VLAKFONTEIN POUND
There is 2 ox at the pound that has to be collected by the owners. If the animal is not collected, it will be sold on 03 March 2014 at a public auction. The auction will take place on 03 March 2014 at 09:00. There are 5 sheep, 3 goats and 2 mules at the pound that have to be collected by the owners. If the animals are not collected, it will be sold on 10 March 2014 at 09:00 at a public auction. The auction will take place on 10 March 2014 at 09:00. The auctions will take place at Vlakfontein Farm, Vryburg District. For any enquiries contact Gerhard 082 220 0669 or the Office 053 927 0346

The Colridge Centre for Children and the Elderly has officially changed hands. The centre will in future be under the auspices of the Tiger Kloof Educational Institution and the international organisation, Round Square. The day to day running of the centre will be in the hands of a committee, consisting of members of the local community. Maggie Losper is the overseer at the centre. Here is Maggie Losper (right) with learners of the Apsley College, Wellington in the United Kingdom who donated close to a million rand (53 000 British pounds) to the centre. This money was mostly used to buy the centre from the previous owner and to buy additional grounds for expanding the centre. Maggie Chodak from Round Square, and a major driving force behind the whole project, is also present in the photograph.

Mej Stellalander Semifinaal

Vryburg – Vanjaar het 32 jong vroue ingeskryf om mee te ding om die Mej Stellalander-kroon. Die 32 semifinaliste sal die Vrydag (18 Februarie) aan die aartse tradisie van die kompetisie deelneem as die semifinaliste by die Vryburg Polisiekub gehou word. Die verrigtinge begin om 18:00, maar deelnemers moet reeds om 16:00 daar wees vir 'n fotosessie saam met Tanel du Toit van Photolicious Photography. Kaartjies vir die geleentheid is oorgevullig reeds uitverkoop.

Alzane Narrain, oud-Vryburger en Kovsie graudent, is pas deur die streeksradiostasie OFM/Central Media aangewys as die maatskappy se Intern van die Jaar. Hier is Alzane tydens haar gradeplegtigheid verlede jaar.

INVITATION TO BID
NLM2014-019A
PROVISION OF ENGINEERING SERVICES FOR THE REBURISHMENT OF COLDRIDGE SPORT STADIUM (CONSULTANT)

Bids are hereby invited for the PROVISION OF ENGINEERING SERVICES FOR THE REBURISHMENT OF COLDRIDGE SPORT STADIUM (CONSULTANT) to the NALEDI LOCAL MUNICIPALITY.

Bid documents with detailed bid specifications and detailed information are obtainable at the Finance Department (Room 21) (office hours: 07h30 to 13h00 and 13h30 to 16h00) of the NALEDI LOCAL MUNICIPALITY, 19A Market Street, VRYBURG, 8601, from 12:00 on Wednesday, 26 February 2014. A non-refundable cash deposit fee of R100 is required on collection of the bid documents.

A compulsory site inspection and bid briefing meeting with representatives of the Municipality will be held on Wednesday, 05 March 2014, commencing from 09h00 at the Room 67 at 19A Market Street, Vryburg. Bid documents at the above stated cash deposit fee will also be available from the representatives of the Municipality on this day.

Sealed Bids clearly marked "NLM2014-019A : PROVISION OF ENGINEERING SERVICES FOR THE REBURISHMENT OF COLDRIDGE SPORT STADIUM (CONSULTANT)" must be placed in the tender box situated at the offices of the NALEDI LOCAL MUNICIPALITY, 19A Market Street, VRYBURG, 8601, on or before 12:00 on Thursday, 13 March 2014 at which time the bids will be opened in public.

No late bids will be accepted.

Please note that it is a prerequisite of the Municipality that all service providers are to be registered on the NALEDI LOCAL MUNICIPALITY'S Supplier Database. It must therefore be understood that only bids from suppliers registered on the Municipality's Supplier Database or bids accompanied by a completed Supplier Registration Application Form will be considered. The submissions of valid up to date SARS tax clearance certificates are compulsory. Supplier Registration Application Forms are available from the Finance Department (Room 21) of the Municipality at 19A Market Street, VRYBURG, 8601.

