**BASIC ASSESSMENTS FOR THE HIGHVELD SOLAR PV FACILITY AND ASSOCIATED GRID CONNECTION SOLUTION,
STILFONTEIN, NORTH WEST PROVINCE
(DFFE Reference Nos.: To be Issued per application)**

Dear Stakeholder and Interested & Affected Party,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility. The grid connection solution will be known as Highveld PV Grid Connection, is required to connect the project/s to the Eskom grid (within a 300m wide corridor approximately 20km in length) and will form part of a separate application for Environmental Authorisation. The projects are situated within the JB Marks Local Municipality and within the Dr Kenneth Kaunda District Municipality.

A Basic Assessment process for the development of the Highveld Solar PV Facility and the Highveld PV Grid Connection is being undertaken by Savannah Environmental in order to obtain Environmental Authorisations (EAs).

Please find attached for your perusal the following documents:

- Background Information Document; and
- Notification of availability of the Basic Assessment Reports.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility and the Highveld PV Grid Connection are available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and written comments can be submitted to Nicolene Venter at publicprocess@savannahsa.com.

Basic Assessment Reports can be downloading from 11 November 202 from our website:

- * Highveld Solar PV Facility: [click here](#)
- * Highveld PV Grid Connection: [click here](#)

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment process.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

01 November 2022

Dear Stakeholder and Interested & Affected Party,

**BASIC ASSESSMENT FOR THE HIGHVELD SOLAR PV FACILITY AND ASSOCIATED GRID CONNECTION SOLUTION,
STILFONTEIN, NORTH WEST PROVINCE
(DFE Reference Nos.: To be Issued)**

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility. The grid connection solution will be known as Highveld PV Grid Connection, is required to connect the project/s to the Eskom grid (within a 300m wide corridor approximately 20km in length) and will form part of a separate application for Environmental Authorisation. The projects are situated within the JB Marks Local Municipality and within the Dr Kenneth Kaunda District Municipality.

The PV facility is located on the Portions 56, 11, and 10 of Farm Rietfontein 388 as well as Remainder of Farm Rietfontein 3. The grid connection infrastructure will include a substation on portions 10 and 56 of the Farm Rietfontein 388, and a power line within a 300m wide and 20km long corridor. The corridor extends between the proposed Highveld Solar PV Facility and a point of connection on the Hermes DS - Potchefstroom DS 1 and Buffels East 1 - Potchefstroom 132kV Feeder lines located east of Khuma and the R502.

The Highveld Solar PV Facility is located within the Klerksdorp Renewable Energy Development Zone (REDZ), the project is therefore subject to a Basic Assessment (BA) process, as well as a shortened timeframe of 57 days for the processing of an Application for Environmental Authorisation in accordance with the EIA Regulations, 2014 (as amended), as well as the GNR 114 as formally gazetted on 16 February 2018. The Highveld PV Grid Connection is located in the Central Corridor of the Strategic Transmission Corridors.

The Basic Assessment (BA) processes for these two Applications are being undertaken in order to obtain Environmental Authorisations (EAs) for the development of the solar PV facility, associated infrastructure and grid connection infrastructure. The public participation process undertaken for both these applications provide the public with an opportunity to comment on the projects.

More technical information is available in the Background Information (BID) attached to this letter.

BASIC ASSESSMENT PROCESSES

In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the Department of Forestry, Fisheries and the Environment (DFFE), as the Competent Authority. In terms of Section 24(5) of NEMA, the EIA Regulations, 2014 (GNR 326), GNR 114 and Listing Notices (GNR 327, GNR 325, and GNR 324), as well as GNR 114 (the site is located within the Klerksdorp REDZ), the application for EAs for the Highveld Solar PV Energy Facility and associated Grid Connection Infrastructure are subject to the completion of the Basic Assessment (BA) processes. The application for EAs is required to be supported by comprehensive, independent environmental studies undertaken in accordance with Appendix 6 of the EIA Regulations, 2014, as amended, and where relevant, in line with the gazetted protocols.

