Subject: SE2897-MUTSHO SOLAR PHOTOVOLTAIC ENERGY FACILITIES AND ASSOCIATED INFRASTRUCTURE: Notification of Environmental Impact Assessment Reports available for review and comment
Attachments: SE2987_Mutsho_PV_EI Ars_Notification_Letter-FINAL.pdf

**MUTSHO SOLAR PHOTOVOLTAIC (PV) ENERGY FACILITIES AND ASSOCIATED INFRASTRUCTURE NEAR MUSINA,
LIMPOPO PROVINCE**
(DFFE Reference Nos.: 14/12/16/3/3/2/2180, 14/12/16/3/3/2/2181, 14/12/16/3/3/2/2182 & 14/12/16/3/3/2/2183)

Dear Stakeholder and Interested & Affected Party,

Mutsho Power (Pty) Ltd proposes the construction and operation of four (4) Solar Photovoltaic (PV) Energy Facilities, each with a contracted capacity of up to 100MW, and Electrical Grid Infrastructure comprising a 132kV onsite substation (for the entire 4 x 100MW project), and a 132kV double circuit overhead power line from the onsite substation to the Nzhelele Substation to enable the connection of the four (4) Solar PV Energy Facilities to the national grid for the evacuation of the generated power. It is the developer's intention to develop the projects in a phased approach (i.e., 100MW at a time).

The four (4) Solar PV Energy Facilities and grid connection infrastructure are proposed on a site located approximately 8km south-west of Mopane and 39km south-west of Musina, within the Musina Local Municipality and the Vhembe District Municipality in the Limpopo Province on Remaining Extent of Farm Vrienden 589 MS..

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS AND COMMENT

The Environmental Impact Assessment Reports (EI Ars) for each of the renewable energy facilities are available for download, review, and comment on the Savannah Environmental website ([click here](#)). The 30-day review and comment period of the EI Ars is from **Friday, 13 January 2023** until **Monday, 13 February 2023**.

Kindly find attached notification letter which provides you with additional information.

Please do not hesitate to contact us should you require any additional information.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

12 January 2023

Dear Stakeholder and Interested & Affected Party,

**MUTSHO SOLAR PHOTOVOLTAIC (PV) ENERGY FACILITIES AND ASSOCIATED INFRASTRUCTURE NEAR MUSINA,
LIMPOPO PROVINCE
(DFFE Reference Nos.: 14/12/16/3/3/2/2180, 14/12/16/3/3/2/2181, 14/12/16/3/3/2/2182 &
14/12/16/3/3/2/2183)**

NOTICE OF AVAILABILITY OF SCOPING REPORTS FOR REVIEW AND COMMENT

Mutsho Power (Pty) Ltd proposes the construction and operation of four (4) Solar Photovoltaic (PV) Energy Facilities, each with a contracted capacity of up to 100MW, and Electrical Grid Infrastructure comprising a 132kV onsite substation (for the entire 4 x 100MW project), and a 132kV double circuit overhead power line from the onsite substation to the Nzhelele Substation to enable the connection of the four (4) Solar PV Energy Facilities to the national grid for the evacuation of the generated power. It is the developer's intention to develop the projects in a phased approach (i.e., 100MW at a time).

The four (4) Solar PV Energy Facilities and grid connection infrastructure are proposed on a site located approximately 8km south-west of Mopane and 39km south-west of Musina, within the Musina Local Municipality and the Vhembe District Municipality in the Limpopo Province on Remaining Extent of Farm Vrienden 589 MS.

Each Solar PV Energy Facility will be constructed as a separate stand-alone project by a separate Special Purpose Vehicle (SPV) and is therefore assessed through separate Scoping and Environmental Impact Assessment (EIA) processes. A combined four (4) applications for Environmental Authorisation (EA) are therefore currently being pursued.

The grid connection solution associated with the solar PV facilities will be subjected to a separate Basic Assessment (BA) process in order to facilitate handover of this infrastructure to Eskom once constructed. You, as a registered Interested and Affected Party (I&AP) will be notified once the BA Report is available for review and comment.

Due to the proximity of the Solar PV Energy Facilities and their associated grid connection solution to one another, the public participation processes for the projects are being undertaken concurrently, providing the public with an opportunity to understand and provide comment on all the projects.

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS AND COMMENT

The Environmental Impact Assessment Reports (EIAs) for each of the renewable energy facilities are available for download, review, and comment on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/mutsho/>). The 30-day review and comment period of the EIAs is from **Friday, 13 January 2023** until **Monday, 13 February 2023**.