The NALEDI LOCAL MUNICIPALITY does not bind itself to accept the lowest or any bid and the Municipality reserves the right to accept the whole or part of any bid and further reserves the right to re-advertise if it so wishes to. No reasons for the acceptance or rejection of any bid will be given.

Bids will be adjudicated according to the NALEDI LOCAL MUNICIPALITY'S Supply Chain Management Policy, the Preferential Procurement Policy Framework Act (Act 5 of 2005) and the Preferential Procurement Regulations, 2011, as well as the Broad Base Black Economic Empowerment Act (Act 53 of 2003).

Enquiries may be directed to **Lobogang Moimwe** at telephone number (053) 928 2278.

ENVIRONMENTAL IMPACT ASSESSMENT
Public Participation Process
NOTIFICATION OF THE PROPOSED UPGRADING OF BULK WATER SUPPLY TO THE GREATER MAMUSA AREA

Notice is given in terms of Regulation 54(2)(c) of the Environmental Impact Assessment Regulations of 2010 No. R. 343 published in Government Notice No. 33308 of 18 June 2010 of the National Environmental Management Act (Act No. 107 of 1998) that an Application for Environmental Authorisation has been submitted to the North West Province Department of Economic Development, Environment, Conservation and Tourism for the following:

Project: Proposed upgrading of the bulk water supply to the greater Mamusa area, which will include the following: A pipeline between Bloemhof Water Treatment Works and Schaefer-Renekes, the upgrading of the existing or a possible new abstraction point at the Bloemhof Dam; as well as the expansion of the Water Treatment Works.

Project by: Dr Ruth S. Mompoti District Municipality.

Location: From the abstraction point at Bloemhof Dam, to the Bloemhof WTW to the Schaefer-Renekes reservoir, mostly along the R34 road.

DEEDS ref nr: NWPEIA/58/2013

1. INTRODUCTION

1.1 Proposed project and associated construction activities

The Dr Ruth S. Mompati District Municipality proposes to upgrade the bulk water supply to the Greater Mamusa area. The project includes the abstraction of water from the Bloemhof Dam and construction of a pipeline from the abstraction point to the Water Treatment Works in Bloemhof, pump and then along the R34 road to Schweizer-Reneke. The project also includes the construction of pump stations and other relevant infrastructure.

The site, as referred to in this Environmental Management Programme (EMPr), pertains to the pipeline route from the abstraction point at Bloemhof Dam to the reservoir site in Schweizer-Reneke as indicated on the locality plans in Appendix A of the Basic Assessment Report.

1.2 Objectives of the EMPr

The EMPr aims to fulfil the requirements as specified in Section 33 of Regulations No. R. 543 (18 June 2010) in terms of the National Environmental Management Act (Act 107 of 1998), with the following objectives:

- To identify, predict and evaluate actual and potential impacts on the environment, socio-economic conditions and cultural heritage, the risks and consequences and alternatives and options for mitigation of activities, with a view to minimizing negative impacts, maximizing benefits and promoting compliance with the principles of environmental management;
- To identify and employ the modes of environmental management best suited to ensuring that the activity is pursued in accordance with best environmental management practices;
- To be able to respond to unforeseen events;
- To provide feedback on compliance.

1.3 Implementation of the EMPr

The project applicant, namely the Dr Ruth S. Mompati District Municipality is responsible for the implementation of the EMPr. All contractors should be supplied with a copy of the EMPr and should ensure that construction staff adheres to the mitigation measures.

2. PREPARATION OF THE EMPr

2.1 Person(s) who prepared the EMPr

- i) Prof. P.J. du Preez
- ii) Me. Marguerite Cronje

MDA
P.O. Box 20298
Willows
Bloemfontein
9320
Tel: 051 4471583
Fax: 051 4489839

iii) Nico-Ronaldo Retief

Lidwala Consulting Engineers
P.O. Box 32497
Waverley
PRETORIA
0135
Tel: 086 15439252
Fax: 086 5005574

2.2 Expertise of the person(s) who prepared the EMPr

i) Prof. P.J. du Preez

Key qualifications:

- Key competencies and experience include research in vegetation ecology & data management, bio-monitoring, impact assessment, environmental management and environmental education.

