

## APPENDIX B           STAKEHOLDER ENGAGEMENT RECORDS

- B1.           Stakeholder Database
- The database of registered Interested and Affected Parties was updated throughout the Scoping Process.
- B2.           Notification letter
- A Stakeholder Notification letter was sent to all Interested and Affected Parties indicating the release of the Draft Scoping Report for comments and the associated commenting period. Notification letters were distributed as follows:
    - B2.1. Notification Letter sent to Interested and Affected Parties via Email and
    - B2.2. Notification Letters sent to Interested and Affected Parties via Registered post.
- B3.           Site Notices
- Site notices providing an outline of the project, commenting period, process to register as an Interested and Affected Party and submit comments were erected on 29 January 2019. Site notices were erected in IsiZulu and English at the following sites:
    - B3.1. Pipeline Beach;
    - B3.2. Kingsburgh Library and
    - B3.3. Amanzimtoti Library.
- B4.           Newspaper Advertisements
- Advertisements providing an outline of the project, commenting period, process to register as an Interested and Affected Party and submit comments were published on 31 January 2019. Advertisements were published as follows:
    - B4.1. An isiZulu Advertisement was published in Isolezwe Newspaper and
    - B4.2. An English Advertisement was published in the South Coast Sun Newspaper.
- B5.           Authority Communication
- Communication between Commenting Authorities and the EAP have been included. Proof of communication and requests for comments have been included.

B6. Comments Received

- Copies of all comments received during the Draft Scoping report commenting period have been included.

B7. Final Scoping Report Notifications

○ B7.1 Submission of Final Scoping Report :

A notification letter was sent via email to all registered Interested and Affected Parties indicating that the Final Scoping Report had been submitted to the Department of Environmental Affairs.

○ B7.2 Acceptance of Final Scoping Report :

A notification was sent via email to all registered Interested and Affected Parties indicating that the Final Scoping Report had been accepted by the Department of Environmental Affairs.

**APPENDIX B1      STAKEHOLDER DATABASE**

<b>Name</b>	<b>Position</b>	<b>Organisation Name</b>
<b>Landowner</b>		
Diane van Rensburg	Senior technical Planner and EIA hub for City	eThekweni Metropolitan Municipality
<b>Authorities</b>		
Sue Middleton	Chief Director: Fisheries Operational Support	Department of Agriculture, Forestry and Fisheries
Ms S. Ndundane	Deputy Director General: Fisheries Management	Department of Agriculture, Forestry and Fisheries
Mr Belemane Semoli	Aquaculture Delivery Unit	Department of Agriculture, Forestry and Fisheries
Kishan Sankar	Aquaculture Delivery Unit	Department of Agriculture, Forestry and Fisheries
Michelle Pretorius	Aquaculture and Economic Development	Department of Agriculture, Forestry and Fisheries
Andrea Bernatzeder	Aquaculture and Economic Development	Department of Agriculture, Forestry and Fisheries
Professor Edith Vries	The Director General: Agriculture	Department of Agriculture, Forestry and Fisheries
M.A Ngadlala	Director	Department of Agriculture, Forestry and Fisheries: International Relations Fisheries
Barry Turner	Director: Authorizations and Waste Disposal Management	Department of Environmental Affairs (DEA)
Mpho Tshitangoni	Waste Disposal Management	Department of Environmental Affairs (DEA)
Nigel Gwynne-Evans	Chief Director: African Integration and Industrial DeTrade and Sectors De	Department of Economic Development and Tourism (DEDAT)

Millicent Solomon	Director	Department of Environmental Affairs: Integrated Environmental Authorisations
Nosipho Ngcaba	Director General	Department of Environmental Affairs
Muhammad Essop		Department of Environmental Affairs: Integrated Environmental Authorisations
<b>Thando Booi</b>	<b>Case Officer</b>	Department of Environmental Affairs: Integrated Environmental Authorisations
Nyiko Nkosi	Attended Pre-App Meeting	Department of Environmental Affairs: Integrated Environmental Authorisations
Wilma Lutsch	Director	Department of Environmental Affairs: Biodiversity
Nitasha Baijnath-Pillay	Directorate: Coastal Pollution Management	Department of Environmental Affairs: Oceans and Coast Permitting
Rueben Molale	Directorate: Coastal Pollution Management	Department of Environmental Affairs: Oceans & Coasts
L Mudau		Department of Environmental Affairs: Biodiversity Oceans and Coast Division
Gqobani Popose	Director: Oceans Conservation Strategies	Department of Environmental Affairs: Oceans and Coasts
Dr Monde Mayekiso	Deputy Director General	Department of Environmental Affairs : Oceans and Coasts
Mr Lindelani Mudau	Chief Directorate: Integrated Coastal Management	Department of Environmental Affairs : Oceans and Coasts
Potlako Khati	Chief Director: Integrated Coastal Management and Development (CD: IC	Department of Environmental Affairs : Oceans and Coasts
Mr Chumani Mangcu	Directorate: Administration Support	Department of Environmental Affairs : Oceans and Coasts
Alan Boyd	Oceans and Coasts	Department of Environmental Affairs : Oceans and Coasts
Andy Cockroft	Ocean and Coasts	Department of Environmental Affairs : Oceans and Coasts
Dr Yazeed Peterson	Coastal Pollution Management: Director	Department of Environmental Affairs : Oceans and Coasts
Xola Mkefe	Coastal Biodiversity Conservations : Director	Department of Environmental Affairs : Oceans and Coasts
Lindelani Madau	Coastal Conservation Strategy: Director	Department of Environmental Affairs : Oceans and Coasts
Dee Fischer	Integrated Environmental Management: Chief Director	Department of Environmental Affairs : Oceans and Coasts
Sabelo Malaza	Chief Director: Integrated Environmental authorisation	Department of Environmental Affairs : Oceans and Coasts

Ishaam Abader	Deputy Director General: Legal Authorisations, Compliance and Enforcement	Department of Environmental Affairs : Oceans and Coasts
Andre Share	Chief Director	Department of Environmental Affairs Integrated Coastal Management - Oceans and Coasts
Funanani Ditinti	Acting Chief Director	Department of Environmental Affairs Integrated Coastal Management - Oceans and Coasts
Alan Boyd	Director	Department of Environmental Affairs: Oceans and Coasts
Siyanda Matomela	Human Settlements	Department of Human Settlements
Ms R Sadiki	Acting Director-General	Department of Land Affairs
Deidre Watkins	Deputy Director: Mine Environmental Management	Department of Mineral Resources
Ossie Lamb	Property Management	Department of Public Works
Hester Lyons		Department of Water and Sanitation
Barbara Weston	Deputy Director: Resources Directed Measures	Department of Water and Sanitation
Thembi Mafilela	Directorate: Water Sector Support	Department of Water and Sanitation
Mrs Ashia Petersen	Directorate: Regulations : Acting: Chief Executive Officer	Department of Water and Sanitation
Ms B Hene	Director	Department of Water and Sanitation
Wilna Moolman	Assistant Director	Department of Water and Sanitation
Ms Notmbi Madibe	Acting Water Quality Area manager	Department of Water and Sanitation
Shereen Whitby	Deputy Director: Resource Directed Measures	Department of Water and Sanitation
Coleen Munsamy		Department of Water and Sanitation
Sandra Graham	Deputy Director: Water Quality Management	Department of Water and Sanitation
Peter Roberts	Environmental Health	Department of Water and Sanitation
Neo Leburu	Acting Environmental Control Officer	Department of Water and Sanitation
Ms Margaret-Anne Diedricks	Director General	Department of Water and Sanitation
Mr Pule Godfrey PG Selepe	Director General	National Government: Department of Transport
Phumla Ngesi	Manager: Environmental Compliance	Petroleum Agency South Africa
Ragna Redelstorff		South African heritage Resources Agency
Lesla La Grange	Acting Manager: Maritime and Underwater Cultural Heritage Team	South African heritage Resources Agency
Briege Williams	Heritage Officer: Maritime and Underwater Cultural Heritage Team	South African heritage Resources Agency
Nigel Campbell	Acting Regional Manager	South African Maritime Safety Authority (SAMSA)
Ms Debbie James	Asst. to Regional Man & Office Admin	South African Maritime Safety Authority (SAMSA)
Mr H Esterhuizen	Ship Surveyor (Saldanha)	South African Maritime Safety Authority (SAMSA)
David Manley	Principal Officer	South African Maritime Safety Authority (SAMSA)
Mr Martin Slabber	Principal Officer (Saldanha)	South African Maritime Safety Authority (SAMSA)
Mr Malcolm Nelson		SA Navy Hydrographic Office
Theo Stokes	Captain - South African Navy	SA Navy Hydrographic Office
<b>Provincial Authorities</b>		
Mavis Padayachee	District Manager and Environmental Management Inspector	KZN Department of Economic Development, Tourism & Environmental Affairs
Nombulelo Zungu	Assistant Manager	KZN Department of Economic Development, Tourism & Environmental Affairs
Yugeshni Govender	EIA Division	KZN Department of Economic Development, Tourism and Environmental Affairs
Natasha Brijlal	EIA Division	KZN Department of Economic Development, Tourism and Environmental Affairs
Karen Moodley	Forestry regulations and support	KZN Department of Agriculture, Forestry and Fisheries
Vanessa Maclou	Senior Manager	Deputy Director: Resources Directed Measures

