Subject: SE3654: FE KUDU WIND ENERGY FACILITY AND FE TANGO WIND ENERGY FACILITY - Notification of the Basic Assessment and Public Participation Processes
Attachments: SE3654_Kudu&Tango_WEF_BA_Notification-FINAL.pdf; SE3654_Kudu&Tango_PVs_Background_Information_Document.pdf; SE3654_Kudu&Tango_FVs_Agtergrond_Inligtings_Dokument.pdf; SE3654_Kudu&Tango_PVs-Reg&Comment_Form.pdf; SE3654_Kudu&Tango_PVs-Reg&Kommentaarvorm.pdf

**BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

The development of two separate wind energy facilities and associated infrastructure are proposed on sites located west of Aberdeen in the Eastern Cape Province. The two wind farms are located within the Beaufort West Renewable Energy Development Zone (REDZ) and are to be known as the FE Tango Wind Energy Facility and FE Kudu Wind Energy Facility. The projects are to be located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

The projects will aid in the diversification and stabilisation of the country's electricity supply, with the proposed wind energy facilities set to inject over 800MW into the national grid. Each wind energy facility will connect to the grid via a grid connection solution which will be subject to a separate application of Environmental Authorisation.

Please find attached the following documents for your perusal:

- Invitation letter to participate in the Basic Assessment and Public Participation Process for these two (2) Wind Energy Facilities.
- Background Information Document which will provide you with additional technical information regarding the proposed developments (ook beskikbaar in Afrikaans).
- Registration and Comment Form (ook beskikbaar in Afrikaans).

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

21 June 2023

Dear Stakeholder and Interested & Affected Party,

FE KUDU WIND ENERGY FACILITY AND FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

The development of two separate wind energy facilities and associated infrastructure are proposed on sites located west of Aberdeen in the Eastern Cape Province. The two wind farms are located within the Beaufort West Renewable Energy Development Zone (REDZ) and are to be known as the FE Tango Wind Energy Facility and FE Kudu Wind Energy Facility. The projects are to be located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the projects are as follows:

Project Name	FE Tango Wind Energy Facility	FE Kudu Wind Energy Facility
Location	Portion 1 of Farm Klipstavel 72	Portion 2 of Farm Oorlogspoort 85
Applicant	FE Tango (Pty) Ltd	FE Kudu (Pty) Ltd
Contracted capacity	Up to 240MW	Up to 625MW
Number of turbines	~ 25 turbines	~ 80 turbines

The projects will aid in the diversification and stabilisation of the country's electricity supply, with the proposed wind energy facilities set to inject over 800MW into the national grid. Each wind energy facility will connect to the grid via a grid connection solution which will be subject to a separate application of Environmental Authorisation.

The infrastructure associated with each wind energy facility will include:

- » Wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A132/33kV On-site substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)

- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant
 - Operation and Maintenance buildings
- » Cabling between the turbines, to be laid underground where practical.
- » Access roads to the site and between project components with a width up to 10m for primary access routes.

BASIC ASSESSMENT PROCESS

In accordance with the EIA Regulations, 2014 (as amended) published in terms of the National Environmental Management Act (No 107 of 1998) (NEMA), the applicants will require environmental authorisation for the undertaking of the projects. In terms of Section 24(5) of NEMA, the EIA Regulations, 2014, as amended, (GNR 326), GNR 114 and Listing Notices (GNR 327, GNR 325, and GNR 324), as well as GNR 114 (the site is located within the Beaufort West REDZ), the two applications are subject to the completion of a Basic Assessment (BA) process based on the location of the project sites within a REDZ. Each application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended) and other relevant protocols and guidelines.

A Basic Assessment is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues and allows for the resolution of issue(s) identified and reported on as part of the BA process, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the separate applications for EA and undertaking the supporting BA process required to identify and assess potential environmental impacts associated with each project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPrs). I&APs will be actively involved in the BA processes through the public participation process.