Education:

- B. Sc. (Zoology and Botany), University of the Free State, South Africa, 1981
- B. Sc. Honnours (Plant ecology & Taxonomy), University of the Free State, South Africa, 1982
- Higher Education Diploma, University of the Free State, South Africa, 1983
- M.Sc. (Plant ecology), University of the Free State, South Africa, 1986
- Ph.D. (Plant ecology), University of the Free State, South Africa, 1991

ii) Me. Marguerite Cronje

Key qualifications:

- Key competencies and experience include environmental management and research in zoology.

Education:

- B.Sc. (Zoology), University of the Free State, South Africa, 2002
- B.Sc. Honnours (Zoology), University of the Free State, South Africa, 2003
- M.Sc. Diploma (Equine Science), University of Edinburgh, Scotland, UK, 2005
- Masters in Environmental Management, University of the Free State, South Africa, 2008

iii) Mr. Nico-Ronaldo Retief

Key qualifications:

- Key competencies and experience include surface water and environmental resource management and research in water quality.

Education:

- B.Sc Natural and Environmental Sciences (2001-2003) – Rand Afrikaans University
- B.Sc Honours Zoology (2004) – Rand Afrikaans University
- M.Sc Zoology (2005-2007) - University of Johannesburg

3. RECOMMENDED MANAGEMENT AND MITIGATION MEASURES

3.1 Planning phase / Site preparation

- i) Permits need to be obtained for the removal of Camel Thorn (*Acacia erioloba*) trees that are located within the pipeline route where no alternatives are possible and will ultimately be destroyed. Care must be taken to prevent unnecessary damage to other Camel Thorn trees near to construction activities.
- ii) Necessary water use licenses for water abstraction and construction work within wetland areas need to be obtained.
- iii) Care should be taken when pipes are attached to bridges to ensure that any damage to bridges is prevented.
- iv) The necessary precautions with regard to road safety should be implemented for construction work within road reserves.
- v) Proper sanitation, water and waste facilities should be in place for construction workers.
- vi) Washing and chemical toilet facilities must be provided on site during the construction phase. Chemical toilets should be cleaned regularly.
- vii) Clean water should be made available daily to workers on site.
- viii) If an artefact or grave is uncovered during construction activities, work in the immediate vicinity is to be stopped until the project Archaeologist has been consulted.

3.2 Wetland areas

- i) Construction activities in wetlands should be avoided as far as possible through proper demarcation and appropriate environmental awareness

training. The Contractor is responsible to inform all staff of the need to be vigilant against any practice that will have a harmful effect on wetlands.

- ii) All no-go areas must be demarcated with red tape under guidance of the Environmental Control Officer (ECO).
- iii) Infilling, excavation, drainage and hardened surfaces should not occur in any of the wetland zones (i.e. permanent, seasonal or temporary), or within 30m of a wetland. This 30m buffer zone should be extended in areas where slope in combination with rainfall will potentially provide conditions for the transportation and deposition of materials within wetland areas.
- iv) Caution must be taken to ensure building materials are not dumped or stored within delineated wetland buffer zones of 30m.
- v) The design of drainage systems must ensure there is no contamination, eutrophication or increased erosion of the wetland areas. Drainage systems should be maintained regularly in order to minimize the runoff of harmful chemical substances into the wetland areas.
- vi) It should be ensured that the pipeline has minimal effect on the flow of water through the wetland. During construction, disturbance to the wetlands should be minimized.
- vii) Emergency plans must be in place in case of spillages into wetland systems.
- viii) Erosion control of all banks must take place so as to reduce erosion and sedimentation into river channels or wetland areas;
- ix) Weather forecasts from the South African Weather Bureau of up to three days in advance must be monitored on a daily basis to avoid exposing soil or building works or materials during a storm event and appropriate action must be taken in advance to protect construction works should a storm event be forecasted.
- x) It should be ensured that disturbance to the wetlands is minimized by undertaking construction through wetlands during the dry seasons.

