

ON SAMRAD

23 October 2014

The Regional Manager,
Department: Mineral Resources
65 Phakamile Mabija Street,
KIMBERLEY
8300

For attention: Obed Nemaorani
Ref.No. NC 30/5/1/1/2/11437 PR

Dear Sir

ACCEPTANCE OF AN APPLICATION FOR A PROSPECTING RIGHT IN TERMS OF SECTION 16 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT AMENDED ACT, 2008 (ACT 49 OF 2008): IN RESPECT OF

- THE REMAINING EXTENT OF THE FARM ROSCOMMON 206 AND
- PORTION 1 (WELVERDIEND) OF THE FARM ROSCOMMON 206.

HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We refer to your letter dated 8 October 2014 in which De Beers Consolidated Mines (Pty) Ltd's prospecting application has been accepted.

Please note that all the documents required in terms of section 17(4) of the Act have been uploaded online on the SAMRAD system when we submitted the prospecting right application.

We hereby also submit the Report on the Results of Consultation with communities and Interested and Affected Parties as well as proof of our consultation.

Please acknowledge receipt hereof. .

Kind regards,

Yours faithfully

Anette Basson

Exploration Administrator

REPORT ON THE RESULTS OF CONSULTATION

WITH COMMUNITIES AND INTERESTED AND AFFECTED PARTIES

**AS REQUIRED IN TERMS OF SECTIONS, 16(4)(b) or 27 (5) (b) OF THE
MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT (ACT
28 of 2002), AND IN ACCORDANCE WITH THE STANDARD DIRECTIVE
FOR THE COMPILATION THEREOF AS PUBLISHED ON THE OFFICIAL
WEBSITE OF THE DEPARTMENT OF MINERAL RESOURCES.**

mineral resources

Department:
Mineral Resources
REPUBLIC OF SOUTH AFRICA

A. Definitions

'consultation' means a two way communication process between the applicant and the community or interested and affected party wherein the former is seeking, listening to, and considering the latter's response, which allows openness in the decision making process.

'community' means a group of historically disadvantaged persons with interest or rights in a particular area of land on which the members have or exercise communal rights in terms of an agreement, custom or law: Provided that, where as a consequence of the provisions of the Act negotiations or consultations with the community are required, the community shall include the members or part of the community, directly affected by prospecting or mining, on land occupied by such members or part of the community.

'Interested and affected' parties include, but are not limited to; –

- (i) Host Communities
- (ii) Landowners (Traditional and Title Deed owners)
- (iii) Traditional Authority
- (iv) Land Claimants
- (v) Lawful land occupier
- (vi) The Department of Land Affairs,
- (vii) Any other person (including on adjacent and non-adjacent properties) whose socio-economic conditions may be directly affected by the proposed prospecting or mining operation
- (viii) The Local Municipality,
- (ix) The relevant Government Departments, agencies and institutions responsible for the various aspects of the environment and for infrastructure which may be affected by the proposed project.

B. Report on the results of consultation

1. Methodology applied to consultation.

- 1.1. Name the community or communities identified, or explain why no such community was identified.

No community identified in close proximity, this was confirmed by asking farm owners during the consultation. The area applied for is located 17km north-east of Hopetown

1.2. Specifically state whether or not the Community is also the landowner.
No community is reported.

1.3. State whether or not the Department of Land Affairs been identified as an interested and affected party.

A letter was hand delivered to Department of Rural Development and Land Reform. No response has been received to date. The letter is attached in ANNEXURE C

1.4. State specifically whether or not a land claim is involved.

A letter was hand delivered to Department of Rural Development and Land Reform. No response has been received to date. The letter is attached in ANNEXURE C.

No land claims were reported by the existing surface owners.

1.5. Name the Traditional Authority identified

No traditional authority was identified as there is no community present.

1.6. List the landowners identified by the applicant. (Traditional and Title Deed owners)

***PAULUS PHILIPPUS BESSELAAR owner of ROSCOMMON 206 ptn 1 (Wilverdiend)**

***JOHANNES JACOBUS PIENAAR & PETRONELLA JACOMINA PIENAAR owners of ROSCOMMON 206 (Remaining Extent)**

1.7. List the lawful occupiers of the land concerned.

***PAULUS PHILIPPUS BESSELAAR and**

***JOHANNES JACOBUS PIENAAR & PETRONELLA JACOMINA PIENAAR**

- 1.8. Explain whether or not other persons' (including on adjacent and non-adjacent properties) socio-economic conditions will be directly affected by the proposed prospecting or mining operation and if not, explain why not.