You and/or the organization / company, which you represent, have been identified as a stakeholder for the proposed projects as described above. The nature and extent of the wind energy facilities and the associated infrastructure are explored in more detail in the Background Information Document (BID) which is attached to this letter and is also available for download from the Savannah Environmental public participation platform on <https://savannahsa.com/public-documents/energy-generation/>.

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed projects is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed projects; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the BA process.

Savannah Environmental have established an online stakeholder engagement platform, where you are invited to register your interest in the project, and view project documentation. Please visit our website (link provided above).

Where I&APs do not have the applicable facilities or access to internet, alternative means for consultation and to facilitate comment on the projects will be made through the Ward Councilor and/or Ward Committee Members. I&APs are also able to make contact via the "Please call me" functionality available on our public participation mobile phone (060 978 8396).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout the processes.

Kind regards

Nicolene Venter

Subject: FE KUDU WIND ENERGY FACILITY - Notification of Basic Assessment Report available for Review and Comment (SE3654)
Attachments: SE3654_Kudu_BAR_Notification-FINAL.pdf

BASIC ASSESSMENT FOR THE FE KUDU WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE (DFFE Reference No.: TBC)

Dear Stakeholder and Interested & Affected Party,

The development of the FE Kudu Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

Our letter and e-mail dated 21 June 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process, has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Report for the FE Kudu Wind Energy Facility and the availability of the BA Report for review and comment.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you and/your Department/Organisation that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **04 October 2023** to **03 November 2023**.

The BA Report can be downloaded from the Savannah Environmental website: [CLICK HERE](#).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

04 October 2023

Dear Stakeholder and Interested & Affected Party,

FE KUDU WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTIFICATION OF BASIC ASSESSMENT REPORT AND AVAILABILITY FOR REVIEW AND COMMENT

The development of the FE Kudu Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the project are as follows:

Project Name	FE Kudu Wind Energy Facility
Location	Portion 2 of Farm Oorlogspoort 85
Applicant	FE Kudu (Pty) Ltd
Contracted capacity	Up to 600MW
Number of turbines	Up to 80 wind turbines

The infrastructure associated with the wind energy facility will include:

- » Up to 80 wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A132kV on-site facility substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)
 - Operation and Maintenance buildings
- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant
- » Power lines internal to the wind farm, trenched and located adjacent to internal access roads, where feasible¹.
- » Access roads to the site and between project components with a width up to 8m for primary access routes.

¹ The intention is for internal project cabling to follow the internal roads.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you and/your Department/Organisation that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **04 October 2023** to **03 November 2023**.

The BA Report can be downloaded from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>. An electronic copy of the BA Report can also be made available via file transfer services such as WeTransfer or Dropbox upon request. The due date for written comment is **03 November 2023**.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

BASIC ASSESSMENT FOR THE FE KUDU WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE (DFFE Reference No.: TBC)

Dear Ms Ralston-Paton,

The development of the FE Kudu Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

Our letter and e-mail dated 21 June 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process, has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Report for the FE Kudu Wind Energy Facility and the availability of the BA Report for review and comment.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform your Organisation that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **04 October 2023 to 03 November 2023**.

The BA Report can be downloaded from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>

NOTE: The .kmz file is attached for ease of reference.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards,

t: +27 (0)11 656 3237

Dear Ms Ralston-Paton,

FE KUDU WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTIFICATION OF BASIC ASSESSMENT REPORT AND AVAILABILITY FOR REVIEW AND COMMENT

The development of the FE Kudu Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the project are as follows:

Project Name	FE Kudu Wind Energy Facility
Location	Portion 2 of Farm Oorlogspoort 85
Applicant	FE Kudu (Pty) Ltd
Contracted capacity	Up to 600MW
Number of turbines	Up to 80 wind turbines

The infrastructure associated with the wind energy facility will include:

- » Up to 80 wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A 132kV on-site facility substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)
 - Operation and Maintenance buildings
- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant
- » Power lines internal to the wind farm, trenched and located adjacent to internal access roads, where feasible¹.
- » Access roads to the site and between project components with a width up to 8m for primary access routes.

¹ The intention is for internal project cabling to follow the internal roads.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you and your Organisation that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **04 October 2023** to **03 November 2023**.

