1. INTRODUCTION

This Consultation Report has been compiled for an application for a Prospecting Right that has been submitted in terms of Section 16 of the Mineral and Petroleum Resources Development Act (Act No.28 of 2002) (MRPDA).

MinMet Services was appointed by Lengana Health SA (Pty) Ltd. to assist in preparing and submitting an Environmental Imp[act Assessment and Environmental Management Plan (EMP) and undertaking a Landowner and Public Consultation Process with the landowners and other Interested and Affected Parties (I&APs).

The application for a Prospecting Right was accepted by the Department of Mineral Resources (DMR) on 20TH of February 2019.

Lengana Health SA (Pty) Ltd was instructed to:

1. Submit an Environmental Management Plan (EMP) on or before 30th June 2019.
2. To notify in writing and consult with the landowners and other Interested and Affected Parties (I&APs); and
3. To submit the results of such consultation on or before the 01st of July 2019.

This report describes the processes used to notify in writing and consult with the land owners and other Interested and Affected Parties (I&APs). This report also includes the results of the consultation. The copies of notices and correspondence are included in Annexure A.

2. NOTIFICATION

Interested and Affected parties were notified through an advert that was placed in the Parys Gazette and appeared on the 30th of May 2019 in the notice section(Proof of this will be provided in Annexure A. Notification Letters were given to the landowners personally on the 05TH OF June 2019. The site notices were placed at 2 localities on the site on the 05th of June 2019. Posters were placed in the surrounding area farm fences, at the corner of the R723 and S147 road and also the junction of the R82 and the Western Service Road. Site notices were also placed at the local Ngwathe Municipality offices and one copy of the notice was handed over to the secretary with attention to the Municipal Manger. Background Information Documents and Response Sheets distributed via email to identified Interested & Affected Parties. A copy of the presentation was also distributed to interested and affected parties and will be attached in this report.

3. CONSULTATION WITH INTERESTED AND AFFECTED PARTIES

3.1 Land owners

The following landowners responded with questions, concerns and comments using the response sheets that was attached on the notification letter;

- Mr PS Loggenberg –Farm owner of Geluk, Enkelbosch 08
- Mr Francois Smit – Farm owner of Hoogebult and Verdeel

Their response sheets have been included in this report.

3.2 Neighbouring land owners

To date, no written comments have been received from the neighbouring land owners.

3.3 Interested and affected parties

A letter of notification was sent to Mr Richard Da Silva, a Geological Service Manager at Matsopa Minerals which is a Bentonite mine located near the area of interest of the Prospecting Area of Lengana Health SA (Pty) Ltd. Mr Da Silva as a representative of Matsopa Minerals has been included in all correspondence from the beginning of this application stages.

The department of Agriculture and Land Reform in the Free State Region was contacted with no response. Phone lines were not being picked up and emails sent bounced back.

3.4 Issues and concerns raised

The issues and concerns that have been raised during the consultation process as well as the direct responses and standard responses to these issues are summarized below:

Public Participation Meeting: Lengana Health SA (Pty) Ltd – FS 10541 PR – 21 June 2019.

All documentation related to the consultation process including the register of the Interested and Affected Parties (I&APs) and all written comments received are attached to this report.

