

ANNEXURE 3

Public Consultation

ANNEXURE 3.1

List of Interested and Affected Parties ("I&AP")

Public Participation Process ("PPP") undertaken:

A PPP under the EIA Regulations was undertaken as part of the Scoping Phase, which included the following:

- Placing site notices at the entrance to the site and on the proposed site;
- Placing adverts in the Diamond Field Advertiser ("DFA") and Noord Kaap newspaper;
- a Notification and Background Information Document (**BID**) regarding the project was sent to all identified interested and affected parties ("**I&APs**"). This includes the adjacent landowners and relevant authorities.

A time period of 30 days was allowed for the public to register and / or send their issues and concerns regarding the Project to Turn 180 Environmental Consultants.

EIA and IWULA PROCESS

Notice is given of an application for an Integrated Water Use License ("IWULA") to the Department of Water and Sanitation ("DWS") in terms of Sections 21(a), (c) and (i) of the National Water Act 36 of 1998 ("NWA") and Environmental Authorisation ("EA") to the Department of Environment and Nature Conservation ("DENC") in terms of the 2014 EIA Regulations as amended in 2017 under the National Environmental Management Act 107 of 1998 ("NEMA") for the clearance of more than 20 ha of indigenous vegetation on Portion 1 of the farm Harrisdale 226 ("Kilmorey"), Barkly West district, Northern Cape. The project entails the clearance of vegetation and abstraction for the planting and irrigation of Lucerne.

The following activities will be applied for:

Activity 15 of GN. R325 of the EIA Regulation 2017, Section 21(a), (c) and (i) of the NWA. This notification provides stakeholders and/or potential Interested and Affected Parties with the opportunity to comment on the proposed project.

You are requested to send any issues and/or concerns regarding the proposed project to: Louis de Villiers at Tum180 Environmental Consultants, Suite 221, Private Bag X01, Brandhof, 9324; or 072-967-7962, or louis@tum180.co.za within 30 days of the date of this advertisement and no later than 21 September 2018.

Dear Interested and Affected Party

NOTICE OF THE APPLICATION FOR AN INTEGRATED WATER USE LICENSE AND ENVIRONMENTAL AUTHORISATION FOR THE CLEARANCE OF VEGETATION AND CULTIVATION OF CROPS ON PORTION 1 OF THE FARM HARRISDALE 226 (KILMOREY), BARKLY WEST DISTRICT, NORTHERN CAPE

Notice is given of an application for an Integrated Water Use License (“**IWULA**”) to the Department of Water and Sanitation (“**DWS**”) in terms of Sections 21(a), (c) and (i) of the National Water Act 36 of 1998 (“**NWA**”) and Environmental Authorisation (“**EA**”) to the Department of Environment and Nature Conservation (“**DENC**”) in terms of the 2014 EIA Regulations as amended in 2017 under the National Environmental Management Act 107 of 1998 (“**NEMA**”) for the clearance of more than 20ha of indigenous vegetation on Portion 1 of the farm Harrisdale 226 (“**Kilmorey**”), Barkly West District, Northern Cape.

This notification provides stakeholders and / or potential Interested and Affected Parties (“**I&AP**”) with the opportunity to comment on the proposed project.

Project Description

- Turn 180 Environmental Consultants (“**Turn 180**”) was appointed by the applicant, Dorata (Pty) Ltd, as Environmental Assessment Practitioner (“**EAP**”) to manage the required authorisation process on their behalf.
- The application for EA will be submitted to the DENC and the IWULA will be submitted to the DWS for processing.

The proposed development will entail the clearance of an area of approximately 50ha of indigenous vegetation and the cultivation of crops in the form of Lucerne. An IWULA will be made to the DWS to abstract a volume of 950 000m³ water per year from the Vaal River to be used for irrigation purposes.

Legislation

The following activities will be applied for in terms of GN. R. 325 of the 2017 EIA Regulations:

Activity 15: *"The clearance of an area of 20 ha or more of indigenous vegetation"*,

The following application will be made for an IWUL in terms of Section 21(a), (c) and (i) of the NWA:

Section 21(a): *"Taking water from a water resource"*,

Section 21(c): *"Impeding or diverting the flow of water in a watercourse"*, and

Section 21(i): *"Altering the bed, banks, course or characteristics of a watercourse"*

The application process will include the following:

- IWULA,
- S&EIR Process,
- Public Participation Process,
- Specialist studies.

