1 INTRODUCTION

WKN Windcurrent South Africa (Ltd) Pty ('the Developer') is proposing the Highlands Wind Energy Facilities (WEFs), and associated infrastructure including grid connection infrastructure (the Proposed Development), located 20 km from the town of Somerset East in the Eastern Cape Province. The area of interest for development within the affected land parcels is approximately 9000 hectares (The Proposed Development Area), and falls entirely within the Cookhouse Renewable Energy Development Zone (REDZ). The Proposed Development aims to generate and produce electricity from renewable wind energy sources in order to supply electricity into the national grid by connecting to an existing Eskom transmission line within the Proposed Development Area.

Arcus Consultancy Services South Africa (Pty) Ltd ('Arcus') has been appointed to act as the independent environmental impact assessment practitioner (EAP) to undertake the environmental impact assessment (EIA) process for Environmental Authorisation under Chapter 5 of the National Environmental Management Act, 1998 (Act 107 of 1998 – NEMA) as amended, for the Proposed Development.

For the purpose of obtaining Environmental Authorisation (EA), and bidding requirements in the Department of Energy's Renewable Energy Independent Power Producers Procurement Programme (REIPPPP), the project has been split into three phases: North, Central and South. A Special Purpose Vehicle (SPV) has been set up for each of the three phases. Each phase will consist of two applications: one for the wind energy facility and one for the respective grid connection. The Proposed Development therefore consists of six components and six separate applications for EA:

- Highlands North Wind Energy Facility (RF) (Pty) Ltd:
 - The Highlands North WEF (up to 85 MW) consisting of up to 17 turbines with a generating capacity of up to 5 MW each (The Proposed Project),
 - Electrical Grid Connection and Associated Infrastructure for Highlands North WEF;
- Highlands Central Wind Energy Facility (RF) (Pty) Ltd:
 - The Highlands Central WEF (up to 70 MW): up to 14 turbines with a generating capacity of up to 5 MW each
 - Electrical Grid Connection and Associated Infrastructure for Highlands Central WEF;
- Highlands South Wind Energy Facility (RF) (Pty) Ltd:
 - The Highlands South WEF (up to 90 MW): up to 18 turbines with a generating capacity of up to 5 MW each;
 - Electrical Grid Connection and Associated Infrastructure for Highlands South WEF.

Should the Proposed Development be bid in the REIPPPP two submissions may potentially be made: The Highlands North WEF will be combined with the Highlands Central WEF **OR** be bid on its own, and the Highlands Central WEF will be combined with Highlands South WEF. Due to these uncertainties the specialist studies have described the baseline environment of the entire Proposed Development Site as the affected environment, and the Public Participation Process is being conducted combined for all six components.

2 THE PUBLIC PARTICIPATION PROCESS

The primary aims of the public participation process are:

- To inform Interested and Affected Parties (I&APs) of the proposed development;

- To identify issues, comments and concerns as raised by I&APs;
- To promote transparency and an understanding of the project and its potential consequences;
- To facilitate open dialogue and liaise with all I&APs;
- To assist in identifying potential environmental (biophysical and socio-economic) impacts associated with the proposed development; and
- To ensure that all I&AP issues and comments are accurately recorded, addressed and documented in a Comments & Response Report.

This Comments & Responses Report has been compiled as Volume III to each of the six Basic Assessment Reports that are being prepared in support of the above applications for Environmental Authorisation.

3 METHODOLOGY

This Public Participation Process follows the requirements of Regulation 41 of GN R. 326 Amendments to the Environmental Impact Assessment Regulations, 2014 (7 April 2017), promulgated under Section 24 (5) of the National Environmental Management Act (Act 107 of 1998 – NEMA), as amended.