<b>Municipality: KwaZulu Natal</b>		
Diane van Rensburg	Senior technical Planner and EIA hub for City	eThekwini Metropolitan Municipality
KM Jaggeth	Environmental Management: Pollution	eThekwini Metropolitan Municipality
Sibusiso Shange	Professional Technologist for Island View Area	eThekwini Metropolitan Municipality
Logan Moodley	Deputy Strategic Transport Planner	eThekwini Metropolitan Municipality
Zibuse Ngcece	Department of Fire	eThekwini Metropolitan Municipality
Greg Evans	Head of Engineering Department	eThekwini Metropolitan Municipality
Nomvelo Mthembu	PA - Greg Evans	eThekwini Metropolitan Municipality
Goefrey Pullan	Environmental committee - Democratic Alliance	eThekwini Metropolitan Municipality
Sebenzile Zenzile	Councillor	eThekwini Metropolitan Municipality
Michelle Lotz	Regional Coordinator Biodiversity Impact Assessment	eThekwini Metropolitan Municipality
Aubrey Snyman	Ward Councillor ward 68/Democratic Alliance	eThekwini Metropolitan Municipality
Diane van Rensburg	Biodiversity Impact Assessment	eThekwini Metropolitan Municipality
Steve Ferreira	Manager	eThekwini Metropolitan Municipality
Kheswa Johnson	Environmental Manager: Pollution - Bluff	eThekwini Metropolitan Municipality
Bonga Mathonsi	Director Executive: Brighton Beach SAPS	eThekwini Metropolitan Municipality
John Forbes	Environmental Manager	eThekwini Metropolitan Municipality
Gavin Hegter	Councillor - Bluff Area	eThekwini Metropolitan Municipality
Debra Roberts	Climate protection unit	eThekwini Metropolitan Municipality
Wilfred Mkhwanazi	Manager	eThekwini Metropolitan Municipality - Disaster Management
Jamila Ndovela	Manager	eThekwini Metropolitan Municipality - Disaster Management
Carlos Esteves	Deputy Head Ethekwini Transport Authority	Ethekwini Transport authority
Nerissa Pillay	IEM Technician	Ezemvelo KZN Wildlife
<b>NGOS &amp; Nature Conservation groups</b>		
Simon Gear	Policy & Advocacy	Birdlife SA
Rico Eurpidou	Chairperson	GroundWork - Friends of the Earth SA
Bobby Peek	Director	GroundWork - Friends of the Earth SA
Dr Kerry Sink	Marine Program Manager	South African National Biodiversity Institute
Desmond D'Sa	Office Coordinator	South Durban Community Environmental Alliance (SDCEA)
Shanice Gomes	Environmental education officer	South Durban Community Environmental Alliance (SDCEA)
Zakia Kikia-Khan	Board Member	South Durban Community Environmental Alliance (SDCEA)
Dr S Plon (Stephanie)	Marine Mammal Scientist	SA Institute for Aquatic Biodiversity (SAIAB)
Khalid Mather	Environmental Activist	Wildlands Conservation Trust
Samantha Petersen	Manager	WWF South Africa
Judy Main	Manager	South African Association for Marine Biological Research
Jade Maggs	Oceanographic Research Institute	South African Association for Marine Biological Research
Dave Watts	Maritime consultant	South African Association of Freight Forwarders
Morgan Griffiths	Conservation department	WESSA
Mr Mike Denison	-	WESSA
Mr Mike Denison	-	WESSA
<b>Fisheries</b>		
Suleiman Salie	Chairman	Fish SA
Steve Cameron Dow	Chairman	Fresh Tuna Exporters Association
Wally Croome		South African Commercial Line Fishing Association
Richard Ball	Secretary	South African Tuna Longline Association

Johann Augustyn	Chairman	South African Deep-Sea Trawling Industry Association
Dr Dino Moodaley	Chairman	South African Squid Management Industrial Association
<b>Others</b>		
Lindiwe Msomi	HR Manager	Amafa KwaZulu-Natal
Lynn Erasmus	Member	Bluff CPS
Business report editor	Journalist	Business Report
Lee D'Eathe	Owner	Business Unusual
Baxolile Zwane	Managing Director	Caurus Energy
Rishi Singh	President	Clairwood Ratepayers and Residents Association
Judy Bell	Member	Coast Watch
Glen Govender	Business development Manager	Commercial Waste SA
Erika du Plessis	Ward Councillor	Democratic Alliance (DA)
Charlie Else	Manager	Electrowave SA
Josette Oberholzer	Environmental Officer	Enviropro
Dheena Govender	Senior Manager	Enviroserv
Tony Carnie	Journalist	Freelance Environmental journalist
Bonke Dumisa	Advocate	High Court
Thomas Ngomane	News Editor	Ilanga News
Deena Pillay	Journalist	Independent Journalist
Barbara Cole	Journalist	Independent Journalist
Johan Malan	Manager	Industrial Oleochemical Products
Brian Akoon	Materials Specialist	Isegen South Africa (Pty) Ltd
Theuns Badenhorst	Portfolio Manager	Ithala Bank
Zaziwe Zondi	Property Manager	Ithala Bank
Ferhana Dickens	Finance Director	Melron Group
Grant Howes	Sales Rep	Valve and Automation
Stuart Collett	I&AP	I&AP
Liz Coxen	I&AP	I&AP
S. Dannhauser	I&AP	I&AP
Samantha Enslin	I&AP	I&AP
Gary Glen	I&AP	I&AP
Louis Gontier	I&AP	I&AP
Ros Grandin	I&AP	I&AP
Joey Grimett	I&AP	I&AP
Ted Holden	I&AP	I&AP
L A, Kennedy	I&AP	I&AP
Clive Kleinschmidt	I&AP	I&AP
Ian Macintosh	I&AP	I&AP
John Oxley	I&AP	I&AP
Mark Penning	I&AP	I&AP
Brenda Pratt	I&AP	I&AP
Darryl Spijkers	I&AP	I&AP
Mario Steyn	I&AP	I&AP
Deshnee Sukdeo	I&AP	I&AP
Steven van Wyk	I&AP	I&AP
Virginia Waldeck	I&AP	I&AP
Ronald Wicks	I&AP	I&AP

Dave Woest	I&AP	I&AP
John Forbes	I&AP	I&AP
Earl Baillache	Journalist	South Coast Sun

Stakeholders Letter.pdf;

Dear Stakeholder,

You are hereby notified of the availability of the Draft Scoping Report for the METISS Subsea Cable System to be landed in Pipeline Beach, Amanzimtoti, Kwa Zulu Natal.

You are invited to submit your comments on the Draft Scoping Report to ERM on or before **4 March 2019**. The report is available electronically at [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system) and has been placed in numerous public places as per the attached letter.

If required, ERM will be available in the Amanzimtoti from **1-2 March 2019** for “one-on-one” engagement sessions with key stakeholders. Should you wish to be part of the engagement sessions, please contact ERM on or before **15 February 2019**. The venue for the “one-on-one” engagement sessions will be confirmed.

Kindly contact us directly as detailed below should you wish to be registered or de-registered from receiving any further information during the Public Participation Process. Correspondence in this regard should preferably be via email or telephonically.

**ERM Ref:** 0482086

Dear Stakeholder,

**RE: Draft Scoping Report for the METISS Subsea Cable System to be landed in Amanzimtoti, KwaZulu-Natal.**

The proposed Melting pot Indianoceanic Submarine System (METISS) Subsea Cable System is a fibre optic subsea cable system linking South Africa, Madagascar, Réunion and Mauritius. Alcatel Submarine Networks (ASN) and Elettra Tlc SpA have been selected as the Suppliers of the METISS fibre optic subsea cable. The METISS open cable system is owned by a consortium made up of Canal+ Télécom, CEB FiberNet, EMTEL, Zeop, SRR (SFR) & TELMA. METISS. Liquid Telecom, as the applicant in South Africa, will manage the Project.

The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length and deliver a boost to bandwidth between the respective countries, providing a connection speed of 24 terabytes per second. The anticipated METISS subsea cable footprint within the South African waters is approximately 538 km (inclusive of Territorial Waters and Economic Exclusive Zone (EEZ)). The system includes a 14 mm to 35 mm diameter subsea cable that will enter the South African EEZ (approximately 370 km from the seashore) and continue through Territorial Waters (approximately 22 km from the seashore), to a landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal.

In terms of the National Environmental Management Act (Act 107 of 1998, as amended) (NEMA) and the 2014 NEMA EIA Regulations as amended in Government Notice (GN) R324, R325, R326 and R327 on 7 April 2017, a Scoping and EIA Process is required for the Project. Environmental Resources Management South Africa (Pty) Ltd (ERM) has been appointed to manage the Scoping and EIA Process.

Notice is hereby given that the Draft Scoping Report is available for comment, and can emailed to you on request from ERM.

The report is available as detailed below for the period **1 February 2019 to 4 March 2019 (i.e. a 30 day comment period)**.

<b>Place</b>	Amanzimtoti Library • 1 Riverside Road, Amanzimtoti, 4126
	Kingsburgh Library • 1 Hall Road, Warner Beach, Amanzimtoti, 4126
<b>Website</b>	<a href="http://www.erm.com/metiss-fibre-optic-submarine-cable-system">www.erm.com/metiss-fibre-optic-submarine-cable-system</a>

Page 1 of 2

If required, ERM will be available in the Amanzimtoti from **1-2 March 2019** for “one-on-one” engagement sessions with key stakeholders. Should you wish to be part of the engagement sessions, please contact ERM on or before the **15 February 2019**. The venue for the “one-on-one” engagement sessions will be confirmed.

You are invited to submit your comments and/or queries on the Draft Scoping Report and/or the EIA Process to ERM:

**Email:** [metiss-subseacable-eia@erm.com](mailto:metiss-subseacable-eia@erm.com)

**Post:** Postnet Suite 90, Private Bag X12, Tokai, 7966

**Tel:** 021 681 5400

**Website:** [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system)

Following the closure of the public comments period, all comments received on the Draft Scoping Report will be incorporated into the Final Scoping Report to be submitted to National Department of Environmental Affairs for consideration.

Please note that all future communication around the Project and reports requiring review will be made available to registered stakeholders.

We look forward to your participation in this process.

Yours sincerely

Reinett Mogotshi

### Ukuholwa Komthelela Emvelweni Kohlelo Lwe-METISS Lwekhebuli Langaphansi Kolwandle

#### Isimemo Sokubhalisa Kanye Nokuphawula Ngo Mbiko Wokukala Ubungako Owuhlaka

##### Isendialelo Seprojekthi

Uhlelo Lwekhebuli Langaphansi Kolwandle wuhlelo lwekhebuli le-fibre optic elizokhuma i-Mauritius ne-Ningizimu Afrika lidule e-Madagascar, nase Reunion Island. Iprojekthi izokhulisa ngamandla ezokukhuma ngingo ngoingwe eKubesebenzi baseNingizimu Afrika ngokusebenzisa ikhebuli le-fibre optic elicishe libe wu-3,200 km ukuze futhi landise ububanzi bebhendi phakathi kwalawa mazwe abalwa.

Ingenye yeNingizimu Afrika yeProjekthi ibandakanya ukufakela kanye nomebenzi wohlelo lwe-METISS lwekhebuli le-fibre optic langaphansi kolwandle olungama-538 km ngobude. Uhlelo lubandakanya ikhebuli langaphansi kolwandle elingamadayimtha awu-14 ukuya ku-35 mm elizongena eMadaweni Yomnotho Okhulile yaseNingizimu Afrika (cishe u-372 km), ngokuhamba lidule Emanzini Etingqosile (cishe u-22 km) lya endaweni yokufakela esogweni eManzimtoti Pipeline Beach kwaZulu-Natali. Kuzobe sekukhona ukhumano lwekhebula elincane elisemhlabeni kusukela ebhishi kuze kube seSikhumulweni seChethane lapho ikhebula lizoqeda khona.

##### Uhlelo lokuholwa Komthelela Emvelweni

Lapha kunikezwa isazi sohlelo lokuhlanyanisa komphakathi okudingeka njengengxeny yohlelo lokuholwa Komthelela Emvelweni ngokomthetho Wokuphawula Kwazwelonke (NEMA) (Nombolo 107 ka-1998), Iprojekthi ephakanywayo kanye nokufakwa kwekhebuli kuhinta Imisebenzi Ebalwe elandelayo ngokweZimiso Zombelwa i-EIA ka-2014 (njengoba ubhishiyelwe):

Izinto Ezwumusa Wale Projekthi	
GN R 327	Umisebenzi 15, 17 no-19A
GN R 328	Umisebenzi 14
GN R 324	Umisebenzi 12

Iqaphamandla elinohwazi ngale Projekthi uMnyango Wazwelonke Kazwelonke (DEA) Umfakasiyo womlenze wase eNingizimu Afrika mayelana ne-METISS ye-Liquid Telecom, futhi i-Environmental Resources Management (ERM) iqashwe njengomsebenzi Wokuhlola Ezemvelo ozimele (EAP) ukuthi enze i-EIA kanye nohlelo oluhambisana nokuhlanyanisa komphakathi.

