

25 October 2018

Mr Pheladi Masipa
Acting Project Manager: Renewable energy Initiatives
Department of Energy
192 Visagie Street
PRETORIA 0002

Per Courier

Dear Mr Masipa,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
HYPERION SOLAR DEVELOPMENT 1, 2, 3 and 4 AND ASSOCIATED INFRASTRUCTURES NEAR KATHU,
NORTHERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF THE SCOPING REPORTS FOR REVIEW AND WRITTEN COMMENTS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are:

Project Name:	Applicant:
Hyperion Solar Development 1	Hyperion Solar Development 1 (Pty) Ltd
Hyperion Solar Development 2	Cyraguard (Pty) Ltd
Hyperion Solar Development 3	Nomispan (Pty) Ltd
Hyperion Solar Development 4	Nomispan (Pty) Ltd

This letter serves to inform you that the Scoping Reports (SRs) are available for your Department's review and written comments, and a CD containing the SRs is included in this envelope.

Please note that the SRs' review period is from **Friday, 26 October 2018** to **Monday, 26 November 2018** and we are looking forward receiving your Department's written comment on the SRs before or on the closing date of the review period.

Kind regards

Nicolene Venter
Public Participation and Social Consultant
Savannah Environmental

ARCADIA 0083

Per Courier

Dear Mr Timothy,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
HYPERION SOLAR DEVELOPMENT 1, 2, 3 and 4 AND ASSOCIATED INFRASTRUCTURES NEAR KATHU,
NORTHERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF THE SCOPING REPORTS FOR REVIEW AND WRITTEN COMMENTS

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality.

Each of the four (4) SEFs will be constructed as separate stand-alone projects, with a separate project development company (or Special Purpose Vehicle) as the applicant for each project. The projects are:

Project Name:	Applicant:
Hyperion Solar Development 1	Hyperion Solar Development 1 (Pty) Ltd
Hyperion Solar Development 2	Cyraguard (Pty) Ltd
Hyperion Solar Development 3	Nomispank (Pty) Ltd
Hyperion Solar Development 4	Nomispan (Pty) Ltd

This letter serves to inform you that the Scoping Reports (SRs) are available for your Organisation's view and written comments, and a CD containing the SRs is included in this envelope.

Please note that the SRs' review period is from **Friday, 26 October 2018** to **Monday, 26 November 2018** and we are looking forward receiving your Organisation's written comment on the SRs before or on the closing date of the review period.

Kind regards

Dear Lebo,

I recall our earlier conversation per telephone.

We would like to arrange a meeting with the Municipal manager and other officials on the 9th of November 2018 at 09h00. Kindly confirm if this will be suitable ? Also if you could please arrange for the venue to take place at the Municipalities boardroom/chambers.

I will send a formal invitation with all the information by the end of the week.

Also, please could you provide me with your details so that I can update the project database ? we have the Municipal Manager's secretary as Ingrid de Koker.

Name:

Surname:

Designation:

Tel:

Cell:

Email Address:

Physical Address:

Also if you could confirm that the Municipal Manager's details that we have is correct:

Thusoeng Itumeleng

Municipal Manager

Tel: 053 723 6000

Email: clementi@gamagara.gov.za

Thank you and kind regards,

Good Day

Kindly take note that the reports have been received by Water Quality Management on the 19th of November 2018 for four separate projects and each have been assigned to an assessor. The assessor will contact you once the reports have been assessed.

Also please take note that my surname is **Msimango** and not "Msimanga". I would appreciate it if you could address me accordingly next time.

Regards

Dear Mr Msimanga,

I can confirm that I discussed the distribution of Environmental Impact Assessment and Basic Assessment Reports to the Department of Water and Sanitation (DWS): Northern Cape Province, with Mr Abe Abrahams.

It was confirmed that all Reports must please be addressed and sent to his Office and from there he will allocate it to the relevant DWS Case Officer and should DWS National needs a copy, he will send it to them.

I will be in contact with Mr Abrahams' Office on Monday to follow-up on the matter and will revert to you soon thereafter.

Kind regards,

Nicolene Venter

Good Day

Thank you for the response. Do you not receive an acknowledgement that it is being sent/delivered because normally we receive a notification stating that the email has been delivered to the recipient.

I will follow up with IT because there is no record of such an email at my disposal and I do not remember reading such an email. Also there is no records of the Reports being submitted to Water Quality Management but I will follow up with Registry, perhaps its an administrative error.