3.1 Key Stakeholders

At this stage of the process, a number of key stakeholders have been identified and included on the project database. These key stakeholders include (but are not limited to) the following:

- Ratepayers' associations;
- Local farmers' associations;
- Local tourism organisations covering this part of the Karoo.
- CapeNature;
- ESKOM
- Eastern Cape Department: Economic Development Environmental Affairs, and Tourism (DEDEA);
- South African Bat Assessment Advisory Panel (SABAAP);
- National and Provincial Department of Water Affairs;
- Local bird clubs or interested bird watchers;
- BirdlifeSA;
- Department of Mineral Resources (DMR);
- National and Provincial Department of Agriculture, Forestry and Fisheries (DAFF);
- South African Heritage Resources Agency (SAHRA);
- South African National Roads Agency (SANRAL)
- South African Weather Service (SAWS);
- Sentech (state owned enterprise operating in the broadcasting signal distribution and telecommunications sectors);
- Department of Communications; and
- Air Traffic and Navigation Services SOC Limited (ATNS).

Additional relevant stakeholders will be identified during the PPP. Refer to Volume III which includes a copy of the latest I&AP database.

3.2 Initial Notification

An I&AP database (Appendix 1) was compiled consisting of project landowners, surrounding landowners within 5 km of the Proposed Development Site boundary, identified organs of state and organisations. This database will be updated throughout the duration of the basic assessment process and anyone with an interest in the proposed development is encouraged to register.

On 14 June 2018 initial notification letters (email and registered mail in English and Afrikaans) were sent to I&APs on the database, informing them of the intention of the applicant to apply for Environmental Authorisations for the proposed development (Appendix 2). This included a locality map, proposed development plan and project descriptions. Details of how to submit comments and queries were included.

Site notice boards in English and Afrikaans were placed where the site boundary meets the R63 at 32°41'23.8"S 25°21'54.7"E and 32°41'23.8"S 25°21'54.7"E on 15 June 2018 (Appendix 3).

Notification posters in English and Afrikaans, encouraging I&APs to register on the database were placed on notice boards in Pearston at the post office, municipality, library, SAPS and a local supermarket on 15 June 2018 (Appendix 3).

In Somerset East notification posters were placed on notice boards at the SAPS, Langenhoven library, municipality, Spar supermarket, a hardware shop and a café. Photographs and coordinates are presented in Appendix 3.

Newspaper advertisements in English and Afrikaans were placed in *The Daily Sun* Eastern Cape and *The Mid Karoo Express* on 21 June 2018 (Appendix 4).

4 BA PROCESS PUBLIC PARTICIPATION

I&APs are able to register throughout the duration of the process and all registered I&APs are kept informed about the progress of the application.

The following tasks will be undertaken during the Basic Assessment process:

- Notification letters are sent out to registered I&APs, key stakeholders, and organs of state to inform them of the availability of the Basic Assessment Report (BAR) for review and comment (30 days);
- Focus Group or One-on One Meetings will be held as and when required;
- A Comments and Responses Report is compiled and updated, recording comments and/or queries received and the responses provided; Copies of all original comments received and responses sent are included in Appendix 5
- Notification letters will be sent to all registered I&APs, key stakeholders, and organs of state to inform them of the decision by the DEA and the appeal procedure; and
- Placement of advertisements in the same local and regional newspapers (in English and Afrikaans) to inform I&APs of the decision taken by the DEA.

5 COMMENTS & RESPONSE

Table 1: Comments & Response Table

Ref	Name, Date and Method	Comment	Response	Respondent & Date of Response
1	Emma Becker Eastern Cape Parks and Tourism Agency 15/06/2018 Email	FW: Initial Notification for the Proposed Highlands Wind Energy Facilities to Shane October shane.october@ecpta.co.za <i>Dear Shane</i> <i>Kindly see below and respond/direct this mail accordingly please</i> <i>Kind Regards,</i>	Dear Ms Becker, We have added Mr Shane October to the database of Interested & Affected Parties, and he will receive all future notifications regarding the Highlands Wind Energy Facilities project. Kind Regards,	Anja Albertyn 18/06/2018 By email
2	Shaun Williams UFF African Agri Investments 18/06/2018 Email	Dear Anja, Please refer to the attached documents, for any correspondence or information needed please contact Jac Jordaan and Andre' Botha as per below. You can cc Frans Botha (CFO) and myself in the emails as I'm the accountant working on the project in the area. Andre Botha – andre.botha@uff.co.za Jac Jordaan - jacjordanboerdery@gmail.com cell: 073 856 7179 Thanks and regards	Dear Mr Williams, We have added the emails for Jac Jordaan, Andre Botha and Frans Botha to the I&AP database as requested. We have also emailed them the initial notification letter. They will be included in all future notifications regarding the Highlands Wind Energy facilities projects. Would you be able to indicate which farm portions or farm names you and they are part of in the area? We have a Jac Jordaan down as a project landowner contact for National Government farms but are uncertain if this is the same individual. Frans Botha is registered as a surrounding landowner contact for Purple Lily Pty Ltd. Any details would be greatly appreciated. Kind Regards,	Anja Albertyn 18/06/2018 By email
3	Grant Abrahamson East Cape Safaris 15/06/2018 Email	Dear Anja Thank you for your email. This is the first I hear of the project after having noticed that there is a test tower that was erected on the farm Highlands which neighbours my property.	Dear Mr Abrahamson, You received the first official notification for the proposed Highlands WEFs. Please submit all comments and concerns to myself as soon as possible for inclusion and consideration in the basic	Anja Albertyn 18/06/2018 By email