S&EIR

The impacts of all activities associated with the proposed project will be assessed in the S&EIR. Draft reports will be made available to all registered I&APs for comment. Comments received will be addressed and incorporated into the final reports, which will then also be made available to the registered I&APs for comment.

An Environmental Management Programme report will also be developed for all activities associated with the Project, wherein mitigation and management measures will be proposed that should be implemented during all phases of the project. The final reports will be submitted to the DENC for processing of the application for EA.

Comments received regarding the IWULA will be included in all reports.

Locality:

The development will involve Portion 1 of the farm Harrisdale 226 ("Kilmorey"), Barkley West District, Northern Cape. Refer to the attached locality map for an indication of the locality of the site. The coordinates for the site are as follow:

Latitude	Longitude
-28.492473°	24.655838°

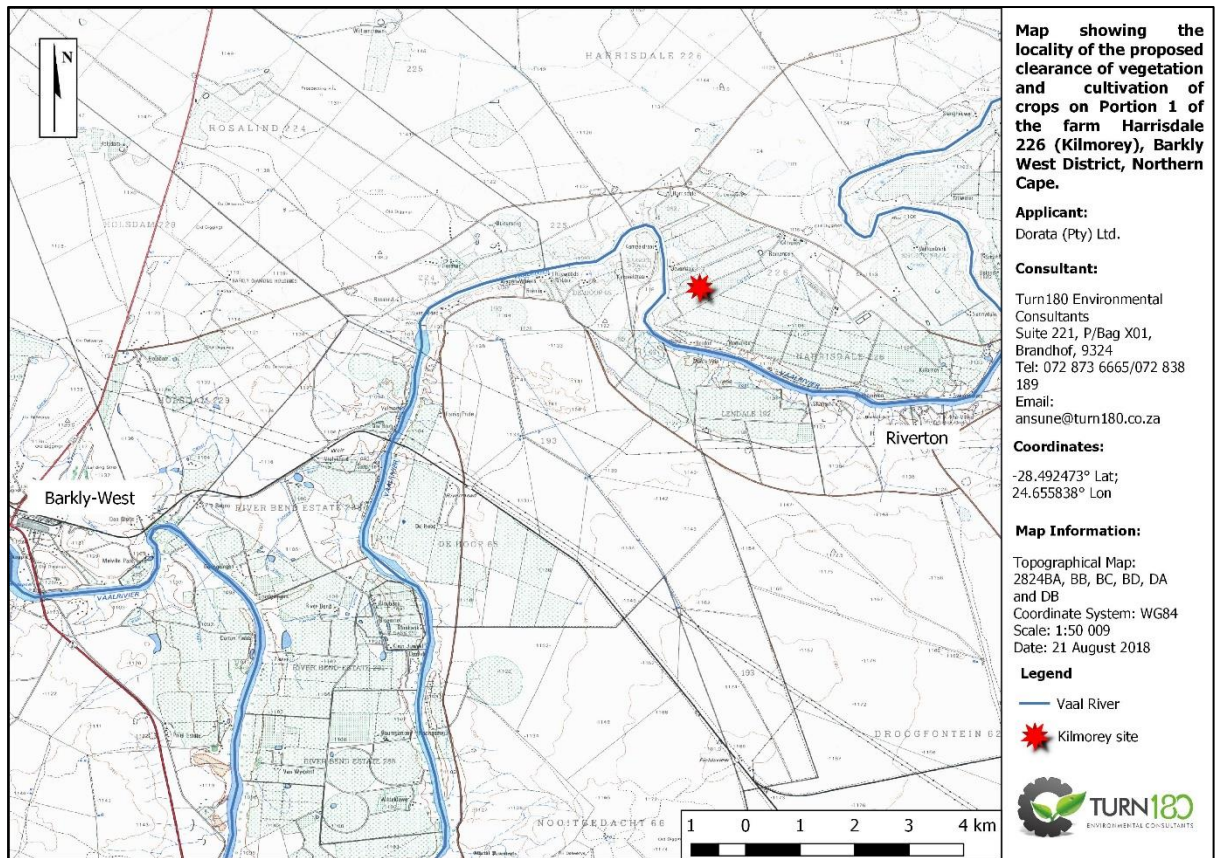

Figure 1: Map indicating the locality of the proposed site.