##### Ukubhalisa kwabambiqhaza

Njengengxeny yohlelo lwe-EIA, ababambiqhaza kanye nomphakathi bayaminywa ukuthi babhalise njengeBantu Abanentshisekile Nabaqinisekayo (ama-IsAP) bahlanganyele othlweni lwe-EIA. Ama-IsAP abhalise azohlela azizwa ngohlelo lwe-EIA futhi azokwaziwa ngokuba khona kwamathuba okuhlinzeka ngokuphawula. Ukubhalisa njenge-IsAP, ukuletha imbono yokuphawula, nokuhlola ukwazi okutha xa, siqela ukhumane ne-ERM ngemininingwane enikezwe ngenzako.

##### Ukutholokala koMbiko Wokukala Ubungako Owuhlaka

Umboko Wokuhlola Ubungako uyinokholakala ukuthi kuphawule kusukela zyi-1 kuFebruwari 2019 kuya kumhla zyi-4 kuMashi 2019 (isikhathi esilingana nezweleko ezingu-30) futhi unqophelakala kwebhusayithi yeProjekthi: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system) ngokucela ku-ERM (lapha bazothumela khona i-imeyili). Umboko uphinde uhlolokale nakulezi zindawo zomphakathi ezilandelayo:

## WARNING

ERM Reference Number: 0482086

**Environmental Impact Assessment for the METISS Subsea Cable System  
Invitation to Register and Comment on the Draft Scoping Report**

**Project Background**

The proposed Project, (METISS Subsea Cable System) is a fibre optic subsea cable system that will link Mauritius to South Africa via Madagascar, and Réunion Island. The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length, and increase bandwidth between the respective countries.

The South African component of the Project involves the installation and operation of a subsea cable system 538 km in length (inclusive of Territorial Waters and Economic Exclusive Zone). The system includes a 14 to 35 mm diameter subsea cable that will enter the South African Exclusive Economic Zone (approximately 372 km from the seashore), through the Territorial Waters (approximately 22 km from the seashore) to a coastal landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal. There will then be a short terrestrial cable connection from the beach to the Cable Landing Station where the cable will be terminated.

**Environmental Impact Assessment Process**

Notice is hereby given of the public participation process required as part of the Environmental Impact Assessment process (EIA) in terms of the National Environment Management Act (NEMA) (No. 107 of 1998). The proposed Project and cable installation triggers the following Listed Activities in terms of the EIA Regulations of 2014 (as amended):

	Project Activities
GN R 327	Activity 15, 17 and 19A
GN R 325	Activity 14
GN R 324	Activity 12

The competent authority for this Project is the National Department of Environmental Affairs (DEA). The applicant for the South African component of the METISS subsea cable system is Liquid Telecom. Environmental Resources Management (ERM) has been appointed as the independent Environmental Assessment Practitioner (EAP) to undertake the EIA and associated public participation process.

**Registration of Stakeholders**

As part of the EIA Process, stakeholders and members of the general public are invited to register as Interested and Affected Parties (I&APs) and participate in the EIA process. Registered I&APs will be kept informed through the EIA process and will be notified of the availability of opportunities to provide comment. To register as an I&AP, submit comments, and to obtain more information, please contact ERM on the details provided below.

**Availability of the Draft Scoping Report**

The Draft Scoping Report is available for comment from the **1 February 2019 to 4 March 2019** (i.e. a 30-day comment period) and can be obtained from the Project website: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system), or requested from ERM (for email transmission). Additionally, the report is available at the following public locations:

- Amanzimtoti Library and
- Kingsburgh Library

## Ukuhlolwa Komthelela Emvelweni Kohlelo Lwe-METISS Lwekhebuli Langaphansi Kolwandle

### Isimemo Sokubhalisa Kanye Nokuphawula Ngo Mbiko Wokukala Ubungako Owuhlaka

#### Isendlalelo Seprojekthi

Uhlelo Lwekhebuli Langaphansi Kolwandle wuhlelo lwekhebuli le-fibre optic elizoxhuma i-Mauritius ne-Ningizimu Afrika lidule e-Madagascar, nase-Reunion Island. Iphrojekthi izohlizeka ngamandla ezokuxhumana ngocingo engezwe kubasebenzi baseNingizimu Afrika ngokusebenzisa ikhebuli le-fibre optic elicishe libe wu-3,200 km ubude futhi landise ubanzi behhendi phakathi kwalawa mazwe abaliwe.

Ingxenywe yeNingizimu Afrika yePhrojekthi ibandakanya ukufakela kanye nomsebenzi wohlelo lwe-METISS lwekhebuli le-fibre optic langaphansi kolwandle olungama-538 km ngobude. Uhlelo lubandakanya ikhebuli langaphansi kolwandle elingamadayamitha awu-14 ukuya ku-35 mm elizongena eNdaweni Yomnotho Ohlukile yaseNingizimu Afrika (cishe u-372 km), ngokuhamba lidule Emanzini Emingcele (cishe u-22 km) liya endaweni yokufikela esogwini eManzimtoti Pipeline Beach KwaZulu-Natali. Kuzobe sekukhona uxhumano lwekhebula elincane elisemhlabeni kusukela ebhishi kuze kube seSikhumulweni seChethane lapho ikhebula lizoqedwa khona.

#### Uhlelo lokuhlolwa Komthelela Emvelweni

Lapha kunikezwa isaziso sohlelo lokuhlalanyela komphakathi oludingeka njengengxenywe yohlelo lokuhlolwa Komthelela Emvelweni ngokoMthetho Wokuphawula Kwezemvelo (NEMA) (Nombolo 107 ka-1996). Iphrojekthi ephakanyiswayo kanye nokufakwa kwekhebuli kuhintla imisebenzi Ebalilwe elandelayo ngokweZimiso Zomthetho i-EIA ka-2014 (njengoba uchitshiyelwe):

	Izinto Ezizumsusa Wale Phrojekthi
GN R 327	Umsebenzi 15, 17 no-19A
GN R 325	Umsebenzi 14
GN R 324	Umsebenzi 12

Isiphathamandla esinolwazi ngale Phrojekthi wuMnyango Wezemvelo Kazwelonke (DEA) Umfakisicelo womlenze wase eNingizimu Afrika mayelana ne-METISS yi-Liquid Telecom, futhi, i-Environmental Resources Management (ERM) iqashwe njengoMsebenzi Wokuhlola Ezemvelo ozimele (EAP) ukuthi enze i-EIA kanye nohlelo oluhambisana nokuhlalanyela komphakathi.

#### Ukubhalisa kwababambiqhaza

Njengengxenywe yoHlelo lwe-EIA, ababambiqhaza kanye nomphakathi bayamenywa ukuthi babhalise njengeBantu Abanentshisekelo Nabathintekayo (ama-I&AP) bahlanganyele ohlelweni lwe-EIA. Ama-I&AP abhalisile azohlala aziswa ngohlelo lwe-EIA futhi azokwaziswa ngokuba khona kwamathuba okuhlizeka ngokuphawula. Ukubhalisa njenge-I&AP, ukuhlehla imibono yokuphawula, nokuthola ulwazi olutha xaxa, sicela uxhumane ne-ERM ngeminingwane enikeziwe ngenzansi:

#### Ukutholalaka koMbiko Wokukala Ubungako Owuhlaka

Umhlobo Wokuhlola Ubungako uyatholalaka ukuthi kuphawulwe kusukela ziyi-1 kuFebhruwari 2019 kuya kumhla ziyi-4 kuMashi 2019 (isikhathi esilingana nezinsuku ezingu-30) futhi ungatholalaka kuwebhusayithi yePhrojekthi: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system), ngokucela ku-ERM (lapha bazothumela khona i-imeyili). Umbiko uphinde utholalake nakulezi zindawo zomphakathi ezilandelayo:

- Amanzimtoti Library; na
- Kingsburgh Library

Reinett Mogotshi

## Environmental Impact Assessment for the METISS Subsea Cable System Invitation to Register and Comment on the Draft Scoping Report

#### Project Background

The proposed Project, (METISS Subsea Cable System) is a fibre optic subsea cable system that will link Mauritius to South Africa via Madagascar, and Réunion Island. The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length, and increase bandwidth between the respective countries.

The South African component of the Project involves the installation and operation of a subsea cable system 538 km in length (inclusive of Territorial Waters and Economic Exclusive Zone). The system includes a 14 to 35 mm diameter subsea cable that will enter the South African Exclusive Economic Zone (approximately 372 km from the seashore), through the Territorial Waters (approximately 22 km from the seashore) to a coastal landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal. There will then be a short terrestrial cable connection from the beach to the Cable Landing Station where the cable will be terminated.

#### Environmental Impact Assessment Process

Notice is hereby given of the public participation process required as part of the Environmental Impact Assessment process (EIA) in terms of the National Environmental Management Act (NEMA) (No. 107 of 1998). The proposed Project and cable installation triggers the following Listed Activities in terms of the EIA Regulations of 2014 (as amended):

	Project Activities
GN R 327	Activity 15, 17 and 19A
GN R 325	Activity 14
GN R 324	Activity 12

The competent authority for this Project is the National Department of Environmental Affairs (DEA). The applicant for the South African component of the METISS subsea cable system is Liquid Telecom. Environmental Resources Management (ERM) has been appointed as the independent Environmental Assessment Practitioner (EAP) to undertake the EIA and associated public participation process.

#### Registration of Stakeholders

As part of the EIA Process, stakeholders and members of the general public are invited to register as Interested and Affected Parties (I&APs) and participate in the EIA process. Registered I&APs will be kept informed through the EIA process and will be notified of the availability of opportunities to provide comment. To register as an I&AP, submit comments, and to obtain more information, please contact ERM on the details provided below.

#### Availability of the Draft Scoping Report

The Draft Scoping Report is available for comment from the **1 February 2019 to 4 March 2019** (i.e. a 30-day comment period) and can be obtained from the Project website: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system), or requested from ERM (for email transmission). Environmental Impact Assessment for the METISS Subsea Cable System  
Invitation to Register and Comment on the Draft Scoping Report

Project Background

The proposed Project, (METISS Subsea Cable System) is a fibre optic subsea cable system that will link Mauritius to South Africa via Madagascar, and Réunion Island. The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length, and increase bandwidth between the respective countries.