Ref	Name, Date and Method	Comment	Response	Respondent & Date of Response
		<p>Please let me know with whom I should talk to with regards some issues with the project from an environmental basis and from my tourism business venture which will be influenced by such a project.</p> <p>Look forward to hearing from you.</p> <p>Regards</p>	<p>assessment report. This report will then be made available to the public for 30 days for your review and further comment. You will be notified when it is available. At this point we estimate that the public review period for the Basic Assessment Report will start sometime in September.</p> <p>I also forward all comments to the social specialist, Tony Barbour, who will be conducting a social impact assessment study for the proposed development. He may also contact you for additional input for inclusion in his report.</p> <p>Please do not hesitate to contact me with any further queries.</p> <p>Kind Regards,</p>	
4	<p>John Geeringh (Pr Sci Nat) Senior Consultant Environmental Management Land Development and Management Group Capital Megawatt Park, D1Y42, Maxwell Drive, Sunninghill, Sandton. Please find attached Eskom requirements for works at or near Eskom infrastructure and servitudes. Please take specific note of the setback distances for Turbines from Eskom infrastructure as per the attached Setbacks document. Should the Developer want to encroach on these setback distances, permission must be requested from Eskom in writing, and a decision on the matter will be communicated in writing to the Developer.</p> <p>Kind regards</p> <p>Attachments: Renewable Energy Generation Plant Setbacks to Eskom Infrastructure – Signed.pdf Eskom requirements for work in or near Eskom servitudes WIND (3).doc</p>	<p>Dear Mr Geeringh,</p> <p>Thank you for your comments. The Eskom requirements will be forwarded to the developer for consideration in the design of the project. I have attached a kml of the proposed development layout for your further comment : Highlands_WEFs_20180525.kmz</p> <p>Kindly confirm if the proposed layout complies with Eskom requirements.</p> <p>Thank you very much,</p>	<p>Anja Albertyn 18/06/2018 By email</p>

Ref	Name, Date and Method	Comment	Response	Respondent & Date of Response
	19/06/2018	Thanks, I will check John		
	19/06/2018	Just as a matter of interest, has the developer determined the capacity of the power line where they would like to connect. The existing line is a 66kV and may have very limited capacity. There is also limited capacity for connection at Poseidon. I would suggest that the applicant get in touch with Eskom regarding these matters if they have not yet done so. Regards John	This has been forwarded to the developer	
5	Side By Side Trust Email info@sidebysidesafaris.com 21/06/2018	Paul@bosberg.co.za Få Outlook til iOS	Good day, The email Paul@bosberg.co.za has been added to our database under Side by Side Safaris. All future notifications regarding the Highlands Wind Energy Facilities will be sent to that address. Please could you let us know if you wish to no longer receive notifications at info@sidebysidesafaris.com . Kind Regards,	Anja Albertyn 21/06/2018 By email

APPENDIX 2: INITIAL NOTIFICATION

14 June 2018

Dear Interested & Affected Party,

RE: Application for Environmental Authorisation for the proposed Highlands Wind Energy Facilities and Associated Infrastructure in the Eastern Cape Province

WKN Windcurrent South Africa (Ltd Pty) is proposing the up to 150 MW Highlands Wind Energy Facilities (WEF), and associated infrastructure including grid connection infrastructure (the Proposed Development), located near the town of Somerset East in the Eastern Cape Province. The Proposed Development Site is situated within the Cookhouse Renewable Energy Development Zone (REDZ) (Figure 1). The area of interest for development within these land parcels is approximately 9000 hectares.

