

NOTIFICATION OF BASIC ASSESSMENT PROCESS  
AND PUBLIC PARTICIPATION PROCESS:  
LANDOWNERS

30 July 2018

Dear Stakeholder

Note: Sent to all the  
Landowners on the project  
database.

**BASIC ASSESSMENT AND  
PUBLIC PARTICIPATION PROCESS**

**MOEDING SOLAR PV FACILITY,  
NORTH WEST PROVINCE**

---

**NOTICE OF ENVIRONMENTAL BASIC ASSESSMENT PROCESS**

---

Moeding Solar (Pty) Ltd is proposing the development of a photovoltaic (PV) solar energy generation facility, and associated infrastructure on a site situated approximately 8km south of Vryburg. The facility is known as the Moeding Solar PV Facility and will be located within the Naledi Local Municipality and within the greater Dr Ruth Segomotsi Mompati District Municipality in the North West Province. The project site is also located within Zone 6 of the Renewable Energy Development Zones (REDZ), which is known as the Vryburg REDZ.

The solar energy facility is proposed to be developed on the Portion 1 of the Farm Champions Kloof 731, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730. The facility will include multiple arrays (static or tracking) of photovoltaic (PV) solar panels with a contracted capacity of up to 100MW. The development footprint for the facility is anticipated to be approximately 300ha in extent.

Infrastructure associated with the solar energy facility will include:

- » Arrays of PV panels (either a static or tracking PV system) with a contracted capacity of up to 100MW.
- » Mounting structures to support the PV panels.
- » Cabling between the project components, to be laid underground where practical.
- » On-site inverters to convert the power from a direct current to an alternating current
- » An on-site substation to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV power line between the on-site substation and the Eskom grid connection point.
- » Battery storage with up to 6 hours of storage capacity.

- » Offices and workshop areas for maintenance and storage.
- » Temporary laydown areas.
- » Internal access roads and fencing around the development area.

The power line corridor will be situated within the Remaining Extent of the Farm Rosendal 673, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730. Two grid connection alternatives are being considered:

- » Direct connection to the existing Mookodi Main Transmission Substation located on the northern portion of the project site.
- » A turn-in turn-out connection into the Mookodi - Magopela 132kV power line (to be constructed along the eastern boundary of the project site).

It is the developer's intention to bid the Moeding Solar PV Facility under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with the achievement of the electricity goals as set out in the Integrated Resource Plan.

## **BASIC ASSESSMENT PROCESS**

The development of the Moeding Solar PV Facility requires that an application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. The North West Department of Rural, Environment and Agricultural Development (READ) is the Commenting Authority for this application.

The procedure to be followed in applying for environmental authorisation for a large-scale project in a REDZ was formally gazetted on 16 February 2018 (in GN113 and GN114). As the project is located within one of the eight REDZ areas, the Moeding Solar PV Facility is now subject to a Basic Assessment and not a full EIA process, as well as a shortened timeframe of 57 days for the processing of an Application for Environmental Authorisation by DEA.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking the impact assessment process (Basic Assessment) to identify and assess all potential environmental impacts associated with the project for the area as identified. The Basic Assessment process will also recommend appropriate mitigation and management measures in an Environmental Management Programme (EMPr) for the project. As part of the Basic Assessment process, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

You and/or the organisation which you represent have been identified as a directly affected or adjacent property owner that could be impacted by the proposed solar energy facility. The EIA

Regulations require that the owner or person in control of the land as well as occupiers of the affected and adjacent properties, which could be impacted by the project, are informed of the environmental assessment process in writing. In this regard, please could you kindly inform any other persons (tenants, employees, farm managers and workers etc.) residing on your property of this Basic Assessment process. Should you or any other occupier of your property have an interest in this project, please register yourselves as Interested and Affected Parties (I&APs) by completing and returning the attached stakeholder registration/comment form. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the Basic Assessment process.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the proposed project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

**ROZANNE ELS**

NOTIFICATION OF BASIC ASSESSMENT PROCESS  
AND PUBLIC PARTICIPATION PROCESS:  
INTERESTED AND AFFECTED PARTIES (I&APS)

30 July 2018

Dear Stakeholder

Note: Sent to all the I&APs  
on the project database.

## **BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS**

### **MOEDING SOLAR PV FACILITY, NORTH WEST PROVINCE**

---

#### **NOTICE OF ENVIRONMENTAL BASIC ASSESSMENT PROCESS**

---

Moeding Solar (Pty) Ltd is proposing the development of a photovoltaic (PV) solar energy generation facility, and associated infrastructure on a site situated approximately 8km south of Vryburg. The facility is known as the Moeding Solar PV Facility and will be located within the Naledi Local Municipality and within the greater Dr Ruth Segomotsi Mompati District Municipality in the North West Province. The project site is also located within Zone 6 of the Renewable Energy Development Zones (REDZ), which is known as the Vryburg REDZ.

