Dear Mr Nell,

I have been in communications with the proponent and with a representative of the landowner to discuss the issues.

The documents that you have requested need to be requested from the holder of the EA. We will provide the information as soon as possible. We will also accept late comments to facilitate your requests up until we have provided feedback.

As far as a meeting is concerned, please may we ask that you propose a date between 12 & 23 August, with the exception of 21 -22 August – Justin Bowers will attend on behalf of the landowners. Jo-Anne Thomas and myself are able to attend meeting – however will be via Teams or other online platform.

I believe that we will then be in a position to address the issues raised.

Thanks and Kind Regards,

**PROPOSED AMENDMENT OF THE 14MW MACHADODORP PV 1 SOLAR ENERGY FACILITY IN THE EMAKHAZENI LOCAL MUNICIPALITY IN MPUMALANGA PROVINCE  
(DFFE REF: 14/12/16/3/3/1/738)**

Dear Stakeholder and Interested and Affected Party,

Machadodorp1 PV Project (Pty) Ltd proposes to make an amendment to an existing Environmental Authorisation (EA) for the proposed construction of the 14MW Machadodorp PV 1 Solar Energy Facility on Portion 8 of the farm De Kroon 363 of the Emakazheni Local Municipality in Mpumalanga Province, (DFFE Reference: 14/12/16/3/3/1/738) issued on the 22 May 2013. The amendment being applied for is to extend the commencement period (validity) of the Environmental Authorisation.

In terms of Conditions 7 of the EA dated 22 May 2013 and Regulation 29 of the EIA Regulations 2014, as amended, it is possible for an applicant to apply, in writing, to the competent authority for an amendment of the environmental authorisation if the amendment will not change the scope of a valid environmental authorisation nor increase the level or nature of the impact. An application in this regard has been submitted to the DFFE who have confirmed that the applications fall within the ambit of a Part 1 amendment process. A public participation process is required to be undertaken in support of these applications in accordance with the requirements of the DFFE.

**AVAILABILITY OF MOTIVATION REPORT FOR REVIEW AND COMMENT**

Savannah Environmental has compiled a Motivation Report in support of the Amendment Application (Part 1 amendment). The Motivation Report and supporting documentation will be available for public review and comment from Thursday, 13 July 2023 to Tuesday, 15 August 2023. The Motivation Report can be downloaded from Savannah Environmental's website ([CLICK HERE](#)).

All comments can be addressed to Cornelius Holtzhausen at Savannah Environmental.

All comments received during the 30-day public review and comment period will be recorded and included in the Final Motivation Report in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326), for submission to the DFFE for review and decision-making.

Our team welcomes your participation and looks forward to your involvement throughout this process. Please do not hesitate to contact us should you require additional information and/or clarification regarding the project.
