NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

30MW HARMONY ONE PLANT SOLAR PV FACILITY, WELKOM, FREE STATE PROVINCE

Applicant: Free Gold Harmony (Pty) Ltd

Activity: Development of the Harmony One Plant Solar PV Facility, grid connection and other associated infrastructure, with a contracted capacity of up to 30MW. The on-site infrastructure includes:

- » PV modules and mounting structures
- » Inverters and transformers a SCADA room, and maintenance room
- » Cabling between the project components, to be laid underground where practical
- » Access roads, internal roads and fencing around the development area.
- » Temporary and permanent laydown areas and O&M buildings.
- » Overhead Power Lines (OHPL)
- » Grid connection solution including an on-site 44kV facility substation, 44kV switching station, to be connected to the Brand Gold (6.6/132kV) Substation via a 44kV overhead power line (located ~2km North of the site).

Project Location: Located South West of the Witpan dam, South of the Harmony One Gold Plant operations, approximately ~14km north west of the town of Virginia within the Matjhabeng Local Municipality and within the Lejweleputswa District Municipality, Free State Province. The PV facility is located on the Remaining Extent of the Farm Marmageli 20 and Remainder Extent of the Farm Welkom 80, over 75ha in extent.

Environmental Assessment Process: Separate applications for Environmental Authorisation in terms of the National Environmental Management Act (No. 107 of 1998) and the Environmental Assessment Regulations, 2014, as amended, (GNR 326) are required to be submitted for the project. This application is being supported by a separate Scoping and Environmental Impact Assessment process. Savannah Environmental is undertaking the required environmental assessment and public participation process for the project. An application will be lodged with the Department of Small Business Development, Tourism and Environmental (DESTEA), as the competent authority.

Public Participation Process: Savannah Environmental (Pty) Ltd has been appointed as the environmental consultant responsible for undertaking the Scoping Assessment and Public Participation process in support of the application for EA. To obtain further information on the project and to register on the project database, please submit your name, contact information and interest in the project, in writing, to:

NOTICE OF ENVIRONMENTAL IMPACT ASSESMENT AND PUBLIC PARTICIPATION PROCESS

HARMONY TARGET SOLAR PV FACILITY, ALLANRIDGE, FREE STATE PROVINCE

Applicant: Avgold (Pty) Ltd

Activity: The development of a solar PV facility with a generating capacity of up to 30MW and associated infrastructure, including:

- » PV modules and mounting structures.
- » Inverters and transformers a SCADA room, and maintenance room.
- » Cabling between the project components, to be laid underground where practical.
- » Access roads, internal roads and fencing around the development area.
- » Temporary and permanent laydown areas and O&M buildings.
- » Grid connection solution including an on-site facility substation, switching station, to be connected to the Avgold Substation via an overhead power line (located ~400m north east of the site).

Project Location: The PV facility is located on Portion 0 of the Farm Kromdraai 386 and Portion 0 of the Farm Aandenk 227. The site is owned by the Mine and 550m south of the Harmony Target operations, approximately ~14km south of the town of Allanridge, Free State Province.

Scoping & Environmental Impact Assessment (S&EIA) Processes: In terms of Sections 24 & 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a S&EIA process is required, and Savannah Environmental is undertaking the S&EIA and public participation process.

EIA Report available for Review & Comment: The EIA Report is available for review and comment and can be download from the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/harmony-target-solar-pv/>). The 30-day review and comment period of the EIA Report is from **16 January 2023** to **15 February 2023**

SCOPING PHASE

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

HARMONY GOLD PHASE 2 RENEWABLE ENERGY FACILITIES PROJECTS, FREE STATE PROVINCE

Proposed Activity:

Harmony Gold Mining Company (Ltd) is looking to supplement its energy supply by implementing PV generation, aiding their transition to a more sustainable and environmentally friendly energy mix through the construction and operation of 3 solar PV facilities located on 3 different Harmony Gold Mine sites within the Free State Province. The project entails the development of three (3) separate solar PV facilities, each including grid connection and other associated infrastructure.

Details Of Projects in the Free State Province:

- » Freegold Harmony (Pty) Ltd (a subsidiary of Harmony Gold Mining Company Ltd) aims to develop the Harmony One Plant Solar PV Facility which is located on the Remaining Extent of the Farm Marmageli 20 and Remaining Extent of the Farm Welkom 80, near Welkom, within the Matjhabeng Local Municipality and Lejweleputswa District Municipality. The PV facility will have a generation capacity of up to 30MW and will tie into the Brand Gold Substation via a 2km power line.
- » Freegold Harmony (Pty) Ltd (a subsidiary of Harmony Gold Mining Company Ltd) aims to develop the Harmony Joel Solar PV Facility located on portion 0 of the Farm Leeuwbult 580, near Theunissen, within the Matjhabeng Local Municipality, and the Lejweleputswa District Municipality. The PV facility will have a generation capacity of up to 18MW and will Tie-in to Shafts 1 & 2 HJ Joel Mining Substation, via a 1.2km power line.
- » Avgold (Pty) Ltd (a subsidiary of Harmony Gold Mining Company Ltd) aims to develop the Harmony Target Solar PV Facility, located on portion 0 of Farm Kromdraai 386, near Allanridge, within the Matjhabeng Local Municipality, and the Lejweleputswa District Municipality. The PV facility will have a generation capacity of up to 30MW and will Tie-in to the Avgold Substation via a 2km power line.

The onsite infrastructure for all sites includes:

- » PV modules and mounting structures.
- » Inverters and transformers a SCADA room, and maintenance room.
- » Cabling between the project components, to be laid underground where practical.
- » Access roads, internal roads and fencing around the development area.
- » Temporary and permanent laydown areas and O&M buildings.
- » Grid connection solution which will facility substation, switching station and an overhead power line.

Each renewable energy facility will be constructed as a separate stand-alone project and therefore a separate Scoping and Environmental Impact Assessment (S&EIA) process is being undertaken for each facility. The public participation process for the projects is being run concurrently.

Environmental Impact Assessment Processes: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, an EIA process is required for each renewable energy facility. Savannah Environmental is undertaking the required EIA, and public participation processes for these projects. A Background Information Document (BID) providing further information on the projects is available on the Savannah Environmental website at <https://savannahsa.com/public-documents/energy-generation>.

Scoping Reports available for review & comment: The Scoping Report for each project is available for download, review & comment from the Savannah Environmental website. The 30-day review & comment period for the Scoping Reports is from **24 August 2022** to **23 September 2022**. The final day for written comment to be submitted is **23 September 2022**.

SLUITING IN SA:

Zwelinzima Vavi, hoofsekretaris van Saftu

Optog in Bloemfontein
Vakbondlede sal om 07:00 by die Batho-lokasiesaal bymekaarkom en vanaf 10:00 na die premier se kantoor in die O.R. Tambo-gebou stap.

Dís waar vakbonde vandag marsjeer

William Horne

Vakverbonde en hul lede beplan om die land vandag met hul afwesigheid tot stilstand te bring, maar sommiges gaan ook die strate inwaar.

Die vakverbond Saftu gaan saam met sy mededinger Cosatu in ses provinsies marsjeer en optogte reël.

Zwelinzima Vavi, hoofsekretaris van Saftu, het egter Maandag op 'n mediakonferensie in Johannesburg beklemtoon hul lede sal nie in massas byeenkom nie omdat die werklike doel van die dag is om die ekonomie te strem en die mag van die werkersklas te illustreer.

Die optogte is dus meer 'n bykomende seremoniële optrede tot die wegby-aksie.

Ontwrigting kan egter steeds plaasvind nadat albei vakverbonde hul lede opge-ru het oor die "kapitaliste"

se "aanslag" op die werkersklas wat hulle "woedend behoort te maak".

Vavi se mees onheilspelelende uitlating was egter dat die twee vakverbonde mik om die uitvoerende gesag van die regering deur hul massa-aksieplan te "ont-troon".

Pres. Cyril Ramaphosa en sy kabinet is dus die teiken. Dr. Theuns Eloff, onafhanklike kommentator, reken dié dreigement dra nie meer dieselfde gewig as wat dit in vorige jare sou gedra het nie.

Volgens hom is die drie-party-alliansie nie meer so belangrik as wat dit voorheen was nie.

"Cosatu self het nie meer die miljoene lede wat hy voorheen gehad het nie. Sy mag is 'n fraksie van wat dit was," het Eloff verduidelik.

In daardie opsig is dit vir

hom duidelik wat eintlik aangaan.

"Cosatu en Saftu het gedoen wat mode is: Vir Cyril (Ramaphosa) te kap in 'n desperate poging om lede te werf en hul magsgreep te herstel."

Eloff reken dit is meer 'n noodkreet van die vakverbonde as 'n behoorlike poging om sy gelede onder die wapen te roep.

Tog sit wetstoepassings-agentskappe oorgehaal om ontwrigting hok te slaan. Maar oor die poging om die uitvoerende gesag te ont-troon is Eloff nie te bekommerd nie. "Dit gaan heel waarskynlik misluk."

Waar gaan Saftu marsjeer? In Bloemfontein gaan Saftu vanaf die Batho Lokasiesaal in Mangaung tot by die kantoor van die premier in die O.R. Tambo-gebou stap.

Daar sal ook in vyf ander provinsies, naamlik Gauteng, die Wes-Kaap, Limpopo, Mpumalanga en die Oos-Kaap, optogte wees.

Saftu het beklemtoon dat net tot 1 000 lede per stad sal deelneem. Maar met die vakverbonde se beroep op selfs werkloos om deel te neem, kan dit dalk meer word.

Sanparke het reeds aangedui dat voortydige en opportunistiese optogte rondom die Krugerwildtuin begin kop uitsteek het en reisigers moontlik in gevaar kan stel.

"Daarom kan die situasie dalk eskaleer," het Sanparke op Facebook gesê.

Dit is veral die Numbi-hek, die Paul Kruger-hek en die Phabeni-hek wat geraak word.

Sanparke raai reisigers aan om baie versigtig te wees en ten minste verdragings te ver wag.

Weerkundiges afgedank ná 'misleidende' weervoorspelling

Twee van Hongarye se topweerkundiges is afgedank weens 'n onakkurate weervoorspelling wat 'n openbare herrie veroorsaak het.

Die BBC berig die weerdiens het Saterdag, slegs ure voor die reusviering vir St. Stephen's-dag, streng weerwaarskuwings uitgereik wat gelei het tot die regering se besluit om die vieringe die aand uit te stel.

Die weerstoestande op die nasionale vakansiedag het egter kalm en matig gebly, wat gevolglik daartoe gelei het dat die land se weerhoof, Kornelia Radics, en adjunkhoof, Gyula Horvath, in die

pad gesteeke is.

Meer as 40 000 vuurwerk is voorberei om Saterdagmiddag om 240 punte langs die Donau-rivier in Budapest afgevuur te word vir 'n skouspel wat deur meer as 2 miljoen mense aanskou sou word.

Volgens The Guardian het die weerdiens donderstorms en stormsterke windde voorspel, maar dié storms het die hoofstad gemis.

Die weerdiens het Sondag om verskoning gevra vir die voorspelling en dit toegeskrif aan die onvoorspelbaarheid wat deel is van die beroep.

AFP berig die opposisie het aange-

dring dat die byeenkomste rondom die vakansiedag gekanselleer word en dit as 'n "nuttelose mors van geld" bestempel. Hulle sê verder dit is onnodig om die uit-gawes aan te gaan terwyl die land se ekonomie gebuk gaan onder die nagevolge van die oorlog tussen Rusland en Oekraïne.

Die weerkantoor is landwyd gekritiseer vir sy glips-voorspelling.

In 2006 het 'n storm tydens die vieringe tot die dood van vyf mense gelei en honderde is beseer.

Vanjaar se skouspel is tot later die week uitgestel.
