

STAKEHOLDER ENGAGEMENT

Note: This project commenced in March 2019 and was allocated a project reference No: **Gaut 002/18-19/E0262** by Gauteng Department of Agriculture and Rural Development. Initial PPP for the scoping phase was undertaken which included placement of site notices, distribution of BID via Knock and Drop to the immediate surrounding landowners within 100m from the edge of the development, newspaper advertisement and a public meeting. Feedback from stakeholders and comments received were included into the Final Scoping Report which was submitted to GDARD for approval, the FSR was approved, however due to issues raised during the scoping phase stakeholder engagement; the application was halted to take into consideration stakeholder comments to ensure impartial stakeholder engagement. This resulted in the project application to expire.

A new application has been lodged with GDARD, and the current application has been allocated the project reference number **GAUT 002/20-21/E2613**. That being said some of the PPP documentation e.g. the knock and drop has been retrieved from the old application as it contains important information.

Please refer to the Knock and Drop Register below

KNOCK AND DROP REGISTER

ENVIRONMENTAL IMPACT ASSESSMENT AND WATERUSE LICENCE APPLICATION FOR THE PROPOSED JOHN DUBE EXTENSION 3
SITUATED ON PORTIONS OF REMAINING EXTENT 1 AND 83 OF THE FARM GROOTFONTEIN 165 IR, GAUTENG PROVINCE

Date: 28 March 2019