Invitation to participate

You are requested to send any issues and/or concerns regarding the proposed projects to Louis De Villiers at Turn 180 within 30 days of the date of this letter (28 September 2018). Any of the following contact details can be used:

Dear Ms. E. Botes (HOD)

NOTICE OF THE APPLICATION FOR AN INTEGRATED WATER USE LICENSE AND ENVIRONMENTAL AUTHORISATION FOR THE CLEARANCE OF VEGETATION AND CULTIVATION OF CROPS ON PORTION 1 OF THE FARM HARRISDALE 226 (KILMOREY), BARKLEY WEST DISTRICT, NORTHERN CAPE

Notice is given of an application for an Integrated Water Use License (“**IWULA**”) to the Department of Water and Sanitation (“**DWS**”) in terms of Sections 21(a), (c) and (i) of the National Water Act 36 of 1998 (“**NWA**”) and Environmental Authorisation (“**EA**”) to the Department of Environment and Nature Conservation (“**DENC**”) in terms of the 2014 EIA Regulations as amended in 2017 under the National Environmental Management Act 107 of 1998 (“**NEMA**”) for the clearance of more than 20ha of indigenous vegetation on Portion 1 of the farm Harrisdale 226 (“**Kilmorey**”), Barkly West District, Northern Cape.

This notification provides stakeholders and / or potential Interested and Affected Parties (“I&AP”) with the opportunity to comment on the proposed project.

Project Description

- Turn 180 Environmental Consultants (“**Turn 180**”) was appointed by the applicant, Dorata (Pty) Ltd, as Environmental Assessment Practitioner (“**EAP**”) to manage the required authorisation process on their behalf.
- The application for EA will be submitted to the DENC and the IWULA will be submitted to the DWS for processing.

The proposed development will entail the clearance of an area of approximately 50ha of indigenous vegetation and the cultivation of crops in the form of Lucerne. An IWULA will be made to the DWS to abstract a volume of 950 000m³ water per year from the Vaal River to be used for irrigation purposes.

Legislation

The following activities will be applied for in terms of GN. R. 325 of the 2017 EIA Regulations:

Activity 15: *“The clearance of an area of 20 ha or more of indigenous vegetation”,*

The following application will be made for an IWUL in terms of Section 21(a), (c) and (i) of the NWA:

Section 21(a): *“Taking water from a water resource”,*

Section 21(c): *“Impeding or diverting the flow of water in a watercourse”,* and

Section 21(i): *“Altering the bed, banks, course or characteristics of a watercourse”*

The application process will include the following:

- IWULA,
- S&EIR Process,
- Public Participation Process,
- Specialist studies.

S&EIR

The impacts of all activities associated with the proposed project will be assessed in the S&EIR. Draft reports will be made available to all registered I&APs for comment. Comments received will be addressed and incorporated into the final reports, which will then also be made available to the registered I&APs for comment.

An Environmental Management Programme report will also be developed for all activities associated with the Project, wherein mitigation and management measures will be proposed that should be implemented during all phases of the project. The final reports will be submitted to the DENC for processing of the application for EA.

Comments received regarding the IWULA will be included in all reports.

Locality:

The development will involve Portion 1 of the farm Harrisdale 226 ("Kilmorey"), Barkly West District, Northern Cape. Refer to the attached locality map for an indication of the locality of the site. The coordinates for the site are as follow:

Latitude	Longitude
-28.492473°	24.655838°

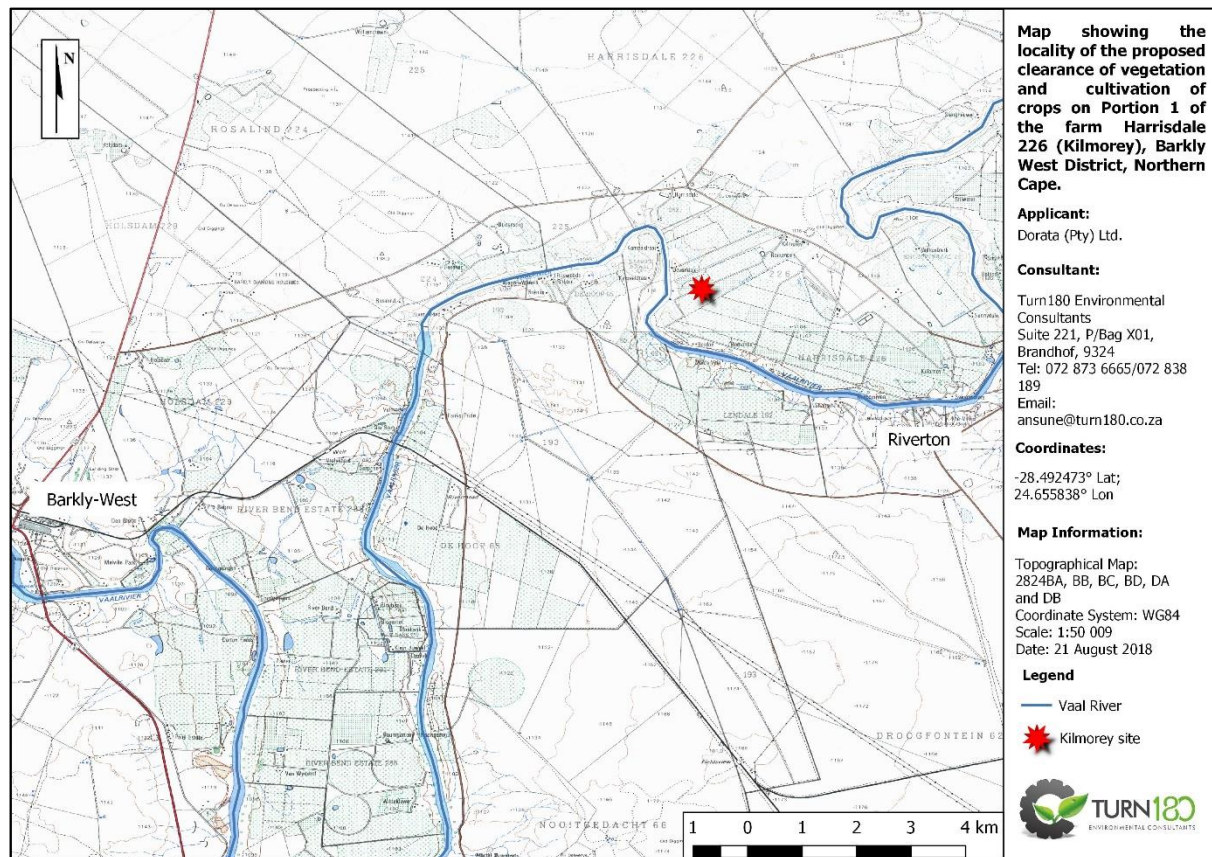

Figure 2: Map indicating the locality of the proposed site.

Invitation to participate

You are requested to send any issues and/or concerns regarding the proposed projects to Louis De Villiers at Turn 180 within 30 days of the date of this letter (28 September 2018). Any of the following contact details can be used:

Interim Comment

In terms of Section 38(3), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Dorata (Pty) Ltd

Application for an Integrated Water Use License and Environmental Authorisation for the clearance of vegetation and cultivation of crops on Portion 1 of the farm Harrisdale 226 (Kilmorey), Barkly West District, Northern Cape.

Thank you for notifying SAHRA of the Environmental Authorisation (EA) Application and Integrated Water Use License for clearance of vegetation and cultivation of crops on portion 1 of the farm Harrisdale 226, Barkley West District, Northern Cape Province.

As the proposed development is undergoing an EA Application process in terms of the National Environmental Management Act, 107 of 1998 (NEMA) and NEMA Environmental Impact Assessment (EIA) Regulations, it is incumbent on the developer to ensure that a Heritage Impact Assessment (HIA) is done as per section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). This must include an archaeological component, palaeontological component and any other applicable heritage components. The HIA must be conducted as part of the EA Application in terms of NEMA and the NEMA EIA Regulations.

The quickest process to follow for the archaeological component would be to contract a specialist (see www.asapa.org.za or www.aphp.org.za) to provide an Archaeological Impact Assessment (AIA). The AIA must comply with the SAHRA 2007 Minimum Standards: Archaeological and Palaeontological Component of Impact Assessments.

The proposed prospecting area is located within an area of moderate sensitivity in terms of palaeontological resources. An assessment of the impact of the development on palaeontological resources is required to be completed by a qualified palaeontologists. The report must comply with the SAHRA 2012 Minimum Standards: Palaeontological Component of Heritage Impact Assessments (a list of qualified palaeontologists can be supplied upon request).

Any other heritage resources as defined in section 3 of the NHRA that may be impacted, such as maritime archaeology, built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or views must also be

Interim Comment

In terms of Section 38(3), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Dorata (Pty) Ltd

Application for an Integrated Water Use License and Environmental Authorisation for the clearance of vegetation and cultivation of crops on Portion 1 of the farm Harrisdale 226 (Kilmorey), Barkly West District, Northern Cape.

Turn180 Environmental Consultants have been appointed by Dorata (Pty) Ltd to conduct an Environmental Authorisation (EA) Application and Integrated Water Use License (IWUL) for the proposed clearance of vegetation and cultivation of crops on portion 1 of the farm Harrisdale 226 (Kilmorey), Barkly West District, Northern Cape.

