Subject: SE3197: DAISY SOLAR PV and KLEINZEE SOLAR PV - Availability of Revised Basic Assessment Reports
Attachments: SE3197-KleinzeDaisy_BAR_Revised-FINAL.pdf

**DAISY SOLAR PV FACILITY AND KLEINZEE SOLAR PV FACILITY, NORTHERN CAPE PROVINCE
(DFFE Ref. Nos.: Daisy: 14/12/16/3/3/1/2763 and Kleinzee: 14/12/16/3/3/1/2764)**

Dear Stakeholder and Interested & Affected Party,

The correspondence regarding the availability of the Basic Assessment (BA) Reports for the Daisy Solar PV Facility and Kleinzee Solar PV Facility Applications for Environmental Authorisations dated 03 May 2023 has reference.

A Basic Assessment Report for each of the Applications was prepared by Savannah Environmental and made available for a 30-day public review period from 03 May 2023 to 02 June 2023. Comments were provided following review of the reports. In response to comments raised through the public participation process, additional information is now included in and forms part of the revised Basic Assessment Reports. In terms of the provisions of Regulation 19(1)(b), the BARs have been revised and are now released for a second public comment period of 30 days.

AVAILABILITY OF THE REVISED BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you, as registered Interested and Affected Party (I&AP) that the Revised BA Reports for each of the applications will be available for review and comment from **28 July 2023 to 28 August 2023**.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Reports for the Kleinzee Solar PV Facility and Daisy Solar PV Facility, and the availability for review and comment.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

28 July 2023

Dear Stakeholder and Interested & Affected Party,

DAISY SOLAR PV FACILITY AND KLEINZEE SOLAR PV FACILITY, NORTHERN CAPE PROVINCE
(DFFE Ref. Nos.: Daisy: 14/12/16/3/3/1/2763 and Kleinzee: 14/12/16/3/3/1/2764)

NOTIFICATION OF REVISED BASIC ASSESSMENT REPORTS AND AVAILABILITY FOR REVIEW AND COMMENT

The correspondence regarding the availability of the Basic Assessment (BA) Reports for the Daisy Solar PV Facility and Kleinzee Solar PV Facility Applications for Environmental Authorisations dated 03 May 2023 has reference.

A Basic Assessment Report for each of the Applications was prepared by Savannah Environmental and made available for a 30-day public review period from 03 May 2023 to 02 June 2023. Comments were provided following review of the reports. In response to comments raised through the public participation process, additional information is now included in and forms part of the revised Basic Assessment Reports. In terms of the provisions of Regulation 19(1)(b), the BARs have been revised and are now released for a second public comment period of 30 days.

AVAILABILITY OF THE REVISED BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you, as registered Interested and Affected Party (I&AP) that the Revised BA Reports for each of the applications will be available for review and comment from **28 July 2023 to 28 August 2023**.

The Revised BA Reports can be downloaded from our website: <https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>. An electronic copy of the Revised BA Reports can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR THE
PROPOSED DEVELOPMENT OF THE KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY,
NORTHERN CAPE PROVINCE
(DFFE Ref No.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinzee, within the Springbok REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

The infrastructure associated with each PV facility includes:

- » Solar PV array comprising PV modules and mounting structures
- » Inverters and transformers
- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Please find attached the Background Information Document (BID) which provides additional information regarding these Solar PV facilities. The BID is also available on our website ([CLICK HERE](#)).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects. Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 &
2015

19 January 2023

Dear Stakeholder and Interested and Affected Party,

**KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY
NORTHERN CAPE PROVINCE
(DFFE Ref Nos.: To be Issued)**

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinzee, within the Springbok REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

The infrastructure associated with each PV facility includes:

- » Solar PV array comprising PV modules and mounting structures
- » Inverters and transformers
- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Additional technical information regarding these solar PV facilities is available in the Background Information Document attached to this notification letter.

BASIC ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, published in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA), Daisy Solar PV and Kleinzee Solar PV facilities require Environmental Authorisation (EA) from the Department of Forestry, Fisheries and the Environment (DFFE). In terms of Section 24(5) of NEMA, the EIA Regulations, 2014 (GNR 326), GNR 114 and Listing Notices (GNR 327, GNR 325, and GNR 324), as well as GNR 114 (the sites are located within the Springbok REDZ), the application for EA for the Daisy Solar PV and Kleinzee Solar PV Facilities and associated grid connections are subject to the completion of a Basic Assessment (BA) process. The application for EA is required to be supported by comprehensive, independent environmental studies undertaken in accordance with Appendix 6 of the EIA Regulations, 2014, as amended, and where relevant, in line with the gazetted protocols.