Neighbours were contacted and meeting was held. There will be no impact on their socio-economic conditions due to the fact that after geo-physics exercise, only a small target area will be identified - see ANNEXURE B

- 1.9. Name the Local Municipality identified by the applicant

SIYANCUMA LOCAL MUNICIPALITY - Due to post office strikes, a letter was emailed and faxed to the municipal manager. No response has been received to date.

- 1.10. Name the relevant Government Departments, agencies and institutions responsible for the various aspects of the environment and for infrastructure which may be affected by the proposed project.

**Department of Water Affairs
Land Claims Commissioner
Department of Rural Development and Land Reform
South African Heritage Resources Agency
Department Tourism Environment & Conservation
Siyancuma Local Municipality**

- 1.11. Submit evidence that the landowner or lawful occupier of the land in question, and any other interested and affected parties including all those listed above, were notified.

See ANNEXURES A, B and C for letters sent to all IAPs.

- 2. Description of the existing status of the cultural, socio-economic or biophysical environment, as the case may be, prior to the proposed prospecting or mining operation.**

2.1.1. Confirm that the identified and consulted interested and affected parties agree on the description of the existing status of the environment.

During the consultation process, the parties were asked about existing land use, the environment, protected areas, protected tree and animal species both verbally and in the form of a short questionnaire. Completed questionnaire were submitted during consultation meeting held on the 13th November 2014. Replies from those consulted described the existing status of the environment as follows:

Grasslands

Water depth approximately 50m deep

The minutes of meetings with surface owners (Annexure D) as well as replies from farmowners and their neighbours are attached as Annexures A and B

2.1.2. Describe the existing status of the cultural environment that may be affected

There are no specific cultural aspects identified; the area comprises of privately owned farms used for commercial purposes; only 1 owner uses the farm for residential purposes.

2.1.3. Describe the existing status of any heritage environment that may be affected

Application was submitted on the SAHRA's website as required with reference number: 6634. To date no response was received. Status: Pending and Under Assessment.

2.1.4. Describe the existing status of any current land uses and the socio-economic environment that may be directly affected

The land in the property is being used for commercial farming (grazing of livestock) and game farming. The area is also used as residence for surface owners and farm workers as well as their respective families with supporting infrastructure such as water points supplied by wind pumps, shed, farmhouse and enclosures (kraals).

2.1.5. Describe the existing status of any infrastructure that may be affected.

The existing infrastructures in the land are area wind pumps, small reservoirs, shed, power lines, farmhouse, enclosures (kraals). The area is accessed by means of a public road, then by private farm tracks which pass through gates in the fences.

2.1.6. Describe the existing status of the biophysical environment that will be affected, including the main aspects such as water resources, flora, fauna, air, soil, topography etc.

Water resources: There is no permanent surface water in the area. The farms rely on ground water, with the water table reported to be approximately 50 metres below surface.

Flora: The vegetation type of most of the area applied for comprises of Northern Upper Karoo and Vaalbos Rocky Shrubland, with minor Highveld salt pans occurring in the area as well.

Fauna: The following mammal species are known to naturally occur in the region as a whole. This however does not imply that all of these species will occur at any given place in the region.

African Wild Dog

African Wild Cat

African Elephant

Kudu

Springbok

Mountain Reedbuck

Black Wildebeest

Red Hartebeest

White Rhinoceros

Buffalo

Zebra

Eland

Giraffe

Air: There are no direct sources of air pollution on the property itself, aside from seasonal grass fires and the potential for dust to be raised by the wind from the ground, particularly from tracks and other bare areas.

Soil: The soil for the majority of the area, which is applied for is red-yellow Apedal (code Ag146), freely drained soil of approximately 300mm deep. Shales and/or mudstones of the Ecca Group contribute to the Apedal soil formation, along with wind blown sand. A smaller section of the soil within the area falls with the lb346 soil code, which is a rocky area with aeolian sands.

Topography: The general area is relatively flat, at an average elevation of between 1153m and 1158m above sea level (Refer to 1:50,000 topographic map sheets 2824CA and 2824CC). The area applied for is approximately 12.6km north east of the Orange River.