3.3 Handling and storage of materials

- i) All chemicals used during the development, including fuel for the construction vehicles, should be stored in a proper storeroom or protected area to prevent pollution.
- ii) Vehicles should be serviced at designated areas. No oil, diesel or other chemicals may be spilled or discharged anywhere.
- iii) Where applicable, the contractors must ensure that all relevant national, regional and local legislation regarding storage, transport, use and disposal of

petroleum, chemical, harmful or hazardous substances and materials are adhered to, where necessary.

- iv) Cement and concrete mixing should only take place within the construction site. No concrete may be mixed directly on the ground.
- v) All environmental problems occurring on the site such as chemical spillage, wasteful water disposal, etc. should be reported to the ECO.

3.4 Waste management

- i) Waste refers to all construction debris and domestic waste generated due to construction activities.
- ii) The contractor will be responsible for the removal of construction waste.
- iii) Suitable containers should be placed on site to collect all solid waste. These should be emptied regularly.
- iv) No littering is permitted. During the construction period the site shall be maintained in a neat and tidy condition.
- v) All solid waste produced should be disposed of at a licensed landfill site.
- vi) All hazardous waste should be disposed of at a licensed hazardous landfill site.
- vii) No dumping, burning or burying of waste may take place on site.

3.5 Soil, erosion and vegetation management

- i) Construction activities should be limited to the site and construction vehicles should keep to constructed roads so that natural vegetation is not destroyed unnecessarily.
- ii) Erosion management is important. Rehabilitation of disturbed areas is important to help the recovery of the vegetation.
- iii) Removed topsoil is to be stockpiled in an area where it will not be disturbed by vehicles. One layer of bricks or stones is to be placed around the stockpiled topsoil to protect topsoil from washing away during rainstorms. Topsoil is to be placed on the cleared areas once construction is completed. Re-spreading is to be done to a maximum of 100 mm.
- iv) Any proclaimed weed or alien species that germinates during the contract period must be cleared by hand before flowering.
- v) Imported fill material should be monitored during and after construction for the presence of any alien species. Any such species should be removed immediately.

- vi) No fires should be made directly on the soil. Provision should be made that no accidental fires are started. / No fires allowed.
- vii) No firewood shall be collected on site or in surrounding areas.
- viii) The total depth of excavation will be kept to a minimum, i.e. follow the slope of the natural ground surface and a minimum cover of 1 m over the pipe is proposed.

3.6 Noise control

- i) Construction activities should be limited to normal day time hours.

3.7 Safety and security

- i) The contractors must comply with the Occupational Health and Safety Act, National Building Regulations and any other national, regional or local regulations with regard to safety on site. Construction contracts must include safety and security measures for staff.
- ii) Precautions to ensure that construction staff and sites are visible and do not pose danger to road users, should be implemented.
- iii) Construction work within road reserves should accommodate road users as far as possible. This includes the following:
 - a. Roads should be crossed in half widths at a time to minimise the impact on vehicular traffic.
 - b. Construction along and across existing roads will be executed in such a manner that both pedestrian and vehicular traffic can be accommodated at all times.
 - c. The contractor will be required to maintain adequate access to all public and private property at all times.
 - d. Contractor should supply, erect and maintain road signs for all work areas conforming to the prescribed layout and requirement of the South African Road Traffic Signs Manual and the Department of Transport, Roads and Community Safety of the NW Provincial Government.
 - e. A concrete sleeve pipe should be installed underneath all the railway lines and the new pipeline should be installed inside the concrete sleeves.
 - f. The pipeline should be attached to the existing Harts River bridge by means of steel brackets and supports.
- iv) Fire extinguishers must be available on site and in the construction camp.
- v) Proper mitigation measures should be implemented while working near the existing pipeline. Care should be taken not to disturb any asbestos pipelines.

3.8 Site clean-up and rehabilitation

- i) Temporary structures and office sites shall be dismantled and removed after completion of the construction phase of the project.
- ii) All waste, equipment, materials, etc. used during construction must be cleared from the site. The contractors must ensure that the site is cleared and rehabilitated to the satisfaction of the ECO.
- iii) An alien plant control and monitoring programme should be implemented.
- iv) Re-vegetation of disturbed areas must be undertaken with site indigenous species.
- v) After completion of the construction phase, a wetland monitoring program must be initiated that ensure that all wetland protection infrastructure and storm water systems are properly installed and that all affected wetland areas are adequately rehabilitated.

