## SITE NOTICES

# NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

## HARMONY MOAB KHOTSONG SOLAR PV FACILITY, FREE STATE PROVINCE

---

**Applicant:** Harmony Moab Khotsong Operations (Pty) Ltd

**Activity:** Development of the Harmony Moab Khotsong Solar PV Facility, grid connection and other associated infrastructure, with a contracted capacity of up to 100MW. The on-site infrastructure includes:

- » PV modules and mounting structures
- » Access roads, internal roads and fencing around the development area
- » Temporary and permanent laydown areas
- » Administrative building, control room, workshop, storage building, guard house, auxiliary buildings and structures, water supply infrastructure, weather station
- » Peripheral boundary wall & fencing
- » Inverters, transformers and up to 5 on-site facility substations and switching substations
- » Cabling between the project components, to be laid underground where practical
- » Grid connection infrastructure to be connected to the existing:
  - Vaalreefs Eleven Substation via a ~2km power line (located south-east of the facility);
  - Southvaal Plant Substation via a ~0.5km power line (located north-west of the facility); and
  - Southvaal Substation via a ~4km power line (located north of the facility).

**Project Location:** North of the Harmony Gold Moab operations, approximately ~10km north of the town of Vierfontein within the Moqhaka Local Municipality, Fezile Dabi District Municipality, Free State Province. The PV facility is located within the Klerksdorp REDZ on the Farm Anglo 593, Farm Hoekplaats 598, Farm Mispah 274, Remaining Extent of Farm Doornkom Wes 446, Farm Chrystalkop 69, Portion 1 of Farm Zaaiplaats 190, and Portions 1, 3, 4, 5 and Remaining Extent of the Farm Zuiping 394.

**Basic Assessment Process:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, and GN R114 (February 2018), a Basic Assessment is to be undertaken for the solar PV facility. An application is to be lodged with the Department of Small Business Development, Tourism and Environmental (DESTEA), as the competent authority.

**Public Participation Process:** Savannah Environmental is the environmental consultant responsible for undertaking the Basic Assessment and Public Participation process in support of the application for EA. To obtain further information on the project and to register on the project database, please submit your name, contact information and interest in the project, in writing, to:

**KENNISGEWINGS • NOTICES**  
**Notice of basic assessment and public participation process**  
**Harmony moab khotsong solar pv facility, viljoenskroon, free state province**  
Applicant: Harmony Moab Khotsong Operations (Pty) Ltd  
Activity: Development of the Harmony Moab Khotsong Solar PV Facility, grid connection and other associated infrastructure, with a contracted capacity of up to 100MW. The on-site infrastructure includes:  
» PV modules and mounting structures.  
» Inverters and transformers a SCADA room, and maintenance room.  
» Cabling between the project components, to be laid underground where practical.  
» Access roads, internal roads and fencing around the development area.  
» Temporary and permanent laydown areas.  
» The grid connection solution for Harmony Moab Khotsong includes tying into three different existing substations via three separate lines, the connections are as follows:  
• Vaalreëfs Eleven Substation via a 3km overhead power line (located in the eastern corner of the site);  
• Southvaal Plant Substation via an up to 1km overhead power line (located in the western corner of the site); and  
• Southvaal Substation via a 2km overhead power line (located in the northern corner of the site).  
Project Location: North of the Harmony Gold Moab Khotsong operations, approximately ~10km north of the town of Vierfontein, within the Mophaka Local Municipality, Fezile Dabi District Municipality, Free State Province. The PV facility is located on the Farm Anglo 593, Farm Hoekplaats 598, Farm Mispah 274, Portion 1 of Farm Zaaiplaats 190, Remaining Extent of Farm Doornkom Wes 446, Farm Chrystalkop 69, and Portions 1, 3, 4, 5, and the Remaining Extent of the Farm Zuiping 394.  
The study area is located within the Klerksdorp Renewable Energy Development Zone (REDZ). As the Harmony Moab Khotsong Solar PV Facility is located within a REDZ, the project a subject to a Basic Assessment (BA) process, as well as a shortened timeframe of 57 days for the processing of an Application for Environmental Authorisation. The grid connection solution will also be subject to a BA process and will be in-line with the timeframes in accordance with the EIA Regulations, 2014 (as amended).  
Basic Assessment Process: In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the Department of Small Business Development, Tourism and Environmental (DESTEA), as the Competent Authority. In terms of Section 24(5) of NEMA, the EIA Regulations, 2014 (GNR 326), Listing Notices (GNR 327, GNR 325, and GNR 324), as well as GNR 114.. Savannah Environmental is undertaking the required environmental assessment and public participation process for the project.  
Basic Assessment Report available for review & comment: The Basic Assessment Report is available for download, review & comment from the Savannah Environmental website. The 30-day review & comment period for the Basic Assessment Report is from 23 September 2022 to 24 October 2022. The final day for written comment to be submitted is 24 October 2022.
