Good day,

In the interest of the development complying to regulations, please confirm if the buffer around graves should be 30m or 50m as there is slight confusion regarding the meterage.

Kind regards
Liesl Stegmann

Good day Nokukhanya

As discussed telephonically today, and as per email request from Ms Stegmann below, it will be appreciated if you may **confirm if your recommendation (final comment, above) for a 50m buffer may be amended to a 30m buffer (page 3)**, as per the enquiry Ms Stegmann lodged with the BGG unit during July 2022, and their response herein received.

In situ preservation

- *a buffer zone of 30 m for all other activities*

Your written confirmation of the buffer to be provided to the applicant is appreciated, as they are anxious to commence with the development, following receipt of Environmental Authorisation earlier this month.

It will be appreciated if you may please confirm receipt of this email.

Thank you so much.

Regards / Groete

Good Morning

Please upload this email as a letter to the case so I can issue another comment with the requested amendment. Once we receive the letter, please give me a day to process.

Kind Regards,

Nokukhanya Khumalo