4. OPERATIONAL PHASE

- i) Regular inspections of the pipeline route should be done to identify leakages. These should be attended to immediately.
- ii) Soil erosion occurrences should be attended to immediately.
- iii) A wetland monitoring program should be implemented to ensure that all affected wetland areas are adequately rehabilitated.
- iv) The operating procedure should ensure pumping as much as possible during the off-peak and standard time of electricity use periods to ensure that the existing reservoir at Schweizer-Reneke is full before the start of the peak time of use periods, where possible.
- v) Measures should be implemented to minimise the loss of water at any point of pipeline (including at the pump stations, reservoirs etc.)

5. DECOMMISSIONING /CLOSURE

- i) It is not anticipated that the proposed project will cease in the nearby future. However, if decommissioning is decided upon, a rehabilitation plan will be developed and submitted for approval. The end-use of the area will be kept in mind during the compilation of the rehabilitation plan.

6. COMPLIANCE AND MONITORING

- i) The applicant should ensure that the contractors adhere to the recommendations of the EMPr and conditions of the Environmental Authorisation during construction.
- ii) An Environmental Control Officer (ECO) can be appointed separately or can be part of the contractor's team to monitor the construction phase.
- iii) Regular monitoring and / or spot inspections at least every fortnight during the construction phase is recommended.
- iv) Inspections should be documented and any shortcomings addressed immediately.
- v) For monitoring purposes, all flow rates, storage tank water levels, pipeline pressures, etc. should be displayed at both ends of the line.

Dear Mr. W Jood

PORTION 12 AND THE REMAINDER OF THE FARM KLIPFONTEIN NO. 344-HO

The above matter refers.

The attached council minutes and resolution indicates that the portions of land in question were sold however there remains a servitude in which it is secured for the Water infrastructure.

The servitude is spaced at four (4) meters wide and marked as ab – hc – gd on the drawing.

Further details are as per the attached council minutes and resolution.

Please be at liberty to contact us for any further clarity.

Yours faithfully

A. Makuapane
Municipal Manager

ITEM N.24
ORDINARY COUNCIL MEETING
02.03.2012

1. TMK PROFESSIONAL LAND SURVEYORS: APPLICATION FOR THE CONSOLIDATION OF THE REMAINDER OF ERF 694, PORTION 1 OF ERF 694, PORTION 20 OF ERF 694, PORTION 12 OF ERF 419, PORTION 13 OF ERF 419, ERF 420, ERF 421, ERF 443 AND THE REMAINDER OF ERF 444, BLOEMHOF TOWNSHIP AND THE SUBSEQUENT SUBDIVISION OF THE CONSOLIDATION

1.1 PURPOSE

To request Council to approve the application for the consolidation of the remainder of erf 694, portion 1 of erf 694, portion 20 of erf 694, portion 12 of erf 419, portion 13 of erf 419, erf 420, erf 421, erf 443 and the remainder of erf 444, Bloemhof township and the subsequent subdivision of the consolidation.

1.2 BACKGROUND

The registered owner of the erven is currently Messrs. Suidwes Landbou who wishes to sell the proposed portion containing a nut factory to a private buyer.

1.3 RECOMMENDATION

1. That the application for the consolidation of the remainder of erf 694, portion 1 of erf 694, portion 20 of erf 694, portion 12 of erf 419, portion 13 of erf 419, erf 420, erf 421, erf 443 and the remainder of erf 444, Bloemhof township and the subsequent subdivision of the consolidation be approved on condition that once the transaction has been completed the necessary notifications must be forwarded to the Municipality.
2. That all costs whatsoever with regard to the consolidation will be for the account of the applicant.
3. That the Council must be indemnified in writing against any claim whatsoever that may result from the consolidation of the said erven.