The South African component of the Project involves the installation and operation of a subsea cable system 538 km in length (inclusive of Territorial Waters and Economic Exclusive Zone). The system includes a 14 to 35 mm diameter subsea cable that will enter the South African Exclusive Economic Zone (approximately 372 km from the seashore), through the Territorial Waters (approximately 22 km from the seashore) to a coastal landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal. There will then be a short terrestrial cable connection from the beach to the Cable Landing Station where the cable will be terminated.

Environmental Impact Assessment Process

Notice is hereby given of the public participation process required as part of the Environmental Impact Assessment process (EIA) in terms of the National Environment Management Act (NEMA) (No. 107 of 1998). The proposed Project and cable installation triggers the following Listed Activities in terms of the EIA Regulations of 2014 (as amended):

	Project Activities
GN R 327	Activity 15, 17 and 19A
GN R 325	Activity 14
GN R 324	Activity 12

The competent authority for this Project is the National Department of Environmental Affairs (DEA). The applicant for the South African component of the METISS subsea cable system is Liquid Telecom. Environmental Resources Management (ERM) has been appointed as the independent Environmental Assessment Practitioner (EAP) to undertake the EIA and associated public participation process.

Registration of Stakeholders

As part of the EIA Process, stakeholders and members of the general public are invited to register as Interested and Affected Parties (I&APs) and participate in the EIA process. Registered I&APs will be kept informed through the EIA process and will be notified of the availability of opportunities to provide comment. To register as an I&AP, submit comments, and to obtain more information, please contact ERM on the details provided below.

Availability of the Draft Scoping Report

The Draft Scoping Report is available for comment from the 1 February 2019 to 4 March 2019 (i.e. a 30-day comment period) and can be obtained from the Project website: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system), or requested from ERM (or email transmission). Ukuhlolwa Komthelela Emvelweni Kohlelo Lwe-METISS Lwekhebuli  
Langaphansi Kolwandle

Isimembo Sokubhalisa Kanye Nokuphawula Ngo Mbiko Wokukala Ubungako  
Owuhlaka

Isendlelelo Seprojekthi

Uhlelo Lwekhebuli Langaphansi Kolwandle wuhlelo lwekhebuli le-fibre optic elizoxhuma i-Mauritius ne-Ningizimu Afrika lidule e-Madagascar, nase-Réunion Island. Iprojekthi izohlinzeka ngamandla ezokukhulama ngocingo engaziwe kubasebenzisi baseNingizimu Afrika ngokusebenzisa ikhebuli le-fibre optic elicishe libe wu-3,200 km ubude futhi landise ububanzi behandi phakathi kwalawa mazwe abalwe.

Ingenye yeNingizimu Afrika yeProjekthi ibandakanya ukufakela kanye nasebenzisi wuhlelo lwe-METISS lwekhebuli le-fibre optic langaphansi kolwandle olungama-538 km ngobude. Uhlelo lubandakanya ikhebuli langaphansi kolwandle elingamadayimtha awu-14 ukuya ku-35 mm elizongena eNdaweni Yomthetho Ohlukile yaseNingizimu Afrika (cishe u-372 km), ngokuhamba lidule Emanzini Emingcele (cishe u-22 km) iya endaweni yokufakela esogwini eManzimtoti Pipeline Beach KwaZulu-Natali. Kuzobe sekukhona uxhumano lwekhebuli elincane eliseMlabeni kusukela ebhishi kuze kube seSikhumeleni seChithane lapro ikhebuli lizoqeda khona.

Uhlelo lokuhlolwa Komthelela Emvelweni

Lapha kunikezwa isaziso sohlelo lokuhlulunganya komphakathi oludingeka njengengxenywe yohlelo lokuhlolwa Komthelela Emvelweni ngokomthetho Wokuphawula Kwazwelonke Kuzwelonke (NEMA) (Nombolo 107 ka-1998). Iprojekthi ephawulayo kanye nokufakela lwekhebuli kubhala imisebenzi Ebalwe elandelayo ngokweZimiso Zomthetho i-EIA ka-2014 (njengoba uchitshiyelwe):

	Izinto Ezivumusa Wale Projekthi
GN R 327	Umsebenzi 15, 17 no-19A
GN R 325	Umsebenzi 14
GN R 324	Umsebenzi 12

Isiphathamanda esinolwazi ngale Projekthi wuMnyango Wezemvelo Kazwelonke (DEA) Umfakiselo womlenze wase eNingizimu Afrika mayilana ne-METISS yi-Liquid Telecom, futhi, i-Environmental Resources Management (ERM) iqashwe njengoMsebenzi Wokuhlola Ezemvelo ozimela (EAP) ukuthi enze i-EIA kanye nohlelo oluhambisana nokuhlulunganya komphakathi.

Ukubhalisa kwababambiqhaza

Njengengxenywe yohlelo lwe-EIA, ababambiqhaza kanye nomphakathi bayaminywa ukuthi babhalise njengeBantu Abantshisekela Nabathintekayo (ama-I&AP) bahlanganyele ohlelweni lwe-EIA. Ama-I&AP abhalisile azohlala aziswa ngohlelo lwe-EIA futhi azokwaziwa ngokuba khona kwamathuba okuhluzeka ngokuphawula. Ukubhalisa njenge-I&AP, ukuletha imibono yokuphawula, nokuthola ulwazi oluxa, sielala uxhumane ne-ERM ngeminingwane enikezwe ngenzantsi.

Ukutholaka koMbiko Wokukala Ubungako Owuhlaka

Umbo Wokuhlola Ubungako uyatholakala ukuthi kuphawulwe kusukela ziye-1 kuFebruwari 2019 kuya kumhla ziye-4 kuMashi 2019 (isikhathi esilingana nezinesuku ezingu-30) futhi ungatholaka kuwebhusayithi yeProjekthi: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system), ngokucela ku-ERM (lapha bazohumela khona i-imeyili). Umbo uphinde utholakale nakuzi zindawo zomphakathi ezilandelayo:

### Ukuhlolwa Komthelela Emvelweni Kohlelo Lwe-METISS Lwekhebuli Langaphansi Kolwandle

#### Isimemo Sokubhalisa Kanye Nokuphawula Ngo Mbiko Wokukala Ubungako Owuhlaka

**Isendlalelo Seprojekthi**

Uhlelo Lwekhebuli Langaphansi Kolwandle wuhlelo lwekhebuli le-fibre optic elizoxhuma i-Mauritius ne-Ningizimu Afrika lidlule e- Madagascar, nase-Reunion Island. Iphrojekthi izohlizeka ngamandla ezokuxhumana ngocingo engeziwe kubasebenzisi baseNingizimu Afrika ngokusebenzisa ikhebuli le-fibre optic elicishe libe wu-3,200 km ubude futhi landise ububanzi bebhendi phakathi kwalawa mazwe abaliwe. Ingxenywe yeNingizimu Afrika yePhrojekthi ibandakanya ukufakela kanye nomsebenzi wohlelo lwe-METISS lwekhebuli le-fibre optic langaphansi kolwandle olungama-538 km ngobude. Uhlelo lubandakanya ikhebuli langaphansi kolwandle elingamadayamitha awu- 14 ukuya ku-35 mm elizongena eNdaweni Yomnotho Ohlukile yaseNingizimu Afrika (cishe u-372 km), ngokuhamba lidlule Emanzini Emingcele (cishe u-22 km) liya endaweni yokufikela esogwini eManzimtoti Pipeline Beach KwaZulu-Natali. Kuzobe sekukhona uxhumano lwekhebula elincane elisemhlabeni kusukela ebhishi kuze kube seSikhumulweni seChethane lapho ikhebula lizoqedwa khona.

**Uhlelo lokuhlolwa Komthelela Emvelweni**

Lapha kunikezwa isaziso sohlelo lokuhlanganyela komphakathi oludingeka njengengxenywe yohlelo loKuhlolwa Komthelela Emvelweni ngokoMthetho Wokuphathwa Kwezemvelo Kuzwelonke (NEMA) (Nombolo 107 ka-1998). Iphrojekthi ephakanyiswayo kanye nokufakela kwekhebuli kuthinta imisebenzi Ebalilwe elandelayo ngokweZimiso Zomthetho i-EIA ka-2014 (njengoba uchitshiyelwe):

	Izinto Eziwumsusa Wale Phrojekthi
GN R 327	Umsebenzi 15, 17 no-19A
GN R 325	Umsebenzi 14
GN R 324	Umsebenzi 12

Isiphathamandla esinolwazi ngale Phrojekthi wuMnyango Wezemvelo Kazwelonke (DEA) Umfakisicelo womlenze wase eNingizimu Afrika mayelana ne-METISS yi-Liquid Telecom, futhi, i-Environmental Resources Management (ERM) iqashwe njengoMsebenzi Wokuhlola Ezemvelo ozimele (EAP) ukuthi enze i-EIA kanye nohlelo oluhambisana nokuhlanganyela komphakathi.

**Ukubhalisa kwababambiqhaza**

Njengengxenywe yoHlelo lwe-EIA, ababambiqhaza kanye nomphakathi bayamenywa ukuthi babhalise njengeBantu Abanentshisekelo Nabathintekayo (ama-I&AP) bahlanganyele ohlelweni lwe-EIA. Ama-I&AP abhalisile azohlala aziswa ngohlelo lwe-EIA futhi azokwaziswa ngokuba khona kwamathuba okuhlizeka ngokuphawula. Ukubhalisa njenge-I&AP, ukuletha imibono yokuphawula, nokuthola ulwazi oluthe xaxa, sicela uxhumane ne-ERM ngemininingwane enikeziwe ngenzansi:

**Ukutholalaka koMbiko Wokukala Ubungako Owuhlaka**

Umbiko Wokuhlola Ubungako uyatholalaka ukuthi kuphawulwe kusukela ziyi-1 kuFebhruwari 2019 kuya kumhla ziyi-4 kuMashi 2019 (isikhathi esilingana nezinsuku ezingu-30) futhi ungatholalaka kuwebhusayithi yePhrojekthi: www.erm.com/metiss-fibre-optic-submarine-cable-system, ngokucela ku-ERM (lapha bazothumela khona i-imeyili). **Environmental Impact Assessment for the METISS Subsea Cable System Invitation to Register and Comment on the Draft Scoping Report**

**Project Background**  
The proposed Project, (METISS Subsea Cable System) is a fibre optic subsea cable system that will link Mauritius to South Africa via Madagascar, and Réunion Island. The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length, and increase bandwidth between the respective countries.

The South African component of the Project involves the installation and operation of a subsea cable system 538 km in length (inclusive of Territorial Waters and Economic Exclusive Zone). The system includes a 14 to 35 mm diameter subsea cable that will enter the South African Exclusive Economic Zone (approximately 372 km from the seashore), through the Territorial Waters (approximately 22 km from the seashore) to a coastal landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal. There will then be a short terrestrial cable connection from the beach to the Cable Landing Station where the cable will be terminated.