The solar energy facility is proposed to be developed on the Portion 1 of the Farm Champions Kloof 731, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730. The facility will include multiple arrays (static or tracking) of photovoltaic (PV) solar panels with a contracted capacity of up to 100MW. The development footprint for the facility is anticipated to be approximately 300ha in extent.

Infrastructure associated with the solar energy facility will include:

- » Arrays of PV panels (either a static or tracking PV system) with a contracted capacity of up to 100MW.
- » Mounting structures to support the PV panels.
- » Cabling between the project components, to be laid underground where practical.
- » On-site inverters to convert the power from a direct current to an alternating current
- » An on-site substation to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV power line between the on-site substation and the Eskom grid connection point.
- » Battery storage with up to 6 hours of storage capacity.

- » Offices and workshop areas for maintenance and storage.
- » Temporary laydown areas.
- » Internal access roads and fencing around the development area.

The power line corridor will be situated within the Remaining Extent of the Farm Rosendal 673, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730. Two grid connection alternatives are being considered:

- » Direct connection to the existing Mookodi Main Transmission Substation located on the northern portion of the project site.
- » A turn-in turn-out connection into the Mookodi - Magopela 132kV power line (to be constructed along the eastern boundary of the project site).

It is the developer's intention to bid the Moeding Solar PV Facility under the Department of Energy's (DoE) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated from the project will be sold to Eskom and will feed into the national electricity grid. The development of the project will also assist with the achievement of the electricity goals as set out in the Integrated Resource Plan.

## **BASIC ASSESSMENT PROCESS**

The development of the Moeding Solar PV Facility requires that an application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. The North West Department of Rural, Environment and Agricultural Development (READ) is the Commenting Authority for this application.

The procedure to be followed in applying for environmental authorisation for a large-scale project in a REDZ was formally gazetted on 16 February 2018 (in GN113 and GN114). As the project is located within one of the eight REDZ areas, the Moeding Solar PV Facility is now subject to a Basic Assessment and not a full EIA process, as well as a shortened timeframe of 57 days for the processing of an Application for Environmental Authorisation by DEA.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking the impact assessment process (Basic Assessment) to identify and assess all potential environmental impacts associated with the project for the area as identified. The Basic Assessment process will also recommend appropriate mitigation and management measures in an Environmental Management Programme (EMPr) for the project. As part of the Basic Assessment process, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

You and/or the organisation, which you represent, has been identified as an I&AP for the Moeding Solar PV Facility. A background information document which provides further information on the

BA process as well as the nature and extent of the proposed solar PV facility is attached to this letter, and is also available for download on the Savannah Environmental Website ([www.savannahsa.com](http://www.savannahsa.com)). Should you have an interest in the projects, please register yourself as an I&AP by completing and returning the attached stakeholder registration/comment form. By registering on the project database, you will be kept informed of the BA process being undertaken for the project and will be provided with an opportunity to provide comment and input.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

VRYBURG

Per e-mail: [pakriel@wam.co.za](mailto:pakriel@wam.co.za)

**BASIC ASSESSMENT: MOEDING SOLAR PHOTO VOLTAIC PROJECT, NALEDI LOCAL MUNICIPALITY,  
NORTH WEST PROVINCE (DEA REF. NO.: TO BE ISSUED)**

**FOCUS GROUP MEETING: MONDAY, 06 AUGUST 2018**

A Basic Assessment (BA) is being undertaken for the proposed Moeding Solar Photo Voltaic (PV) solar energy generation and associated infrastructure development approximately 8km south of the town of Vryburg within the Naledi Local Municipality and within the greater Dr Ruth Segomotsi Mompati District Municipality in the North West Province.

Savannah Environmental has been appointed by Moeding Solar (Pty) Ltd to undertake the Basic Assessment (BA) process for the proposed development. The associated infrastructure required for the PV facility will include, but not limited to:

- Arrays of PV panels (either a static or tracking PV system) with a capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Cabling between the project components, to be laid underground where practical.
- On-site inverters to convert the power from a direct current to an alternating current.
- An on-site substation to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- A new 132kV power line between the on-site substation and the Eskom grid connection point.
- Battery storage with up to 6 hours of storage capacity.
- Offices and workshop areas for maintenance and storage.
- Temporary laydown areas.
- Internal access roads and fencing around the development area.

