To: Department of Rural Development and Land Reform
Cc: Nondumiso Bulunga
Subject: SE3126: ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE - - NOTICE OF AVAILABILITY OF EIA REPORT FOR REVIEW AND COMMENT
Attachments: SE3126-_EIA_Notification_Letter_01.07.2022_Rev_2.pdf

GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE

(DFFE Reference No.: To be Issued)

Dear Stakeholder and Interested & Affected Party,

The development of a new general waste disposal site adjacent to the existing, closed landfill site at the Eskom Majuba Power Station.

The Environmental Impact Assessment (EIA) Report is available for download, review, and comment on the Savannah Environmental website [click here](#).

The 30-day review and comment period of the EIA Report is from **Friday, 01 July 2022 until Monday, 01 August 2022**.

The final date to submit comments is **Monday, 01 August 2022**.

Please receive the attached letter for more project information. Feel free to contact us should you require additional information.

Kind regards,

Subject: SE3126: ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE

**GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE
(DFFE Reference No.:TBC)**

Dear Stakeholder and Interested & Affected Party,

With reference to our email dated 01 July 2022, informing you that the review and comment period for General Waste Disposal at Eskom Majuba was made available **Friday 01 July 2022** until **Monday, 01 August 2022**.

This email hereby serves to remind you that the review and comment period of the Report is ending **Monday, 01 August 2022**.

We would like to further take this opportunity to thank those Stakeholders and I&APs who submitted their written comments on the Reports and kindly urge those who have not yet submitted their written comments on the report to do so before or on **Monday, 01 August 2022**.

For those that have not been able to access the report, kindly be reminded that the Report may be accessed for download from our public participation platform [click here](#).

Kind regards,

Subject: SE3126: ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE

**GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE
(DFFE Reference No.:TBC)**

Dear Stakeholder and Interested & Affected Party,

With reference to our email dated 01 July 2022, informing you that the review and comment period for General Waste Disposal at Eskom Majuba was made available **Friday 01 July 2022** until **Monday, 01 August 2022**.

This email hereby serves to remind you that the review and comment period of the Report is ending **Monday, 01 August 2022**.

We would like to further take this opportunity to thank those Stakeholders and I&APs who submitted their written comments on the Reports and kindly urge those who have not yet submitted their written comments on the report to do so before or on **Monday, 01 August 2022**.

For those that have not been able to access the report, kindly be reminded that the Report may be accessed for download from our public participation platform [click here](#).

Kind regards,

[Unsubscribe this type of email](#)

Subject: RE: SE3126: ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE - INVITATION TO A COMMUNITY MEETING

Good Afternoon

Thank you for the invite, however, I will not be able to attend as I am based in the Western Cape. The application on SAHRIS should suffice, and any missing information will be communicated via an Interim Comment letter.

Kind Regards,
Nokukhanya

I will be working from home until further notice. Please contact me via email primarily or call me on 0839879817 during business hours.

Subject: SE3126: ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE - INVITATION TO A COMMUNITY MEETING

Dear Stakeholder and Interested & Affected Party,

With reference to the notification letter sent on **Friday, 01 July 2022**, for the proposed development of a new general waste disposal site on a site located, approximately 13km southwest of Amersfoort and 40km north-northwest of Volksrust in the Dr Pixley Ka Isaka Seme Local Municipality, which forms part of the Gert Sibande District Municipality, in the Mpumalanga Province, we hereby invite you to a community meeting taking place Thursday, 28 July 2022.

Please receive the attached letter for more detailed information.

Feel free to contact us should you require additional information.

Kind regards,

SCOPING PHASE

SAVANNAH ENVIRONMENTAL WEBSITE

Majuba General Waste Disposal Site

General Waste Disposal Site at the Eskom Majuba Power Station near Amersfoort, Mpumalanga Province

Proposed Activity: The development of a new general waste disposal site adjacent to the existing closed landfill site at the Eskom Majuba Power Station.

Location: Portions 1, 2 and 6 of the Farm Witkoppies 81HS, approximately 13km southwest of Amersfoort and 40km north-northwest of Volksrust in the Dr Pixley Ka Seme Local Municipality, which forms part of the Gert Sibande District Municipality, in the Mpumalanga Province.

Associated infrastructure will include the following:

- Fencing with appropriate signage
- An adequate access road
- An access control gate
- A guard house with an ablation facility
- Covered parking facilities
- A designated area for parking and servicing of plant and machinery
- Sorting and storage facilities for recyclables
- A conservancy tank connected to the ablation facility

- Adequate water and electricity connection from the existing rising mains
- Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body
- A leachate management system.

