RE: CONFIRMATION OF BULK WATER SUPPLY TO EZAKHENI C 150 HOUSING PROJECT

UThukela District Municipality as a Water Services Authority hereby confirms that there is existing bulk supply through a 450mm pipeline that is reduced to a 250mm gravity line from the Weltevreedan reservoir. There is a 160mm gravity line which runs from sewer pump station to the Waste Water Treatment works.

The WSA therefore endorses the intention for the Ezakheni C 150 housing project.

Thank you

SN KUNENE
MUNICIPAL MANAGER