We would like to take this opportunity to invite you, together with other landowners adjacent to the project site, to attend the Focus Group Meeting (FGM) to take place on:

**DATE:** Monday, 06 August 2018

**TIME:** 14h00 – 15h30

**VENUE:** Lavender Lodge, 2 Molopo Street, Vryburg

The purpose of inviting the FGM is to present the following:

- background to the proposed project;
- an overview of the Basic Assessment process followed;
- an opportunity to seek clarity and raise comments; and
- an opportunity to liaise with the project team members.

Should you not be able to attend the FGM, you are welcome to send a representative to attend the meeting.

We encourage you to attend the Focus Group Meeting to hear other landowners' comments, and to participate in the Public Participation process. We would like to thank you in anticipation for your active and meaningful contribution to the BA process.

Please do not hesitate to contact me on (011) 656 3237 / 3256 should you require any additional information.

Kind regards

Rozanne Els

Subject: RE: Moeding Solar PV Facility: Focus Group Meeting Notes (Monday, 06 August 2018)

Dear Dr Thiba,

Thank you for your phone call yesterday morning and the summary of our discussion as per your e-mail below.

As informed during our telephone discussion, Savannah Environmental is undertaking the Basic Assessment process for the proposed Moeding Solar PV Facility and Associated Infrastructure. The solar energy facility is proposed to be developed on the following properties:

- \* Portion 1 of the farm Champions Kloof 731
  - \* Portion 4 and the Remaining Extent of Portion 3 of the farm Waterloo 730
- All three of these properties are owned by the Tiger Kloof Educational Institution

According to the Geographical Information System (GIS) and WinDeed (Deed Search) information, your property, Remainder of the farm Champions Kloof 731, is situated south-east of the project's proposed development properties (see extract below), and as required by the Environmental Impact Assessment (EIA) Regulations, you, as an adjacent landowner were notified of the proposed development.

We can confirm that neither Savannah Environmental (Pty) Ltd nor Moeding Solar (Pty) Ltd issued / submitted a contract to you, as the registered property owner of the above-mentioned property.

Please feel free to contact us should you have any queries related to the Moeding Solar PV Facility.

Kind regards,

Nicolene Venter

Ms Venter

I would like to confirm our discussion of 10h50 this morning and reiterate that I am not in the least interested in the solar project and do not want any company or person violating my land. Please send this message to the company responsible for the project and stress it to them that I do not want to have anything to do with their business and the selfish, self-serving contract they sent me.

Thank you

Dr Thiba

**Subject:** Moeding Solar PV Facility - Project Database registration

Hello Rozanne,

With reference to the proposed Moeding Solar PV facility planned just south of Vryburg, as per attached public notice publish in The Stellalander newspaper on 1 August 2018.

We, as Allsolar Noordwes, wish to register as an interested party, on the project database.

Being in the renewable energy industry, we are always interested in any developments in this field, as we are very passionate about it. Our interest stems from various aspects, from pure curiosity, to being able to refer to this project as a good example of solar energy products, to promoting solar energy, to being directly or indirectly involved in this project, as a contractor or service provider, etc.

Please use the following information for registration purposes:

COMPANY: Allsolar Noordwes

CONTACT: Anita de Beer / Debra Brooks

CELL: 082 876 9141 / 082 820 3118

EMAIL: [oordwes@allsolar.co.za](mailto:oordwes@allsolar.co.za)

INTEREST: 1) Direct or indirect involvement as subcontractor / service provider, 2) general interest as co-solar solution provider, 3) showcasing Moeding as good example of solar energy production in action, to promote solar energy to the general public and to raise awareness thereof.

For look forward to receiving more information about Moeding and to see the project unfold.

Regards,

Anita de Beer

Technical Support

ALLSOLAR Noordwes

Dear Lebogang,

As requested in your e-mail below, please receive herewith confirmation that your company has been registered on the above-mentioned project's database.

Please be informed that Savannah Environmental is an independent environmental consultant appointed for the sole purpose of conducting the Basic Assessment processes for the proposed Moeding Solar PV and associated infrastructure project. Savannah Environmental is therefore not affiliated with the applicant and not responsible for any form of procurement or new business on their behalf.

Your e-mail below has, however, been forwarded to the Applicant for their consideration. It will be the applicant's discretion to contact you in the future should they wish to make use of your services at the appropriate stage.

Kind regards,

**Nicolene Venter**

Dear Lebogang,

Moeding Solar (Pty) Ltd is proposing the development of a photovoltaic (PV) solar energy facility, and associated infrastructure on a site situated approximately 8km south of Vryburg. The facility is known as the Moeding Solar PV Facility and will be located within the Naledi Local Municipality and within the greater Dr Ruth Segomotsi Mompati District Municipality in the North West Province. The project site is also located within Zone 6 of the Renewable Energy Development Zones (REDZ), which is known as the Vryburg REDZ.

The solar energy facility is proposed to be developed on the Portion 1 of the Farm Champions Kloof 731, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730.

This e-mail serves to notify you that the Basic Assessment Report is available from **Wednesday, 16 January 2018** to **Friday, 15 February 2019**.

Please find attached the Notification Letter for further information.

Kind regards,

**Nicolene Venter**

NOTIFICATION OF AVAILABILITY OF BASIC  
ASSESSMENT REPORT FOR PUBLIC REVIEW AND  
COMMENT

16 January 2019

**Note:** Sent to all registered  
I&APs on project  
database

Dear Stakeholder,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS  
MOEDING SOLAR PV FACILITY, NORTH WEST PROVINCE**

**NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT**

Moeding Solar (Pty) Ltd is proposing the development of a photovoltaic (PV) solar energy facility, and associated infrastructure on a site situated approximately 8km south of Vryburg. The facility is known as the Moeding Solar PV Facility and will be located within the Naledi Local Municipality and within the greater Dr Ruth Segomotsi Mompati District Municipality in the North West Province. The project site is also located within Zone 6 of the Renewable Energy Development Zones (REDZ), which is known as the Vryburg REDZ.

The solar energy facility is proposed to be developed on the Portion 1 of the Farm Champions Kloof 731, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730. The project will comprise the following key infrastructure and components:

- » Arrays of PV solar panels with a contracted capacity of up to 100MW.
- » Mounting structures to support the PV panels (utilising either fixed-tilt / static, single-axis tracking, or double-axis tracking systems).
- » On-site inverters to convert power from Direct Current (DC) to Alternating Current (AC), and a 132kV on-site substation to facilitate the connection between the solar facility and the Eskom grid connection point.
- » A new 132kV power line between the on-site substation and the Eskom grid connection point. Two alternatives are currently being considered in this regard:
  - \* Alternative 1 – a direct connection to the existing Mookodi Main Transmission Substation located north of the project site on the Remaining Extent of the Farm Rosendal 673. A new 132kV power line will be constructed over a distance of ~4km. A 300m power line corridor has been assessed for Alternative 1.
  - \* Alternative 2 - a turn-in turn-out connection into the proposed Mookodi - Magopela 132kV power line (to be constructed along the eastern boundary of the project site). A new turn-in and out 132kV power line will be constructed over a distance of ~335m.
- » Cabling between the project's components, to be laid underground where practical.
- » Battery storage with up to 6 hours of storage capacity.
- » Offices and workshop areas for maintenance and storage.

- » Laydown areas.
- » Internal access roads and fencing around the development area.

#### **AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT**

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Basic Assessment Report is available for your review and comment. The report can be viewed at the Huhudi and Vryburg Libraries from **16 January 2019** to **15 February 2019**. The report can also be downloaded from Savannah Environmental's website: [www.savannahsa.com](http://www.savannahsa.com). A release code will be required to access and download the report, which can be obtained from our Public Participation Office (contact details below).

You are kindly requested to submit your written comment(s) on the Basic Assessment Report before or on **15 February 2019** via fax, post or e-mail (contact details below). All comments received during this 30-day review and comment period will be recorded and included in the Final Basic Assessment Report for submission to the Department of Environmental Affairs, in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

**Nicolene Venter**

**Public Participation and Social Consultation**

Email: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

## Moeding Solar PV Facility

**Project Name:** Moeding Solar PV Facility, North West Province

**Applicant:** Moeding Solar (Pty) Ltd

**Proposed Activity:** The development of a photovoltaic (PV) solar energy facility, and associated infrastructure with a contracted capacity of up to 100MW which will include multi arrays (static or tracking) of solar panels, an on-site substation, a 132kV power line to connect to the electricity grid), access roads and laydown areas.

**Location:** The project site is located ~8km south of Vryburg, within the Naledi Local Municipality and the Dr Ruth Segomotsi Mompati District Municipality in the North West Province. The site falls within Zone 6 of the Renewable Energy Development Zones (REDZ), which is known as the Vryburg REDZ. The solar energy facility is proposed to be developed on the Portion 1 of the Farm Champions Kloof 731, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730. Two power line alternatives are being considered:

- direct connection to the existing Mookodi MTS located on Remaining Extent of the Farm Rosendal 673; and
- a turn-in turn-out connection into the Mookodi – Magopela 132kV power line (to be constructed along the eastern boundary of the project site).

