integrated Resources Plan.

This e-mail serves to inform you, as a registered Interested and Affected Party (I&AP), that in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations, as amended in April 2017, that the Basic Assessment Report (BAR) is available for your review and comment.

The hard copy of the BAR can be viewed at the Kleinsee Library (3rd Avenue, Kleinsee, open on Tuesdays & Thursdays between 11h00 and 17h00) from **Wednesday, 24 October 2018** to **Friday, 23 November 2018**. An electronic copy can be downloaded from our website (<http://www.savannahsa.com/public-documents/energy-generation/zonnequa-wind-farm/>).

Please refer to the attached letter for further details in this regard.

Importance: High

Good day,

Please find attached the Cover Letter and the MEMO which shows the proof that this project was delivered to DEA and that it was signed for. This was also filled in on the book. If you look in the book the submissions are written into you will find the proof there as well.

As previously confirmed with Mr Stanley – this was addressed to Wilma Luth because this was before we were made aware of the fact that she is not there anymore.

Non the less, this was still delivered to DEA by hand, signed for and directed at the Director of Biodiversity.

Would you like me to put it on a drop box link for you ? you can also access it on our website.

Thank you and kind regards,

Rozanne Els

Good day,

Please find attached the Cover Letter and the MEMO which shows the proof that this project was delivered to DEA and that it was signed for. This was also filled in on the book. If you look in the book the submissions are written into you will find the proof there as well.

As previously confirmed with Mr Stanley – this was addressed to Wilma Luth because this was before we were made aware of the fact that she is not there anymore.

Non the less, this was still delivered to DEA by hand, signed for and directed at the Director of Biodiversity.

Would you like me to put it on a drop box link for you ? you can also access it on our website.

Thank you and kind regards,

Rozanne Els

Dear Stanley,

With reference to the attached notification letters in regards to the Namas and Zonnequa Wind Farms, we noted that we have not yet received written comment on the Basic Assessment Report for public review from the Department of Environmental Affairs: Biodiversity.

This was also a Report Delivered to Wilma Lutch at the Department of Environmental Affairs before we were informed about you taking over.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Friday, 23 November 2018**.

It would be appreciated if you can submit written comment before or on **Friday, 23 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Dear Chris,

With reference to the attached notification letters in regards to the Namas and Zonnequa Wind Farms, we noted that we have not yet received written comment on the Basic Assessment Report for public review from the Namakwa District Municipality.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Friday, 23 November 2018.**

It would be appreciated if you can submit written comment before or on **Friday, 23 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Kind regards,

SOUTH AFRICAN CIVIL AVIATION AUTHORITY

Good day Tebogo,

I am referring to our telephonic conversation we just had.

We have sent a report to your offices, but was addressed to Mike Knight. Someone did however receive it. We only found out afterwards that he is not there anymore and that Mr Howard Hendricks is the relevant person.

Please see the Proof of Delivery attached.

Please could you maybe assist ? we want to know if SANPARKS will be giving comment as the review period is ending on Friday the 23rd of November 2018.

Kind regards,

Hi Rozanne,

Apologies for the delay - the facility will not pose any detrimental impact on the SKA. My colleague Busang, cc'd on this email, will send you a formal submission confirming this.

Regards,

Adrian