Dear Stakeholder,

The development of four (4) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated ~16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities will be called Hyperion Solar Development 1, 2, 3 and 4.

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Scoping Report is available for review and comment. The report can be viewed at the Kathu Public Library (1 Hendrik van Eck Road, Kathu, Northern Cape Province) from **Friday, 26 October 2018 to Monday, 26 November 2018**. The report can also be downloaded from the following website: www.savannahsa.com. A password to access the downloads page can be requested from the contact person below.

Please refer to the attached notification letter for further information.

Kind regards,

Rozanne Els

Dear Mr Mahunoyane,

Mr Abe Abrahams directed me to you regarding the proposed four (4) Hyperion Solar PVs located near Kathu (Lower Vaal Catchment Area), Northern Cape Province.

The hard copies of the Scoping Reports were addressed to Mr Abrahams, as informed, and it is believed that your Registry receive these Reports and allocate it to the relevant Case Officer.

I would be appreciated if you can confirm whether you are the Case Officer for this proposed projects and who will be commenting on the Scoping Reports.

We are looking forward to hear from you.

NB: This Email and its contents are subject to the Eskom Holdings SOC Ltd EMAIL LEGAL NOTICE which can be viewed at http://www.eskom.co.za/Pages/Email_Legal_Spam_Disclaimer.aspx

Eskom requirements for work in or near Eskom servitudes.

1. Eskom's rights and services must be acknowledged and respected at all times.
2. Eskom shall at all times retain unobstructed access to and egress from its servitudes.
3. Eskom's consent does not relieve the developer from obtaining the necessary statutory, land owner or municipal approvals.
4. Any cost incurred by Eskom as a result of non-compliance to any relevant environmental legislation will be charged to the developer.
5. If Eskom has to incur any expenditure in order to comply with statutory clearances or other regulations as a result of the developer's activities or because of the presence of his equipment or installation within the servitude restriction area, the developer shall pay such costs to Eskom on demand.
6. The use of explosives of any type within 500 metres of Eskom's services shall only occur with Eskom's previous written permission. If such permission is granted the developer must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process. It is advisable to make application separately in this regard.
7. Changes in ground level may not infringe statutory ground to conductor clearances or statutory visibility clearances. After any changes in ground level, the surface shall be rehabilitated and stabilised so as to prevent erosion. The measures taken shall be to Eskom's satisfaction.
8. Eskom shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the developer, his/her agent, contractors, employees, successors in title, and assignees. The developer indemnifies Eskom against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom's services or apparatus or otherwise. Eskom will not be held responsible for damage to the developer's equipment.
9. No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom's apparatus and/or services, without prior written permission having been granted by Eskom. If such permission is granted the developer must give at least seven working days' notice prior to the commencement of work. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued by the relevant Eskom Manager

Note: Where and electrical outage is required, at least fourteen work days are required to arrange it.

10. Eskom's rights and duties in the servitude shall be accepted as having prior right at all times and shall not be obstructed or interfered with.
11. Under no circumstances shall rubble, earth or other material be dumped within the servitude restriction area. The developer shall maintain the area concerned to Eskom's satisfaction. The developer shall be liable to Eskom for the cost of any remedial action which has to be carried out by Eskom.
12. The clearances between Eskom's live electrical equipment and the proposed construction work shall be observed as stipulated by *Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)*.
13. Equipment shall be regarded electrically live and therefore dangerous at all times.
14. In spite of the restrictions stipulated by Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993), as an additional safety precaution, Eskom will not approve the erection of houses, or structures occupied or frequented by human beings, under the power lines or within the servitude restriction area.
15. Eskom may stipulate any additional requirements to highlight any possible exposure to Customers or Public to coming into contact or be exposed to any dangers of Eskom plant.
16. It is required of the developer to familiarise himself with all safety hazards related to Electrical plant.
17. Any third party servitudes encroaching on Eskom servitudes shall be registered against Eskom's title deed at the developer's own cost. If such a servitude is brought into being, its existence should be endorsed on the Eskom servitude deed concerned, while the third party's servitude deed must also include the rights of the affected Eskom servitude.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

EXECUTIVE SUMMARY

In recent decades, the use of wind turbines, concentrated solar plants and photovoltaic plants have been on the increase as it serves as an abundant source of energy. This document specifies setbacks for wind turbines and the reasons for these setbacks from infrastructure as well as setbacks for concentrated solar plants and photovoltaic plants. Setbacks for wind turbines employed in other countries were compared and a general setback to be used by Eskom was suggested for use with wind turbines and other renewable energy generation plants.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

1. INTRODUCTION

During the last few decades, a large amount of wind turbines have been installed in wind farms to accommodate for the large demand of energy and depleting fossil fuels. Wind is one of the most abundant sources of renewable energy. Wind turbines harness the energy of this renewable resource for integration in electricity networks. The extraction of wind energy is its primary function and thus the aerodynamics of the wind turbine is important. There are many different types of wind turbines which will all exhibit different wind flow characteristics. The most common wind turbine used commercially is the Horizontal Axis Wind Turbine. Wind flow characteristics of this turbine are important to analyse as it may have an effect on surrounding infrastructure.

Wind turbines also cause large turbulence downwind that may affect existing infrastructure. Debris or parts of the turbine blade, in the case of a failure, may be tossed behind the turbine and may lead to damage of infrastructure in the wake path.

This document outlines the minimum distances that need to be introduced between a wind turbine and Eskom infrastructure to ensure that debris and / or turbulence would not negatively impact on the infrastructure.

Safety distances of wind turbines from other structures as implemented by other countries were also considered and the reasons for their selection were noted.

Concentrated solar plants and photovoltaic plants setbacks away from substations were also to be considered to prevent restricting possible power line access routes to the substation.

2. SUPPORTING CLAUSES

2.1 SCOPE

This document provides guidance on the safe distance that a wind turbine should be located from any Eskom power line or substation. The document specifies setback distances for transmission lines (220 kV to 765 kV), distribution lines (6.6 kV to 132 kV) and all Eskom substations. Setbacks for concentrated solar plants and photovoltaic plants are also specified away from substations.

2.1.1 Purpose

Setbacks for wind turbines and power lines / substations are required for various reasons. These include possible catastrophic failure of the turbine blade that may release fragments and which may be thrown onto nearby power lines that may result in damage with associated unplanned outages. Turbulence behind the turbine may affect helicopter flight during routine Eskom live line maintenance and

2.2.2 Informative

None

2.3 DEFINITIONS

Definition	Description
Setback	The minimum distance between a wind turbine and boundary line/dwelling/road/infrastructure/servitude etc.
Flicker	Effect caused when rotating wind turbine blades periodically cast shadows
Tip Height	The total height of the wind turbine ie. Hub height plus half rotor diameter (see Figure1)

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

2.3.1 Disclosure Classification

Controlled disclosure: controlled disclosure to external parties (either enforced by law, or discretionary).

2.4 ABBREVIATIONS

Abbreviation	Description
None	

2.5 ROLES AND RESPONSIBILITIES

All personnel involved in the positioning wind turbines, concentrated solar plants and photovoltaic plants near power lines/substations must follow the setbacks outlined in this guideline.

2.6 PROCESS FOR MONITORING

Approval by Eskom in writing.

2.7 RELATED/SUPPORTING DOCUMENTS

None

3. DOCUMENT CONTENT

3.1 INTERNATIONAL SETBACK COMPARISON

Wind Turbine setbacks employed by various countries were considered. It was found that setbacks were determined for various reasons that include noise, flicker, turbine blade failure and wind effects. The distances (setbacks) varied based on these factors and were influenced by the type of infrastructure

Wind turbine setbacks varied for roads, power lines, dwellings, buildings and property and it was noted that the largest setbacks were employed for reasons of noise and flicker related issues [1-7]. Very few countries specified setbacks for power lines.

The literature survey [1-7], yielded information about studies and experiments were conducted to determine the distance that a broken fragment from a wind turbine might be thrown. Even though of low probability of hitting a power line [5.0×10^{-5}]^[8], the distances recorded were significant [750m]^[8]

Setbacks were thus introduced to prevent any damage to Eskom infrastructure.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

Wind turbines may also cause changes in wind patterns with turbulent effects behind the hub. These factors dictate the wind turbine setbacks specified in this document.

Concentrated solar plants and photovoltaic plants also can limit access into the substation for power lines of all voltages. A setback distance must therefore be employed to prevent the substation from being boxed in by these generation plants. These setback distances are specified in this document.

3.2 ESKOM REQUIRED SETBACKS

- Eskom requires a setback distance of 3 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for transmission lines.
- Eskom requires a setback distance of 1 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for distribution Lines.
- Eskom must be informed of any proposed wind turbine, concentrated solar plants and photovoltaic activity within a 5 km radius of a substation. No wind turbine structure shall be built within a 2 km radius of the closest point of the substation. Where concentrated solar plants and photovoltaic structures fall within a 2 km radius of the closest point of a substation, Eskom should be informed in writing during the planning phase of the construction of such plant or structure.
- Applicants must show that Eskom radio telecommunication systems (mainly microwave systems) will not be affected in any way by wind turbines.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

Dear Nicol,

With reference to the attached notification letter in regards to the Hyperion Solar Development projects, we noted that we have not yet received written comment on the Scoping Report for public review from AgriSa.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Monday, 26 November 2018.**

It would be appreciated if you can submit written comment before or on **Monday, 26 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Kind regards,

Savannah Environmental Public Process

Dear Jay-Jay

Please note that we are awaiting comments from the Department for project reference: 14/12/16/3/3/2/1112 (Hyperion Solar Development 4) from the Department. Importantly, note that the comment period has ended as of 26 November 2018.

We have checked with EIA admin who have referred us to you as the case officer.

Kindly advise when these can be received.

We look forward to your soonest response.

Importance: High

Dear Adrian,

With reference to the attached notification letter in regards to the Hyperion Solar Development projects, we noted that we have not yet received written comment on the Scoping Report for public review from SKA.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Monday, 26 November 2018.**

It would be appreciated if you can submit written comment before or on **Monday, 26 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Kind regards,

Savannah Environmental Public Process

**HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED
INFRASTRUCTURE, KATHU, NORTHERN CAPE PROVINCE**

DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109

DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110

Dear Stakeholders,

With reference to our e-mail communication below, this e-mail serves to inform you that the review and comment period for written submission for the draft Environmental Impact Assessment Reports ends on **Friday, 10 May 2019**.

We would like to thank those who already submitted their written comments and urge those who had not yet done so, to please submit their written comments by **Friday, 10 May 2019**, before close of business.

Kind regards,

Nicolene Venter

GAMAGARA LOCAL MUNICIPALITY

04 April 2019

Mr Thusoeng Itumeleng
Municipal Manager
Gamagara Local Municipality
Civic Centre
Cnt Hendrick van Eck & frikkie Meyer Road
KURUMAN 8460

By Courier Services

Dear Mr Itumeleng,

**HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED INFRASTRUCTURE,
KATHU, NORTHERN CAPE PROVINCE
(DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109 & DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110)**

NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW

The development of two (2) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated approximately 16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities are called:

- » Hyperion Solar Development 1; and
- » Hyperion Solar Development 2;

This letter serves to inform you that the Environmental Impact Assessment Reports (EIARs) are available for your Municipality's review and written comments, and a CD containing the EIARs is included in this envelope.

Please note that the EIARs review period is from **Friday, 5 April 2019** to **Friday, 10 May 2019** and we are looking forward receiving your Municipality's written comment on the EIARs before or on the closing date of the review period.

Kind regards

NICOLENE VENTER

 >

ENVIRONMENTAL IMPACT ASSESSMENT FOR THE HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED INFRASTRUCTURE, KATHU, NORTHERN CAPE PROVINCE

- **DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109**
- **DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110**

Dear Stakeholder and/or Interested and Affected Party,

Please find attached letter notifying you of the availability of the Environmental Impact Assessment Reports for the above-mentioned projects for your review and comment. The review and comment period is from **Friday, 05 April 2019** to **Friday, 10 May 2019** and we are looking forward to receive your written comments.

The letter also invites you to the Public Meeting taking place as follows:

- DATE:** Tuesday, 09 April 2019
- TIME:** 18h00 (registration from 17h30)
- VENUE:** Gamagara Hall, Cnr Hendrik van Eck Road and Frikkie Meyer Street, Kathu

The purpose of inviting the public meeting is to present the following:

- • brief background to the proposed projects;
- • an overview of the Environmental Impact Assessment process followed;
- • summary of the key environmental findings as documented in the Environmental Impact Assessment Report;
- • an opportunity to seek clarity and raise comments; and
- •

Kind regards,

Dear Andre,

Thank you for the written comments received.

I would just like to clarify the following:

- Letter Hyperion Solar 1: These comments are only relevant to Solar PV 1
- Letter Hyperion Solar EIA Comments: Are these comments for all four PVs?

Kind regards,

Nicolene Venter

CaseHeader **LocationInfo** **Admin**

Status: SUBMITTED

HeritageAuthority(s): SAHRA
NBKB

Case Type: Section 38 (8) - Statutory Comment Required

Development Type: Solar

ProposalDescription:

Project Name: Hyperion Solar Development 2 **Applicant:** Hyperion Cyraguard (Pty) Ltd **Proposed Activity:** The construction of a photovoltaic (PV) solar energy facility (SEF) with a contracted capacity of up to 75MW. The development footprint will be ~180ha and will include the following infrastructure: » Arrays of PV panels with a capacity of up to 75MW. » Mounting structures to support the PV panels. » Cabling between the project components, to be laid underground where practical. » On-site inverters. » An on-site substation to facilitate connection between each solar energy facility and the Eskom grid. » A new 132kV overhead power line (OHPL) between the on-site substations and the Eskom grid connection point (to be assessed in a separate Basic Assessment process). » Battery storage mechanism with a storage capacity of up to 300MWh. » Water purification plant. » Site Offices and Maintenance Buildings, including workshop areas for maintenance and storage. » Batching plant. » Temporary laydown areas. » Internal access roads and fencing around the development area. The applicant is furthermore proposing to either upgrade the existing T26 gravel road or construct a new access road of the T25 gravel road which will provide access to the project site via the N14. **Location:** The Remaining Extent of the Farm Lyndoch 432 is situated ~16km north of Kathu in the Northern Cape Province. The proposed projects fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. **Environmental Impact Assessment Process:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Scoping and Environmental Impact Assessment (EIA) is required for each solar energy facility (SEF). Savannah Environmental is undertaking the required environmental assessment and public participation process for each project.

Subject: NOTIFICATION OF AVAILABILITY OF EIARs AND INVITATION TO PUBLIC MEETING: Hyperion PV1 and PV2 near Kathu

ENVIRONMENTAL IMPACT ASSESSMENT FOR THE HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED INFRASTRUCTURE, KATHU, NORTHERN CAPE PROVINCE

- **DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109**

- **DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110**

Dear Stakeholder and/or Interested and Affected Party,

Please find attached letter notifying you of the availability of the Environmental Impact Assessment Reports for the above-mentioned projects for your review and comment. The review and comment period is from **Friday, 05 April 2019** to **Friday, 10 May 2019** and we are looking forward to receive your written comments.

The letter also invites you to the Public Meeting taking place as follows:

DATE: Tuesday, 09 April 2019
TIME: 18h00 (registration from 17h30)
VENUE: Gamagara Hall, Cnr Hendrik van Eck Road and Frikkie Meyer Street, Kathu

The purpose of inviting the public meeting is to present the following:

- brief background to the proposed projects;
- an overview of the Environmental Impact Assessment process followed;
- summary of the key environmental findings as documented in the Environmental Impact Assessment Report;
- an opportunity to seek clarity and raise comments; and
- an opportunity to liaise with the project team members.

Kind regards,

Nicolene Venter

Dear Mr Timothy,

**HYPERION SOLAR DEVELOPMENTS 1 AND 2 AND ASSOCIATED INFRASTRUCTURE,
KATHU, NORTHERN CAPE PROVINCE**

(DEA Ref.No.: Hyperion PV1 - 14/12/16/3/3/2/1109 & DEA Ref.No.: Hyperion PV2 - 14/12/16/3/3/2/1110)

NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW

The development of two (2) separate photovoltaic (PV) solar energy facilities (SEFs) as well as associated infrastructure are being proposed on the Remaining Extent of the Farm Lyndoch 432 situated approximately 16km north of Kathu in the Northern Cape Province. The proposed SEFs fall within the jurisdiction of the Gamagara Local Municipality and within the greater John Taolo Gaetsewe District Municipality. These facilities are called:

- » Hyperion Solar Development 1; and
- » Hyperion Solar Development 2;

This letter serves to inform you that the Environmental Impact Assessment Reports (EIARs) are available for your Organisation's review and written comments, and a CD containing the EIARs is included in this envelope.

Please note that the EIARs review period is from **Friday, 5 April 2019** to **Friday, 10 May 2019** and we are looking forward receiving your Organisation's written comment on the EIARs before or on the closing date of the review period.

Kind regards