**Environmental Impact Assessment Process**  
Notice is hereby given of the public participation process required as part of the Environmental Impact Assessment process (EIA) in terms of the National Environment Management Act (NEMA) (No. 107 of 1998). The proposed Project and cable installation triggers the following Listed Activities in terms of the EIA Regulations of 2014 (as amended):

Project Activities	
GN R 327	Activity 15, 17 and 19A
GN R 325	Activity 14
GN R 324	Activity 12

The competent authority for this Project is the National Department of Environmental Affairs (DEA). The applicant for the South African component of the METISS subsea cable system is Liquid Telecom. Environmental Resources Management (ERM) has been appointed as the independent Environmental Assessment Practitioner (EAP) to undertake the EIA and associated public participation process.

**Registration of Stakeholders**  
As part of the EIA Process, stakeholders and members of the general public are invited to register as Interested and Affected Parties (I&APs) and participate in the EIA process. Registered I&APs will be kept informed through the EIA process and will be notified of the availability of opportunities to provide comment. To register as an I&AP, submit comments, and to obtain more information, please contact ERM on the details provided below.

**Availability of the Draft Scoping Report**  
The Draft Scoping Report is available for comment from the 1 February 2019 to 4 March 2019 (i.e. a 30-day comment period) and can be obtained from the Project website: www.erm.com/metiss-fibre-optic-submarine-cable-system, or requested from ERM (for email transmission). Additionally, the report is available at the following public locations:  
• Amanzimtoti Library and  
• Kingsburgh Library

31 January 2019

*ERM Ref:* 0482086

Dear Diane Van Rensburg,

**Notification of Submission of the Application for Environmental Authorisation for the METISS Subsea Cable System to be Landed in Amanzimtoti**

You are hereby notified, as a potentially affected landowner of Pipeline Beach (30°2'27.03"S; 30°53'58.40"E), that Liquid Telecom (Pty) Ltd is in the process of applying for Environmental Authorisation for the installation of a subsea cable system landing, on Pipeline Beach, Amanzimtoti.

The proposed Melting pot Indianoceanic Submarine System (METISS) Subsea Cable System is a fibre optic subsea cable system linking South Africa, Madagascar, Réunion and Mauritius. Alcatel Submarine Networks (ASN) and Elettra Tlc SpA have been selected as the suppliers of the METISS fibre optic subsea cable. The METISS open cable system is owned by a consortium made up of Canal+ Télécom, CEB FiberNet, EMTEL, Zeop, SRR (SFR) & TELMA. METISS. Liquid Telecom, as the landing party in South Africa, will manage the Project.

The Project will provide additional telecommunications capacity to South African users through a fibre optic cable from Mauritius to South Africa (approximately 3,200 km in length) and deliver a boost to bandwidth between the respective countries, providing a connection speed of 24 terabytes per second. The anticipated METISS subsea cable footprint within the South African waters is approximately 538 km (inclusive of Territorial Waters and Economic Exclusive Zone (EEZ)). The system includes a 14 mm to 35 mm diameter subsea cable that will enter the South African EEZ (approximately 370 km from the seashore) and continue through Territorial Waters (approximately 22 km from the seashore), to a landing site at Amanzimtoti Pipeline Beach, in KwaZulu-Natal.

In terms of the National Environmental Management Act (Act 107 of 1998, as amended) (NEMA) and the 2014 NEMA Environmental Impact Assessment (EIA) Regulations as amended in

Page 1 of 2

Government Notice (GN) R324, R325, R326 and R327 on 7 April 2017, a Scoping and EIA Process is required for the Project. Environmental Resources Management South Africa (Pty) Ltd (ERM) has been appointed to manage the Scoping and EIA Process.

The EThekweni Metropolitan Municipality will be listed as an Interested and Affected Party (IAP) for the purposes of the EIA process and will receive all documentation related to the EIA process. Planning permission for the Beach Manhole (where the marine portion of the subsea cable is linked to the terrestrial portion) will be applied for to the Pipeline Beach separately.

The Draft Scoping Report is currently available to all identified I&APs on ERM'S Website <https://www.erm.com/metiss-fibre-optic-submarine-cable-system> as well as any stakeholders that may further register to participate in the process. Media notices have been placed in the South Coast Sun and Isolezwe.

The Draft Report is also available at the following public locations:

- Amanzimtoti Library; and
- Kingsburgh Library.

This Report is being released for a 30 day review period from **1 February 2019 to 4 March 2019**.

Although no formal response to this notification is required, please do not hesitate to contact the stakeholder engagement coordinator on the details below for any queries related to the submission.

**Subject:** Final Scoping Report - METISS Subsea Cable to be Landed in Amanzimtoti

Good Day Ms Ditinti,

I trust that you are well.

Further to our telephonic conversation on 04 March 2019, this email serves to record that Department of Environmental Affairs: Oceans and Coasts have not submitted comments on the Draft Scoping Report for the METISS Subsea Cable System to be landed in Amanzimtoti, Kwa-Zulu Natal. A CD copy of the Final Scoping Report will be couriered to the Department upon release of the Final Scoping Report.

Have a lovely day

Kind Regards

**Amishka Mothilal**

### **PER EMAIL / MAIL**

Dear Sir/Madam

### **ACKNOWLEDGEMENT OF RECEIPT OF THE NEW APPLICATION FOR ENVIRONMENTAL AUTHORISATION (ENVIRONMENTAL IMPACT ASSESSMENT PROCESS) AND SCOPING REPORT FOR THE PROPOSED METISS SUBSEA CABLE SYSTEM TO BE LANDED IN AMANZIMTOTI, KWAZULU NATAL PROVINCE**

The Department confirms having received the Application and draft Scoping Report for Environmental Authorisation for the abovementioned project on 31 January 2019. We further confirm that you have submitted these documents to comply with the National Environmental Management Act, 1998 (Act No. 107 of 1998) Environmental Impact Assessment Regulations, 2014 published under Government Notice R982 in Government Gazette No. 38282 dated 04 December 2014, as amended ('the EIA Regulations, 2014').

Please take note of Regulation 40(3) of the EIA Regulations, 2014 which states that potential Interested & Affected Parties, including the Competent Authority, may be provided with an opportunity to comment on reports and plans contemplated in Regulation 40(1) of the EIA Regulations, 2014, prior to the submission of an application but must be provided an opportunity to comment on such reports once an application has been submitted to the Competent Authority.

**Note that in terms of Regulation 45 of the EIA Regulations, 2014 this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted by the Department in terms of Regulation 3(7) of the EIA Regulations, 2014.**

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Office Hours which is visible on the Departmental gate. EIA related documents (includes application forms, reports or any EIA related submissions) that are faxed; emailed; delivered to Security or placed in the Departmental Tender Box will not be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

Attention: Ms Bernadet Pawandiwa

Dear Ms Pawandiwa

**APPLICATION FOR HIA LETTER OF EXEMPTION: PROPOSED METISS TERRESTRIAL FIBRE OPTIC CABLE SYSTEM, AMANZIMTOTI, ETHEKWINI MUNICIPALITY, KWAZULU-NATAL**

ERM Southern Africa, on behalf of Alcatel Submarine Networks (ASN), Elettra Tlc SpA and Liquid Telekom has appointed ACO Associates to produce a Heritage Impact Assessment (HIA) for the proposed installation of the terrestrial portion of METISS subsea fibre optic cable system in Amanzimtoti, Ethekewini Municipality, Kwazulu-Natal. The METISS Subsea Cable System will link South Africa to Mauritius, with branches to Madagascar and Reunion.

The subsea portion of the proposed cable will make landfall and terminate at a beach manhole on Amanzimtoti's Pipeline Beach. From there a terrestrial cable will be routed to a Cable Landing Station (CLS) in the Southgate Industrial Park. Two route options from the BMH location to the CLS are under consideration (see Figures 1 and 2 in Annexure A) with the choice of the preferred route dependant on local council approval and the results of the Impact Assessment phase.

The terrestrial cable route is approximately 5 km long and the proposed cable installation therefore triggers Section 38 (1) (a) of the National Heritage Resources Act (No. 25 of 1999), for a development "categorised as the construction of a road, wall, powerline, pipeline, canal or other similar form of linear development or barrier exceeding 300 m in length". This letter serves as the notification to the responsible heritage resources authority of the proposed Project, required in terms of Section 38 (1) of the Act.

The terrestrial cable will be installed, as far as possible, along existing roads and servitudes up to the point where it joins existing infrastructure. The receiving environment is illustrated in Annexure B.

Installation will require a dedicated trench up to 1.5 m deep and 1 m wide which avoids power lines and other infrastructure. Two High Density Polyethylene ducts of approximately 110/95 mm diameter will be installed in the trench for the installation of the terrestrial cable. Manholes and other infrastructure will be installed at intervals as required along the route to provide future access to the terrestrial cable.

Given the proposed routing along and within existing road reserves, it is unlikely that heritage resources will be impacted during the installation of the terrestrial cable.

We therefore request exemption from the necessity to carry out a HIA, in terms of Section 38 of the NHRA, for the proposed Project, with the proviso that in the event of heritage material being uncovered during the installation of the terrestrial cable, the following mitigation measures will be implemented. The onus will be on the applicant to ensure that these conditions are met and the mitigation measures implemented:

- Construction activity must stop immediately if any archaeological material is encountered and the area must be cordoned off. No archaeological material may be removed from the site;
- A suitably qualified archaeologist must be called to site to assess the significance of the find and Amafa aKwaZulu-Natali (Amafa) must be notified of the find;
- Only once the archaeologist gives the go-ahead can work in the area of the find recommence;
- Under no circumstances may any archaeological material be destroyed or removed from site unless under direction of the archaeologist;
- In the event of human remains being uncovered during work, all activities in the vicinity must cease and the site made secure until a suitably qualified archaeologist and SAHRA and Amafa have been notified, the significance of the material has been assessed and a decision has been taken as to how to deal with it.

SAHRA's palaeosensitivity map (<https://sahris.sahra.org.za/map/palaeo>) shows the palaeontological sensitivity of the area within which the terrestrial cable will be installed as **high** (orange) and indicates that a desktop study is required. However, the routing of the terrestrial cable along existing roadways and servitudes and its depth of burial (1.5 m maximum) suggests that impacts on palaeontological resources are also unlikely. It is suggested, nevertheless, that a protocol for reporting palaeontological finds is commissioned from a suitably qualified palaeontologist and implemented during all intrusive ground works.

Should you require any further information please do not hesitate to contact the undersigned.

Yours sincerely

John Gribble  
Archaeologist and Heritage Specialist  
ACO Associates

### **FINAL DECISION**

**IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)  
AND THE KWAZULU-NATAL AMAFA AND RESEARCH INSTITUTE ACT (ACT 05 OF 2018)**

Attention: Mr Mervin Chetty  
Liquid Telecom

**RE: This application is for a letter of exemption from having to carry out a heritage impact assessment for the terrestrial portion of the proposed METISS Fibre Optic Cable System in Amanzimtoti, EThekweni Municipality, KwaZulu-Natal.**

Thank you for the opportunity to comment on this project. The motivation for exemption from a full heritage impact assessment on this project submitted by the heritage practitioner, John Gribble is noted and approved. The developer should however note that there is a high possibility of encountering maritime deposits, informal burials, historical, fossil or archaeological material and features in this region. The KwaZulu Natal Amafa and Research Institute therefore have no objection to the development.