2.1.7. Provide any relevant additional information.

None

3. The anticipated environmental, social or cultural impacts identified.

3.1. Confirm that the community and identified interested and affected parties have been consulted and that they agree that the potential impacts identified include those identified by them.

3.1.1. Provide a list and description of potential impacts identified on the cultural environment.

There are no specific cultural aspects reported by interested and affected parties.

3.1.2. Provide a list and description of potential impacts identified on the heritage environment, if applicable.

None

3.1.3. Provide a list and description of potential impacts identified on the socio-economic conditions of any person on the property and on any adjacent or non adjacent property who may be affected by the proposed prospecting or mining operation.

The main concerns are generally around safety of the livestock and water. The farmers are concerned about the issue of access to the farms, security for themselves and the livestock and impacts of prospecting on the farming activities. They further requested that they be notified prior to coming to the farms.

The farmers also raised questions about compensation during prospecting.

3.1.4. Provide a list and description of potential impacts (positive & negative) identified on: employment opportunities, community health, community proximity.

None identified by IAPs. The issue of temporary local employment was raised, only local people with a minimum requirements (Grade 12) as prescribed by company HR policy will be employed temporarily and paid as per company pay scales. No health impacts were identified and there is no

community in or near the area. There will be no impact due to close proximity..

3.1.5. Provide a list and description of potential impacts identified on the biophysical environment including but not be limited to impacts on: flora, fauna, water resources, air, noise, soil etc.

There is a concern about water supply due to mining activities. At this stage De Beers is only applying for prospecting right and the programme that will be undertaken is still at the early stages with minimal requirement for water and infrastructures. Use of water from the farms will only be considered should approval be obtained from surface owner and only if there is sufficient supply to allow the normal farming activities to continue. This means that any water to be used for drilling will have to be sourced either externally or only from the stronger boreholes in the area, provided a permissions is obtained from surface owner. Ground water pollution must be avoided through the use of only environmentally friendly drilling additives and the proper closing of boreholes on completion.

Other aspects to be addressed in all our prospecting work (although not raised directly) through the Environmental Management Plan include:

Avoiding soil pollution - preventing and controlling oil or hydraulic fluid spills.

Avoiding grass fires - no fires to be used when prospecting, precautions and controls in place for machinery.

Avoiding littering - proper waste removal and disposal to be practiced.

Minimising vegetation destruction - by limiting the creation of new tracks, clearing minimal areas for drilling and rehabilitating effectively. Disturbed areas may need to be fenced off to allow vegetation recovery.

Avoiding excessive noise & dust - this will require specific measures depending on the nature of work. Prospecting is mostly restricted to daylight hours so noise will be limited to these periods. Dust suppression measures can be taken where this is a problem.

Impact on fauna - as prospecting takes place in a limited area for a relatively short duration, impacts on fauna will be minimal.

3.1.6. Provide a description of potential cumulative impacts that the proposed operation may contribute to considering other identified land uses which may have potential environmental linkages to the land concerned.

None specifically identified by the IAPs. The successive phases of work (from 3 through to 6) could create a cumulative impacts on vegetation and soil at the much localised site , as well as on access tracks where prospecting activities may contribute to creation of dust; in extreme cases dust suppression may be required. Disturbance and removal of soil has the potential to directly and indirectly impact on vegetation in the prospecting area and also impact wildlife by removing habitat that is used for foraging, burrowing/nest, and breeding.

The cumulative impact may also be on the roads and tracks, where prospecting activities may contribute to wear on the roads and raising of dust. In extreme cases this may require the grading or scraping of farm tracks & roads. If a lot of traffic is to be using tracks e.g. during bulk sampling, dust suppression may be

required. Another cumulative impact could be the presence of historical diggings/disturbances on the properties. An environmental liability assessment will be conducted on the disturbances, this will be addressed through the Environmental Management Plan and consultation with DMR.

4. Land use or development alternatives, alternative means of carrying out the proposed operation, and the consequences of not proceeding with the proposed operation.

4.1. Provide a list of and describe any alternative land uses that exist on the property or on adjacent or non-adjacent properties that may be affected by the proposed mining operation.

The land in the property is being used for commercial farming (grazing of livestock) and game farming.

4.2. Provide a list of and describe any land developments identified by the community or interested and affected parties that are in progress and which may be affected by the proposed mining operation.

No land developments identified/ reported by interested and affected parties.

