RE:	CaseID 4912: Amendment to Project Boundary		

Dear Mariagrazia Galimberti,

Digby Wells has submitted a Heritage Statement, inclusive of a Palaeontological Assessment Letter, for the Sasol Syferfontein Mine Block 4 Project on SAHRIS on 24 February 2014 (Case ID: 4912). Sasol Mining (Pty) Ltd, our client, has subsequently amended the proposed project area. We therefore need to draw the heritage authorities' attention to the extended project area.

However, all activities as presented and described in the Heritage Statement will remain the same: the proposed activities have not been altered, and mining will remain limited to underground mining methods accessed through an existing shaft and vertical incline shaft at the present Syferfontein Mine. As such, it is not envisaged that the expansion of the project area will create any additional impact not previously considered.

We have updated the project boundary on SAHRIS and uploaded an amended Heritage Statement that includes the updated property descriptions.

We kindly request that the amendments be considered and that SAHRA issue final comment on the project in terms of the Interim Comments issued on 25 March 2014.

Should you have any queries, please contact our office. Your assistance is greatly appreciated.

Regards,

Justin du Piesanie