Arcus Consultancy Services South Africa (Ltd) Pty (Arcus) has been appointed by the Applicant as the independent environmental impact assessment practitioner (EAP) to undertake the environmental impact assessment (EIA) process for Environmental Authorisation under Chapter 5 of the National Environmental Management Act, 1998 (Act 107 of 1998 – NEMA) as amended, for the Proposed Development.

You are receiving this initial notification because you were identified as an Interested & Affected Party (I&AP) as you own property within the Proposed Development site (Figure 2). Public Participation is an important part of the environmental authorisation process. It offers I&APs the opportunity to obtain information, comment, raise issues of concern and collaborate in the authorization process. Comments, suggestions and inputs from the public, along with specialists assessments of the various environmental impacts of the project will assist the Department of Environmental Affairs (DEA) in their decision making process.

For the purpose of obtaining Environmental Authorisation, and bidding requirements in the Department of Energy's Renewable Energy Independent Power Producers Procurement Programme (REIPPPP), the project has been split into three phases: North, Central and South. A Special Purpose Vehicle (SPV) has been set up for each of the three phases. Each phase will consist of two applications: one for the wind energy facility and one for the respective grid connection. The proposed Development therefore consists of 6 components.

- **Highlands North Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands North WEF Phase 1 consisting of up to **17 turbines** with a generating capacity of up to 5 MW each,
 - Electrical Grid Connection and Associated Infrastructure for Highlands North WEF Phase 2;
- **Highlands Central Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands Central WEF Phase 2: up to **14 turbines** with a generating capacity of up to 5 MW each
 - Electrical Grid Connection and Associated Infrastructure for Highlands Central WEF Phase 2;
- **Highlands South Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands South WEF Phase 3: up to **18 turbines** with a generating capacity of up to 5 MW each;

- Electrical Grid Connection and Associated Infrastructure for Highlands South WEF Phase 3.

The location of the six components within the Proposed Development Site are presented in Figure 2. The footprint of the combined six development components will only occupy a small portion (approximately 2%) of the land within this boundary, and fall entirely within the REDZ. New regulations in Government Notice No R 114 of 16 February 2018 state that if a large scale wind energy facility falls within a REDZ a basic assessment process is to be followed. Therefore six basic assessment applications for environmental authorisations will be submitted with a combined Public Participation Process (PPP).

To assist Arcus in ensuring all I&APs have been informed of the proposed developments, we kindly request your assistance in obtaining contact details of labourers and occupiers on your properties. Arcus will include them on our database and ensure that they have been included as part of the EIA process.

Should you have any comments, questions, queries or concerns about the proposed development at any stage of the EIA process, please contact Arcus through the following ways (quoting Arcus Reference 2780 Highlands WEF):

Geagte Belanghebbende en Geaffekteerde Party

RE: Aansoek om omgewingsmagtiging vir die voorgestelde Highlands-windkragaanleg en gepaardgaande infrastruktuur in die Oos-Kaap

WKN Windcurrent South Africa (Edms.) Bpk. stel die oprigting van die Highlands-windkragaanleg (WEF) en gepaardgaande infrastruktuur, insluitende netwerkverbindinge (die voorgestelde ontwikkeling), voor. Dit is naby Somerset-Oos in die Oos-Kaap geleë. Die voorgestelde ontwikkelingsterrein is binne die Cookhouse-ontwikkelingsone vir Hernubare Energie (REDZ) geleë (Figuur 1). Die gebied waarna vir ontwikkeling gekyk word binne hierdie sone beslaan ongeveer 9 000 hektaar.

Arcus Consultancy Services South Africa (Edms.) Bpk. ("Arcus") is aangestel as die onafhanklike omgewingsimpak-assesseringspraktisyn (EAP) om die omgewingsimpak-studieproses (EIA) vir omgewingsmagtiging ingevolge Hoofstuk 5 van die Wet op Nasionale Omgewingsbestuur, 1998 (Wet 107 van 1998 - NEMA) soos gewysig, vir die voorgestelde ontwikkeling te onderneem.

