

IMPACT PHASE

NOTIFICATION OF AVAILABILITY OF EIARs FOR REVIEW
AND COMMENT

DEPARTMENT OF AGRICULTURE, FORESTRY AND
FISHERIES

04 April 2019

Mr Mashudu Marubini
Ministerial Delegate
Department of Agriculture, Forestry & Fisheries
Delpen Building
C/o Annie Botha & Union Streets
PRETORIA

By Courier Services

Dear Mr Marubini

**HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED INFRASTRUCTURE,
KATHU, NORTHERN CAPE PROVINCE
(DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109 & DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110)**

NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW

The development of two (2) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated approximately 16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities are called:

- » Hyperion Solar Development 1; and
- » Hyperion Solar Development 2;

This letter serves to inform you that the Environmental Impact Assessment Reports (EIARs) are available for your Department's review and written comments, and a CD containing the EIARs is included in this envelope.

Please note that the EIARs review period is from **Friday, 5 April 2019** to **Friday, 10 May 2019** and we are looking forward receiving your Department's written comment on the EIARs before or on the closing date of the review period.

Kind regards

NICOLENE VENTER
Public Participation and Social Consultant
E-mail: publicprocess@savannahsa.com

NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW

The development of two (2) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated approximately 16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities are called:

- » Hyperion Solar Development 1; and
- » Hyperion Solar Development 2;

This letter serves to inform you that the Environmental Impact Assessment Reports (EIARs) are available for your Organisation's review and written comments, and a CD containing the EIARs is included in this envelope.

Please note that the EIARs review period is from **Friday, 5 April 2019** to **Friday, 10 May 2019** and we are looking forward receiving your Organisation's written comment on the EIARs before or on the closing date of the review period.

Kind regards

NOTIFICATION OF AVAILABILITY OF EIARs FOR REVIEW
AND COMMENT and INVITATION TO PUBLIC MEETING

Sent to all registered Organs of State on project database

03 April 2019

Dear Interested and Affected Party,

ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED INFRASTRUCTURE, KATHU, NORTHERN CAPE PROVINCE

DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109

DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110

NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT and INVITATION TO PUBLIC MEETING

The development of two (2) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated approximately 16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities are called:

- » Hyperion Solar Development 1; and
- » Hyperion Solar Development 2;

The two (2) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are detailed below:

Applicant:	Project Name:	Contracted Capacity:
Hyperion Solar Development 1 (Pty) Ltd	Hyperion Solar Development 1	75MW
Cyraguard (Pty) Ltd	Hyperion Solar Development 2	75MW

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTs FOR REVIEW AND COMMENT

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Environmental Impact Assessment Reports (EIARs) for the above-mentioned two (2) projects are available for your review and comment. The Reports can be viewed at the Kathu Public Library, 1 Hendrik van Eck Road, Kathu from **Friday, 05 April 2019 to Friday, 10 May 2019.**

The Reports can also be downloaded from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>). A Release Code to access the Reports can be requested from the contact person below.

Please submit written comment on the EIARs by **Friday, 10 May 2019** via fax, post or email to the contact person below. All comments received during this 30-day review period will be recorded and included in the Final EIARs for submission to the National DEA in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GN R326).

INVITATION TO PUBLIC MEETING

This letter also serves to invite you to attend the public meeting to be held as follows:

DATE: Tuesday, 09 April 2019

TIME: 18h00 (registration from 17h30)

VENUE: Gamagara Hall, Cnr Hendrik van Eck Road and Frikkie Meyer Street, Kathu

The purpose of inviting the public meeting is to present the following:

- brief background to the proposed projects;
- an overview of the Environmental Impact Assessment process followed;
- summary of the key environmental findings as documented in the Environmental Impact Assessment Report;
- an opportunity to seek clarity and raise comments; and
- an opportunity to liaise with the project team members.