You are also required to adhere to the below-mentioned standard conditions:  
Conditions:

1. The KwaZulu Natal Amafa and Research Institute should be contacted if any heritage objects are identified during earth-moving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from the KwaZulu Natal and Amafa Research Institute.
3. Under no circumstances may any heritage material be destroyed or removed from site unless under direction of the KwaZulu Natal and Amafa Research Institute and a heritage specialist.
4. Should any remains be found on site that is potentially human remains, the South African Police Service (SAPS) should also be contacted. No SAPS official may disturb or exhume such remains, without the necessary permission from the KwaZulu Natal and Amafa Research Institute.
5. No activities are allowed within 50m of a site, which contains rock art.
6. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Failure to comply with the requirements of the National Heritage Resources Act and the KwaZulu Natal Amafa and Research Institute Act could lead to legal action being instituted against the applicant. Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

---

Bernadet Pawandiwa  
Senior Heritage Officer  
KwaZulu Natal Amafa and Research Institute

---

James van Vuuren  
Deputy Director: Support Services, Technical

Terms & Conditions:

1. This approval does not exonerate the applicant from obtaining local authority approval or any other necessary approval for proposed work.
2. If any heritage resources, including graves or human remains, are encountered they must be reported to the Institute immediately.
3. The Institute reserves the right to request additional information as required.

### **PER EMAIL / MAIL**

Dear Sir/Madam

### **ACCEPTANCE OF THE SCOPING REPORT FOR THE PROPOSED MELTING POT INDIANOCEANIC SUBMARINE SYSTEM (METTIS) SUBSEA CABLE SYSTEM TO BE LANDED IN AMANZIMTOTI, KWAZULU NATAL PROVINCE**

The final Scoping Report (SR) and Plan of Study for Environmental Impact Assessment (PoSEIA) dated 11 March 2019 and received by this Department on 13 March 2019 refer.

This Department has evaluated the submitted final SR and the PoSEIA dated 11 March 2019 and is satisfied that the documents comply with the minimum requirements of the Environmental Impact Assessment (EIA) Regulations 2014, as amended. The SR is hereby accepted by the Department in terms of Regulation 22(a) of the EIA Regulations 2014, as amended.

You may proceed with the EIA process in accordance with the tasks contemplated in the PoSEIA and the requirements of the EIA Regulations 2014, as amended. However, you must take note of the following comments from the Department:

#### **Public Participation Process (PPP)**

All comments and recommendations made by all stakeholders and various Interested and Affected Parties (I&APs) in the draft SR and submitted as part of the final SR must be taken into consideration when preparing an Environmental Impact Assessment report (EIAR) in respect of the proposed development. Please ensure that all mitigation measures and recommendations in the specialist studies are addressed and included in the final EIAR and Environmental Management Programme (EMPr).

Please ensure that all relevant stakeholders' comments are submitted to the Department with the final EIAR. This includes but is not limited to the Department of Environmental Affairs: Biodiversity and Conservation Directorate, Department of Environmental Affairs: Oceans and Coast Branch, KwaZulu Natal Department of Economic Development, Tourism and Environmental Affairs, Ezemvelo KZN Wildlife, eThekweni Metropolitan Municipality, the Department of Agriculture, Forestry and Fisheries (DAFF): International Relation Fisheries, Department of Water and Sanitation (DWS), Department of Mineral Resources, South African Maritime Safety Authority, Department of Public Works, Petroleum Agency of South Africa, South African Navy Hydrographic Office, Department of Transport, Department of Human Settlement, the South African Heritage Resources Agency

(SAHRA), AMafa KwaZulu Natal, the Wildlife & Environment Society of South Africa (WESSA) and Birdlife South Africa, South Africa Institute for Aquatic Biodiversity, Fresh Tuna Exporters Association, Fish SA, South African Commercial Line Fishing Association, South African Deep-Sea Trawling Industry Association and South African Squid Management Industrial Association.

You are also required to address all issues raised by Organs of State and I&APs prior to the submission of the EIAr to the Department.

Proof of correspondence with the various stakeholders must be included in the EIAr. Should you be unable to obtain comments, proof should be submitted to the Department of the attempts that were made to obtain comments.

The EAP must in order to give effect to Regulation 7, give registered I&APs access to and an opportunity to comment on the draft report in writing within 30 days before submitting the final EIAr to the Department.

**In addition, the following additional information must be included in the final report:**

**Topographical and sensitivity maps**

- An environmental sensitivity map indicating environmental sensitive areas and features identified during the EIA process must be on an A3 page with a clear legend.
- A topographical map combining the final layout map superimposed (overlain) on the environmental sensitivity map must be submitted with the final EIAr.

**The Environmental Management Programme (EMPr)**

The EMPr to be submitted as part of the EIAr must include the following:

- i. All recommendations and mitigation measures recorded in the EIAr and the specialist studies conducted.
- ii. A good quality site final layout map with clear legend.
- iii. A plant rescue and protection plan which allows for the maximum transplant of conservation important species from areas to be transformed. This plan must be compiled by a vegetation specialist familiar with the site and be implemented prior to commencement of the construction phase.
- iv. A re-vegetation and habitat rehabilitation plan to be implemented during the construction and operation of the facility.
- v. A traffic management plan for the site access roads illustrating how traffic will be controlled especially on local commuters travelling on public road during peak hours and how traffic or any other impacts as a result of traffic will be managed,
- vi. Measures to protect archaeological sites, artefacts, paleontological fossils or graves from construction and operational impacts.

The EAP must provide detailed motivation if any of the above requirements is not required by the proposed development and not included in the EMPr.

**General Comments**

You are hereby reminded that should the EIAr fail to comply with the requirements of this acceptance letter, Regulation 23(2) and Appendix 3 and 4, the proposed METTIS subsea cable system to be landed in Amanzimtoti, KwaZulu Natal Province will be refused in terms of the EIA Regulations 2014, as amended.

Furthermore, it must be reiterated that, should an application for Environmental Authorisation be subject to the provisions of Chapter II, Section 38 of the National Heritage Resources Act, Act 25 of 1999, then this Department will not be able to make nor issue a decision in terms of your application for Environmental Authorisation pending a letter from the pertinent heritage authority categorically stating that the application fulfils the requirements of the relevant heritage resources authority as described in Chapter II, Section 38(8) of the National Heritage

Resources Act, Act 25 of 1999. Comments from SAHRA and/or the provincial department of heritage must be provided in the EIAr.

You are requested to submit two (2) electronic copies (CD/DVD) and one (1) hard copy of the EIAr to the Department as.

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No 107 of 1998, as amended, which stipulates that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Yours faithfully

Hi Reinett

I would like to register as an interested party regarding the subsea cable system. Can you send me all the relevant information so that I can publish an article on it or should I get the information from the project website? Any photos or artist's impressions you have would also be welcome.

Regards

**Subject:** Notification of the release of the Draft Scoping Report in terms of the National Environmental Management Act No 107 of 1998 and Opportunity to register as a Stakeholder for the METISS Subsea Cable System

Dear Stakeholder,

You are hereby notified of the availability of the Draft Scoping Report for the METISS Subsea Cable System to be landed in Pipeline Beach, Amanzimtoti, Kwa Zulu Natal.

You are invited to submit your comments on the Draft Scoping Report to ERM on or before **4 March 2019**. The report is available electronically at [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system) and has been placed in numerous public places as per the attached letter.

If required, ERM will be available in the Amanzimtoti from **1-2 March 2019** for “one-on-one” engagement sessions with key stakeholders. Should you wish to be part of the engagement sessions, please contact ERM on or before **15 February 2019**. The venue for the “one-on-one” engagement sessions will be confirmed.

Kindly contact us directly as detailed below should you wish to be registered or de-registered from receiving any further information during the Public Participation Process. Correspondence in this regard should preferably be via email or telephonically.

## Interim Comment

### In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mr Mervin Chetty  
Liquid Telecom

**METISS is a proposed new subsea fibre optic cable system that will connect Mauritius to South Africa and provide high-speed connectivity of 24 terabytes per second to the global telecommunications network and low latency access to enhance business operations across multiple industries.**

The South African Heritage Resources Agency (SAHRA) thanks the applicant for providing the Draft Scoping Report (DSR) for comment.

The applicant proposes to install a new subsea fibre optic cable connecting Mauritius to South Africa. The cable will run approximately 538 km (inclusive of Territorial Waters and Economic Exclusive Zone (EEZ)). The system includes a 14 mm to 35 mm diameter subsea cable that will enter the South African EEZ (approximately 370 km from the seashore) and continue through Territorial Waters (approximately 22 km from the seashore), to a landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal.

This activity requires statutory comment from SAHRA in terms of Section 38(8) of the National Heritage Resources Act, No. 25 of 1999 (the "NHRA").

SAHRA notes that the applicant has identified the need for a Maritime and Underwater Heritage Impact Assessment (MUCHIA), as referred to on Page 9 of the DSR, and supports the need for this specialist study.

- Please replace the term "Marine Heritage" with "Maritime Heritage" throughout the document
- The Heritage Impact Assessment referred to on Page 112 must also note the potential for the presence of heritage resources at the cable landing site, assess the potential impact, and make recommendations for mitigation where applicable.
- The HIA must be submitted to SAHRA via the South African Heritage Resources Information System (SAHRIS) for comment.
- All efforts must be made to avoid damage and/or disturbance of cultural heritage material along the offshore cable routes.
- Should any shipwreck or cultural heritage material be detected below the high water mark via sidescan

Our Ref:

an agency of the  
Department of Arts and Culture

Page No: 2

CaseID: 13412

sonar or other means, the position must be recorded and SAHRA must be notified immediately. In this event, work must cease and may not commence until feedback has been received from SAHRA.

- If shipwreck or cultural heritage material is detected along the offshore alignment is proven or suspected to be older than 60 years, and the applicant is unable to alter the alignment, a permit shall be required from SAHRA before work may commence.
- SAHRA must be provided with information regarding any wrecks or anomalies found on or within 200m of the offshore alignment. Specifically, the name of the vessel (if known), any associated chronological data, and the sources for this information must be provided.
- Page 101 - Please add a paragraph to Section 6.7.12 which summarises the remit of the South African Heritage Resources Agency in relation to the Provincial Heritage Resources Authority (Amafa KZN) - e.g. "SAHRA is responsible for maritime and underwater heritage resources, including those located on land and within 24 nautical miles seaward of the high-water mark."

SAHRA particularly supports the following statement in the DSR:

P. 103 - "Sidescan Sonar Data will be used to identify any wrecks within the vicinity of the proposed cable prior to installation. The subsea cable route will be designed to avoid any known or identified wrecks."

