DEAR SIR / MADAM

RE: 32 CHESTNUT ROAD

In answer to your letter sent to us at the end of July, please find attached internal photographs of the building and multiple streetscapes of buildings very similar in height and design of which have recently been completed and our new proposal fits in with the existing streetscape. Please reconsider this application with the information supplied.

If you do a survey of the entire area, you will see that this type of development is becoming very popular to provide affordable accommodation for the middle and lower income persons and also providing accommodation close to their places of work. All the above must be taken into consideration when making a final decision.

yours faithfully

G.P. Braum