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Nicolene Venter

From: Gamagara Local Municipality
Sent: Wednesday, September 19, 2018 2:43 AM
To: nicolene@savannahsa.com
Subject: Copy of: Request for Head of Departments Contact Details

This is a copy of the following message you sent to Website Master via Gamagara Local Municipality

This is an enquiry email via <http://www.gamagara.gov.za/> from:
Nicolene Venter <nicolene@savannahsa.com>

Dear Sir / Madam,

Savannah Environmental has been appointed as the independent Environmental Assessment Practitioner to conduct the Environmental Impact Assessment for four (4) proposed Hyperion PV Solar Energy Projects near Kathu, Northern Cape Province.

It will be greatly appreciated if you can forward us the names and contact details (telephone numbers & e-mail addresses) of the various Head of Department / Departmental Managers of Gamagara Local Municipality i.e.:

- Planning Department
- Local Economic Development Department
- Environmental
- Waste
- Roads and Infrastructure
- Technical
- Electricity
- etc.

Information regarding the Ward Councillors (names & contact details - telephone numbers & e-mail addresses) would also be appreciated.

According to the EIA Regulations these are the stakeholders whom we need to notify of the proposed project within Gamagara Local Municipality.

Kind regards
Nicolene Venter
Public Participation Practitioner
Hyperion PV EIAs

NOTIFICATION OF ENVIRONMENTAL IMPACT
ASSESSMENT PROCESS AND PUBLIC
PARTICIPATION PROCESS

21 September 2018

Dear Stakeholder

ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

HYPERION SOLAR DEVELOPMENTS AND ASSOCIATED INFRASTRUCTURE, NORTHERN CAPE PROVINCE

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed solar energy facilities fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities will be called:

- » Hyperion Solar Development 1
- » Hyperion Solar Development 2
- » Hyperion Solar Development 3
- » Hyperion Solar Development 4

Each of the four (4) SEFS will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle (SPV)) as the applicant for each project. The projects are detailed below:

Applicant:	Project Name:	Contracted Capacity:
Hyperion Solar Development 1 (Pty) Ltd	Hyperion Solar Development 1	75MW
Cyraguard (Pty) Ltd	Hyperion Solar Development 2	75MW
Nomispark (Pty) Ltd	Hyperion Solar Development 3	75MW
Nomispan (Pty) Ltd	Hyperion Solar Development 4	75MW

Infrastructure associated with each solar energy facility will include:

- » Arrays of PV panels (static and tracking PV system) with a contracted capacity of up to 75MW.
- » Mounting structures to support the PV panels.
- » Cabling between the project components, to be laid underground where practical.
- » On-site inverters to convert the power from a direct current to an alternating current.
- » An on-site substation to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV overhead power line (OHPL) between the on-site substation and the existing Ferrum Substation¹.
- » Battery storage mechanism with a storage capacity of up to 300MWh.
- » Water purification plant.
- » Site Offices and Maintenance Buildings, including workshop areas for maintenance and storage.
- » Batching plant.
- » Temporary laydown areas.
- » Internal access roads and fencing around the development area.

The applicant is also proposing the following:

- » Alternative 1 - Upgrade approximately 3,6km of the T26 gravel road between the project site and the N14; or
- » Alternative 2 - The construction of a new access road and the formalisation of an informal access road between the project site and the T25 gravel road, approximately 5km in length.

It is the developer's intention to bid each solar energy facility under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from each solar energy facility will be sold to Eskom and will feed into the national electricity grid. The development of the facilities will also assist with the achievement of the electricity goals as set out in the Integrated Resources Plan (IRP).

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

Four (4) separate applications for Environmental Authorisation (EA) will be submitted for each of the proposed Hyperion Solar developments to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. The Northern Cape Department of Environment and Nature Conservation (NC DENC) is the Commenting Authority for these applications.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking the impact assessment processes (Scoping and EIA), in order to identify and assess all potential environmental impacts associated with the project for the area as identified, and recommend appropriate mitigation and management

¹ The construction of the 132kV overhead power line will be assessed as part of a separate Basic Assessment process which will consider feasible alternatives for the power line route.

measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

The department and/or the organisation which you represent has been identified as a commenting authority for the proposed Hyperion Solar Developments. In this regard, please can you provide us with the name and contact details of the relevant contact person at your department who we would liaise with regarding this project. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and Input into the EIA processes.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the proposed project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Rozanne Els

Hyperion Solar Development 1

Hyperion Solar Development 1.

