Dear Kathryn

**Ref no 30/5/1/1/3/2/1/10373 PR**

**RE: LOCATION MAPS**

We refer to your email of the 7 September 2012

We have submitted all the maps to the Department Mineral Resources but I will try to get you a copy as soon as possible.

I just want to point out that all the farms under application are operation mines.

We have applied for a by produce of manganese that can only mine if they mine manganese.

As so far as we are concern the mining companies must already have done the heritage report on all the farms under application.

**Please verify the above information with the DMR.**

Hope you find it in order.

Yours faithfully

Alistine Nancy Ontong