Att : C. Fourie

APPLICATION FOR CONSOLIDATION OF THE REMAINDER OF ERF 694, PORTION 1 OF ERF 694, PORTION 20 OF ERF 694, PORTION 12 OF ERF 419, PORTION 13 OF ERF 419, ERF 420, ERF 421, ERF 443 AND THE REMAINDER OF ERF 444, BLOEMHOF TOWNSHIP AND THE SUBSEQUENT SUBDIVISION OF THE CONSOLIDATION

We hereby formally apply for the subdivision of the fore-mentioned erven i.f.o. Ordinance 16/1988 as indicated on the included sketch plan. The registered owner of the erven is currently Mrs. Suidwes Landbou who wishes to sell the proposed portion containing the nut factory to a private buyer.

No encroachments were found both erven.

Please find enclosed three copies of the sketch plan and our cheque to the value of R 100.00 for your further attention. Please table the application at your next convenient meeting and supply us after consideration with three stamped copies of the relevant sketch plan.

Please do not hesitate to contact our offices at any time should you require any additional information in this regard.

Yours faithfully

**ITEM N.25
ORDINARY COUNCIL MEETING
02.03.2012**

1. GUILLAUME DE KLERK ATTORNEYS: PROPOSED SUBDIVISION AND SUBSEQUENT CONSOLIDATION OF PORTION 12 AND THE REMAINDER OF PORTION 1 OF THE FARM KLIPFONTEIN NO. 344-HO

1.1 PURPOSE

To request Council to approve the application for the proposed subdivision and subsequent consolidation of portion 12 and the remainder of portion 1 of the farm Klipfontein no. 344-HO.

1.2 BACKGROUND

On 31 March 2011 Council resolved that the application for subdivision be referred to the inspection tour and then to Council. (*Resolution no. 13/2011*)

On 16 September 2011 Council approved the subdivision of the remainder of portion 1 and portion 12 of the farm Klipfontein as follows: (*Resolution no. 133/2011*)

- *That the application of the subdivision be approved on condition that the service duty is not hampered.*
- *That a servitude must be registered.*

Mr. Percival hereby applies for consent for the proposed subdivision and for consent to purchase the property, once approved.

Given the purchase price of R 50,000-00 of the initial transaction and based on the size of the respective properties the pro rata purchase price will be R 23,615-00.

A servitude for the pump station and pipe line will be registered.

1.3 RECOMMENDATION

1. That the application for the proposed subdivision and subsequent consolidation of portion 12 and the remainder of portion 1 of the farm Klipfontein no. 344 HO be approved.
2. That the servitude for the pump station and pipe line be registered.
3. That the other portion be sold to Mr. Percival at the price of R 23,615.00.
4. That all costs whatsoever with regard to the proposed subdivision and subsequent consolidation will be for the account of the applicant.
5. That the Council must be indemnified in writing against any claim whatsoever that may result from the subdivision of the said erf.

Sir / Madam

PROPOSED SUBDIVISION AND SUBSEQUENT CONSOLIDATION OF PORTION 12 AND THE REMAINDER OF PORTION 1 OF THE FARM KLIPFONTEIN NO. 344-HO

We refer to the above matter and confirm that on 14 July 2011 Portion 12 (Portion of Portion 1) of the farm Klipfontein was registered in the name of W.B. & M.M. Percival (marked in orange on the attached sketch plan).

Subsequent to the aforementioned transfer Mr. Percival applied for another portion, marked in blue on the attached sketch plan, which unfortunately could not be finalized prior to the first registration of Portion 12.

Mr. Percival hereby apply for consent for the proposed subdivision as per the attached sketch plan and for the consent to purchase the property once approved.

Given the purchase price of R100,000.00 of the initial transaction and based on the size of the respective properties the pro rata purchase price will be R23,615.00.

A servitude for the pump station and pipe line will be registered marked in yellow on the attached sketch plan.

Mr. Percival will take full responsibility for all the costs involved in the transaction including all Surveyor fees and legal fees.

If you need any further information regarding the transaction you are welcome to contact writer hereof.

Kindly let us have the outcome herein as soon as at hand.

ITEM N.26
ORDINARY COUNCIL MEETING
02.03.2012

1. PURCHASE OF MUNICIPAL VEHICLES

1.1. PURPOSE

To request the Committee to consider the purchase of New municipal vehicles to assist in service delivery.