The BA Report can be downloaded from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>. An electronic copy of the BA Report can also be made available via file transfer services such as WeTransfer or Dropbox upon request. The due date for written comment is **03 November 2023**.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Mr John Hayward
Landowner

Per e-mail:

Dear Mr Hayward,

FE KUDU WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTIFICATION OF BASIC ASSESSMENT REPORT AND AVAILABILITY FOR REVIEW AND COMMENT

The development of the FE Kudu Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the project are as follows:

Project Name	FE Kudu Wind Energy Facility
Location	Portion 2 of Farm Oorlogspoort 85
Applicant	FE Kudu (Pty) Ltd
Contracted capacity	Up to 600MW
Number of turbines	Up to 80 wind turbines

The infrastructure associated with the wind energy facility will include:

- » Up to 80 wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A 132kV on-site facility substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)
 - Operation and Maintenance buildings
- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant
- » Power lines internal to the wind farm, trenched and located adjacent to internal access roads, where feasible¹.
- » Access roads to the site and between project components with a width up to 8m for primary access routes.

¹ The intention is for internal project cabling to follow the internal roads.

You, as an adjacent landowner of _____ is hereby notified of the availability of the Basic Assessment (BA) Report for his review and comments (details below). Should his property be leased, we kindly request that you, as his official representative, please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers that he has on the above-mentioned property.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you and/your Department/Organisation that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **04 October 2023** to **03 November 2023**.

The BA Report can be downloaded from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>. An electronic copy of the BA Report can also be made available via file transfer services such as WeTransfer or Dropbox upon request. The due date for written comment is **03 November 2023**.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

Subject: FE Kudu Wind Energy Facility: Focus Group Meeting - Confirmation of telephone discussion (SE3654)

Dear Chris,

Thank you for taking my call yesterday afternoon – it is appreciated.

As discussed, an in-person Focus Group Meeting with the affected and adjacent landowners of the FE Kudu Wind Energy Facility will be held on Monday, 16 October 2023 at 16h00 at the Karoo Secret Farm Stay (Margot Hayward's place).

A calendar invitation will soon follow with more information, including the co-ordinates to the Karoo Secret Farm Stay. The calendar invitation will also include the MS Teams meeting link to join the meeting virtually – if the network is accessible.

The notification letter in which you will be notified that the Basic Assessment Report will be available for review and comment will be sent by e-mail today. The report can be downloaded from our website:
<https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>

Please do not hesitate to contact me should you have any questions at this stage.

Subject: FE Kudu Wind Energy and FE Tango Wind Energy Facilities (SE3654): Landowners' Focus Group Meeting

Dear Warren,

Thank you for taking my call a few minutes ago – it is appreciated.

As mentioned, it was determine that the FE Tango Wind Energy Facility landowners's (adjacent) required an in-person Focus Group Meeting (FGM) due to the unstable internet connection in the area, making a virtual meeting not possible.

Both the FE Tango and FE Kudu Wind Energy Facilities will be presented at the FGM and the purpose of the FGM is to:

- provide a brief background to the proposed project;
- a summary of the environmental studies undertaken;
- a summary of the key environmental findings; and
- an opportunity for the landowners to ask questions and submit any comments / concerns they may have regarding these projects

The envisaged day to hold the in-person FGM is either Monday, 16 October 2023 or Tuesday, 17 October 2023 – the time of the meeting still need to be determine. Mr Hein (Hantie) Marx made his house available to hold the meeting. Confirmed details will be shared with you in due course.

I will keep you informed of progress with the arrangements.

Should you have any questions at this stage, please do not hesitate to contact me.

**BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

Dear Warren,

The development of two separate wind energy facilities and associated infrastructure are proposed on sites located west of Aberdeen in the Eastern Cape Province. The two wind farms are located within the Beaufort West Renewable Energy Development Zone (REDZ) and are to be known as the FE Tango Wind Energy Facility and FE Kudu Wind Energy Facility. The projects are to be located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

The projects will aid in the diversification and stabilisation of the country's electricity supply, with the proposed wind energy facilities set to inject over 800MW into the national grid. Each wind energy facility will connect to the grid via a grid connection solution which will be subject to a separate application of Environmental Authorisation.

BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE (DFFE Reference Nos.: To be Issued)

Dear Warren,

The development of two separate wind energy facilities and associated infrastructure are proposed on sites located west of Aberdeen in the Eastern Cape Province. The two wind farms are located within the Beaufort West Renewable Energy Development Zone (REDZ) and are to be known as the FE Tango Wind Energy Facility and FE Kudu Wind Energy Facility. The projects are to be located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman

District Municipality.

The projects will aid in the diversification and stabilisation of the country's electricity supply, with the proposed wind energy facilities set to inject over 800MW into the national grid. Each wind energy facility will connect to the grid via a grid connection solution which will be subject to a separate application of Environmental Authorisation.

Please find attached the following documents for your perusal:

- Invitation letter to participate in the Basic Assessment and Public Participation Process for these two (2) Wind Energy Facilities.
- Background Information Document which will provide you with additional technical information regarding the proposed developments (ook beskikbaar in Afrikaans).
- Registration and Comment Form (ook beskikbaar in Afrikaans).

As per my WhatsApp this morning, we need to determine the need for a Focus Group Meeting (FGM) to present the content of the FE Tango Wind Energy Facility's Basic Assessment (BA) Report and whether the FGM needs to be in-person or virtual.

Information received to date from adjacent landowners is that the signal in the area is not stable and a virtual meeting could not be feasible, and if an in-person meeting is required, that the FGM takes place at Izak van der Merwe's house or Hantie Marx. I could not yet make contact with Hantie (probably loadshedding / connection limitation) to obtain his inputs regarding the FGM.

I will give you a call today to discuss the need for a FGM.

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards,

Baie dankie dat jy op die stemnotas wat ek vanmiddag gestuur het, gereageer het.

Soos genoem, sal 'n in-persoon Fokusgroepvergadering met die geaffekteerde grondeienaar en omliggende grondeienaars van die FE Kudu Windkragaanleg gehou word op Maandag, 16 Oktober 2023 om 16h00 te Karoo Secret Farm Stay (Margot Hayward se plek).

'n Kalender uitnodiging sal binnekort volg met meer inligting asook die koördinate na die Karoo Secret Farm Stay. Die kalender uitnodiging sal ook die MS Teams koppeling insluit, indien jy die vergadering virtueel wil bywoon – as die netwerk toeganklik is.

Die inligtingsbrief wat jou in kennis stel dat die Basiese Ewalueringsverslag vanaf more beskikbaar sal wees vir kommentaar sal per e-pos gestuur word. Die verslag kan afgelaai word van ons webwerf:

<https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>

Moet asseblief nie huiwer om my te skakel indien jy enige addisionele inligting verlang nie.

Vriendelike groete,

savannah

Subject: FE Kudu Windkragaanleg: Fokusgroepvergadering - Bevestiging van telefoniese gesprek (SE3654)

Beste Dirk,

Baie dankie dat jy my oproep vanmiddag ontvang het.

Soos bespreek, sal 'n in-persoon Fokusgroepvergadering met die geaffekteerde grondeienaar en omliggende grondeienaars van die FE Kudu Windkragaanleg gehou word op Maandag, 16 Oktober 2023 om 16h00 te Karoo Secret Farm Stay (Margot Hayward se plek).

'n Kalender uitnodiging sal binnekort volg met meer inligting asook die coordinate na die Karoo Secret Farm Stay asook die koppeling om die vergadering virtueel by te woon – as die netwerk toeganklik is.

Die inligtingsbrief wat jou in kennis stel dat die Basiese Evalueringsverslag vanaf more beskikbaar sal wees vir kommentaar sal per e-pos gestuur word. Die verslag kan afgelaai word van ons webwerf:

<https://savannahsa.com/public-documents/energy-generation/kudu-wind-energy-facility/>

Moet asseblief nie huiwer om my te skakel indien jy enige addisionele inligting verlang nie.

Vriendelike groete,