U ontvang hierdie aanvanklike kennisgewing aangesien u eiendom besit wat in die voorgestelde ontwikkelingsarea (Figuur 2) val, en dus as 'n Belanghebbende & Geaffekteerde Party (B&GP) geïdentifiseer is. Openbare deelname is 'n belangrike deel van die omgewingsmagtigingsproses. Dit bied B&GP's die geleentheid om inligting te verkry, kommentaar te lewer, kwessies wat kommentaar te opper en saam te werk aan die magtigingsproses. Kommentaar, voorstelle en insette van die publiek, saam met spesialiste se assesserings van die verskillende omgewingsimpakte van die projek, sal die Departement van Omgewingsake (DEA) met hul besluitnemingproses help.

Met die oog op die verkryging van omgewingsmagtiging, asook voldoening aan bodvereistes gestel in die Departement van Energie se Aankoopprogram van Hernubare Energie vanaf Onafhanklike Kragproducente (REIPPPP), is die projek in drie fases verdeel: Noord, Sentraal en Suid. 'n Spesiaaldoel-instrument (SPV) is vir elk van die drie fases gevorm. Elke fase sal uit twee toepassings- of konstruksieprosesse bestaan: een vir die windkragaanleg en een vir die onderskeie netwerkverbindinge. Die voorgestelde ontwikkeling bestaan dus uit ses komponente.

• **Highlands North Wind Energy Facility (RF) (Edms.) Bpk.:**

- Highlands-Noord WEF Fase 1 bestaande uit tot **17 turbines** met 'n opwekkingsvermoë van tot 5 MW elk;
- Aansluiting by kragnetwerk en gepaardgaande infrastruktuur vir Highlands-Noord WEF Fase 1;

• **Highlands Central Wind Energy Facility (RF) (Edms.) Bpk.:**

- Highlands-Sentraal WEF Fase 2: tot **14 turbines** met 'n opwekkingsvermoë van tot 5 MW elk;
- Aansluiting by kragnetwerk en gepaardgaande infrastruktuur vir Highlands-Sentraal WEF Fase 2;

• **Highlands South Wind Energy Facility (RF) (Edms.) Bpk.:**

- Highlands-Suid WEF Fase 3: tot **18 turbines** met 'n opwekkingsvermoë van tot 5 MW elk;

- Aansluiting by kragnetwerk en gepaardgaande infrastruktuur vir Highlands-Suid WEF Fase 3;

Die ligging van die ses komponente binne die voorgestelde ontwikkelingsperseel word in Figuur 2 aangetoon. Die gesamentlike voetspoor van die ses ontwikkelingskomponente sal slegs 'n klein gedeelte (ongeveer 2%) van die grond binne hierdie grens beslaan en sal heeltemal binne die REDZ val. Nuwe regulasies gepubliseer in Staatskennisgewing Nr. R 114 van 16 Februarie 2018 verklaar dat 'n basiese assesseringsproses gevolg moet word indien 'n groot windkragaanleg binne 'n REDZ val. Daarom sal ses aansoeke om omgewingsmagtiging op grond van basiese assesserings en 'n gesamentlike openbaredeelnemingsproses (PPP) ingedien word.

Om Arcus by te staan om te verseker dat alle B&GP's oor die voorgestelde ontwikkelingsingelig is, versoek ons u hulp om kontakbesonderhede van arbeiders en bewoners op u eiendom te verkry. Arcus sal sodanige persone op ons databasis plaas en verseker dat hulle by die EIA-proses ingesluit word.

Indien u enige kommentaar, vrae, navrae of kommer oor die voorgestelde ontwikkeling in enige stadium van die BA-proses na vore wil bring, kontak Arcus assebler op die volgende maniere (met vermelding van die Arcus-verwysing 2780 Highlands):

Dear Landowner,

RE: Application for Environmental Authorisation for the proposed Highlands Wind Energy Facilities and Associated Infrastructure in the Eastern Cape Provinces

You are receiving this notification, as you have been identified as a landowner for the proposed development. This email provides notification of the proposed development and is the first step in the Public Participation Process (PPP).

Please find attached for your interest the Highlands Wind Energy Facility Initial Notification letter for Landowners in Afrikaans and English.

Should you wish to no longer receive notifications for the abovementioned projects, please respond accordingly.

Please do not hesitate to contact me, should you have any further concerns or requirements.

Kind Regards,

Anja Albertyn, MSc, Pr. Sci. Nat
Environmental Practitioner

Tel: +27 (0) 21 412 1533

14 June 2018

Dear Interested & Affected Party,

RE: Application for Environmental Authorisation for the proposed Highlands Wind Energy Facilities and Associated Infrastructure in the Eastern Cape Province

WKN Windcurrent South Africa (Ltd Pty (the Applicant ')) is proposing the up to 150 MW Highlands Wind Energy Facilities (WEF), and associated infrastructure including grid connection infrastructure (the Proposed Development), located near the town of Somerset East in the Eastern Cape Province. The Proposed Development Site is situated within the Cookhouse Renewable Energy Development Zone (REDZ) (Figure 1). The area of interest for development within these land parcels is approximately 9000 hectares.

Arcus Consultancy Services South Africa (Ltd) Pty ('Arcus') has been appointed by the Applicant as the independent environmental impact assessment practitioner (EAP) to undertake the environmental impact assessment (EIA) process for Environmental Authorisation under Chapter 5 of the National Environmental Management Act, 1998 (Act 107 of 1998 – NEMA) as amended, for the Proposed Development.

You are receiving this initial notification because you were identified as an Interested & Affected Party (I&AP) as your property surrounds the Proposed Development. Public Participation is an important part of the environmental authorisation process. It offers I&APs the opportunity to obtain information, comment, raise issues of concern and collaborate in the authorization process. Comments, suggestions and inputs from the public, along with specialists assessments of the various environmental impacts of the project will assist the Department of Environmental Affairs (DEA) in their decision making process.

For the purpose of obtaining Environmental Authorisation, and bidding requirements in the Department of Energy's Renewable Energy Independent Power Producers Procurement Programme (REIPPPP), the project has been split into three phases: North, Central and South. A Special Purpose Vehicle (SPV) has been set up for each of the three phases. Each phase will consist of two applications: one for the wind energy facility and one for the respective grid connection. The proposed Development therefore consists of 6 components.

- **Highlands North Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands North WEF Phase 1 consisting of up to **17 turbines** with a generating capacity of up to 5 MW each,
 - Electrical Grid Connection and Associated Infrastructure for Highlands North WEF Phase 2;
- **Highlands Central Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands Central WEF Phase 2: up to **14 turbines** with a generating capacity of up to 5 MW each
 - Electrical Grid Connection and Associated Infrastructure for Highlands Central WEF Phase 2;
- **Highlands South Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands South WEF Phase 3: up to **18 turbines** with a generating capacity of up to 5 MW each;

- Electrical Grid Connection and Associated Infrastructure for Highlands South WEF Phase 3.

The location of the six components within the Proposed Development Site are presented in Figure 2. The footprint of the combined six development components will only occupy a small portion (approximately 2%) of the land within this boundary, and fall entirely within the REDZ. New regulations in Government Notice No R 114 of 16 February 2018 state that if a large scale wind energy facility falls within a REDZ a basic assessment process is to be followed. Therefore six basic assessment applications for environmental authorisations will be submitted with a combined Public Participation Process (PPP).

To assist Arcus in ensuring all I&APs have been informed of the proposed developments, we kindly request your assistance in obtaining contact details of labourers and occupiers on your properties. Arcus will include them on our database and ensure that they have been included as part of the environmental authorisation process.

Should you have any comments, questions, queries or concerns about the proposed development at any stage of the EIA process, please contact Arcus through the following ways (quoting Arcus Reference 2780 Highlands WEF):

Dear Surrounding Landowner,

RE: Application for Environmental Authorisation for the proposed Highlands Wind Energy Facilities and Associated Infrastructure in the Eastern Cape Provinces

You are receiving this notification, as you have been identified as a surrounding landowner for the proposed development. This email provides notification of the proposed development and is the first step in the Public Participation Process (PPP).