Scoping and Environmental Impact Assessment Process: An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management Licence (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. Savannah Environmental has been appointed as the Independent Environmental Assessment Practitioner (EAP) to undertake the required S&EIA and public participation process for the project.

To obtain further information and register on the project database, please submit your name, contact information, and interest in the project to:

Subject: SE3126 - GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION - NOTICE OF SCOPING REPORT

Body:
NOTICE OF SCOPING REPORT AND PUBLIC PARTICIPATION PROCESS
GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT,
MPUMALANGA PROVINCE

Dear Stakeholder

Eskom Majuba Power Station is proposing the development of a new general waste disposal site on Portions 1, 2 and 6 of the Farm Witkoppies 81HS, approximately 13km southwest of Amersfoort and 40km
Infrastructure associated with the new general waste disposal site will include the following:

- » Fencing with appropriate signage.
- » An adequate access road.
- » An access control gate.
- » A guard house with an ablation facility.
- » Covered parking facilities.
- » A designated area for parking and servicing of plant and machinery.
- » Sorting and storage facilities for recyclables.
- » A conservancy tank connected to the ablation facility.
- » Adequate water and electricity connection from the existing rising mains.
- » Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body.
- » A leachate management system.

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations of December 2014 (as amended in April 2017), published in terms of the National Environmental Management Act, 1998 (Act No. 25 of 1998)

HOW TO BECOME INVOLVED

1. By responding (by phone, fax or email) to our invitation for your involvement which has been advertised in a local newspaper and on site.
2. By attending the virtual meetings to be held during the course of the EIA process.
3. By contacting the consultants with queries or comments.
4. By reviewing and commenting on the Scoping and Environmental Impact Assessment Reports within the stipulated 30-day review periods.

If you consider yourself an I&AP for the proposed projects, we urge you to make use of the opportunities created by the public participation process to provide comment, raise issues and concerns which affect the project.

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW AND COMMENT

As a registered Interested and Affected Party, you are hereby notified that the Scoping Report for the project is available for review and comment from Friday, 12 November 2021 until Monday, 13 December 2021.

The availability of the Environmental Impact Assessment Report for review and comment will be announced once the EIA Phase of the project has commenced.

Kind Regards

**NOTICE OF SCOPING REPORT AND PUBLIC PARTICIPATION PROCESS
GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT,**

MPUMALANGA PROVINCE

Dear Stakeholder

Eskom Majuba Power Station is proposing the development of a new general waste disposal site on Portions 1, 2 and 6 of the Farm Witkoppies 81HS, approximately 13km southwest of Amersfoort and 40km north-northwest of Volksrust in the Dr Pixley Ka Isaka Seme Local Municipality, which forms part of the Gert Sibande District Municipality, in the Mpumalanga Province. The new general waste disposal site will be constructed adjacent to the existing, closed landfill site at the Eskom Majuba Power Station.

Infrastructure associated with the new general waste disposal site will include the following:

- » Fencing with appropriate signage.
- » An adequate access road.
- » An access control gate.
- » A guard house with an ablution facility.
- » Covered parking facilities.
- » A designated area for parking and servicing of plant and machinery.
- » Sorting and storage facilities for recyclables.
- » A conservancy tank connected to the ablution facility.
- » Adequate water and electricity connection from the existing rising mains.
- » Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body.
- » A leachate management system.

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations of December 2014 (as amended in April 2017), published in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921), the construction and operation of the general waste disposal site is a listed activity requiring an Integrated Environmental Authorisation (IEA) and Waste Management Licence (WML) from the Department of Forestry, Fisheries and the Environment (DFFE). In terms of GNR 326 and GNR 921, the application for an Integrated EA and WML is required to be supported by a full Scoping and EIA process. The application for an Integrated EA and WML is required to be supported by comprehensive, independent environmental studies

HOW TO BECOME INVOLVED

1. By responding (by phone, fax or email) to our invitation for your involvement which has been advertised in a local newspaper and on site.
2. By attending the virtual meetings to be held during the course of the EIA process.
3. By contacting the consultants with queries or comments.
4. By reviewing and commenting on the Scoping and Environmental Impact Assessment Reports within the stipulated 30-day review periods.

If you consider yourself an I&AP for the proposed projects, we urge you to make use of the opportunities created by the public participation process to provide comment, raise issues and concerns which affect and / or interest you, or request further information. Your input forms a key element of the EIA processes.

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW AND COMMENT

As a registered Interested and Affected Party, you are hereby notified that the Scoping Report for the project is available for review and comment from Friday, **12 November 2021** until **Monday, 13 December 2021** and can be downloaded on the Savannah Environmental website (<https://savannahsa.com/public-documents/other/>). The final date to submit comments is Monday, **13 December 2021**.