A BA is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues, allows for the resolution of issue(s) identified and reported on as part of the BA processes, and provides dialogue with key stakeholders and I&APs.

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the separate applications for EA, for undertaking the supporting BA process required to identify and assess potential environmental impacts associated with the projects, and proposing appropriate mitigation and management measures to be contained within the Environmental Management Programme (EMPr) for the facilities.

You and/or the organization/company, which you represent, have been identified as a stakeholder for these projects. The nature and extent of the solar PV facilities are explored in more detail in the BID, which is attached to this letter and is also available for download from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>

PUBLIC INVOLVEMENT PROCESS

The public participation processes for the projects will be undertaken concurrently, providing the opportunity to comment on both projects simultaneously. The public participation process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs.
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

Savannah Environmental have established an online stakeholder engagement platform, where you are invited to register your interest in the project/s, and view project documentation. Please visit our

website: <https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>

Where I&APs do not have the applicable facilities or access to internet, alternative means for consultation and to facilitate comment on the projects will be made, including consulting with the Ward Councillor, the ward committee members, community representatives and local community forum members.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Bregardia Rabbie

Public Participation Consultant

NOTIFICATION OF BASIC ASSESSMENT REPORTS AND AVAILABILITY FOR REVIEW AND COMMENT

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinsee, within the Springbok Renewable REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Project Name	Contracted Capacity	Affected Property
Daisy Solar PV	360MW	PV Facility and grid line: Farm Zonnekwa 326
Kleinzee Solar PV	200MW	PV Facility: Portion 4 of the Farm Zonnekwa 328 Grid line: Portions 2, 3 and 4 of the Farm Zonnekwa 328, and Farm Zonnekwa 326 and Portion 1 of Farm Zonnekwa 326

The infrastructure associated with each PV facility includes:

- » Solar PV array comprising PV modules and mounting structures
- » Inverters and transformers
- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at the authorised Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Additional information regarding these solar PV facilities is available in the Background Information Document (BID) that was distributed on 19 January 2023. The BID is available on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>).

Separate applications for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the EIA Regulations, 2014, as amended, (GNR 324-327) are to be submitted for the projects. Each application is being supported by a Basic Assessment process in accordance with GNR114 (February 2018), as the project sites are located within a REDZ. Savannah Environmental is undertaking the required environmental assessment and combined public participation process.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform your Department / Organisation that the Basic Assessment (BA) Reports for each of the applications will be available for review and comment from **03 May 2023** to **02 June 2023**.

The BA Reports can be downloaded from the Savannah Environmental website (refer to link above). An electronic copy of the BA Report/s can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY, NORTHERN CAPE PROVINCE (DFFE Ref. Nos.: To be Issued)

Dear Mr Lekota,

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinsee, within the Springbok Renewable REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Our letter and e-mail dated 19 January 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Reports for the Kleinzee Solar PV Facility and Daisy Solar PV Facility, and the availability for review and comment.

Kind regards,

Mr Seoka Lekota
Deputy Director: Biodiversity Conservation
DFFE

Per e-mail: BCAdmin@dffe.gov.za

Dear Mr Lekota,

**KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY, NORTHERN CAPE PROVINCE
(DFFE Ref. Nos.: To be Issued)**

NOTIFICATION OF BASIC ASSESSMENT REPORTS AND AVAILABILITY FOR REVIEW AND COMMENT

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinsee, within the Springbok Renewable REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Project Name	Contracted Capacity	Affected Property
Daisy Solar PV	360MW	PV Facility and grid line: Farm Zonnekwa 326
Kleinzee Solar PV	200MW	PV Facility: Portion 4 of the Farm Zonnekwa 328 Grid line: Portions 2, 3 and 4 of the Farm Zonnekwa 328, and Farm Zonnekwa 326 and Portion 1 of Farm Zonnekwa 326

The infrastructure associated with each PV facility includes:

- » Solar PV array comprising PV modules and mounting structures
- » Inverters and transformers
- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at the authorised Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Additional information regarding these solar PV facilities is available in the Background Information Document (BID) that was distributed on 19 January 2023. The BID is available on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>).

Separate applications for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the EIA Regulations, 2014, as amended, (GNR 324-327) are to be submitted for the projects. Each application is being supported by a Basic Assessment process in accordance with GNR114 (February 2018), as the project sites are located within a REDZ. Savannah Environmental is undertaking the required environmental assessment and combined public participation process.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform your Department that the Basic Assessment (BA) Reports for each of the applications will be available for review and comment from **03 May 2023** to **02 June 2023**.

The BA Reports can be downloaded from the Savannah Environmental website (refer to link above). An electronic copy of the BA Report/s can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

Northern Cape Department of Water and Sanitation

Per e-mail: FranksL@dws.gov.za

Dear Mr Streuders,

**KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY, NORTHERN CAPE PROVINCE
(DFFE Ref. Nos.: To be Issued)**

NOTIFICATION OF BASIC ASSESSMENT REPORTS AND AVAILABILITY FOR REVIEW AND COMMENT

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinsee, within the Springbok Renewable REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Project Name	Contracted Capacity	Affected Property
Daisy Solar PV	360MW	PV Facility and grid line: Farm Zonnekwa 326
Kleinzee Solar PV	200MW	PV Facility: Portion 4 of the Farm Zonnekwa 328 Grid line: Portions 2, 3 and 4 of the Farm Zonnekwa 328, and Farm Zonnekwa 326 and Portion 1 of Farm Zonnekwa 326

The infrastructure associated with each PV facility includes:

- » Solar PV array comprising PV modules and mounting structures
- » Inverters and transformers
- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at the authorised Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Additional information regarding these solar PV facilities is available in the Background Information Document (BID) that was distributed on 19 January 2023. The BID is available on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>).

Separate applications for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the EIA Regulations, 2014, as amended, (GNR 324-327) are to be submitted for the projects. Each application is being supported by a Basic Assessment process in accordance with GNR114 (February 2018), as the project sites are located within a REDZ. Savannah Environmental is undertaking the required environmental assessment and combined public participation process.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform your Department that the Basic Assessment (BA) Reports for each of the applications will be available for review and comment from **03 May 2023** to **02 June 2023**.

The BA Reports can be downloaded from the Savannah Environmental website (refer to link above). An electronic copy of the BA Report/s can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

Separate applications for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the EIA Regulations, 2014, as amended, (GNR 324-327) are to be submitted for the projects. Each application is being supported by a Basic Assessment process in accordance with GNR114 (February 2018), as the project sites are located within a REDZ. Savannah Environmental is undertaking the required environmental assessment and combined public participation process.

You, as an adjacent landowner of **Portion 3 of the farm Zonnekwa 328** and **P Remaining Extent of the Farm Rooivlei 327** is hereby notified of the availability of the Basic Assessment (BA) Reports for your review and comments (details below). Should your property be leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on the above-mentioned property.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Basic Assessment (BA) Reports for each of the applications will be available for review and comment from **03 May 2023 to 02 June 2023**.

The BA Reports can be downloaded from the Savannah Environmental website (refer to link above). An electronic copy of the BA Report/s can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY, NORTHERN CAPE PROVINCE (DFFE Ref. Nos.: To be Issued)

Dear Mr Blou and Mr Skinner,

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinsee, within the Springbok Renewable REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Our letter and e-mail dated 19 January 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Reports for the Kleinzee Solar PV Facility and Daisy Solar PV Facility, and the availability for review and comment.

Kind regards,

Per e-mail: BlouGI@eskom.co.za and SkinneTE@eskom.co.za

Dear Mr Blou and Mr Skinner,

**KLEINZEE SOLAR PV FACILITY AND DAISY SOLAR PV FACILITY, NORTHERN CAPE PROVINCE
(DFFE Ref. Nos.: To be Issued)**

NOTIFICATION OF BASIC ASSESSMENT REPORTS AND AVAILABILITY FOR REVIEW AND COMMENT

Energy Team (Pty) Ltd proposes the development of two (2) separate solar photovoltaic (PV) facilities ~20km west of the town of Komaggas, and 24km southeast of Kleinsee, within the Springbok Renewable REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Project Name	Contracted Capacity	Affected Property
Daisy Solar PV	360MW	PV Facility and grid line: Farm Zonnekwa 326
Kleinzee Solar PV	200MW	PV Facility: Portion 4 of the Farm Zonnekwa 328 Grid line: Portions 2, 3 and 4 of the Farm Zonnekwa 328, and Farm Zonnekwa 326 and Portion 1 of Farm Zonnekwa 326

The infrastructure associated with each PV facility includes:

- » Solar PV array comprising PV modules and mounting structures
- » Inverters and transformers
- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at the authorised Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Additional information regarding these solar PV facilities is available in the Background Information Document (BID) that was distributed on 19 January 2023. The BID is available on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/daisy-and-kleinzee-solar-pv-facilities/>).

Separate applications for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the EIA Regulations, 2014, as amended, (GNR 324-327) are to be submitted for the projects. Each application is being supported by a Basic Assessment process in accordance with GNR114 (February 2018), as the project sites are located within a REDZ. Savannah Environmental is undertaking the required environmental assessment and combined public participation process.

Eskom Holdings SOC Ltd, as an adjacent landowner of **Remaining Extent of the farm Kannabieduin 324** and **Remaining Extent of farm Honde Vlei 325** is hereby notified of the availability of the Basic Assessment (BA) Reports for your review and comments (details below). Should your property be leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on the above-mentioned property.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Basic Assessment (BA) Reports for each of the applications will be available for review and comment from **03 May 2023 to 02 June 2023**.

The BA Reports can be downloaded from the Savannah Environmental website (refer to link above). An electronic copy of the BA Report/s can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

You, as an affected landowner of **Remaining Extent of the Farm Zonnekwa 326** and an adjacent landowner of **Portion 1 of the farm Zonnekwa 328** is hereby notified of the availability of the Basic Assessment (BA) Reports for your review and comments (details below). Should your property be leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on the above-mentioned property.

AVAILABILITY OF THE BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

In terms of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Basic Assessment (BA) Reports for each of the applications will be available for review and comment from **03 May 2023 to 02 June 2023**.

The BA Reports can be downloaded from the Savannah Environmental website (refer to link above). An electronic copy of the BA Report/s can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

Daisy and Kleinzee Solar PV Facilities

DAISY SOLAR PV FACILITY AND KLEINZEE SOLAR PV FACILITY, NORTHERN CAPE PROVINCE

Applicant: Energy Team (Pty) Ltd

Projects Activity and Locations: The development of two (2) separate solar photovoltaic (PV) facilities located ~20km west of the town of Komaggas, and 24km southeast of Kleinzee, within the Springbok REDZ and within the Northern Corridor of the Strategic Transmission Corridors. These projects are located in the Nama Khoi Local Municipality within the Namakwa District Municipality, Northern Cape.

Project Name Contracted Capacity Affected Property

Daisy Solar PV 360MW PV Facility and grid line: Farm Zonnekwa 326

Kleinzee Solar PV 200MW PV Facility: Portion 4 of the Farm Zonnekwa 328 Grid line: Portions 2, 3 and 4 of the Farm Zonnekwa 328, and Farm Zonnekwa 326 and Portion 1 of Farm Zonnekwa 326

The infrastructure associated with each PV facility includes:

» Solar PV array comprising PV modules and mounting structures

» Inverters and transformers

- » Low voltage cabling between the PV modules to the inverters
- » 33kV cabling between the project components and the facility substation
- » 132kV onsite facility substation
- » 132kV power line to connect to the grid at the authorised Zonnequa Collector Substation within a 300m wide corridor
- » Battery Energy Storage System (BESS)
- » Site offices and maintenance buildings, including workshop areas for maintenance and storage
- » Laydown areas
- » Site access and internal roads

Application for Environmental Authorisation: Separate applications for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the EIA Regulations, 2014, as amended, (GNR 324-327) are to be submitted for the projects. Each application is being supported by a Basic Assessment process in accordance with GNR114 (February 2018), as the project sites are located within a REDZ. Savannah Environmental is undertaking the required environmental assessment and combined public participation process.

Basic Assessment (BA) Reports available for review: The BA Report for each project is available for review and comment from 03 May 2023 to 02 June 2023. The due date for written comment is 02 June 2023.

To obtain further information on the projects and to register on the database, please submit your name, contact information and interest in the projects, in writing, to Savannah Environmental:
