GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Company's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Dear Mr Jansen,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Organisation's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Organisation's written comment on the BARs before or on the closing date of the review period.

Dear Ms De la Fontaine,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Department's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Department's written comment on the BARs before or on the closing date of the review period.

Kind regards

Dear Mr Makgalemele,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Department's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Department's written comment on the BARs before or on the closing date of the review period.

Kind regards

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Company's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Company's written comment on the BARs before or on the closing date of the review period.

Dear Mr Hoogstad,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Company's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Company's written comment on the BARs before or on the closing date of the review period.

Kind regards

Dear Mr Fortuin,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Department's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Department's written comment on the BARs before or on the closing date of the review period.

Kind regards

Dear Mr Fortuin,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Department's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Department's written comment on the BARs before or on the closing date of the review period.

Kind regards

Dear Ms Abrahams,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Company's review and written comments, and a hard copy of the Motivation Report and a CD containing the Motivation Report are included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Company's written comment on the BARs before or on the closing date of the review period.

Dear Mr Koegelenberg,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:  
GREAT KAROO WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, NORTHERN  
CAPE PROVINCE**

---

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION  
(DEA Ref.: 12/12/20/2370/3)**

---

Great Karoo Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Great Karoo Wind Energy Facility (WEF) and associated infrastructure in the Northern Cape Province (DEA ref: 12/12/20/2370/3) on the 12<sup>th</sup> of August 2014 (as subsequently amended on 25 July 2016 and 5 May 2017).

The following amendments are being applied for:

- » Increase the turbine specification:
  - Rotor diameter: Range from up to 140m, to up to 180m;
  - Hub height: Range from up to 120m, to up to 150m; and
  - Wind turbine capacity: Range from up to 3,6MW, to up to 6,5MW.
- » Amendment of Wind Farm layout;
- » Extend the validity of the EA by 5 years; and
- » Amendment of the EA condition 13.2 and condition 49 to specify that the final layout must be approved by an avifaunal specialist.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations, 2014 (as amended on 07 April 2017), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Great Karoo Wind Farm (Pty) Ltd.

In terms of Regulation 3(4) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Motivation Report is available for your Company's review and written comments, and a CD containing the Motivation Report is included in this envelope.

Please note that the Motivation Reports review and comment period is from between **Friday, 26 April 2019** and **Wednesday, 29 May 2019** and we are looking forward receiving your Company's written comment on the BARs before or on the closing date of the review period.

Kind regards
