Dear Interested and/or Affected Party

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 28 SEPTEMBER 2015 FOR THE 75 MW MULILO PV1 PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE ON REMAINDER OF THE FARM DU PLESSIS DAM NO. 179 NEAR THE TOWN OF DE AAR WITHIN THE EMTHANJENI LOCAL MUNICIPALITY IN THE NORTHERN CAPE PROVINCE (DEA REF NO.: 14/12/16/3/3/2/456/AM1)

Notification of Amendment of the Environmental Authorisation

This letter serves to notify all registered Interested and Affected Parties (I&APs) of the Department of Environment, Forestry and Fisheries' (DEFF's) decision in respect of the application for amendment of the Environmental Authorisation (EA) issued on 28 September 2015, as amended, for the 75 MW Mulilo PV1 photovoltaic solar energy facility and its associated infrastructure on Remainder of the Farm Du Plessis Dam No. 179 near the town of De Aar within the Emthanjeni Local Municipality in the Northern Cape Province. Furthermore, the provisions regarding the submission of appeals that are contained in the National Environmental Management Act (NEMA) (No. 107 of 1998) National Appeal Regulations (2014) are also outlined herein, should an I&AP wish to appeal DEFF's decision.

1. Decision

We wish to inform you that, based on a review of the reasons submitted by Du Plessis Dam Solar PV1 (Pty) Ltd for requesting an amendment to the abovementioned Environmental Authorisation (EA) (i.e. an amendment to extend the validity period of the EA) that DEFF, in terms of Chapter 5 of the EIA Regulations, 2014, as amended, **has decided to amend the EA dated 28 September 2015**, as follows:

Amendment 1: Amendment to extend the commencement period, on page 10 of the EA:

Condition of Authorisation 6 on page 10 of the EA stated the following:

"The activity must commence within a period of five (05) years from the date of issue of this environmental authorisation. If commencement of the activity does not occur within that period, the environmental authorisation lapses and a new application for environmental authorisation must be made in order for the activity to be undertaken".

DEFF has granted a five year extension to the validity period of the EA. In this regard, Condition 6 of the EA has been amended by DEFF as follows:

“6. This activity must commence within a period of ten (10) years from the issue of this authorisation (i.e. the authorisation lapses on 28 September 2025). If commencement of the activity does not occur within that period, the environmental authorisation lapses and a new application for environmental authorisation must be made in order for the activity to be undertaken”.

DEFF’s amendment to the EA, dated 12 August 2020, including the reason for the amendment, is included in Annexure A herewith for your information¹.

2. Right to Appeal

We would like to draw your attention to your right to appeal against the decision to the Minister, in terms of the National Appeal Regulations (2014) (Government Notice No. R993) which prescribes the appeal procedure to be followed. Dear Mr Morse

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 28 SEPTEMBER 2015 FOR THE 75 MW MULILO PV1 PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE ON THE REMAINDER OF THE FARM DU PLESSIS DAM 179 NEAR THE TOWN OF DE AAR WITHIN THE EMTHANJENI LOCAL MUNICIPALITY IN THE NORTHERN CAPE PROVINCE

The Environmental Authorisation (EA) issued for the abovementioned application by this Department on 28 September 2015, and your application for amendment of the EA received by the Department on 16 July 2020 and acknowledged on 29 July 2020, refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment Regulations, 2014 as amended, has decided to amend the EA dated 28 September 2015, as follows:

Amendment to extend the commencement period, on page 10 of the EA

The commencement period of the EA issued on 28 September 2015 which was due to expire on 28 September 2020, is hereby extended by an additional five years (05) years to 28 September 2025. Condition 6 of the EA is thus amended as follows:

"6. This activity must commence within a period of ten (10) years from the date of issue of this authorisation (i.e. the authorisation lapses on 28 September 2025). If commencement of the activity does not occur within that period, the environmental authorisation lapses and a new application for environmental authorisation must be made in order for the activity to be undertaken."

The Department is aware that the environment changes constantly, as a result it might be significantly different from the one that existed at the time of the issuing of the EA, hence the validity of the EA cannot exceed a maximum period of 10 years. Failure to commence with construction activities within the maximum 10 year period, will result in the EA lapsing, and a new application for Environmental Authorisation will have to be lodged.

M.S

Reason for amendment:

The applicant required an extension of the commencement period of the EA by an additional 5 years, due to the fact that the project has not yet been selected as a preferred bidder as part of the Department of Energy's Renewable Energy Independent Power Producer Procurement Programme (REIPPPP). The extension of the validity period is not anticipated to result in additional negative environmental impacts to those that have already been assessed in the EIA for the project. No significant changes to the receiving environment have occurred since the EIA for the project was undertaken

General

This amendment letter must be read in conjunction with the EA dated 28 September 2015.
