8001

11 October 2018

Dear Ms Higgitt

**RE: SECURITY VILLAGE ERF 3952 AND ERF 3975, HARTSWATER, NORTHERN CAPE PROVINCE**

As per the Interim Comment received by the South African Heritage Resources Agency on 3 October 2018, clarity regarding the Furnace area must be provided by the Environmental Assessment Practitioner (EAP).

The Furnace area is applicable to another project handled by Enviroworks and is not applicable to this Proposed Development. The condition was removed from the Draft Basic Assessment; however, the condition still reflects within the Environmental Management Plan. The condition has been removed by the EAP.

I hope you find the above mentioned in order, should you have any questions please feel free to contact me.

**Kind Regards**

Christoff du Plessis