1.2. BACKGROUND

The municipality is currently relying on very old vehicles for transportation of Councillors and employees of the municipality in executing their duties. This has to a greater extent affected service delivery.

1.3. MOTIVATION

There is currently 1 vehicle, the double-cab, which ferries both the Councillors and employees. This has caused some tensions as this vehicle is intended for use by Councillors.

The double-cab has exceeded the 500 000km mark on the odometer. It is not safe anymore to be travelling in this vehicle. The vehicle is also not serviced regularly.

1.4. RECOMMENDATION

1. That the promise of the provision of a mayoral vehicle from the Dr. R.S. Mompall District Municipality be followed up.
2. That a full report on financial implications of the purchases of these vehicles be brought to the next portfolio briefing session on 07 February 2012.
 1. Double-Cab 4x4
 2. Mayoral Car
 3. Kombi
 4. 3-ton Drop side lorrie/bakkie (to mount the Cherry-picker)
 5. Cherry-Picker
3. That a list of redundant vehicles be drawn up.
4. That the finance department be requested to provide a list of insurance premiums paid on redundant vehicles.
5. That redundant vehicles be sold on auction.
6. That the Transport Policy and Vehicle Policy be reviewed.

Attention : Mr. Eimer Deysel

Dear Sirs,

**VARIOUS SERVITUDE AREAS ALONG THE PROPOSED NEW WATER PIPE LINE ROUTE
FROM BLOEMHOF TO SCHWEIZER-RENEKE.**

Your e-mail dated 3 July 2013 has reference.

We have noted the proposed positions of the repeater, tank and pump station sites as per your sketch plans received. After plotting the coordinates on the relevant compilation sheets from the Surveyor-general I can certify as follows :

1. The position of the repeater is situate on Portion 2 of the farm ZWARTLAAGTE No. 345-HO in extent 187.3902Ha registered in the name of Frederick Johan Beukes held under title deed T39623/1974;
2. The position of the tank site is situate on Portion 12 of the farm VAALPOORT No. 84-HO in extent 433.6512Ha registered in the name of Izak Stepanus Viljoen held under title deed T40717/2002;
3. The position of the pump station site is situate on the Remainder of Portion 3 of the farm OLIEVENHOUTFONTEIN No. 114-HO in extent 257.6191Ha registered in the name of Hester Elizabeth Van Dyk held under title deed T64886/1991.

Please note that the information given in the certificate was obtained from a deeds office search using Windeed and we do not make any representations about the accuracy of the data certified.

Please do not hesitate to contact our offices should you require any additional information in this regard and we ensure you of our best service at all times.

Yours faithfully

**Hans Kaderli
Professional Land Surveyor

Box 20298, Willows, Bloemfontein, 9320, Cell: 051 447 1583, Fax: 051 448 9839, E-mail: neil@mdagroup.co.za).

Table with 2 columns: Labels (Project Consultant, Contact person, Postal address, Postal code, Telephone, E-mail) and empty rows for project consultant details.

I, Neil Devenish, declare that –

General declaration:

- I act as the independent environmental practitioner in this application
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant
- I declare that there are no circumstances that may compromise my objectivity in performing such work;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, regulations and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, regulations and all other applicable legislation;
- I will take into account, to the extent possible, the matters listed in regulation 8 of the regulations when preparing the application and any report relating to the application;
- I have no, and will not engage in, conflicting interests in the undertaking of the activity;
- I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing - any decision to be taken with respect to the application by the competent authority; and - the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;
- I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;
- I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;
- **I will keep a register of all interested and affected parties that participated in a public participation process; and**
- **I will provide the competent authority with access to all information at my disposal regarding the application, whether such information is favourable to the applicant or not**
- **all the particulars furnished by me in this form are true and correct;**
- ***will perform all other obligations as expected from an environmental assessment practitioner in terms of the Regulations; and***
- **I realise that a false declaration is an offence in terms of regulation 71 and is punishable in terms of section 24F of the Act.**

Disclosure of Vested Interest (delete whichever is not applicable)

- I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Environmental Impact Assessment Regulations, 2010;
