Dear Mr Ackerman

Thank you for your input into the water use authorisation process. Our concern is that access road might influence the GA. Does a risk assessment matrix need to be completed by a relevant specialist to ensure that the access roads are of low risk in order to register the entire activity as a GA. If it is not a low risk, does Eskom still qualify for the GA based on Appendix D2 of GN 509 of 2016?

Looking forward to your feedback.

Kind regards