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

**From:** KarenM <KarenM@daff.gov.za>  
**Sent:** Monday, 18 February 2019 09:03  
**To:** ERM South Africa METISS ESIA  
**Cc:** PMB ResourceCentre; AyandaMny; Thembalakhe Sibozana  
**Subject:** Draft Scoping Report for the METISS Subsea Cable System to be landed in Amanzimtoti

Good morning Reinett

I have previously called your office to discuss the above project as it affects our mandate, The National Forests Act No. 84 of 1998 as amended, however the receptionist had indicated that you were unavailable.

Seeing that the cable route transverses through a section of KZN Coastal Lowlands (forest) vegetation before connecting to the existing infrastructure, DAFF would like to conduct a site inspection prior commenting on the project.

It is noted that ERM consultants will be in Amanzimtoti on the 01<sup>st</sup> -02<sup>nd</sup> March 2019 to have one on one sessions, however the comment end date is one the 04<sup>th</sup> March 2019 (Monday) , I think that this timeframe would be too short for DAFF to comment as we have internal processes that need to be followed prior submitting comments to the EAP.

Based on the above I propose the following options:

1. A site inspection can be arranged with a representative from ERM prior the 01<sup>st</sup> March 2019.
- Or
2. The EAP can extend the comment end date by a week.

Kindly assist on the above matter.

Regards,

Karen

7966

Attention: Vicky Stevens

**RE: COMMENTS FOR THE DRAFT SCOPING REPORT FOR THE PROPOSED  
INSTALLATION AND OPERATION OF THE METISS (MELTING POT INDIANOCEANIC  
SUBMARINE SYSTEM) SUBSEA CABLE SYSTEM TO BE LANDED IN AMANZIMTOLI,  
SOUTH AFRICA.**

The Department of Agriculture, Forestry and Fisheries appreciates the opportunity given to review and comment on the Draft Scoping Report (DBAR) for the above mentioned project. The National Forests Act of 1998 (as amended) provides the strongest and most comprehensive legislation and mandate for the protection of all natural forests in South Africa. The principles of the Act in Section 3 state clearly that "*natural forests may not be destroyed save in exceptional circumstances where, in the opinion of the Minister, a proposed new land use is preferable in terms of its economic, social or environmental benefits*" This prescribes that no development affecting forests may be allowed unless "exceptional circumstances" can be proven. Section 7 of the Act prohibits the cutting, disturbance, destruction or removal of any indigenous living or dead tree in a forest without a licence, while Section 15 places a similar prohibition on protected tree species listed under the Act.

DAFF through the sub-directorate Forestry Regulations and Support is the authority mandated to implement the National Forest Act No. 84 of 1998 by regulating the use of natural forests<sup>1</sup> and protected trees species in terms of the said Act.

With reference to the DSR, received on the 01/02/2019, majority of the subsea cable runs through South African waters however a portion of the cable will run on terrestrial land. It is noted that there are three alternatives for the landing site location of subsea cable. Alternative 1 and 3 are situated near a sensitive dune system and therefore considered to be environmentally sensitive whilst Alternative 2 (preferred) is situated in a transformed area (tarred parking area). It is therefore recommended that although Alternative 2 is a longer route, it is the most preferred route by DAFF as it follows the road servitude in order to limit the disturbance of natural vegetation. DAFF will provide further comments upon receipt of the Draft Environmental Impact report as this will entail a detail description of the route options as well as the vegetation specialist study which will address concerns regarding the disturbance of indigenous vegetation. A site visit will also be undertaken during the Draft Environmental Impact stage by DAFF officials.

This letter does not exempt you from considering other environmental legislations. Should any further information be required, please do not hesitate to contact this office.

Yours faithfully

K. Govender

**Forestry Regulations & Support - KZN**

---

<sup>1</sup> "Natural forest" means a group of indigenous trees-

- (a) whose crowns are largely contiguous; or
- (b) which have been declared by the Minister to be a natural forest under section 7(2); (xxviii)

### **PER E-MAIL / MAIL**

Dear Ms Stevens

### **COMMENTS ON THE DRAFT SCOPING REPORT FOR THE PROPOSED METTIS SUBSEA CABLE SYSTEM TO BE LANDED IN AMANZIMTOTI, KWAZULU NATAL PROVINCE**

The application form and draft Scoping Report (SR) dated 01 February 2019 as received by this Department on 31 January 2019 refers.

This Department has the following comments on the abovementioned application:

#### **Activities applied for:**

Please furnish the development footprint in square metres in relation to both activity 15 and 17 of GNR 983 of NEMA regulations of 2014 as amended.

#### **Alternatives**

- Please provide a description of the identified alternatives for the proposed activity that are feasible and reasonable, including the advantages and disadvantages that the proposed activity or alternatives will have on the environment and on the community that may be affected by the activity as per Appendix 2, (2) (1) (g) (i-xi), of GN R.982 of 2014, as amended.
- Alternatively, you should submit written proof of an investigation and motivation if no reasonable or feasible alternatives exist as per the requirements of Appendix 2, (2) (1) (g) (x).

#### **Impacts Assessment**

This Department requests the EAP to familiarise themselves with the requirements of Appendix 2 of GNR 982 of the EIA Regulations, 2014 (as amended) and ensure that the final SR submitted to this Department for consideration meets the requirements in terms of identifying, assessing and providing mitigation measures of the impacts on the alternatives and preferred site.

#### **Plan of Study of the EIA**

Ensure that the Plan of Study of EIA is compiled in accordance with Appendix 2 (h-j) of NEMA EIA Regulations 2014 as amended.

## **Maps**

Please ensure that the final Scoping Report includes the following maps.

- **Locality map**

An A3 locality map. The scale of the locality map must be relevant to the size of the development (at least 1:50 000. For linear activities of more than 25 kilometres, a smaller scale e.g. 1:250 000 can be used. The scale must be indicated on the map).

**The map must indicate the following:**

- an accurate indication of the project site position as well as the positions of the alternative sites, if any; indication of all the alternatives identified; closest town(s)
- road access from all major roads in the area;
- road names or numbers of all major roads as well as the roads that provide access to the site(s);
- all roads within a 1km radius of the site or alternative sites; and
- a north arrow; a legend and locality: GPS co-ordinates must indicate the position of the activity using the latitude and longitude of the centre point of the site for each alternative site. The co-ordinates must be provided in degrees, minutes and seconds. The projection that must be used in all cases is the Hartebeesthoek94 WGS84 co-ordinate system, in line with Regulation 5(6) of the EIA Regulations, 2014 as amended.

- **A3 Layout map**

A detailed site plan must be prepared for the site.

**The site or route plans must indicate the following:**

- the property boundaries and numbers of all the properties within 50 metres of the site;
- the current land use, the land use zoning of the site and of each of the properties adjoining the site
- the exact position of each structure to be developed triggered by the proposed development (including alternatives);
- servitude(s) indicating the purpose of the servitude;
- a legend; and
- a north arrow.

- **Sensitivity map**

A sensitivity layout plan overlaid by the sensitive features i.e. no go areas and irreplaceable Critical Biodiversity Areas (CBA), Conservation Areas, sensitive ecosystems, no go areas and water bodies also the existing structures in the vicinity of the proposed development must be submitted as part of the report for analysis of the effect of the proposed project on the environment. Please ensure all features are clearly indicated on the legend of the sensitivity layout plan.

## **Public Participation Process**

- Please ensure that all issues raised and comments received during the circulation of the SR from the registered I&APs and organs of state which have jurisdiction (including this Department's Biodiversity Section and Coastal Conservation and Strategies Directorate) in respect of the proposed activity are adequately addressed in the final SR.
- Proof of correspondence with the various stakeholders must be included in the final SR. Should you be unable to obtain comments, proof of the attempts that were made to obtain comments must be submitted to the Department.
- The Public Participation Process must be conducted in terms of Regulations 39, 40, 41, 42, 43 & 44 of the EIA Regulations 2014, as amended.

### General Comments

You are further reminded that the final SR to be submitted to this Department must comply with all the requirements in terms of the scope of assessment and content of Scoping Reports in accordance with Appendix 2 and Regulation 21(1) of the amended EIA Regulations, 2014.

Further note that in terms of Regulation 45 of the EIA Regulations 2014, this application will lapse if the applicant fails to meet any of the timeframes prescribed in terms of these Regulations, unless an extension has been granted in terms of Regulation 3(7).

You are requested to submit one (1) copy of the final scoping report to the Department and two (2) unprotected electronic copy (CD/DVD-PDF Format) of the complete final report with the hard copy documents. All documents to be submitted must include the above DEA reference number.

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No 107 of 1998, as amended, that no activity may commence prior to an environmental authorisation being granted by the Department.

Yours faithfully

### **PER EMAIL / MAIL**

Dear Sir/Madam

### **ACCEPTANCE OF THE SCOPING REPORT FOR THE PROPOSED MELTING POT INDIANOCEANIC SUBMARINE SYSTEM (METTIS) SUBSEA CABLE SYSTEM TO BE LANDED IN AMANZIMTOTI, KWAZULU NATAL PROVINCE**

The final Scoping Report (SR) and Plan of Study for Environmental Impact Assessment (PoSEIA) dated 11 March 2019 and received by this Department on 13 March 2019 refer.

This Department has evaluated the submitted final SR and the PoSEIA dated 11 March 2019 and is satisfied that the documents comply with the minimum requirements of the Environmental Impact Assessment (EIA) Regulations 2014, as amended. The SR is hereby accepted by the Department in terms of Regulation 22(a) of the EIA Regulations 2014, as amended.

You may proceed with the EIA process in accordance with the tasks contemplated in the PoSEIA and the requirements of the EIA Regulations 2014, as amended. However, you must take note of the following comments from the Department:

#### **Public Participation Process (PPP)**

All comments and recommendations made by all stakeholders and various Interested and Affected Parties (I&APs) in the draft SR and submitted as part of the final SR must be taken into consideration when preparing an Environmental Impact Assessment report (EIAR) in respect of the proposed development. Please ensure that all mitigation measures and recommendations in the specialist studies are addressed and included in the final EIAR and Environmental Management Programme (EMPr).

Please ensure that all relevant stakeholders' comments are submitted to the Department with the final EIAR. This includes but is not limited to the Department of Environmental Affairs: Biodiversity and Conservation Directorate, Department of Environmental Affairs: Oceans and Coast Branch, KwaZulu Natal Department of Economic Development, Tourism and Environmental Affairs, Ezemvelo KZN Wildlife, eThekweni Metropolitan Municipality, the Department of Agriculture, Forestry and Fisheries (DAFF): International Relation Fisheries, Department of Water and Sanitation (DWS), Department of Mineral Resources, South African Maritime Safety Authority, Department of Public Works, Petroleum Agency of South Africa, South African Navy Hydrographic Office, Department of Transport, Department of Human Settlement, the South African Heritage Resources Agency

(SAHRA), AMafa KwaZulu Natal, the Wildlife & Environment Society of South Africa (WESSA) and Birdlife South Africa, South Africa Institute for Aquatic Biodiversity, Fresh Tuna Exporters Association, Fish SA, South African Commercial Line Fishing Association, South African Deep-Sea Trawling Industry Association and South African Squid Management Industrial Association.