4.3. Provide a list of and describe any proposals made in the consultation process to adjust the operational plans of the mine to accommodate the needs of the community, landowners and interested and affected parties.

None - not a mining application. Access to farms to be made by appointment and details of staff to be provided to maintain control.

4.4. Provide information in relation to the consequences of not proceeding with proposed operation

Opportunity to discover and test any new kimberlite pipes will be missed or delayed, as would potential development of new mines. Temporary employment and local procurement opportunities will be missed

5. Description of the process of engagement referred to in 3.2.1 and 3.2.2 above with identified communities, landowners and interested and affected parties.

5.1. Provide a description of the information provided to the community, landowners, and interested and affected parties to inform them in sufficient detail of what the

prospecting or mining operation will entail on the land, in order for them to assess what impact the prospecting will have on them or on the use of their land;

An introductory letter was sent to all parties and responses requested.

A meeting was held on 13th November. Invites were sent via e-mail and sms. Minutes of the meeting is attached as Appendix D

Presentation of Prosecting process was given at meeting and attached as Appendix E

5.2. Provide a list of which of the identified communities, landowners, lawful occupiers, and other interested and affected parties were in fact consulted.

See 1.6 and 1.7 and 1.10

Neighbours identified are:

***Director of SAKARA PTY LTD, owner of Tyrone 205: Registered letter was sent on**

***Trustees of the JEAN TRUST, owner of FERMANAGH 200: Email was sent to a confirmed email-address**

***Trustees of the WAG 'N BIETJIE TRUST, owner of EDINBURGH 199: Email was sent to a confirmed email-address**

*** Ms AM WIID ALBERTINA MAGDALENA, owner of BRECHIN 207 and SPRINGVALE 240: Email was sent to a confirmed email-address**

***Trustees of the NIC STRACHAN TRUST, owner of ROSCOMMON 206: Email was sent to a confirmed email-address**

***J J PIENAAR , owner of KILDARE 215: Email was sent to a confirmed email-address**

5.3. Provide a list of their views raised in regard to the existing cultural, socio-economic or biophysical environment, as the case may be.

***Only 1 neighbour stated that he reserves his right to comment after he knows the impact on his farm.**

5.4. Provide a list of their views raised on how their existing cultural, socio-economic or biophysical environment potentially will be impacted on by the proposed prospecting or mining operation.

The main concerns are generally around safety of the livestock, impacts of prospecting activities on the farmers livelihood and water.

The farmers are concerned about the issue of access to the farms, security and impacts of prospecting on the farming activities and that they requested that they be notified prior to coming to the farms.

5.5. Provide list of any other concerns raised by the aforesaid parties.

No any other concerns raised

5.6. Provide the applicable minutes and records of the consultations as appendices.

See Appendix A to F

5.7. Provide information with regard to any objections received.

None

6. Describe the most appropriate means to carry out the proposed operation with due accommodation of the issues raised in the consultation process.

In terms of the safety, security/ access concerns, De Beers will send the names and ID numbers of all the people beforehand and inform the surface owners of the exact dates they will be present on the farm.

In terms of loss of animals due to leaving gates opened; this issue will be addressed by briefing De Beers's employees on the consequences and implications of negligence when working in the property. Any loss or damage will be compensated thereof.

Groundwater is also a concern of the surface owners as the groundwater is very limited to some of the properties. This means that any water to be used for drilling will have to be sourced either externally or only from the stronger boreholes in the area, provided the permissions is obtained from surface owners. Ground water pollution must be avoided through the use of only environmentally friendly drilling additives and the proper closing of boreholes on completion.

C. IDENTIFICATION OF THE REPORT

The report on the results of consultation must, at the end of the report include a certificate of identification as follows;

Herewith I, the person whose name and identity number is stated below, confirm that I am the person authorised to act as representative of the applicant in terms of the resolution submitted with the application, and confirm that the above report comprises the results of consultation as contemplated in Section 16 (4) (b) or 27 (5) (b) of the Act, as the case may be.

Mr. J. J. and Ms. P. J. Pienaar
P. O. Box 3512
DIAMOND
8305

Dear Mr. and Ms. Pienaar,

CONSULTATION WITH LAND OWNER AND OTHER AFFECTED PARTIES IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT: REMAINING EXTENT OF THE FARM ROSCOMMON 206, HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property. This letter and its attachments provide background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines (Pty) Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. To date De Beers has not received acceptance of the application from the Department Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant on any prospecting right issued in favour of De Beers.

It must be stressed that the application is for a prospecting right and NOT for mining. For your information, we attach to this letter "An introduction to diamond exploration" which outlines the possible scope of the work to be undertaken on the property.

As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form and questionnaire to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. These forms should then be returned to this office at the address below, preferably by e-mail or fax, by **30 October 2014** if possible.

E-mail: prospecting.rights@debeersgroup.com

I have received notice of the De Beers' proposed prospecting operations on **Remaining Extent Of The Farm Roscommon 206 , Herbert District, Northern Cape Province** (Reference NC 30/5/1/1/2/11437PR) and wish to record that-

- I have no comments on the prospecting operations; or
- I have the following comments on the prospecting operations.
(Kindly indicate whether any additional documentation is attached hereto or will be sent by post or fax)

- I have completed the attached questionnaire regarding this property

SIGNATURE: _____ DATE: _____

(Surface Owner)

Full Name: _____

Postal Address: _____

E-mail Address: _____

Tel No.: _____

Fax No: _____

Cell No.: _____

**QUESTIONNAIRE FOR INTERESTED AND AFFECTED PARTIES IN RESPECT OF PROSPECTING
RIGHT APPLICATIONS**

The information below is requested purely for use in the compilation of the Environmental Management Plan for the property referred to.

Property: on **Remaining Extent Of The Farm Roscommon 206 , Herbert District, Northern Cape Province (Reference NC 30/5/1/1/2/11437PR)**

Name of respondent:

Capacity (e.g. owner, tenant etc.): _____

1. What type of access exists to the property?
2. Do access roads, if any, pass through other privately owned property, if so what are the requirements to use such road (e.g. permission from neighbours or other surface owners)
3. What is the main activity on the property (e.g. Cultivation, cattle farming etc)?
4. Describe the dominant natural vegetation on the property, if any (savannah, grasslands, woody, forest etc)?
5. To your knowledge, are there any protected species (plants or animals) present on the property? If so, please provide brief details
6. If known, what is the average depth to the water table (groundwater) on the property?

7. Are there any historical buildings or grave sites on the property? If so, please provide brief details.

8. If you are the owner of the property, are you the sole owner or are there other individuals, trusts or companies that share legal title? If so please provide contact details so that we can consult them too.

9. Is the owner resident on the property?

10. Are there residents other than the owner on the property? If so, roughly how many people are resident? Please provide their contact details (or for one representative if applicable)

11. Please also provide contact details of anyone else you think should be considered as an interested and affected party with regard to this property.

Dear Sir,

CONSULTATION WITH LAND OWNER AND OTHER AFFECTED PARTIES IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT: PORTION 1 (WELVERDIEND) OF THE FARM ROSCOMMON 206, HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property. This letter and its attachments provide background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines (Pty) Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. To date De Beers has not received acceptance of the application from the Department Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant on any prospecting right issued in favour of De Beers.

It must be stressed that the application is for a prospecting right and NOT for mining. For your information, we attach to this letter "An introduction to diamond exploration" which outlines the possible scope of the work to be undertaken on the property.

As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form and questionnaire to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. These forms should then be returned to this office at the address below, preferably by e-mail or fax, by **30 October 2014** if possible.

**QUESTIONNAIRE FOR INTERESTED AND AFFECTED PARTIES IN RESPECT OF PROSPECTING
RIGHT APPLICATIONS**

The information below is requested purely for use in the compilation of the Environmental Management Plan for the property referred to.

Property: on **Portion 1 (Welverdiend) Of The Farm Roscommon 206 , Herbert District, Northern Cape Province (Reference NC 30/5/1/1/2/1011437 PR)**

Name of respondent:

Capacity (e.g. owner, tenant etc.):_____

1. What type of access exists to the property?

2. Do access roads, if any, pass through other privately owned property, if so what are the requirements to use such road (e.g. permission from neighbours or other surface owners)

3. What is the main activity on the property (e.g. Cultivation, cattle farming etc)?

4. Describe the dominant natural vegetation on the property, if any (savannah, grasslands, woody, forest etc)?

5. To your knowledge, are there any protected species (plants or animals) present on the property? If so, please provide brief details

6. If known, what is the average depth to the water table (groundwater) on the property?

7. Are there any historical buildings or grave sites on the property? If so, please provide brief details.

8. If you are the owner of the property, are you the sole owner or are there other individuals, trusts or companies that share legal title? If so please provide contact details so that we can consult them too.

9. Is the owner resident on the property?

10. Are there residents other than the owner on the property? If so, roughly how many people are resident? Please provide their contact details (or for one representative if applicable)

11. Please also provide contact details of anyone else you think should be considered as an interested and affected party with regard to this property.

Dear Sir,

CONSULTATION WITH LAND OWNER AND OTHER AFFECTED PARTIES IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT: PORTION 1 (WELVERDIEND) OF THE FARM ROSCOMMON 206, HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property. This letter and its attachments provide background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines (Pty) Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. To date De Beers has not received acceptance of the application from the Department Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant on any prospecting right issued in favour of De Beers.

It must be stressed that the application is for a prospecting right and NOT for mining. For your information, we attach to this letter "An introduction to diamond exploration" which outlines the possible scope of the work to be undertaken on the property.

As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form and questionnaire to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. These forms should then be returned to this office at the address below, preferably by e-mail or fax, by **30 October 2014** if possible.

Dear Sirs,

CONSULTATION WITH ADJACENT LAND OWNER IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT ON PORTION 1 AND THE REMAINING EXTENT OF THE FARM ROSCOMMON 206, HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property, which is adjacent to your property, remaining extent of the farm TYRONE 205. This letter and its attachments provide background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines Proprietary Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. De Beers has received acceptance of the application on 8 October 2014 from the Department of Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant on any prospecting right issued in favour of De Beers.

It must be stressed that the application is for a prospecting right and NOT for mining. For your information, we attach to this letter "An introduction to diamond exploration" which outlines the possible scope of the work to be undertaken on the property.

As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form and questionnaire to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. These forms should then be returned to this office at the address below, preferably by e-mail or fax, by **30 November 2014** if possible.

Dear Ms Wiid

CONSULTATION WITH ADJACENT LAND OWNER IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT ON PORTION 1 AND REMAINING EXTENT OF THE FARM ROSCOMMON 206, HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property, which is adjacent to your property, remaining extent of the farm BERCHIN 207 and the remaining extent of the farm. This letter and its attachments provide background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines Proprietary Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. De Beers has received acceptance of the application on 8 October 2014 from the Department of Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant on any prospecting right issued in favour of De Beers.

It must be stressed that the application is for a prospecting right and NOT for mining. For your information, we attach to this letter "An introduction to diamond exploration" which outlines the possible scope of the work to be undertaken on the property.

As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form and questionnaire to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. These forms should then be returned to this office at the address below, preferably by e-mail or fax, by **30 October 2014** if possible.

Dear Sir,

CONSULTATION WITH LAND OWNER AND OTHER AFFECTED PARTIES IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT ON:

- PORTION 1 (WELVERDIEND) OF THE FARM ROSCOMMON 206 AND
- THE REMAINING EXTENT OF THE FARM ROSCOMMON 206

HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property. This letter provides background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines Proprietary Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. De Beers has received acceptance of the application on 8 October 2014 from the Department of Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant to any prospecting right issued in favour of De Beers.

Ms C A Carolus, B A Cleaver, P A J Lowery, P J C Mellier (French), G Mostyn (British), Ms N D Zikalala

It must be stressed that the application is for a prospecting right and NOT for mining

As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. This form should then be returned to this office at the address below, preferably by fax or e-mail, by **30 October 2014** if possible.

Any comments can also be referred to the Regional Manager: Mineral Development at the Department: Minerals and Energy (Northern Cape Region), P. O. Box X6093, Kimberley (29 Currey Street, KIMBERLEY, 8300). In terms of Section 16(4) comments in this regard are required to be lodged with the Regional Manager by **30 October 2014**. As is required by Section 16(4) of the Act, you are hereby notified of the Company's application and are invited to comment on the proposed prospecting operation, as part of the consultation process described above. Such comments are incorporated in the Environmental Management Plan (EMPlan) for this property, which must be compiled and submitted to government for approval. In this regard, it would be appreciated if you could complete the attached form to confirm your contact details and so that any specific issues can be identified and addressed. In this way negative impacts on the property and the environment in general can be kept to a minimum. This form should then be returned to this office at the address below, preferably by fax or e-mail, by **30 October 2014** if possible.

