School of Geography Archaeology and Environmental Studies
Wits University

Dear Dominic

RE: Landowner permission for Sterkfontein site permit

In my capacity as the proxy for the landowner of the Sterkfontein fossil site, the University of the Witwatersrand, I hereby grant permission to access the land for your research activities under the SAHRA permit for which you are applying for the next three years. As long as you follow the regulations and guidelines of SAHRA and those provided by the ESI Collections Curator, Dr Bernhard Zipfel, we are happy for you to continue your valuable research.

Yours faithfully