You are also required to address all issues raised by Organs of State and I&APs prior to the submission of the EIAr to the Department.

Proof of correspondence with the various stakeholders must be included in the EIAr. Should you be unable to obtain comments, proof should be submitted to the Department of the attempts that were made to obtain comments.

The EAP must in order to give effect to Regulation 7, give registered I&APs access to and an opportunity to comment on the draft report in writing within 30 days before submitting the final EIAr to the Department.

**In addition, the following additional information must be included in the final report:**

**Topographical and sensitivity maps**

- An environmental sensitivity map indicating environmental sensitive areas and features identified during the EIA process must be on an A3 page with a clear legend.
- A topographical map combining the final layout map superimposed (overlain) on the environmental sensitivity map must be submitted with the final EIAr.

**The Environmental Management Programme (EMPr)**

The EMPr to be submitted as part of the EIAr must include the following:

- i. All recommendations and mitigation measures recorded in the EIAr and the specialist studies conducted.
- ii. A good quality site final layout map with clear legend.
- iii. A plant rescue and protection plan which allows for the maximum transplant of conservation important species from areas to be transformed. This plan must be compiled by a vegetation specialist familiar with the site and be implemented prior to commencement of the construction phase.
- iv. A re-vegetation and habitat rehabilitation plan to be implemented during the construction and operation of the facility.
- v. A traffic management plan for the site access roads illustrating how traffic will be controlled especially on local commuters travelling on public road during peak hours and how traffic or any other impacts as a result of traffic will be managed,
- vi. Measures to protect archaeological sites, artefacts, paleontological fossils or graves from construction and operational impacts.

The EAP must provide detailed motivation if any of the above requirements is not required by the proposed development and not included in the EMPr.

**General Comments**

You are hereby reminded that should the EIAr fail to comply with the requirements of this acceptance letter, Regulation 23(2) and Appendix 3 and 4, the proposed METTIS subsea cable system to be landed in Amanzimtoti, KwaZulu Natal Province will be refused in terms of the EIA Regulations 2014, as amended.

Furthermore, it must be reiterated that, should an application for Environmental Authorisation be subject to the provisions of Chapter II, Section 38 of the National Heritage Resources Act, Act 25 of 1999, then this Department will not be able to make nor issue a decision in terms of your application for Environmental Authorisation pending a letter from the pertinent heritage authority categorically stating that the application fulfils the requirements of the relevant heritage resources authority as described in Chapter II, Section 38(8) of the National Heritage

Resources Act, Act 25 of 1999. Comments from SAHRA and/or the provincial department of heritage must be provided in the EIAr.

You are requested to submit two (2) electronic copies (CD/DVD) and one (1) hard copy of the EIAr to the Department as.

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No 107 of 1998, as amended, which stipulates that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Yours faithfully

Att: Reinett Mogotshi

Dear Sir/Madam,

**DRAFT SCOPING REPORT FOR THE INSTALLATION AND OPERATION OF THE METISS SUBSEA CABLE SYSTEM TO BE LANDED IN AMANZIMTOTI.**

With reference to the abovementioned Draft Scoping Report, please be advised that various Municipal Departments have had sight of the proposal and the following comments are submitted for your attention:-

**1. eThekweni Electricity Department.**

The H.V. Operations has no objection to the above mentioned application, however please note:

- 1.1. The applicant must consult eThekweni Electricity's mains records (held in the drawing office at eThekweni Electricity Headquarters, 1 Jelf Taylor Crescent, for the presence of underground electrical services. In addition should any overhead line and/or servitude be affected, the specific permission of the Head: Electricity must be sought regarding the proposed development.
- 1.2. The relocation of MV/LV electrical services, if required in order to accommodate the proposed development, will be carried out at the expense of the applicant.

**2. Environmental Planning and Climate Protection Department.**

The Environmental Planning and Climate Protection Department has no Biodiversity objection to the proposed Installation and Operation of the METISS Subsea Cable.

The landing area along the beach, is easily accessible, and no vegetation is envisaged to be lost.

This Department will comment further on the submission of the Final Scoping Report.

**3. Land Use Management Branch.**

There are no adverse comments from the Land Use Management Branch at this stage.

**4. Strategic Spatial Planning Branch.**

The Strategic Spatial Planning Branch (SSPB) notes the Draft Scoping Report for the installation and operation of the Melting Pot Indianoceanic Submarine System (METISS) in South Africa. In this regard, the SSPB do hereby request clarity regarding;

- The equipment and infrastructure that will be visible pre and post construction;
- To what extent will this proposal affect commercial as well as subsistence fisheries and what mitigation measure will be put in place; -
- Post construction, what will the daily/routine operations be, and how will this impact on the beach;
- How will the pre and post construction impact on tourism given that Amanzimtoti is a tourist destination.

In terms of Landing Site Location Alternative, the SSPB prefers Alternative 2: Amanzimtoti Pipeline Beach, due to the fact that from an environmentally sensitivity point of view the Beach Manhole will be located in a transformed area.

With regards to the Terrestrial Cable Route Alternatives, the SSPB prefers the Alternative 2 alignment route as it follows the road servitude thus limiting disturbance of the natural vegetation.

Finally, it should be noted that the SSPB will comment further upon receipt of the Final Scoping Report.

**5. Project Executive: Coastal Policy.**

No objection.

**6. Coastal, Stormwater and Catchment Management.**

This Department has no objection.

**7. Parks, Leisure and Cemeteries.**

No comment received.

**8. Pavement and Geotechnical Engineering.**

No geotechnical objection in principle. Once on-shore at Amanzimtoti, this Branch prefers the Option 2 alignment along the road as the dune crossing of Option 1 is already oversteep and zoned potentially unstable, the feasibility of crossing the dune will depend on the proposed methods of laying the cable.

**9. eThekweni Transport Authority.**

No comment received.

**10. Environmental Health Department.**

In principle, this Department supports the proposed development of the above mentioned project, however, it is recommended that the development be conducted within the following parameters:

- 10.1. Construction to be in accordance with the Occupational Health and Safety Act and any other applicable bylaws and Regulations.
- 10.2. Waste generated during/and or after construction to be disposed of at an approved landfill site (records thereof to be kept).
- 10.3. Water and ablution facilities at the construction site to be available at the beginning through to the end of construction. Effluent to be disposed of at an approved site (records to be kept).
- 10.4. Dust control measures to be in place during the construction phase.
- 10.5. Trenches to be safe guarded ensuring human and animal safety.

This Department reserves the right to call for additional requirements should any health nuisance arise.

**11. eThekweni Water and Sanitation Department.**

No comment received.

**12. Cleansing and Solid Waste.**

No comment received.

**13. Disaster Management.**

No comment from this Department.

**14. Fire Safety.**

Full compliance with all applicable Legislative requirements.

Should you seek clarification on any of the above issues, please contact the writer on telephone: 031 - 3117136 or via e-mail: [diane.vanrensburg@durban.gov.za](mailto:diane.vanrensburg@durban.gov.za) in addition, the Department requests that a copy of the Environmental Authorisation be emailed to the same address.

Yours faithfully

Hi Victoria

Re: Climate Change and impacts on cable installation both at sea and on land

Please would you ensure that this next phase of the project includes an in depth review of assumptions following the recent coastal flooding and dune slumping in Toti.

Please also ensure this comment is formally recorded.

Thanks  
Judy Bell

**CC:**

Dear Stakeholder,

The proposed Melting pot Indianoceanic Submarine System (METISS) Subsea Cable System is a fibre optic subsea cable system linking South Africa, Madagascar, Réunion and Mauritius. Alcatel Submarine Networks (ASN) and Elettra Tlc s.p.a have been selected as the Suppliers of the METISS fibre optic subsea cable. The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length and deliver a boost to bandwidth between the respective countries, providing a connection speed of 24 terabytes per second.

The anticipated METISS subsea cable footprint within the South African waters is approximately 538 km (inclusive of Territorial Waters and Economic Exclusive Zone (EEZ)). The system includes a 14 mm to 35 mm diameter subsea cable that will enter the South African EEZ (approximately 370 km from the seashore) and continue through Territorial Waters (approximately 22 km from the seashore), to a landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal.

The Final Scoping Report for this Project was compiled and submitted to the Department of Environmental Affairs on 15 March 2019. The report was subsequently approved by DEA on 13 April 2019 commencing the Environmental Impact Assessment Phase of the project. As such, notice is hereby given that the Draft EIA Report is being compiled and will be made available to the public for comment.

For more information on the proposed project, contact ERM as follows:

Good Day Ms Moodley,

As discussed telephonically, the comments received from DAFF Forestry Branch were incorporated into the Comments and Responses Report, Appendix C of the Final Scoping Report for the METISS Subsea Cable Project. Please find attached, a copy of the Final Scoping Report. The appendices will follow in the next email due to the size

of the file being in excess of 10mb (Email attachment file size limit). The Final Scoping Report is also accessible on the project website listed below. One Hard Copy and One Soft Copy of the Draft Environmental Impact Assessment Report will be couriered to your offices upon release of the report. The Draft Environmental Impact Assessment report will be uploaded onto the project website upon release of the report.

The project website is as follows: [www.erm.com/metiss-fibre-optic-submarine-cable-system](http://www.erm.com/metiss-fibre-optic-submarine-cable-system)

Kind Regards

**Subject:** Draft Environmental Impact Assessment Report for the METISS Subsea Cable System to be landed in Amanzimtoti, Kwa Zulu Natal.

Dear Stakeholder,

The proposed Melting pot Indianoceanic Submarine System (METISS) Subsea Cable System is a fibre optic subsea cable system linking South Africa, Madagascar, Réunion and Mauritius. Alcatel Submarine Networks (ASN) and Elettra Tlc s.p.a have been selected as the Suppliers of the METISS fibre optic subsea cable. The Project will provide additional telecommunications capacity to South African users through a fibre optic cable of approximately 3,200 km in length and deliver a boost to bandwidth between the respective countries, providing a connection speed of 24 terabytes per second.

The anticipated METISS subsea cable footprint within the South African waters is approximately 538 km (inclusive of Territorial Waters and Economic Exclusive Zone (EEZ)). The system includes a 14 mm to 35 mm diameter subsea cable that will enter the South African EEZ (approximately 370 km from the seashore) and continue through Territorial Waters (approximately 22 km from the seashore), to a landing site at Amanzimtoti Pipeline Beach in KwaZulu-Natal.

The Final Scoping Report for this Project was compiled and submitted to the Department of Environmental Affairs on 15 March 2019. The report was subsequently approved by DEA on 13 April 2019 commencing the Environmental Impact Assessment Phase of the project. As such, notice is hereby given that the Draft EIA Report is being compiled and will be made available to the public for comment.

For more information on the proposed project, contact ERM as follows:
