INVITATION TO COMMENT AND REGISTER
NOTIFICATION OF A PART 2 AMENDMENT OF THE INTEGRATED ENVIRONMENTAL AUTHORISATION (12/12/16/3/3/217) FOR THE KRIEL ASH DISPOSAL FACILITY AT THE KRIEL POWER STATION, EMALAHLENI LOCAL MUNICIPALITY, MPUMALANGA PROVINCE

Notice is hereby given in terms of Chapter 5 of the Environmental Impact Assessment Regulations (EIA), 2014 (as amended), National Environmental Management Act (Act No. 107 of 1998) that Eskom Holdings SOC Ltd intends to amend the Integrated Environmental Authorisation for the expansion of Kriel's Ash Disposal Facility (ADF). In line with the NEMA EIA Regulations, Eskom Holdings SOC Ltd appointed GA Environment (Pty) Ltd as Independent Environmental Consultants to conduct a Part two amendment of the Integrated Environmental Authorisation (IEA), in terms of Regulation 31 of the EIA Regulations of 2014, as amended for the Kriel's Power Station's existing Ash Disposal Facility (ADF). The Kriel Power station is situated within the Emalahleni Local Municipality, approximately 7 km west from the town of Kriel. The site centre coordinates are 26°16'31.86"S; 29°12'11.88"E.

Eskom Kriel is a coal fired power station which makes use of a wet ashing system to dispose of its ash. The ash is pumped to three existing ash dams, which will reach its rate of rise by the end of July 2021. It is one of the reasons that Eskom commissioned an Integrated Environmental Authorisation process. The Department of Environmental Affairs (DEA) issued an Environmental Authorisation on 30 March 2018 (12/12/16/3/3/217). Condition 17.3.1 of the Environmental Authorisation indicates that *Construction of the proposed ash disposal facility, pollution control dams and associated infrastructure shall adhere to Class C barrier liner.*

Eskom commissioned a Source Pathway Receptor (SPR) Study to allow for alternative barrier system designs for implementation that could provide sufficient protection against pollution to the receiving environment. The findings of the study revealed that the receptors are contaminated with Sulphate levels above the recommended limit, and this contamination is believed to be from a previously backfilled opencast. The levels of the Sulphate detected at the receptors are greater than the source-term concentration of the ash dams, hence a no liner approach is preferred based on the low expected pollution load from the proposed extension of the ADF and the much higher existing pollution load in the area. It is Eskom's intention to therefore apply for a relaxation of condition 17.3.1 based on the outcome of the SPR and the costs implications of procuring a Class C liner. Eskom proposes to install a Class D barrier liner with added aspects, e.g. Herringbone drains.

In terms of Regulation 31 and 32 of the 2014 National Environmental Management Act (NEMA) Environmental Impact Assessment (EIA) Regulations, Eskom wishes to apply for a substantive amendment to the EA issued.

In terms of the NEMA EIA Regulations, 2014, as amended, all Interested and Affected Parties (I&APs) must be provided with an opportunity to participate in the Part 2 Amendment. All parties who wish to participate in the process by commenting, registering as I&APs or obtaining more information on the proposed project can contact our office.

Ms. Kirthi Peramaul on Tel: 011 312 2537, Fax: 011 805 1950, E-mail: environment@gaenvironment.com or kirthip@gaenvironment.com or Post: P.O Box 6723 Halfway House 1685.

PLEASE REGISTER YOUR INTEREST IN THE PROJECT BY NO LATER THAN 23 AUGUST 2019

NOTICE OF A BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS
DECOMMISSIONING OF KRIEL POWER STATION'S ASBESTOS LANDFILL SITE MPUMALANGA PROVINCE
 (DEA Ref No: To be Issued)

Project Name: Decommissioning of Kriel Power Station's Asbestos Landfill Site, Mpumalanga Province.

Applicant: Eskom Holdings SOC Limited.

Proposed Activity: Eskom Holdings SOC Ltd, is proposing the decommissioning of the asbestos landfill site buried within Ash Dam 1 at the Kriel Power Station, Mpumalanga Province.

Project Location: The asbestos landfill site is buried within Ash Dam 1 at the Kriel Power Station, and situated approximately 60km south of eMalahleni, 8km north-east of the Matla Power Station and 12km west of the town Kriel. The proposed activity falls within the jurisdiction of the eMalahleni Local Municipality and within the greater Nkangala District Municipality. The affected property associated with the proposed project is Portion 0 of Kriel Power Station 65.

Basic Assessment Process: In terms of Sections 24 and 24D of the NEMA (Act No. 107 of 1998), Section 45 of the NEMWA (Act No. 59 of 2008) as read with Government Notices, R324-327 (as amended) and R921, a Basic Assessment (BA) and a Waste Management License (WML) is required for this project. Savannah Environmental is undertaking the required integrated BA and public participation process for the project, to be submitted to the National Department of Environmental Affairs for decision making.

Notification of the availability of the Basic Assessment Report for review and comment: The Basic Assessment Report is made available for review and comment from **Friday, 19 July 2019 to Monday, 19 August 2019** at the Kriel Public Library, corner Quintin & Heinrich Street, Kriel, or can be downloaded from Savannah Environmental's website <http://www.savannahsa.com/public-documents/other/>. The due date for written comment is Monday, **19 August 2019**.