BAs are an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of developments. It also provides an opportunity for the project applicants to be forewarned of potential environmental issues and allows for the resolution of issue(s) identified and reported on as part of the BA processes, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the application for EAs, undertaking the supporting BA processes required to identify and assess potential environmental impacts associated with the projects, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPrs).

PUBLIC PARTICIPATION PROCESS

The sharing of information forms the basis of the public participation process and offers I&APs the opportunity to become actively involved in the BA process. Comments and inputs from I&APs are encouraged to ensure that potential impacts are considered throughout the BA process. The public participation process aims to ensure that:

- » Information containing all relevant facts in respect of the applications are made available to I&APs for review.
- » I&AP participation is facilitated in such a manner that they are provided with reasonable opportunity to comment on the projects.
- » Adequate review period is provided for I&APs to comment on the findings as documented in the Basic Assessment Reports.

You, as a representative for your Department / Organisation / Company, has been identified as a Stakeholder and/or an Interested and Affected Party (I&AP) for these proposed projects.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility and the Highveld PV Grid Connection are available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and can be submitted to Nicolene Venter:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: publicprocess@savannahsa.com

The reports are available for download from the Savannah Environmental website:

- Highveld Solar PV Facility: <https://savannahsa.com/public-documents/energy-generation/>
- Highveld PV Grid Connection: <https://savannahsa.com/public-documents/grid-infrastructure/>

An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Nicolene Venter

BASIC ASSESSMENT FOR THE HIGHVELD SOLAR PV FACILITY NEAR STILFONTEIN, NORTH WEST PROVINCE (DFFE Reference No: to be Issued)

Dear Stakeholders and Interested & Affected Parties,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility and is situated within the JB Marks Local Municipality and within the greater Dr Kenneth Kaunda District Municipality.

The Background Information Document (BID) together with the letter notifying you that the Basic Assessment (BA) Report would be available for your review and comment dated 01 November 2022, has reference. The BID is still available on our website ([click here](#)) and please find attached our BA Report notification letter dated 01 November 2022 for ease of reference.

Please be informed that the availability of the BA Report for the Highveld PV Grid Connection will be communicated in due course.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility is available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and written comments can be submitted to Nicolene Venter at publicprocess@savannahsa.com.

The Basic Assessment Report can be downloading from Savannah Environmental website: [click here](#)

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment process.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

01 November 2022

Dear Stakeholder and Interested & Affected Party,

**BASIC ASSESSMENT FOR THE HIGHVELD SOLAR PV FACILITY AND ASSOCIATED GRID CONNECTION SOLUTION,
STILFONTEIN, NORTH WEST PROVINCE
(DFE Reference Nos.: To be Issued)**

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility. The grid connection solution will be known as Highveld PV Grid Connection, is required to connect the project/s to the Eskom grid (within a 300m wide corridor approximately 20km in length) and will form part of a separate application for Environmental Authorisation. The projects are situated within the JB Marks Local Municipality and within the Dr Kenneth Kaunda District Municipality.

The PV facility is located on the Portions 56, 11, and 10 of Farm Rietfontein 388 as well as Remainder of Farm Rietfontein 3. The grid connection infrastructure will include a substation on portions 10 and 56 of the Farm Rietfontein 388, and a power line within a 300m wide and 20km long corridor. The corridor extends between the proposed Highveld Solar PV Facility and a point of connection on the Hermes DS - Potchefstroom DS 1 and Buffels East 1 - Potchefstroom 132kV Feeder lines located east of Khuma and the R502.

The Highveld Solar PV Facility is located within the Klerksdorp Renewable Energy Development Zone (REDZ), the project is therefore subject to a Basic Assessment (BA) process, as well as a shortened timeframe of 57 days for the processing of an Application for Environmental Authorisation in accordance with the EIA Regulations, 2014 (as amended), as well as the GNR 114 as formally gazetted on 16 February 2018. The Highveld PV Grid Connection is located in the Central Corridor of the Strategic Transmission Corridors.

The Basic Assessment (BA) processes for these two Applications are being undertaken in order to obtain Environmental Authorisations (EAs) for the development of the solar PV facility, associated infrastructure and grid connection infrastructure. The public participation process undertaken for both these applications provide the public with an opportunity to comment on the projects.

More technical information is available in the Background Information (BID) attached to this letter.

BASIC ASSESSMENT PROCESSES

In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the Department of Forestry, Fisheries and the Environment (DFFE), as the Competent Authority. In terms of Section 24(5) of NEMA, the EIA Regulations, 2014 (GNR 326), GNR 114 and Listing Notices (GNR 327, GNR 325, and GNR 324), as well as GNR 114 (the site is located within the Klerksdorp REDZ), the application for EAs for the Highveld Solar PV Energy Facility and associated Grid Connection Infrastructure are subject to the completion of the Basic Assessment (BA) processes. The application for EAs is required to be supported by comprehensive, independent environmental studies undertaken in accordance with Appendix 6 of the EIA Regulations, 2014, as amended, and where relevant, in line with the gazetted protocols.

BAs are an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of developments. It also provides an opportunity for the project applicants to be forewarned of potential environmental issues and allows for the resolution of issue(s) identified and reported on as part of the BA processes, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the application for EAs, undertaking the supporting BA processes required to identify and assess potential environmental impacts associated with the projects, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPrs).

PUBLIC PARTICIPATION PROCESS

The sharing of information forms the basis of the public participation process and offers I&APs the opportunity to become actively involved in the BA process. Comments and inputs from I&APs are encouraged to ensure that potential impacts are considered throughout the BA process. The public participation process aims to ensure that:

- » Information containing all relevant facts in respect of the applications are made available to I&APs for review.
- » I&AP participation is facilitated in such a manner that they are provided with reasonable opportunity to comment on the projects.
- » Adequate review period is provided for I&APs to comment on the findings as documented in the Basic Assessment Reports.

You, as a representative for your Department / Organisation / Company, has been identified as a Stakeholder and/or an Interested and Affected Party (I&AP) for these proposed projects.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility and the Highveld PV Grid Connection are available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and can be submitted to Nicolene Venter:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: publicprocess@savannahsa.com

The reports are available for download from the Savannah Environmental website:

- Highveld Solar PV Facility: <https://savannahsa.com/public-documents/energy-generation/>
- Highveld PV Grid Connection: <https://savannahsa.com/public-documents/grid-infrastructure/>

An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Highveld Solar PV

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

HIGHVELD SOLAR PV FACILITY, STILFONTEIN, NORTH WEST PROVINCE

Applicant: WKN Windcurrent SA (Pty) Ltd

Activity: The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated infrastructure, including:

- Solar PV arrays, modules and mounting structures
- Inverters and transformers
- A Battery Energy Storage System (BESS)
- On-site facility substation
- Cabling between the project components
- Site and internal access roads up to 6m in width, where required
- Temporary and permanent laydown areas and O&M buildings and fencing around the development area.

The Highveld PV Grid Connection is assessed in a separate Basic Assessment Report.

Project Location: ~15km north east of the town of Stilfontein within the JB Marks Local Municipality, and within the greater Dr Kenneth Kaunda District Municipality, North West Province. The project falls within the Klerksdorp REDZ on Portions 10, 11, and 56 of Farm Rietfontein 388 as well as the Remainder of Farm Rietfontein 3.

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Basic Assessment is to be undertaken for the Solar PV Facility. Savannah Environmental is

undertaking the required environmental assessment and public participation process for the project. The application is to be lodged with the Department of Forestry, Fisheries and the Environment (DFFE), as the competent authority.

Basic Assessment Report available for review & comment. The Basic Assessment Report is available for download by selecting the **VIEW DOWNLOAD PAGE** below. The 30-day review & comment period for the Basic Assessment Report is from **11 November 2022** to **12 December 2022**. The final day for written comments to be submitted is **12 December 2022**.

To obtain further information and register on the project database and submit comments or queries, please refer to the contact information:

BASIC ASSESSMENTS FOR THE HIGHVELD SOLAR PV FACILITY AND ASSOCIATED GRID CONNECTION SOLUTION, STILFONTEIN, NORTH WEST PROVINCE (DFFE Reference Nos.: To be Issued per application)

Dear Stakeholder and Interested & Affected Party,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility. The grid connection solution will be known as Highveld PV Grid Connection, is required to connect the project/s to the Eskom grid (within a 300m wide corridor approximately 20km in length) and will form part of a separate application for Environmental Authorisation. The projects are situated within the JB Marks Local Municipality and within the Dr Kenneth Kaunda District Municipality.

A Basic Assessment process for the development of the Highveld Solar PV Facility and the Highveld PV Grid Connection is being undertaken by Savannah Environmental in order to obtain Environmental Authorisations (EAs).

Please find attached for your perusal the following documents:

- Background Information Document; and
- Notification of availability of the Basic Assessment Reports.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility and the Highveld PV Grid Connection are available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and written comments can be submitted to Nicolene Venter at publicprocess@savannahsa.com.

Basic Assessment Reports can be downloading from 11 November 202 from our website:

- * Highveld Solar PV Facility: [click here](#)
- * Highveld PV Grid Connection: [click here](#)

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment process.

Kind regards,

**BASIC ASSESSMENTS FOR THE HIGHVELD SOLAR PV FACILITY AND ASSOCIATED GRID CONNECTION SOLUTION,
STILFONTEIN, NORTH WEST PROVINCE
(DFFE Reference Nos.: To be Issued per application)**

Dear Sibusiso,

Thank you for your phone call this morning in response to the advertisement published in the Klerksdorp Record today.

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility. The grid connection solution will be known as Highveld PV Grid Connection, is required to connect the project/s to the Eskom grid (within a 300m wide corridor approximately 20km in length) and will form part of a separate application for Environmental Authorisation. The projects are situated within the JB Marks Local Municipality and within the Dr Kenneth Kaunda District Municipality.

A Basic Assessment process for the development of the Highveld Solar PV Facility and the Highveld PV Grid Connection is being undertaken by Savannah Environmental in order to obtain Environmental Authorisations (EAs).

Please find attached for your perusal the following documents:

- Background Information Document; and
- Notification of availability of the Basic Assessment Report.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility is available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and written comments can be submitted to Nicolene Venter at publicprocess@savannahsa.com.

Basic Assessment Reports can be downloading from 11 November 202 from our website: [click here](#)

Please do not hesitate to contact us should you require any additional information and/or clarification regarding this project.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment process.

**BASIC ASSESSMENT FOR THE HIGHVELD SOLAR PV FACILITY NEAR STILFONTEIN, NORTH WEST PROVINCE
(DFFE Reference No: to be Issued)**

Dear Stakeholders and Interested & Affected Parties,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 240MW and associated grid connection infrastructure is proposed by WKN Windcurrent SA (Pty) Ltd on a site located approximately ~15km north east of Stilfontein in the North West Province. The solar PV development will be known as the Highveld Solar PV Facility and is situated within the JB Marks Local Municipality and within the greater Dr Kenneth Kaunda District Municipality.

The Background Information Document (BID) together with the letter notifying you that the Basic Assessment (BA) Report would be available for your review and comment dated 01 November 2022, has reference. The BID is still available on our website ([click here](#)) and please find attached our BA Report notification letter dated 01 November 2022 for ease of reference.

Please be informed that the availability of the BA Report for the Highveld PV Grid Connection will be communicated in due course.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

The Basic Assessment Report for the Highveld Solar PV Facility is available for a 30-day review and comment period from **11 November 2022** until **12 December 2022**. The due date for written comment is **12 December 2022**, and written comments can be submitted to Nicolene Venter at publicprocess@savannahsa.com.

The Basic Assessment Report can be downloading from Savannah Environmental website: [click here](#)

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment process.

Kind regards,
