A third alternative was added to the EIA assessment for an unpainted (galvanised) mast as the mast do not need to be red and white, because it is not required by the SACAA in this instance. An unpainted (galvanised) mast will have a lower visual impact than a red and white mast.

Highly significant/important & Necessary areas are those where biodiversity has been heavily compromised and very few options remain to meet biodiversity targets. Natural vegetation cover in these areas should be maintained or restored. (Otter M.C. & Ferrar A.A., 2006).	The EAP acknowledge that this area's terrestrial biodiversity is labelled as Highly significant according to the Mpumalanga C-Plan and we therefore applied for environmental authorisation, due to the activity being listed when occurring in a Highly significant area. The footprint of the base station of the mast is only 144 square metres. The area on which the mast and base station will be established is already disturbed and very little natural vegetation occurs on and around the site. The site is also located in between gravel roads and maize fields, with a colliery close to the site. We therefore are of the opinion that there is no need for a biodiversity specialist study as the telecommunication mast is not a land use change i.e. no rezoning application is required, only the building plans need to be approved by the local council. The draft and final Basic Assessment Reports were submitted to the MTPA for review.

INTENTION TO SUBMIT AN APPLICATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT 1998 AS AMENDED ("NEMA") TO THE COMPETENT AUTHORITY FOR LISTED ACTIVITY 3 (a) (ii) (ee) IN REGULATION 546: ESTABLISHMENT OF A CELL C (PTY) LTD TELECOMMUNICATION BASE STATION ON PORTION 9 (REMAINING EXTENT) OF THE FARM MOOIPLAATS 290 IT.

We are acting on behalf of Cell C (Pty) Ltd, who have appointed us as Environmental Assessment Practitioner (EAP), in order to apply to the Mpumalanga Department of Agriculture, Rural Development and Land Administration to establish a telecommunication base station on your property, Portion 9 (Remaining extent) of the Farm Mooiplaats 290 IT located off the N2, Ermelo to Piet Retief. In accordance with the regulations you as the land owner are hereby notified of the Public Participation process for the Environmental Impact Assessment.

Public participation is a process in which potential interested and affected parties are given the opportunity to comment on, or raise issues relevant to specific matters. These comments and issues form part of the total consideration by the competent authority i.e. the Mpumalanga Department of Agriculture, Rural Development and Land Administration. It should however be understood that the competent authority is also guided by several other authorities, policies and facts in order to make their decision to grant environmental authority or not.

Attached hereto find the following for your information: 1. Public Participation Notice; 2. Site Development Plan; 3. Facility Illustration and 4. Cadastral map.

We trust that the above attached information assists in obtaining further insight into what is proposed and what shall be considered with regard to the application. Should you need any further information please do not hesitate to contact us.

Yours faithfully,

M Niehof