Please find attached for your interest the Highlands Wind Energy Facility Initial Notification letter for Surrounding Landowners in Afrikaans and English.

Should you wish to no longer receive notifications for the abovementioned projects, please respond accordingly.

Please do not hesitate to contact me, should you have any further concerns or requirements.

Kind Regards,

Anja Albertyn, MSc, Pr. Sci. Nat
Environmental Practitioner

14 June 2018

Dear Interested & Affected Party,

RE: Application for Environmental Authorisation for the proposed Highlands Wind Energy Facilities and Associated Infrastructure in the Eastern Cape Province

WKN Windcurrent South Africa (Ltd) Pty is proposing the up to 150 MW Highlands Wind Energy Facilities (WEF), and associated infrastructure including grid connection infrastructure (the Proposed Development), located near the town of Somerset East in the Eastern Cape Province. The Proposed Development Site is situated within the Cookhouse Renewable Energy Development Zone (REDZ) (Figure 1). The area of interest for development within these land parcels is approximately 9000 hectares.

Arcus Consultancy Services South Africa (Ltd) Pty ('Arcus') has been appointed to act as the independent environmental impact assessment practitioner (EAP) to undertake the environmental impact assessment (EIA) process for Environmental Authorisation under Chapter 5 of the National Environmental Management Act, 1998 (Act 107 of 1998 – NEMA) as amended, for the Proposed Development.

You are receiving this initial notification because you were identified as an Interested & Affected Party (I&AP). Public Participation is an important part of the environmental authorisation process. It offers I&APs the opportunity to obtain information, comment, raise issues of concern and collaborate in the authorization process. Comments, suggestions and inputs from the public, along with specialists assessments of the various environmental impacts of the project will assist the Department of Environmental Affairs (DEA) in their decision making process.

For the purpose of obtaining Environmental Authorisation, and bidding requirements in the Department of Energy's Renewable Energy Independent Power Producers Procurement Programme (REIPPPP), the project has been split into three phases: North, Central and South. A Special Purpose Vehicle (SPV) has been set up for each of the three phases. Each phase will consist of two applications: one for the wind energy facility and one for the respective grid connection. The proposed Development therefore consists of six components.

- **Highlands North Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands North WEF Phase 1 consisting of up to **17 turbines** with a generating capacity of up to 5 MW each,
 - Electrical Grid Connection and Associated Infrastructure for Highlands North WEF Phase 1;
- **Highlands Central Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands Central WEF Phase 2: up to **14 turbines** with a generating capacity of up to 5 MW each
 - Electrical Grid Connection and Associated Infrastructure for Highlands Central WEF Phase 2;
- **Highlands South Wind Energy Facility (RF) (PTY) Ltd:**
 - Highlands South WEF Phase 3: up to **18 turbines** with a generating capacity of up to 5 MW each;
 - Electrical Grid Connection and Associated Infrastructure for Highlands South WEF Phase 3.

The location of the six components within the Proposed Development Site are presented in Figure 2. The footprint of the combined six development components will only occupy a small portion (approximately 2%) of the land within this boundary, and fall entirely within the REDZ. New regulations in Government Notice No R 114 of 16 February 2018 state that if a large scale wind energy facility falls within a REDZ a basic assessment process is to be followed. Therefore six basic assessment applications for environmental authorisations will be submitted with a combined Public Participation Process (PPP).

Should you have any comments, questions, queries or concerns about the proposed development at any stage of the BA process, please contact Arcus through the following ways (quoting Arcus Reference 2780 Highlands):

Contact: Anja Albertyn
Post: Office 220 Cube Workspace, Cnr Long Street and Hans Strijdom Road, Cape Town, 8001
Telephone: +27 21 412 1529

Email: highlands@arcusconsulting.co.za

14 Junie 2018

Geagte Belanghebbende en Geaffekteerde Party

RE: Aansoek om omgewingsmagtiging vir die voorgestelde Highlands-windkragaanleg en gepaardgaande infrastruktuur in die Oos-Kaap

WKN Windcurrent South Africa (Edms.) Bpk. stel die oprigting van die Highlands-windkragaanleg (WEF) en gepaardgaande infrastruktuur, insluitende netwerkverbindinge (die voorgestelde ontwikkeling), voor. Dit is naby Somerset-Oos in die Oos-Kaap geleë. Die voorgestelde ontwikkelingssterrein is binne die Cookhouse-ontwikkelingsone vir Hernubare Energie (REDZ) geleë (Figuur 1). Die gebied waarna vir ontwikkeling gekyk word binne hierdie sone beslaan ongeveer 9 000 hektaar.

