**NOTIFICATION LETTER: THE LICENSING OF A GENERAL WASTE DISPOSAL SITE FOR THE MUSINA LOCAL MUNICIPALITY REF 12/4/10/8 – B/8/V4**

It is the intention of the Musina Local Municipality to license the general waste disposal site for the town of Musina. An application form was submitted for licensing of the site at the Limpopo Department of Economic Development, Environment and Tourism (DEDET) in terms of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008).

The alignment of the proposed Musina Western Ring road traverses the existing waste disposal site and it is, therefore, proposed that the footprint of the existing waste disposal site be expanded to the south west of the existing site. The existing area currently used for disposal will be filled to capacity and will be temporary capped. The site will then be expanded to the south west of the existing site to allow for a continuation of the waste disposal in Musina. The temporary capping of the existing disposal area as well as the area to be expanded to the south east of the existing site, will be included in this waste application process.

The waste specialists appointed to assist with this application already had a meeting with the Department of Water and Sanitation concerning this proposed project. Please see the letter that was sent from the Department following the meeting.

Notice is hereby given in terms of the Environmental Impact Assessment Regulations of 4 December 2014 promulgated in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), that an Environmental Impact Assessment will be conducted for the proposed licensing of the site for submission to the Limpopo Department of Economic Development, Environment and Tourism for authorization and licensing of the site.

For more information or for submission of any comments or enquiries regarding the above matter, please contact the undersigned.

Regards