A draft Scoping Report (dSR) has been submitted in terms of the National Environmental Management Act, No 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA). The proposed mining activities include 40 ha of lucerne and 28 ha of pecan nut trees.

The dSR notes that a Heritage Impact Assessment (HIA) and Palaeontological Impact Assessment (PIA) will be completed as part of the EIA phase of the application.

Interim Comment

The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit notes the pending HIA and PIA. The HIA and PIA must comply with section 38(3) of the National Heritage Resources Act, No 25 of 1999 (NHRA), the SAHRA 2007 Minimum Standards: Archaeological and Palaeontological Components of Impact Assessments and the SAHRA 2012 Minimum Standards: Palaeontological Components of Heritage Impact Assessment Reports.

The Final Scoping, draft EIA and associated appendices must be submitted at the beginning of each public review period so that an informed comment may be issued. Further comments will be issued upon receipt of the above.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

**RE: APPLICATION FOR ENVIRONMENTAL AUTHORISATION ("EA") FOR THE
CLEARANCE OF VEGETATION AND CULTIVATION OF CROPS ON PORTION 1
OF THE FARM HARRISDALE 226 (KILMOREY), BARKLY WEST DISTRICT,
NORTHERN CAPE.**

Reference is hereby made to the Scoping Report prepared by Turn 180
Environmental Consultants for Dorata (Pty) Ltd as submitted to the Department of
Water and Sanitation, dated 30 April 2019.

1. Background of the proposed activity

Dorata (Pty) Ltd intends to apply for an Integrated Water Use Licence (IWUL) and an
Environmental Authorisation (EA) for the clearance of more than 20ha of indigenous
vegetation and the cultivation of crops. The applicant intends to produce Lucerne and
Pecan nuts on Kilmorey. The applicant seeks to cultivate and irrigate approximately
40ha of Lucerne and plant 28ha of Pecan Nut trees within 100m of the Vaal River.

The applicant intends to abstract 1 104 000m³ of water from the Vaal River through
means of a submersible pump will be applied for in the IWULA. According to best
practices to yield maximum production for Lucerne, 600 000m³ are needed per
annum, and for Pecan Nuts, 504 000m³ of water per annum.

NATIONAL DEVELOPMENT PLAN
Our Future - make it work

RE: APPLICATION FOR ENVIRONMENTAL AUTHORISATION ("EA") FOR THE CLEARANCE OF VEGETATION AND CULTIVATION OF CROPS ON PORTION 1 OF THE FARM HARRISDALE 226 (KILMOREY), BARKLY WEST DISTRICT, NORTHERN CAPE.

The cultivation of the Lucerne and Pecan Nuts will be preceded by the clearance of 68ha of indigenous vegetation. The area applied for was used for crop production in the past, more than 10 years ago, and the vegetation is classified as secondary indigenous vegetation.

The irrigation of Lucerne will take place directly from the Vaal River through the means of a central pivot point using an overhead sprinkler system, together with the Pecan Nut trees which will use underground irrigation methods.

2. Proposed activity locality

The proposed development will take place on Portion 1 of the Farm Harrisdale 226 (Kilmorey), in the Northern Cape Province.

3. Recommendations and decision

This Department has reviewed and evaluated the said Environmental Impact Assessment Report, and has the following comments:

- a) The Department has noted that a water use authorisation will be applicable for **Section 21 (a), (c) & (i) of the National Water Act, 1998** due to the nature of the activities that **Dorata (Pty) Ltd** will engage in;
- b) Take into consideration that the Department does not support or promote development or occurrence of any activity in environments whose natural hydrology (watercourses (pan/wetland, perennial/non perennial)) has the potential to be disturbed and or polluted;
- c) No activity may occur within the 1:100 year flood line of a river/drainage lines without authorisation. No activity may occur within the 500 metres of a pan/wetland (perennial/non perennial) without authorisation;
- d) Please note that an Aquatic/ Wetland assessment has to be conducted by an Aquatic/Wetland and or Freshwater specialist (whom must be a suitably qualified SACNASP professional member, *Refer to Government Gazette no.40229 Section 4 (b)*) and submitted to the Department in order to determine the impacts of the proposed activities on the water course, should the activities take place within the 1:100 year floodline and or 500m buffer zone of the watercourses identified in the development area. The information will assist the Department to decide on the type of water use authorisation for the proposed activities;
- e) Section 19 & 20 of the National Water Act, 1998 (Act No.36 of 1998) should be adhered to;