The availability of the Environmental Impact Assessment Report for review and comment will be announced once the EIA Phase of the project has commenced.

Good Day Mbali

The email below is a reminder of the review period for the Scoping Report for the Proposed General Waste Disposal Site for the Majuba Power Station.

The Scoping Report forms part of the process when seeking Environmental Authorisation from the Department of Forestry , Fisheries and the Environment.

You are more than welcome to give us a call or provide us with your contact details should you feel that this explanation is not sufficient.

Kind Regards

REMINDER OF SCOPING REPORT AND PUBLIC PARTICIPATION PROCESS

GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT,
MPUMALANGA PROVINCE

Dear Stakeholder

Eskom Majuba Power Station is proposing the development of a new general waste disposal site on Portions 1, 2 and 6 of the Farm Witkoppies 81HS, approximately 13km southwest of Amersfoort and 40km north-northwest of Volksrust in the Dr Pixley Ka Isaka Seme Local Municipality, which forms part of the Gert Sibande District Municipality, in the Mpumalanga Province. The new general waste disposal site will be constructed adjacent to the existing, closed landfill site at the Eskom Majuba Power Station.

Infrastructure associated with the new general waste disposal site will include the following:

- » Fencing with appropriate signage.
- » An adequate access road.
- » An access control gate.
- » A guard house with an ablution facility.
- » Covered parking facilities.

- » A designated area for parking and servicing of plant and machinery.
- » Sorting and storage facilities for recyclables.
- » A conservancy tank connected to the ablution facility.
- » Adequate water and electricity connection from the existing rising mains.
- » Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body.
- » A leachate management system.

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations of December 2014 (as amended in April 2017), published in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921), the construction and operation of the general waste disposal site is a listed activity requiring an Integrated Environmental Authorisation (IEA) and Waste Management Licence (WML) from the Department of Forestry, Fisheries and the Environment (DFFE). In terms of GNR 326 and GNR 921, the application for an Integrated EA and WML is required to be supported by a full Scoping and EIA process. The application for an Integrated EA and WML is required to be supported by comprehensive, independent environmental studies

HOW TO BECOME INVOLVED

1. By responding (by phone, fax or email) to our invitation for your involvement which has been advertised in a local newspaper and on site.
2. By attending the virtual meetings to be held during the course of the EIA process.
3. By contacting the consultants with queries or comments.
4. By reviewing and commenting on the Scoping and Environmental Impact Assessment Reports within the stipulated 30-day review periods.

If you consider yourself an I&AP for the proposed projects, we urge you to make use of the opportunities created by the public participation process to provide comment, raise issues and concerns which affect and / or interest you, or request further information. Your input forms a key element of the EIA processes.

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW AND COMMENT

As a registered Interested and Affected Party, you are hereby reminded that the Scoping Report for the project is available for review and comment from Friday, **12 November 2021** until **Monday, 13 December 2021** and can be downloaded on the Savannah Environmental website (<https://savannahsa.com/public-documents/other/>). The final date to submit comments is Monday, **13 December 2021**.

The availability of the Environmental Impact Assessment Report for review and comment will be announced once the EIA Phase of the project has commenced.

Kind Regards

Subject: SE3126 - GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION - NOTICE OF SCOPING REPORT
Attachments: SE3126- Scoping Notification Letter FINAL.pdf

NOTICE OF SCOPING REPORT AND PUBLIC PARTICIPATION PROCESS GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE

Dear Stakeholder

Eskom Majuba Power Station is proposing the development of a new general waste disposal site on Portions 1, 2 and 6 of the Farm Witkoppies 81HS, approximately 13km southwest of Amersfoort and 40km north-northwest of Volksrust in the Dr Pixley Ka Isaka Seme Local Municipality, which forms part of the Gert Sibande District Municipality, in the Mpumalanga Province. The new general waste disposal site will be constructed adjacent to the existing, closed landfill site at the Eskom Majuba Power Station.

Infrastructure associated with the new general waste disposal site will include the following:

- » Fencing with appropriate signage.
- » An adequate access road.
- » An access control gate.
- » A guard house with an ablution facility.
- » Covered parking facilities.
- » A designated area for parking and servicing of plant and machinery.
- » Sorting and storage facilities for recyclables.
- » A conservancy tank connected to the ablution facility.
- » Adequate water and electricity connection from the existing rising mains.
- » Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body.
- » A leachate management system.