The availability of the Basic Assessment Report for the grid connection infrastructure for a 30-day review and comment period will be communicated in due course.

Please submit your written comments on the EIAs by **Monday, 13 February 2023** via our online stakeholder engagement platform (link provided above) or:

- » Telephone: 011 656 3237
- » Mobile: 060 978 8396 (including please call me)
- » Fax: 086 684 0547
- » Post: PO Box 148, Sunninghill, 2157
- » E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter at Savannah Environmental.

All comments received during the review and comment period will be recorded and included in the Final EIAs for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

We look forward to your participation in the in the process as your valuable contribution to the proposed developments will ensure an inclusive approach and further allow the DFFE to make an informed decision.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Dear Interested and Affected Party,

MUTSHO SOLAR PHOTOVOLTAIC ENERGY FACILITIES AND ASSOCIATED INFRASTRUCTURE
(DFFE Reference Nos.: To Be Issued)

NOTICE OF AVAILABILITY OF SCOPING REPORTS FOR REVIEW AND COMMENT

Mutsho Power (Pty) Ltd proposes the construction and operation of four (4) Solar Photovoltaic (PV) Energy Facilities, each with a contracted capacity of up to 100MW, and Electrical Grid Infrastructure comprising a 132kV onsite substation (for the entire 4 x 100MW project), and a 132kV double circuit overhead power line from the onsite substation to the Nzhelele Substation to enable the connection of the four (4) Solar PV Energy Facilities to the national grid for the evacuation of the generated power. It is the developer's intention to develop the projects in a phased approach (i.e., 100MW at a time).

The four (4) Solar PV Energy Facilities and grid connection infrastructure are proposed on a site located approximately 8km south-west of Mopane and 39km south-west of Musina, within the Musina Local Municipality and the Vhembe District Municipality in the Limpopo Province on the following affected properties:

Solar PV Energy Facilities:

- » Remaining Extent of Farm Vrienden 589 MS

Electrical Grid Infrastructure:

- » Remaining Extent of Farm Vrienden 589 MS
- » Grootpraat 564 MS
- » Remaining Extent of Farm Steenbok 565 MS
- » Farm 617 MS
- » Remaining Extent of Farm Somme 611 MS
- » Groot Endaba 581 MS
- » Remaining Extent of Farm Antrobus 566 MS
- » Portion 2 of Farm Scott 567 MS

Each Solar PV Energy Facility will be constructed as a separate stand-alone project by a separate Special Purpose Vehicle (SPV) and will therefore be assessed through separate Scoping and Environmental Impact Assessment (EIA) processes. Similarly, the grid connection solution will be subjected to a separate Basic Assessment (BA) process in order to facilitate handover of this

infrastructure to Eskom once constructed. A combined five (5) applications for Environmental Authorisation (EA) are therefore currently being pursued as follows:

- » Four (4) Solar PV Facility EAs
- » One (1) EGI EA

Due to the proximity of the Solar PV Energy Facilities and their associated grid connection solution to one another, the public participation processes for the projects will be undertaken concurrently, providing the public with an opportunity to understand and provide comment on all the projects.

AVAILABILITY OF SCOPING REPORT AND COMMENT

Scoping Reports available for public review and comment: The Scoping Reports for each of the renewable energy facilities are available for download, review, and comment on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/>). The 30-day review and comment period of the Scoping Reports is from **Tuesday, 26 July 2022** until **Friday, 26 August 2022**. The availability of the BA Report for the grid connection infrastructure for a 30-day review and comment period will be communicated in due course.

Please submit your written comments on the Scoping Reports by **26 August 2022** via our online stakeholder engagement platform (link provided above) or:

- » Telephone: 011 656 3237
- » Mobile: 060 978 8396 (including please call me)
- » Fax: 086 684 0547
- » Post: PO Box 148, Sunninghill, 2157
- » E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter at Savannah Environmental.

All comments received during the review and comment period will be recorded and included in the Final Scoping Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

We look forward to your participation in the PPP as your valuable contribution to the proposed developments will ensure an inclusive approach and further allow the DFFE to make an informed decision.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Nondumiso Bulunga

GIS, Public Participation and Social Consultant

Mutsho Solar Energy Facilities

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT, BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED DEVELOPMENT OF THE MUTSHO SOLAR PHOTOVOLTAIC (PV) ENERGY FACILITIES AND ASSOCIATED ELECTRICAL GRID INFRASTRUCTURE NEAR MUSINA, LIMPOPO PROVINCE

Applicant: Mutsho Power (Pty) Ltd.

Proposed Activity: Establishment of four (4) Solar Photovoltaic (PV) Energy Facilities, each with a contracted capacity of up to 100MW, and Electrical Grid Infrastructure comprising a 132kV onsite substation (for the entire 4 x 100MW project), and a 132kV double circuit overhead power line from the onsite substation to the Nzhelele Substation to enable the connection of the four (4) Solar PV Energy Facilities to the national grid for the evacuation of the generated power. It is the developer's intention to develop the projects in a phased approach (i.e., 100MW at a time). Infrastructure associated with each project includes:

Solar PV Energy Facilities

- » Solar PV array comprising PV panels and mounting structures.
- » Inverters and transformers.
- » Cabling between the project components.
- » 33/132kV onsite facility (IPP Portion), including associated equipment and infrastructure – the onsite substation will be completely constructed as part of phase 1 but only equipped for the first 100MW. When such a time comes that the next 100 MW is constructed, the existing substation will be equipped for the additional 100MW generation capacity (i.e., additional transformers, extending the busbars, etc.). This approach will be followed as each 100MW is added.
- » Battery Energy Storage System (BESS) – In a similar manner to the onsite substation, one BESS will be constructed for the entire 400MW project. The BESS will be added in a phased approach as required. Each project phase may or may not require a BESS, depending on the Power Purchase Agreement requirements.
- » Site offices, warehouses, and guardhouses.
- » Water storage tanks at admin block for human consumption.
- » Laydown areas.
- » Internal gravel distribution roads.

Electrical Grid Infrastructure

- » Onsite substation which consists of:
 - * 33/132kV onsite substation (Eskom Portion).
- » Associated equipment, infrastructure, and buildings.
- » Laydown areas.
- » Distribution Line:
 - * A 132kV double circuit overhead power line to connect the 132kV onsite substation to the existing Nzhelele Substation.

Project Location: Located approximately 8km south-west of Mapane and 39km south-west of Musina, within the Musina Local Municipality and the Vhembe District Municipality in the Limpopo Province.

Solar PV Facilities

Project	Property/ies
Mutsho Solar PV1 (100MW)	» Farm Vrienden 589 MS - Solar Energy PV Facilities and associated infrastructure.
Mutsho Solar PV2 (100MW)	
Mutsho Solar PV3 (100MW)	
Mutsho Solar PV4 (100MW)	

Electrical Grid Infrastructure

Project	Property/ies
Mutsho EGI (132kV)	<ul style="list-style-type: none"> » Remaining Extent of Farm Vrienden 589 MS » Grootpraat 564 MS » Remaining Extent of Farm Steenbok 565 MS » Farm 617 MS » Remaining Extent of Farm Somme 611 MS » Groot Endaba 581 MS » Remaining Extent of Farm Antrobus 566 MS » Portion 2 of Farm Scott 567 MS

Scoping and Environmental Impact Assessment (S&EIA) and Basic Assessment (BA) Processes: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 - R327, as amended, a S&EIA process is required for each Solar PV Facility. Similarly, a BA process is required for the grid connection infrastructure. Savannah Environmental is undertaking the required S&EIA, BA, and public participation processes for these projects.

Scoping Reports and BA Report available for Review and Comment: The Scoping Reports for each of the renewable energy facilities are available for download, review, and comment on the Savannah Environmental website (see applicable link in table above). The 30-day review and comment period of the Scoping Reports is from **Tuesday, 26 July 2022** until **Friday, 26 August 2022**. The availability of the BA Report for the grid connection infrastructure for a 30-day review and comment period will be communicated in due course.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to the contact person below.

Subject: Errors on the Registration and Comment form

Dear Madam

ERRORS ON THE REGISTRATION AND COMMENT FORM

1. Is Nicolene Venter, and not yourself, the contact person for this process?
2. San Solar PV Facility-is this correct?

Kindly advise.

Thank you

Karin Marais

Subject: Mutsho Solar Photovoltaic (PV) Project - Limpopo Province
Importance: High

Dear Nondumiso,

Could you please register me on your project database for the following project:

Proposed development of the Mutsho Solar Photovoltaic (PV) energy facilities and associated electrical grid infrastructure near Musina, Limpopo Province.

Name: Lynne Ras

Mobile: (+27) 83 302 1408

E-mail: lynne.ras68@gmail.com

Interest: I live near the proposed site and I am concerned about the protected and endangered plant species in the area.

It would be appreciated if you could please forward all relevant information re the project to me.

Thank you

Kind regards

Lynne Ras
