The DEA has refused environmental authorisation for the abovementioned project.

The DEA is of the opinion that the proposed listed activities will conflict with the general objectives of integrated environmental management stipulated in Chapter 5 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) and that any potentially detrimental environmental impacts resulting from the listed activities may not be mitigated to acceptable levels and should therefore be prevented altogether.

In reaching its decision the DEA considered the information presented in the application form dated 18 November 2015, the information contained in the Draft Scoping Report (SR) received on 18 November 2015 and the comments provided by the DEA on 08 December 2015; the information contained in the Final SR dated January 2016; the information contained in the Draft Environmental Impact

Assessment Report (EIAr) dated April 2016 and comments provided by the DEA on 23 May 2016; the information contained in the Amended EIAr dated June 2016 and the comments provided by the DEA on 14 July 2016; the information contained in the Final EIAr dated July 2016 as well as the objectives and requirements of relevant legislation, policies and guidelines, including section 2 of the National Environmental Management Act, 1998 (Act 107 of 1998).

A copy of the DEA's decision, providing the reasons for the decision, can be requested by sending an email to gabriele@savannahsa.com.
