ZD PROJECT MANAGEEMNT

**SUBJECT: BENEFICIARIES IN WETLANDS & UNDER POWER LINES
FEEDBACK FROM PSC IN CONSULTATION WITH
AFFECTED BENEFICIARIES**

We are writing this letter to confirm that as PSC Committee, we have visited all beneficiaries given to us by the consultant as affected beneficiaries.

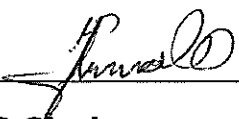

At the meeting it was confirmed that there are no beneficiaries affected by wetlands in such a way that they need to be moved out of their property. Some wetland is only evident in a small portion of their land, not the existing house or the whole site, which will give an option of the new house to be built in the same yard, if need be.

However, if at a later stage a desperate need arises, the Traditional Council Representative (Induna) has confirmed that a land can be identified accordingly.

There were no beneficiaries allocated under the Eskom power lines. Eskom rules and procedures should be considered by the consultant when construction commences.

Thank you

Yours faithfully

PSC Chairperson