**RE: APPLICATION FOR ENVIRONMENTAL AUTHORISATION ("EA") FOR THE
CLEARANCE OF VEGETATION AND CULTIVATION OF CROPS ON PORTION 1
OF THE FARM HARRISDALE 226 (KILMOREY), BARKLY WEST DISTRICT,
NORTHERN CAPE.**

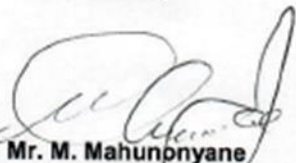

- f) The disposal of general waste and that of hazardous waste will be carried out in an environmentally safe way as to prevent and/or minimise the potential for pollution of water resources and collection of which should be done by an accredited waste collector. All applicable sections of the National Environmental Management: Waste Act 59 of 2008 should be strictly adhered to; and
- g) A pre-consultation meeting has to be arranged between DWS and the applicant to advise on project, water uses that would require authorisation and relevant reports before submission of the complete application to DWS;

This reply does not grant any exemption from the requirements of any applicable Act, Ordinance, Regulation or By-law.

This office reserves the right to revise initial comments and request additional information that may arise from correspondence and/or upon inspection.

You may contact the Department should you have any enquiries.

Yours sincerely

Mr. M. Mahunonyane

Director: Institutional Establishment

Date: 21/05/2019

Final Comment

In terms of Section 38(4), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Dorala (Pty) Ltd

Application for an Integrated Water Use License and Environmental Authorisation for the clearance of vegetation and cultivation of crops on Portion 1 of the farm Hamisdale 226 (Kilmorey), Barkly West District, Northern Cape.

Turn180 Environmental Consultants have been appointed by Dorala (Pty) Ltd to conduct an Environmental Authorisation (EA) Application and Integrated Water Use License (IWUL) for the proposed clearance of vegetation and cultivation of crops on portion 1 of the farm Hamisdale 226 (Kilmorey), Barkley West District, Northern Cape.

A draft Scoping Report (dSR) has been submitted in terms of the National Environmental Management Act, No 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA). The proposed mining activities include 40 ha of lucerne and 28 ha of pecan nut trees.

The dSR notes that a Heritage Impact Assessment (HIA) and Palaeontological Impact Assessment (PIA) will be completed as part of the EIA phase of the application.

In an Interim Comment issued on the 03/04/2019, SAHRA noted the pending HIA and PIA and awaited their submission before further comments could be issued.

Since the issuing of the Interim Comment, Paleo Field Services have been appointed to provide heritage specialist input into the EA process as required by section 24(4)(iii) of NEMA and section 38(8) and 38(3) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). The report has been uploaded as part of Appendix 5 of the draft EIA.

Rossouw, L. 2019. Phase 1 Heritage Impact Assessment of a 68 ha area for the purpose of crop production under irrigation on Portion 1 of the farm Hamisdale 226, near Riverton in the Northern Cape Province.

The underlying geology of the proposed development area includes the unfossiliferous Ventersdorp basalts and andesites of the Allanridge Formation, which are overlain by superficial sediments comprising Kalahari

sands. The Vaal River gravel that are present in the development area are known to contain late Cenozoic fossil fauna however no fossils were identified as part of the field visit as the area has been disturbed by previous agricultural activities. No heritage resources were identified within the development area, however, two grave sites were recorded on the farm. These graves will not be directly impacted by the development.

Final Comment

The following comments are made as a requirement in terms of section 3(4) of the NEMA Regulations and section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and must be included in the Final EIA and EMP:

- 38(4)a – The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit and Burial Grounds and Graves (BGG) Unit has no objections to the proposed development;
- 38(4)b – The recommendations of the specialists are supported and must be adhered to. An additional specific conditions is provided for the development as follows;
- The grave site marked as "Kilm Graves 2" is located approximately 70 m from the edge of the proposed development area. The distance of 70 m from the grave site must be maintained and no encroachment of the development may occur;
- 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA APM Unit (Natasha Higgitt/Phillip Hine 021 462 5402) must be alerted as per section 35(3) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and Item 5 of the Schedule;
- 38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA Burial Grounds and Graves (BGG) Unit (Thingahangwi Tshivhase/Mimi Seelelo 012 320 8490), must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and Item 5 of the Schedule;
- 38(4)d – See section 51(1) of the NHRA;
- 38(4)e – The following conditions apply with regards to the appointment of specialists:
- i) If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA;