Arcus Consultancy Services South Africa (Edms.) Bpk. ("Arcus") is aangestel as die onafhanklike omgewingsimpak-assesseringspraktisyn (EAP) om die omgewingsimpak-studieproses (EIA) vir omgewingsmagtiging ingevolge Hoofstuk 5 van die Wet op Nasionale Omgewingsbestuur, 1998 (Wet 107 van 1998 - NEMA) soos gewysig, vir die voorgestelde ontwikkeling te onderneem.

U ontvang hierdie aanvalklike kennisgewing omdat u as 'n Belanghebbende en Geaffekteerde Party (B&GP) geïdentifiseer is. Openbare deelname is 'n belangrike deel van die omgewingsmagtigingsproses. Dit bied B&GP's die geleentheid om inligting te verkry, kommentaar te lewer, kwessies wat kommer wek te opper en saam te werk aan die magtigingsproses. Kommentaar, voorstelle en insette van die publiek, saam met spesialiste se assesserings van die verskillende omgewingsimpakte van die projek, sal die Departement van Omgewingsake (DEA) met hul besluitnemingproses help.

Met die oog op die verkryging van omgewingsmagtiging, asook voldoening aan bodvereistes gestel in die Departement van Energie se Aankoopprogram van Hernubare Energie vanaf Onafhanklike Kragprodukte (REIPPPP), is die projek in drie fases verdeel: Noord, Sentraal en Suid. 'n Spesialdoel-instrument (SPY) is vir elk van die drie fases gevorm. Elke fase sal uit twee toepassings, of konstruksieprosesse bestaan: een vir die windkragaanleg en een vir die onderskeie netwerkverbindinge. Die voorgestelde ontwikkeling bestaan dus uit ses komponente.

• **Highlands North Wind Energy Facility (RF) (Edms.) Bpk.:**

- Highlands-Noord WEF Fase 1 bestaande uit tot **17** turbinas met 'n opwekkingsvermoë van tot 5 MW elk;
- Aansluiting by kragnetwerk en gepaardgaande infrastruktuur vir Highlands-Noord WEF Fase 1;

• **Highlands Central Wind Energy Facility (RF) (Edms.) Bpk.:**

- Highlands-Sentraal WEF Fase 2: tot **14** turbinas met 'n opwekkingsvermoë van tot 5 MW elk;
- Aansluiting by kragnetwerk en gepaardgaande infrastruktuur vir Highlands-Sentraal WEF Fase 2;

• **Highlands South Wind Energy Facility (RF) (Edms.) Bpk.:**

- Highlands-Suid WEF Fase 3: tot **18** turbinas met 'n opwekkingsvermoë van tot 5 MW elk;

- Aansluiting by kragnetwerk en gepaardgaande infrastruktuur vir Highlands-Suid WEF Fase 3;

Die ligging van die ses komponente binne die voorgestelde ontwikkelingsperseel word in Figuur 2 aangetoon. Die samevatting voetspoor van die ses ontwikkelingskomponente sal slegs 'n klein gedeelte (ongeveer 2%) van die grond binne hierdie grens beslaan en sal heeltemal binne die REDZ val. Nuwe regulasies gepubliseer in Staatskennisgewing Nr. R 114 van 16 Februarie 2018 verklaar dat 'n basiese assesseringsproses gevolg moet word indien 'n groot windkragaanleg binne 'n REDZ val. Daarom sal ses aansoek om omgewingsmagtiging op grond van basiese assesserings en 'n samevattinglike openbaredeelnamesproses (PPP) ingedien word.

Indien u enige kommentaar, vrae, navrae of kommer oor die voorgestelde ontwikkeling in enige stadium van die BA-proses na vore wil bring, kontak Arcus asseblief op die volgende maniere (met vermelding van die Arcus-verwysing 2780 Highlands):