Any comments can also be referred to the Regional Manager: Mineral Development at the Department: Minerals and Energy (Northern Cape Region), P. O. Box X6093, Kimberley (29 Currey Street, KIMBERLEY, 8300). In terms of Section 16(4) comments in this regard are required to be lodged with the Regional Manager by **30 October 2014**. Please include the reference number for this application **NC 30/5/1/1/2/11437 PR**.

Thank you for your co-operation.

Yours faithfully

Att: Ms Ruwayda Baulackey

Dear Sir,

CONSULTATION WITH LAND OWNER AND OTHER AFFECTED PARTIES IN RESPECT OF AN APPLICATION FOR A PROSPECTING RIGHT ON:

- **PORTION 1 (WELVERDIEND) OF THE FARM ROSCOMMON 206 AND**
- **THE REMAINING EXTENT OF THE FARM ROSCOMMON 206**

HERBERT DISTRICT, NORTHERN CAPE PROVINCE

We wish to consult with the land owner and other affected parties in respect of the application this Company has made for a prospecting right over the aforementioned property. This letter provides background information and it would be appreciated if you would please take the time to look through this material and respond as requested below. This communication is the start of the consultation process as required by law, which will continue throughout the application process and for the duration of any prospecting right, should such be granted to us. It is thus vital that you confirm your correct contact details for future communication.

On 30 September 2014, De Beers Consolidated Mines Proprietary Limited ("De Beers") lodged an application for a prospecting right for diamonds, in terms of Section 16(2) of the Mineral and Petroleum Resources Development Act, No. 28 of 2002 ("the Act"), in respect of the aforementioned property. De Beers has received acceptance of the application on 8 October 2014 from the Department of Mineral Resources.

Application has also been made for permission in terms of Section 20(2) of the Act to remove and dispose of such bulk samples of any potentially diamond-bearing minerals found by De Beers in the course of prospecting operations conducted pursuant on any prospecting right issued in favour of De Beers.

Letter

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mrs Anette Basson
De Beers Consolidated Mines - Kimberley Mines
36 Stockdale street
Kimberley
8300

NC 30/5/1/1/2/11437 PR Roscommon: Roscommon 206 portion 1 and remaining extent

Thank you for your indication that development is to take place in this area.

In terms of the National Heritage Resources Act, no 25 of 1999, heritage resources, including archaeological or palaeontological sites over 100 years old, graves older than 60 years, structures older than 60 years are protected. They may not be disturbed without a permit from the relevant heritage resources authority. This means that before such sites are disturbed by development it is incumbent on the developer (or mine) to ensure that a **Heritage Impact Assessment** is done. This must include the archaeological component (Phase 1) and any other applicable heritage components. Appropriate (Phase 2) mitigation, which involves recording, sampling and dating sites that are to be destroyed, must be done as required.

The Phase 1 Impact Assessment Report will identify the archaeological sites and assess their significance. It should also make recommendations (as indicated in section 38 of the NHRA) about the process to be followed. For example, there may need to be a mitigation phase (Phase 2) where the specialist will collect or excavate material and date the site. At the end of the process the heritage authority may give permission for destruction of the sites.

According to the SAHRA fossil sensitivity map, the prospecting area falls within an area that is considered to have very high to high sensitivity, while certain areas are considered to have an insignificant sensitivity. In this regard a desktop palaeontological assessment should be undertaken and dependent on the results, a field assessment is likely.

Any other heritage resources that may be impacted such as built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or viewsapes must also be assessed.

In order for SAHRA to determine if any heritage studies are required the Environmental Management Plan (EMP) must be submitted to SAHRA. Only once this has been done can SAHRA issue a comment regarding the prospecting application.

The value of the contents of these letters is as indicated and compensation is not payable for a letter received unconditionally. Compensation is limited to R100.00. No compensation is payable without documentary proof. Optional insurance of up to R200.00 is available and applies to domestic registered letters only.

Die waarde van die inhoud van hierdie briewe is soos aangedui en vergoeding sal nie betaal word vir 'n brief wat sonder voorbehoud ontvang word nie. Vergoeding is beperk tot R100.00. Geen vergoeding is sonder dokumentêre bewys betaalbaar nie. Opsionele versekering van tot R2 000.00 is beskikbaar en is slegs binnelandse geregistreerde briewe van toepassing.
