Dear Natasha

Thank you for your comments for the above-mentioned case. With reference to your telephonic conversation with Ms Karabo Mashabela, HCAC would herewith like to confirm that as per our report no graves or anything that resembles a grave were identified during our walk through of the impact area. The lack of graves was confirmed during informal consultation with Ms Kgomo, who resides on the property, during the site visit. Please refer to the HIA. We also confirmed the lack of graves on the property telephonically with Mr Pule Hlahane, the landowner on the 5th of October 2017. It seems that a misunderstanding occurred relating to information contained in the DBAR that incorrectly indicated a grave/ graves in the study area.

Kindly contact me with any queries or concerns.

Sincerely

Jaco van der Walt