Meeting Minutes and Issues Raised

PUBLIC PARTICIPATION MEETING MINUTES

FS 10541 PR Date : 21 June 2019

- Welcome done by Asanda Mthembu, the project Environmental Practitioner at MinMet Services.
- Agenda read
- 1st complaint: From Mr PS Loggenberg, as to how the land owners were identified and informed. Mr Loggenberg claims that most of the landowner did not receive notification and were uninformated about the meeting including himself.
- F. Smit- landowner of Hoogebult and Verdeel objected profusely and claimed that Lengana Health SA was there to take their land away.
- He was addressed by Mr JJ Human, who cleared up Lengana Health SA's intentions and that this is not a political issues. Lengana Health will not at present moment or in anytime in the future be expropriating anyone's land. However should stale mate arouse the MPRDA section 54 (2) process will be followed.
- Mr F. Smit continued to enquire about process that can help the land owners stop the process in which Mr JJH informed him of Section 54 case that can be filed at the Department of Mineral Resources by the landowners. Whereby a REMDEC process will be initiated.
- Mr Richard Da Silva from Matsopa Minerals cleared up the issue of Section 54 and explained the rights of the landowners in detail and that they can be able to represent themselves at the DMR.
- Mr Smit further refused the status quo of the meeting claiming that nobody will have access to his land and he further continued to question the issue of access agreements.
- Mr Herbst (Jnr), raised his concerns on rehabilitation and the closure of the holes in which Miss Mthembu told the landowners in detail the issue of rehabilitation that Lengana Health will be subjected by law to rehabilitate. Mr JJH explained further.
- Mr H Oosthuizen raised the issue of an increase in human traffic in the area which in his view is a cause for concern. Miss Mthembu assured all landowners that Lengana Health SA will remain accountable for the number of people it brings to site for drilling.
- Miss Mthembu undertook to convert her PowerPoint presentation to PDF format and email to all I&A parties listed.
- Mr Da Silva request that all email communication be done on "Group Wise" in order for the I&A parties to be assured that everybody is kept informed.
- Mr Smit enquired as to how Lengana Health SA (Pty) Ltd became aware of the occurrence of Spodumene containing Pegmatite on the relevant properties. Mr. Human explained that the occurrence of Pegmatite in the area is public knowledge that is well recorded in various Geological manuals and papers, but the deposit was never explored for economic feasibility.

3.5. Response to All Issues Raised

- **Notification of Landowners was questioned**

The landowners were assured all relevant interested and affected parties, landowners had been notified. Their absent could have been by choice. Lengana Health SA placed an advert on the newspaper, hand delivered notices to relevant land owners and also put up posters at the fences of surrounding farms .This was all in accordance with Section 4 (2) of the Environmental Impact Assessment Regulations of 2014, chapter 6 on the EIA Regulations.

- **Groundwater Pollution**

Type of drilling method, percussion will minimize environmental effects. Drilling be through the use of percussion that will produce solid core and will be highly unlikely to case any pollution to groundwater sources. Drilling will also be conducted during the winter season, when the water table is likely to be low to avoid ground water pollution.

- **Disturbance of Farming activities**

Access agreements will be made prior on individual basis with relevant land owner to ensure that drilling activities do not interfere with farming activities.

- **Increase in Stock Theft**

All drilling/ mapping activities to be conducted during the day. Gates to be opened and locked while site activities are being conducted at all times .Lengana Health will account for the relevant number of people to be on site during drilling activities upon discussion with landowners.

Lengana Health SA can only be accountable for the specific area they have contracted to drill at a specific time. All health and safety measures will be taken to ensure maximum security during drilling.

- **Concern of land being taken away**

Lengana health assured the landowners that no land will be taken away from them, now or in the future. Should the land owners have any objections, they are welcome to seek legal action or contact the Department of Mineral Resources to lodge a complaint.

- **Access Agreements**

Lengana Health SA discussed in detail how access agreements work and that access will be discussed individually to individual land owners based on the specific needs of the project.

4. CONCLUSION

It is concluded that land owners, neighbouring land owners and other potentially Interested and Affected Parties (I&APs) have been notified about the application. A few landowners have submitted their responses with questions and comments to the response sheet that was attached on the notification letter and they all would like to be kept informed. Matsopa Minerals Geological Service Manager Mr Richard Da Silva is registered as an interested and affected party and remains updated and informed of all correspondence between the landowners and Lengana Health SA.

The concerns of the landowners were addressed and those who did not complete the BID response sheets were urged to do so and return the forms to be included in the BAR and consultation report.

All meeting minutes and relevant documentation, background information document, general surveyor map, public participation presentation have been forwarded to the interested and affected parties and relevant landowners.

ANNEXURE A

1. All registered interested and affected parties

1. Mr Richard Da Silva- Matsopa Minerals

Good Morning Mr Smit,

In any application, the possible mineralized zones are targeted and not the properties as such. Should prospecting results be positive, negotiations with relevant property owners will be conducted for mining lease on relevant affected areas which will then be fenced off from the rest of the property.

Remember, property boundaries never represent mineralized zones .

Reg 42 Area Map - FS 10541 PR - Lenagana Health SA (Pty) Ltd.pdf (130 KB)

Good Afternoon,

We would like to confirm that based on the surveyor general map attached , only portion 1, 7 and the Remaining Extent of Enkelbosch 31 are included in the prospecting application. Portion 8 of Enkelbosch falls outside of the application area . It is also only the western portion of the farm Goudlaagte 238 that is affected as per SG map.

Many Thanks ,

Asanda Mthembu
