

## 2 DETAILS OF ROLE PLAYERS

### 2.1 Introduction

The following section of the Draft EIA Report provides the particulars, including contact details, of the applicant, the EIA consultant and the relevant authorities.

### 2.2 Details of Applicant

In 2010 Eskom Holding Limited invited proposals for an EIA for the expansion of the wet ash disposal facility infrastructure at Hendrina Power Station in order to support the increase in the life of the power station. Lidwala Consulting Engineers (SA) (Pty) Ltd responded to the invitation and was commissioned as an independent environmental consultant to conduct the EIA and Waste License Application.

The details of the applicant are shown in **Table 2.1** below.

### 2.3 Details of Environmental Assessment Practitioner

Lidwala Consulting Engineers (SA) (Pty) Ltd was invited by Eskom Holding Limited to submit a proposal for the required Environmental Impact Assessment and Waste License Application for the expansion of the Hendrina Wet Ash Disposal Facility infrastructure at the Hendrina Power Station, Mpumalanga and was subsequently appointed to undertake the relevant investigations.

Lidwala Consulting Engineers (SA) (Pty) Ltd. is an integrated group of highly trained scientists, project managers, engineers and GIS technicians, providing cost-effective solutions and specialist services in a wide range of disciplines. The multi-disciplinary consulting, management and design approach allows for the execution of projects in a holistic way, as this is believed to be the best environment to fully meet the needs of our clients.

The environmental and planning services department (Lidwala EPS) is situated in Nelspruit, Bloemfontein, Randburg and Pretoria. Lidwala EPS provides environmental planning and management services in accordance with the Integrated Environmental Management (IEM) procedure, the EIA regulations required by the Department of Environmental Affairs (DEA), and other internationally recognised standards such as ISO 14000, the international standard for Environmental Management Systems.

The members of this department have extensive experience in the environmental strategic planning fields, impact assessment, management plans and other related environmental fields such as waste management, Environmental Management Systems (EMS) and environmental legislation. The company's impressive track record includes a wide range of projects.

It comprises of a small yet experienced group of professional staff that have over 55 years combined experience. We offer a wide spectrum of environmental services including:

- Environmental Impact Assessments;
- Environmental Management Programmes and Plans;
- Environmental advisory services;
- Environmental monitoring and auditing;
- Environmental training;
- Mining Permits;
- Public participation;
- Environmental Management Systems;
- Strategic Environmental Assessments;
- Environmental Management Frameworks;
- Integrated Development Planning; and
- Geographical Information Systems.

Our team's combined experience in the environmental field ensures that we are able to successfully complete this project.

The CVs of the Project Director and Project Leader as well as the environmental scientists are available in **Appendix B**.