Project Name: Hyperion Solar Development 1

Applicant: Hyperion Solar Development 1 (Pty) Ltd

Proposed Activity: The construction of a photovoltaic (PV) solar energy facility (SEF) with a contracted capacity of up to 75MW. The development footprint will be ~180ha and will include the following infrastructure:

savannahsa.com - Array of PV panels with a capacity of up to 75MW

<http://www.savannahsa.com/public-documents/energy-generation/hyperion-solar-development-1/>

Hyperion Solar Development 2

Hyperion Solar Development 2.

Project Name: Hyperion Solar Development 2

Applicant: Cyraguard (Pty) Ltd

Proposed Activity: The construction of a photovoltaic (PV) solar energy facility (SEF) with a contracted capacity of up to 75MW. The development footprint will be ~180ha

<http://www.savannahsa.com/public-documents/energy-generation/hyperion-solar-development-2/>

Hyperion Solar Development 3

Hyperion Solar Development 3

Project Name: Hyperion Solar Development 3

Applicant: Nomispark (Pty) Ltd

Proposed Activity: The construction of a photovoltaic (PV) solar energy facility (SEF) with a contracted capacity of up to 75MW. The development footprint will be ~180ha

<http://www.savannahsa.com/public-documents/energy-generation/hyperion-solar-development-3/>

Hyperion Solar Development 4

Hyperion Solar Development 4.

Project Name: Hyperion Solar Development 4

Applicant: Nomispark (Pty) Ltd

Proposed Activity: The construction of a photovoltaic (PV) solar energy facility (SEF) with a contracted capacity of up to 75MW. The development footprint will be ~180ha

NOTIFICATION OF SCOPING REPORT FOR
PUBLIC REVIEW AND COMMENT

25 October 2018

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENT AND
 PUBLIC PARTICIPATION PROCESS**

**HYPERION SOLAR DEVELOPMENTS AND ASSOCIATED INFRASTRUCTURE,
 NORTHERN CAPE PROVINCE**

NOTIFICATION OF AVAILABILITY OF SCOPING REPORTS FOR REVIEW

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities will be called:

- » Hyperion Solar Development 1;
- » Hyperion Solar Development 2;
- » Hyperion Solar Development 3; and
- » Hyperion Solar Development 4.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are detailed below:

Applicant:	Project Name:	Contracted Capacity:
Hyperion Solar Development 1 (Pty) Ltd	Hyperion Solar Development 1	75MW
Cyraguard (Pty) Ltd	Hyperion Solar Development 2	75MW
Nomispark (Pty) Ltd	Hyperion Solar Development 3	75MW
Nomispan (Pty) Ltd	Hyperion Solar Development 4	75MW

Infrastructure associated with each solar energy facility will include:

- » Arrays of PV panels (static and tracking PV system) with a contracted capacity of up to 75MW.
- » Mounting structures to support the PV panels.
- » Cabling between the project components, to be laid underground where practical.
- » On-site inverters to convert the power from a direct current to an alternating current.
- » An on-site substation to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV overhead power line between the on-site substation and the existing Ferrum Substation¹.
- » Battery storage mechanism with a storage capacity of up to 300MWh.
- » Water purification plant.
- » Site Offices and Maintenance Buildings, including workshop areas for maintenance and storage.
- » Batching plant.
- » Temporary laydown areas.
- » Internal access roads and fencing around the development area.

For each facility, the applicant is also proposing an access road to the project site. Two alternatives will be assessed:

- » Alternative 1 - Upgrade approximately 3,6km of the T26 gravel road between the project site and the N14; or
- » Alternative 2 - The construction of a new access road and the formalisation of an informal access road between the project site and the T25 gravel road, approximately 5km in length.

It is the developer's intention to bid each SEF under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from each SEF will be sold to Eskom and will feed into the national electricity grid. The development of the facilities will also assist with the achievement of the electricity goals as set out in the current Integrated Resources Plan.