**Basic Assessment Process:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the project. As the project site is located within a REDZ, a Basic Assessment (BA) process is required to be undertaken in accordance with GN114 (February 2018). Savannah Environmental is undertaking the required environmental assessment and public participation process.

**Basic Assessment Report Available for Review and Comment from 16 January 2019 to 15 February 2019.** The BA Report can be viewed at the Huhudi and Vryburg Public Libraries or downloaded from Savannah Environmental's website: [www.savannahsa.com](http://www.savannahsa.com). The due date for written comment to the contact below is **15 February 2019**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

*Nicolene Venter of Savannah Environmental*  
P.O. Box 148, Sunninghill, 2157  
Tel: 011 656 3237 / Fax: 086 684 0547  
Email: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

---

Documents for public review are available for download.

In order to receive the release code to access the documents, please contact us by sending a request and your interest in this project to [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com).

**Subject:** Moeding Solar PV: Confirmation of Registration

Dear Lebogang,

As requested in your e-mail below, please receive herewith confirmation that your company has been registered on the above-mentioned project's database.

Please be informed that Savannah Environmental is an independent environmental consultant appointed for the sole purpose of conducting the Basic Assessment processes for the proposed Moeding Solar PV and associated infrastructure project. Savannah Environmental is therefore not affiliated with the applicant and not responsible for any form of procurement or new business on their behalf.

Your e-mail below has, however, been forwarded to the Applicant for their consideration. It will be the applicant's discretion to contact you in the future should they wish to make use of your services at the appropriate stage.

Kind regards,

**Nicolene Venter**

**Cc:** nicolene@savannahsa.com  
**Subject:** Moeding Solar PV Facility: Notification of Availability of Basic Assessment Report for review and comment  
**Attachments:** Moeding BAR Review Notification Letter.pdf

Dear Lebogang,

Moeding Solar (Pty) Ltd is proposing the development of a photovoltaic (PV) solar energy facility, and associated infrastructure on a site situated approximately 8km south of Vryburg. The facility is known as the Moeding Solar PV Facility and will be located within the Naledi Local Municipality and within the greater Dr Ruth Segomotsi Mompati District Municipality in the North West Province. The project site is also located within Zone 6 of the Renewable Energy Development Zones (REDZ), which is known as the Vryburg REDZ.

The solar energy facility is proposed to be developed on the Portion 1 of the Farm Champions Kloof 731, Portion 4 and the Remaining Extent of Portion 3 of the Farm Waterloo 730.

This e-mail serves to notify you that the Basic Assessment Report is available from **Wednesday, 16 January 2018** to **Friday, 15 February 2019**.

Please find attached the Notification Letter for further information.

Kind regards,

**Nicolene Venter**

Dear Joseph,

Thank you for your call this morning in response to the advertisement placed in the Stellalander dated Wednesday, 16 January 2019.

As requested, we confirm that you are now registered on the above-mentioned project's database.

Please find attached the following documents for your perusal:

- Background Information Document (as distributed late 2018), including the registration and comment form; and
- Notification letter of the availability of the Basic Assessment Report

Please do not hesitate to contact us should you require any additional information.

Kind regards,

**Nicolene Venter**

**Attachments:** Moeding BAR Review Notification Letter.pdf

Dear Ralph,

Please receive herewith confirmation that you are now registered as an I&AP on the Moeding Solar PV project.

The Release Code for the Basic Assessment Report is: **zxDVG39X**

Please be informed that the review and comment period on the Basic Assessment Report is **Monday, 18 February 2019**. Attached our notification letter sent to all registered I&APs on the project database for your perusal.

Please do not hesitate to contact us should you require any additional information.

Kind regards,

**Nicolene Venter**

Dear Sipho,

Thank you for your e-mail below.

For information regarding the proposed project, please find attached the Background Information Document (BID) that was distributed in July last year.

As per the attached BID, Savannah Environmental is conducting the Basic Assessment process as is required for the Environmental Authorisation application and process.

The process of applying for a job is forwarded to the applicant.

Please be informed that the Basic Assessment Report is currently available for public review and comment at the Huhudi and Vryburg Libraries (please see attached notification letter). The comment period ends next week Monday, 18 February 2019.

In terms of the starting date, please be informed that should the Applicant be successful in the Bidding process of the Department of Energy's call for tenders, it is envisaged that construction may only start in 3 or 4 years' time.

Hope you find above-mentioned response in good order.

Kind regards,

**Nicolene Venter**