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations of December 2014 (as amended in April 2017), published in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921), the construction and operation of the general waste disposal site is a listed activity requiring an Integrated Environmental Authorisation (IEA) and Waste Management Licence (WML) from the Department of Forestry, Fisheries and the Environment (DFFE). In terms of GNR 326 and GNR 921, the application for an Integrated EA and WML is required to be supported by a full Scoping and EIA process. The application for an Integrated EA and WML is required to be supported by comprehensive, independent environmental studies

HOW TO BECOME INVOLVED

1. By responding (by phone, fax or email) to our invitation for your involvement which has been advertised in a local newspaper and on site.
2. By attending the virtual meetings to be held during the course of the EIA process.
3. By contacting the consultants with queries or comments.
4. By reviewing and commenting on the Scoping and Environmental Impact Assessment Reports within the stipulated 30-day review periods.

If you consider yourself an I&AP for the proposed projects, we urge you to make use of the opportunities created by the public participation process to provide comment, raise issues and concerns which affect and / or interest you, or request further information. Your input forms a key element of the EIA processes.

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW AND COMMENT

As a registered Interested and Affected Party, you are hereby notified that the Scoping Report for the project is available for review and comment from Friday, **12 November 2021** until **Monday, 13 December 2021** and can be downloaded on the Savannah Environmental website (<https://savannahsa.com/public-documents/other/>). The final date to submit comments is Monday, **13 December 2021**.

The availability of the Environmental Impact Assessment Report for review and comment will be announced once the EIA Phase of the project has commenced.

Kind Regards

- » Covered parking facilities.
- » A designated area for parking and servicing of plant and machinery.
- » Sorting and storage facilities for recyclables.
- » A conservancy tank connected to the ablution facility.
- » Adequate water and electricity connection from the existing rising mains.
- » Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body.
- » A leachate management system.

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations of December 2014 (as amended in April 2017), published in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921), the construction and operation of the general waste disposal site is a listed activity requiring an Integrated Environmental Authorisation (IEA) and Waste Management Licence (WML) from the Department of Forestry, Fisheries and the Environment (DFFE). In terms of GNR 326 and GNR 921, the application for an Integrated EA and WML is required to be supported by a full Scoping and EIA process. The application for an Integrated EA and WML is required to be supported by comprehensive, independent environmental studies

HOW TO BECOME INVOLVED

1. By responding (by phone, fax or email) to our invitation for your involvement which has been advertised in a local newspaper and on site.
2. By attending the virtual meetings to be held during the course of the EIA process.
3. By contacting the consultants with queries or comments.
4. By reviewing and commenting on the Scoping and Environmental Impact Assessment Reports within the stipulated 30-day review periods.

If you consider yourself an I&AP for the proposed projects, we urge you to make use of the opportunities created by the public participation process to provide comment, raise issues and concerns which affect and / or interest you, or request further information. Your input forms a key element of the EIA processes.

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW AND COMMENT

As a registered Interested and Affected Party, you are hereby reminded that the Scoping Report for the project is available for review and comment from Friday, **12 November 2021** until **Monday, 13 December 2021** and can be downloaded on the Savannah Environmental website (<https://savannahsa.com/public-documents/other/>). The final date to submit comments is Monday, **13 December 2021**.

The availability of the Environmental Impact Assessment Report for review and comment will be announced once the EIA Phase of the project has commenced.

Kind Regards

Subject: SE3126 - GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION - REMIDER OF SCOPING REPORT
Attachments: SE3126- Scoping Notification Letter FINAL.pdf

REMINDER OF SCOPING REPORT AND PUBLIC PARTICIPATION PROCESS GENERAL WASTE DISPOSAL SITE AT THE ESKOM MAJUBA POWER STATION NEAR AMERSFOORT, MPUMALANGA PROVINCE

Dear Stakeholder

Eskom Majuba Power Station is proposing the development of a new general waste disposal site on Portions 1, 2 and 6 of the Farm Witkoppies 81HS, approximately 13km southwest of Amersfoort and 40km north-northwest of Volksrust in the Dr Pixley Ka Isaka Seme Local Municipality, which forms part of the Gert Sibande District Municipality, in the Mpumalanga Province. The new general waste disposal site will be constructed adjacent to the existing, closed landfill site at the Eskom Majuba Power Station.

Infrastructure associated with the new general waste disposal site will include the following:

- » Fencing with appropriate signage.
- » An adequate access road.
- » An access control gate.
- » A guard house with an ablution facility.
- » Covered parking facilities.
- » A designated area for parking and servicing of plant and machinery.
- » Sorting and storage facilities for recyclables.
- » A conservancy tank connected to the ablution facility.
- » Adequate water and electricity connection from the existing rising mains.
- » Stormwater drainage network and evaporation pond for the stormwater entering the site through the waste body.
- » A leachate management system.