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

Four (4) separate applications for Environmental Authorisation will be submitted for each of the proposed Hyperion Solar developments to the National Department of Environmental Affairs as the Competent Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. The Northern Cape Department of Environment and Nature Conservation is the Commenting Authority for these applications.

¹ The construction of the 132kV overhead power line will be assessed as part of a separate Basic Assessment process which will consider feasible alternatives for the power line route.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner, responsible for undertaking the impact assessment processes (Scoping and EIA phases), in order to identify and assess all potential environmental impacts associated with the project for the area as identified and recommend appropriate mitigation and management measures in an Environmental Management Programme. As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

AVAILABILITY OF SCOPING REPORTS FOR REVIEW

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Scoping Reports are available for review and comment. The reports can be viewed at the Kathu Public Library (1 Hendrik van Eck Road, Kathu, Northern Cape Province) from **Friday, 26 October 2018** to **Monday, 26 November 2018**. The reports can also be downloaded from the following website: www.savannahsa.com. A password to access the downloads page can be requested from the contact person below.

Please submit written comment on the Scoping Reports by **Monday, 26 November 2018** via fax, post or email to the contact person below. All comments received during this 30-day review period will be recorded and included in the Final Scoping Reports for submission to the National DEA in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GN R326). Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

HYPERION SOLAR DEVELOPMENT 2, NORTHERN CAPE PROVINCE

SCOPING REPORT FOR PUBLIC REVIEW

Savannah Environmental has been appointed to undertake the Environmental Impact Assessment process for the Hyperion Solar Development 2 situated on a site approximately 16km north of the town of Kathu, Northern Cape Province.

Please find herewith attached the Scoping Report (2 hard copies and 1 USB) for public review and a new application form. The electronic copy of the application for Environmental Authorisation is included on the USB. The 30-day review period for the report is from **26 October 2018 – 26 November 2018.** Please submit your written comments by **26 November 2018.**

Please contact me with any queries in this regard, and advise should the Department require any additional information pertaining to this project.

Kind regards

THALITA BOTHA

PER EMAIL / MAIL

Dear Sir/Madam

ACKNOWLEDGEMENT OF RECEIPT OF THE NEW APPLICATION FOR ENVIRONMENTAL AUTHORISATION (ENVIRONMENTAL IMPACT ASSESSMENT PROCESS) AND SCOPING REPORT FOR THE PHOTOVOLTAIC SOLAR ENERGY FACILITY FOR THE PROPOSED HYPERION SOLAR DEVELOPMENT 2, NORTHERN CAPE PROVINCE

The Department confirms having received the Application and draft Scoping Report for Environmental Authorisation for the abovementioned project on 26 October 2018. We further confirm that you have submitted these documents to comply with the National Environmental Management Act, 1998 (Act No. 107 of 1998) Environmental Impact Assessment Regulations, 2014 published under Government Notice R982 in Government Gazette No. 38282 dated 04 December 2014, as amended ('the EIA Regulations, 2014').

Please take note of Regulation 40(3) of the EIA Regulations, 2014 which states that potential interested & Affected Parties, including the Competent Authority, may be provided with an opportunity to comment on reports and plans contemplated in Regulation 40(1) of the EIA Regulations, 2014, prior to the submission of an application but must be provided an opportunity to comment on such reports once an application has been submitted to the Competent Authority.

Note that in terms of Regulation 45 of the EIA Regulations, 2014 this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted by the Department in terms of Regulation 3(7) of the EIA Regulations, 2014.

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Office Hours which is visible on the Departmental gate. EIA related documents (includes application forms, reports or any EIA related submissions) that are faxed; emailed; delivered to Security or placed in the Departmental Tender Box will not be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

Mr Sabelo Malaza

Chief Director: Integrated Environmental Authorisations

Department of Environmental Affairs

Letter signed by: Ms Azrah Essop

Per Courier

Dear Mr Jansen,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
HYPERION SOLAR DEVELOPMENT 1, 2, 3 and 4 AND ASSOCIATED INFRASTRUCTURES NEAR KATHU,
NORTHERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF THE SCOPING REPORTS FOR REVIEW AND WRITTEN COMMENTS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are:

Project Name:	Applicant:
Hyperion Solar Development 1	Hyperion Solar Development 1 (Pty) Ltd
Hyperion Solar Development 2	Cyraguard (Pty) Ltd
Hyperion Solar Development 3	Nomispank (Pty) Ltd
Hyperion Solar Development 4	Nomispan (Pty) Ltd

This letter serves to inform you that the Scoping Reports (SRs) are available for your Organisation's review and written comments, and a CD containing the SRs is included in this envelope.

Please note that the SRs' review period is from **Friday, 26 October 2018** to **Monday, 26 November 2018** and we are looking forward receiving your Organisation's written comment on the SRs before or on the closing date of the review period.

Kind regards

PROOF OF DELIVERY

25 October 2018

Mr Pheladi Masipa
Acting Project Manager: Renewable energy Initiatives
Department of Energy
192 Visagie Street
PRETORIA 0002

Per Courier

Dear Mr Masipa,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
HYPERION SOLAR DEVELOPMENT 1, 2, 3 and 4 AND ASSOCIATED INFRASTRUCTURES NEAR KATHU,
NORTHERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF THE SCOPING REPORTS FOR REVIEW AND WRITTEN COMMENTS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are:

Project Name:	Applicant:
Hyperion Solar Development 1	Hyperion Solar Development 1 (Pty) Ltd
Hyperion Solar Development 2	Cyraguard (Pty) Ltd
Hyperion Solar Development 3	Nomispan (Pty) Ltd
Hyperion Solar Development 4	Nomispan (Pty) Ltd

This letter serves to inform you that the Scoping Reports (SRs) are available for your Department's review and written comments, and a CD containing the SRs is included in this envelope.

Please note that the SRs' review period is from **Friday, 26 October 2018** to **Monday, 26 November 2018** and we are looking forward receiving your Department's written comment on the SRs before or on the closing date of the review period.

Kind regards

Nicolene Venter

PROOF OF DELIVERY

25 October 2018

Mr John Geeringh
Senior Environmental Manager
Eskom Holdings SOC Ltd
Maxwell Office Park
SUNNINGHILL

Collect at Savannah Environmental

Dear Mr Geeringh,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
HYPERION SOLAR DEVELOPMENT 1, 2, 3 and 4 AND ASSOCIATED INFRASTRUCTURES NEAR KATHU,
NORTHERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF THE SCOPING REPORTS FOR REVIEW AND WRITTEN COMMENTS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are:

Project Name:	Applicant:
Hyperion Solar Development 1	Hyperion Solar Development 1 (Pty) Ltd
Hyperion Solar Development 2	Cyraguard (Pty) Ltd
Hyperion Solar Development 3	Nomispark (Pty) Ltd
Hyperion Solar Development 4	Nomispan (Pty) Ltd

This letter serves to inform you that the Scoping Reports (SRs) are available for your Company's review and written comments, and a CD containing the SRs is included in this envelope.

Please note that the SRs' review period is from **Friday, 26 October 2018** to **Monday, 26 November 2018** and we are looking forward receiving your Company's written comment on the SRs before or on the closing date of the review period.

Kind regards

Dear Lieutenant Colonel Zondi,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
HYPERION SOLAR DEVELOPMENT 1, 2, 3 and 4 AND ASSOCIATED INFRASTRUCTURES NEAR KATHU,
NORTHERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF THE SCOPING REPORTS FOR REVIEW AND WRITTEN COMMENTS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are:

Project Name:	Applicant:
Hyperion Solar Development 1	Hyperion Solar Development 1 (Pty) Ltd
Hyperion Solar Development 2	Cyraguard (Pty) Ltd
Hyperion Solar Development 3	Nomispark (Pty) Ltd
Hyperion Solar Development 4	Nomispan (Pty) Ltd

This letter serves to inform you that the Scoping Reports (SRs) are available for your Department's review and written comments, and a CD containing the SRs is included in this envelope.

Please note that the SRs' review period is from **Friday, 26 October 2018** to **Monday, 26 November 2018** and we are looking forward receiving your Department's written comment on the SRs before or on the closing date of the review period.

Dear Lebo,

I recall our earlier conversation per telephone.

We would like to arrange a meeting with the Municipal manager and other officials on the 9th of November 2018 at 09h00. Kindly confirm if this will be suitable ? Also if you could please arrange for the venue to take place at the Municipalities boardroom/chambers.

I will send a formal invitation with all the information by the end of the week.

Also, please could you provide me with your details so that I can update the project database ? we have the Municipal Manager's secretary as Ingrid de Koker.

Dear Mr Msimanga,

I can confirm that I discussed the distribution of Environmental Impact Assessment and Basic Assessment Reports to the Department of Water and Sanitation (DWS): Northern Cape Province, with Mr Abe Abrahams.

It was confirmed that all Reports must please be addressed and sent to his Office and from there he will allocate it to the relevant DWS Case Officer and should DWS National needs a copy, he will send it to them.

I will be in contact with Mr Abrahams' Office on Monday to follow-up on the matter and will revert to you soon thereafter.

Kind regards,

Nicolene Venter

Dear Stakeholder,

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities will be called Hyperion Solar Development 1, 2, 3 and 4.

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Scoping Report is available for review and comment. The report can be viewed at the Kathu Public Library (1 Hendrik van Eck Road, Kathu, Northern Cape Province) from **Friday, 26 October 2018 to Monday, 26 November 2018**. The report can also be downloaded from the following website: www.savannahsa.com. A password to access the downloads page can be requested from the contact person below.

Please refer to the attached notification letter for further information.

Kind regards,

Rozanne Els

Dear Mr Mahunoyane,

Mr Abe Abrahams directected me to you regarding the proposed four (4) Hyperion Solar PVs located near Kathu (Lower Vaal Catchment Area), Northern Cape Province.

The hard copies of the Scoping Reports were addressed to Mr Abrahams, as informed, and it is believed that your Registry receive these Reports and allocate it to the relevant Case Officer.

I would be appreciated if you can confirm whether you are the Case Officer for this proposed projects and who will be commenting on the Scoping Reports.

We are looking forward to hear from you.

Eskom requirements for work in or near Eskom servitudes.

1. Eskom's rights and services must be acknowledged and respected at all times.
2. Eskom shall at all times retain unobstructed access to and egress from its servitudes.
3. Eskom's consent does not relieve the developer from obtaining the necessary statutory, land owner or municipal approvals.
4. Any cost incurred by Eskom as a result of non-compliance to any relevant environmental legislation will be charged to the developer.
5. If Eskom has to incur any expenditure in order to comply with statutory clearances or other regulations as a result of the developer's activities or because of the presence of his equipment or installation within the servitude restriction area, the developer shall pay such costs to Eskom on demand.
6. The use of explosives of any type within 500 metres of Eskom's services shall only occur with Eskom's previous written permission. If such permission is granted the developer must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process. It is advisable to make application separately in this regard.
7. Changes in ground level may not infringe statutory ground to conductor clearances or statutory visibility clearances. After any changes in ground level, the surface shall be rehabilitated and stabilised so as to prevent erosion. The measures taken shall be to Eskom's satisfaction.
8. Eskom shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the developer, his/her agent, contractors, employees, successors in title, and assignees. The developer indemnifies Eskom against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom's services or apparatus or otherwise. Eskom will not be held responsible for damage to the developer's equipment.
9. No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom's apparatus and/or services, without prior written permission having been granted by Eskom. If such permission is granted the developer must give at least seven working days' notice prior to the commencement of work. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued by the relevant Eskom Manager

Note: Where and electrical outage is required, at least fourteen work days are required to arrange it.

10. Eskom's rights and duties in the servitude shall be accepted as having prior right at all times and shall not be obstructed or interfered with.
11. Under no circumstances shall rubble, earth or other material be dumped within the servitude restriction area. The developer shall maintain the area concerned to Eskom's satisfaction. The developer shall be liable to Eskom for the cost of any remedial action which has to be carried out by Eskom.
12. The clearances between Eskom's live electrical equipment and the proposed construction work shall be observed as stipulated by *Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)*.
13. Equipment shall be regarded electrically live and therefore dangerous at all times.
14. In spite of the restrictions stipulated by Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993), as an additional safety precaution, Eskom will not approve the erection of houses, or structures occupied or frequented by human beings, under the power lines or within the servitude restriction area.
15. Eskom may stipulate any additional requirements to highlight any possible exposure to Customers or Public to coming into contact or be exposed to any dangers of Eskom plant.
16. It is required of the developer to familiarise himself with all safety hazards related to Electrical plant.
17. Any third party servitudes encroaching on Eskom servitudes shall be registered against Eskom's title deed at the developer's own cost. If such a servitude is brought into being, its existence should be endorsed on the Eskom servitude deed concerned, while the third party's servitude deed must also include the rights of the affected Eskom servitude.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

EXECUTIVE SUMMARY

In recent decades, the use of wind turbines, concentrated solar plants and photovoltaic plants have been on the increase as it serves as an abundant source of energy. This document specifies setbacks for wind turbines and the reasons for these setbacks from infrastructure as well as setbacks for concentrated solar plants and photovoltaic plants. Setbacks for wind turbines employed in other countries were compared and a general setback to be used by Eskom was suggested for use with wind turbines and other renewable energy generation plants.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

1. INTRODUCTION

During the last few decades, a large amount of wind turbines have been installed in wind farms to accommodate for the large demand of energy and depleting fossil fuels. Wind is one of the most abundant sources of renewable energy. Wind turbines harness the energy of this renewable resource for integration in electricity networks. The extraction of wind energy is its primary function and thus the aerodynamics of the wind turbine is important. There are many different types of wind turbines which will all exhibit different wind flow characteristics. The most common wind turbine used commercially is the Horizontal Axis Wind Turbine. Wind flow characteristics of this turbine are important to analyse as it may have an effect on surrounding infrastructure.

Wind turbines also cause large turbulence downwind that may affect existing infrastructure. Debris or parts of the turbine blade, in the case of a failure, may be tossed behind the turbine and may lead to damage of infrastructure in the wake path.

This document outlines the minimum distances that need to be introduced between a wind turbine and Eskom infrastructure to ensure that debris and / or turbulence would not negatively impact on the infrastructure.

Safety distances of wind turbines from other structures as implemented by other countries were also considered and the reasons for their selection were noted.

Concentrated solar plants and photovoltaic plants setbacks away from substations were also to be considered to prevent restricting possible power line access routes to the substation.

2. SUPPORTING CLAUSES

2.1 SCOPE

This document provides guidance on the safe distance that a wind turbine should be located from any Eskom power line or substation. The document specifies setback distances for transmission lines (220 kV to 765 kV), distribution lines (6.6 kV to 132 kV) and all Eskom substations. Setbacks for concentrated solar plants and photovoltaic plants are also specified away from substations.

2.1.1 Purpose

Setbacks for wind turbines and power lines / substations are required for various reasons. These include possible catastrophic failure of the turbine blade that may release fragments and which may be thrown onto nearby power lines that may result in damage with associated unplanned outages. Turbulence behind the turbine may affect helicopter flight during routine Eskom live line maintenance and

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

inspections that may lead to safety risk of the aircraft / personnel. Concentrated solar plants and photovoltaic plants setback away from substations were required to prevent substations from being boxed in by these renewable generation plants limiting line route access to the substations.

2.1.2 Applicability

This document is applicable to the siting of all new and existing wind turbines, concentrated solar plants and photovoltaic plants near power lines and substations.

2.2 NORMATIVE/INFORMATIVE REFERENCES

2.2.2 Informative

None

2.3 DEFINITIONS

Definition	Description
Setback	The minimum distance between a wind turbine and boundary line/dwelling/road/infrastructure/servitude etc.
Flicker	Effect caused when rotating wind turbine blades periodically cast shadows
Tip Height	The total height of the wind turbine ie. Hub height plus half rotor diameter (see Figure1)

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

2.3.1 Disclosure Classification

Controlled disclosure: controlled disclosure to external parties (either enforced by law, or discretionary).

2.4 ABBREVIATIONS

Abbreviation	Description
None	

2.5 ROLES AND RESPONSIBILITIES

All personnel involved in the positioning wind turbines, concentrated solar plants and photovoltaic plants near power lines/substations must follow the setbacks outlined in this guideline.

2.6 PROCESS FOR MONITORING

Approval by Eskom in writing.

2.7 RELATED/SUPPORTING DOCUMENTS

None

3. DOCUMENT CONTENT

3.1 INTERNATIONAL SETBACK COMPARISON

Wind Turbine setbacks employed by various countries were considered. It was found that setbacks were determined for various reasons that include noise, flicker, turbine blade failure and wind effects. The distances (setbacks) varied based on these factors and were influenced by the type of infrastructure

Wind turbine setbacks varied for roads, power lines, dwellings, buildings and property and it was noted that the largest setbacks were employed for reasons of noise and flicker related issues [1-7]. Very few countries specified setbacks for power lines.

The literature survey [1-7], yielded information about studies and experiments were conducted to determine the distance that a broken fragment from a wind turbine might be thrown. Even though of low probability of hitting a power line [5.0×10^{-5}]^[8], the distances recorded were significant [750m]^[8]

Setbacks were thus introduced to prevent any damage to Eskom infrastructure.

CONTROLLED DISCLOSURE

Wind turbines may also cause changes in wind patterns with turbulent effects behind the hub. These factors dictate the wind turbine setbacks specified in this document.

Concentrated solar plants and photovoltaic plants also can limit access into the substation for power lines of all voltages. A setback distance must therefore be employed to prevent the substation from being boxed in by these generation plants. These setback distances are specified in this document.

3.2 ESKOM REQUIRED SETBACKS

- Eskom requires a setback distance of 3 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for transmission lines.
- Eskom requires a setback distance of 1 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for distribution Lines.
- Eskom must be informed of any proposed wind turbine, concentrated solar plants and photovoltaic activity within a 5 km radius of a substation. No wind turbine structure shall be built within a 2 km radius of the closest point of the substation. Where concentrated solar plants and photovoltaic structures fall within a 2 km radius of the closest point of a substation, Eskom should be informed in writing during the planning phase of the construction of such plant or structure.
- Applicants must show that Eskom radio telecommunication systems (mainly microwave systems) will not be affected in any way by wind turbines.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

Dear Nicol,

With reference to the attached notification letter in regards to the Hyperion Solar Development projects, we noted that we have not yet received written comment on the Scoping Report for public review from AgriSa.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Monday, 26 November 2018.**

It would be appreciated if you can submit written comment before or on **Monday, 26 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Kind regards,

Savannah Environmental Public Process

Dear Stanley,

With reference to the attached notification letter in regards to the Hyperion Solar Development projects, we noted that we have not yet received written comment on the Scoping Report for public review from the Department of Environmental Affairs: Biodiversity.

This was the last project submitted to DEA: Biodiversity for attention to Wilma Lutch. With reference to my email confirming that you are the relevant person, we will make sure to address all future projects to you.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Monday, 26 November 2018.**

It would be appreciated if you can submit written comment before or on **Monday, 26 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Kind regards,

Dear Jay-Jay

Please note that we are awaiting comments from the Department for project reference: 14/12/16/3/3/2/1112 (Hyperion Solar Development 4) from the Department. Importantly, note that the comment period has ended as of 26 November 2018.

We have checked with EIA admin who have referred us to you as the case officer.

Kindly advise when these can be received.

We look forward to your soonest response.

Good morning Nicolene Venter

Just ignore the letters that were signed on the **21/11/2018**, there was mistakes with the footer. Our admin office did not see that those letters were amended. Therefore the correct letters should have the date of the 26/11/2018.

Hope you will find this in order,

Best regards
Aron
