

APPENDIX 2 – PUBLIC PARTICIPATION PROCESS

I&APs play an important role in the process, as many of their concerns and issues can be included in the project proposal, to ensure a development which is as environmentally and socially acceptable as possible. In order to inform the public of the proposed project and to invite members of the public to register as I&APs, the proposed project was advertised in the Rustenburg Herald, Background Information Documents (BIDs) were hand delivered, posted or emailed and site notices were placed in conspicuous areas on site. This is in accordance with the legal requirements as set out by the MPRDA, NEMA and the 2014 EIA Regulations (and amended 07 April 2017). A more detailed description of these activities is included below:

Based on a Windeed search conducted on the 1st of September 2018, it was established that the relevant properties are registered to the National Government of the Republic of South Africa. In order to determine which government department has jurisdiction in relation to these properties, EOH CES contacted Cllr Diphetogo Mmolawa, as there were no contact details available for Cllr Karel Sedile at the time of enquiry. EOH CES was referred to Mr Mmope at the Moses Kotane Local Municipality. Mr Mmope in turn referred us to Mr Daniel Masina at the Department of Rural Development and Land Reform, who confirmed that the properties are under the custodianship of the Department of Rural Development and Land Reform. EOH CES requested the contact details of the land occupiers in order to inform them of the proposed prospecting activities, however no information in regards to this has been received to date. As such EOH CES conducted a site visit on the 28th of September 2018, in order to notify land occupiers of the proposed development. Representatives of EOH CES met with the deputy head of the community trust in the area, Mr Mandisi. He stated that the land is managed by the community trust and as such a BID was hand delivered to him. A number of BIDs were also left at the community center for distribution to the local communities in the area. BIDs were also left for collection at the general store.

Local, provincial and national government departments, as well as adjacent landowners were sent notification letters and BIDs via e-mail. Where e-mail addresses were not available, these documents were sent via registered mail. In addition, a notification advertisement was placed in the Rustenburg Herald newspaper on the 12th of October 2018 and two (2) site notices were placed in conspicuous sites along the boundary of the proposed prospecting area (co-ordinates site notice 1: 24°54'33.50"S and 26°44'42.80"E; co-ordinates of site notice 2: 24°54'17.59"S and 26°46'14.62"E) from the 28th of September to present (21st of November 2018).

A comprehensive I&AP database was established using the baseline data and contact details obtained during the site visit. The Draft BAR and EMPr was made available for public review (a period of 30 calendar days, excluding public holidays) from the 19th of October 2018 until the 19th of November 2018. Three hard copies of the Draft Basic Assessment Report was made available at the Welverdiend Community Centre on 19 October 2018 and has yet to be removed. In addition, all registered I&APs were notified of the availability of the DBAR on the 19th of October via e-mail notifications. A second newspaper advert was placed to notify I&APs of the

availability of the Draft reports for review (in the Rustenburg Herald on the 28th of October). A meeting was held with the Amahlubi Traditional Council on the 5th of November 2018. In addition, a public meeting was held on the 14th of November 2018 at the Welverdiend Community Centre. All comments and concerns received (excluding the comments and responses during the public meeting which is included in the meeting minutes on page 221-223) have been included in the Issues and Response Trail (IRT) (Appendix 3). Please refer to the sections below for proof of all PPP documents circulated and advertised.

PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE - DMR REFERENCE: NW 30/5/1/1/3/2/1/(12380) EM

Notice is hereby given of the intention of K2015268783 (South Africa) (Pty) Ltd, to conduct a prospecting programme to establish mineral resources such as copper, lead, zinc, nickel and cobalt (Base Metals) and gold and silver (Precious Metals) over the farms De Paarl 246 KP, Goedgedacht 255 KP, Bedford 254 KP and Syferbult 257 KP, within the Magisterial District of Bojanala, North West Province. The project will entail a one (1) year non-invasive geophysical survey period (Phase 1) and a four (4) year invasive drilling period (Phase 2 & 3) and is situated approximately 68km southwest of the town of Thabazimbi in the Limpopo Province. An application for Environmental Authorisation has been lodged at the Department of Mineral Resources (DMR) and receipt thereof was acknowledged on the 13th of July 2018. In terms of section 16(4) of the MPRDA, as well as Regulation 41(2) of the National Environmental Management Act (Act 108 of 1998, as amended), Amended EIA Regulations (2017), the applicant must consult with the public and submit the results of such consultation to DMR for decision making. This prospecting right triggers activities contained in Listing Notice 1 (GNR. 327) as well as Listing Notice 3 (GNR. 324) of the Amended EIA Regulations (2017), and thus requires a Basic Assessment.

Applicant: K2015268783 (South Africa) (Pty) Ltd
Consultant: EOH Coastal & Environmental Services (EOH CES)

All interested and affected parties are hereby invited to register as I&APs and can contact EOH CES with any comments or concerns via email, post or telephone: Dr Chantel Bezuidenhout or Mr Roberto Almanza, 13 Stanley Street; Richmond Hill; Port

Elizabeth; 6001, Tel: 041-585 1715, Email: chantel.bezuidenhout@eoh.co.za or roberto.almanza@eoh.co.za

Team Rising Phoenix on the cards

Werner Coetzee of team Rising Phoenix Kickboxing and Korean Martial Arts Club performed very well at the recent Destiny South African Championships by achieving: Point sparring - gold, continuous sparring - silver and Kumite - bronze. Remember, the club is open for males and females from 4 years and older.

Coenie Potgieter of team Rising Phoenix Kickboxing and Korean Martial Arts Club who clinched 1st place as Tae Kwon Do Grand Champion, a bronze medal for Points Sparring and another 4th place for Traditional Kata at the recent Destiny South African Championships.

Jenine Oberholzer was the star of Team Rising Phoenix Kickboxing and Korean Martial Arts Club when she achieved brilliant results at the recent Destiny South African Championships. On the occasion Jenine was awarded with: Point Sparring - gold, Continuous Sparring - gold, Points open challenge - gold, Traditional Weapon Kata - gold, Creative Kata - gold, Creative Weapon Kata - gold, Traditional Kata - silver and Traditional Kata Open Challenge - silver. With these certificates Jenine, Coenie Potgieter and Werner Coetzee received the necessary accreditation to represent South Africa at the ISKA World Championships in Florida, USA.

Susan Nel - Rustenburg Impala Bowling Club

Susan Nel of the Rustenburg Impala Bowling Club has been appointed by Bowls South Africa as National Selector, National Executive Elite Coach and National Academy member. She was awarded her Level III coaches badge during July 2018. Susan will accompany four U/30 men and four U/30 ladies to Hong Kong and China in March 2019 as their National Coach. These eight young lawn bowlers were selected after the National U/30 South African Championships that was held during September 2018 in Plettermaritzburg.

Pretloop vir bewusmaking

RUSTENBURG HERALD - RUSTENBURG - Op Saterdag 3 November word 'n Pretloop vir die bewusmaking gevare en gevoel van dweimverstawing deur Kosmos Angels Rustenburg beplan. Hulle wil graag die publiek en gemeenskap van Rustenburg betrokke kry om Rustenburg dweimvir te maak. Kom vat hande en sê die styd teen dweims in Rustenburg en geniet 'n heerlike sonnige pretloop saam met die familie. Vir meer inligting kan Natasha Swart van Kosmos Angels Rustenburg by 076 929 4032 geskakel word.

Bielie van 'n vis!

Jacques Naudé is 'n Rustenburgse hengelaar wat op Sondag, 23 September, 'n baie suksesvolle dag by Buffelspoortdam gehad het toe hy hierdie karp van 13,8 kg aangekeer het. Buffelspoortdam is inderwaarheid goed beoefend vir sy pragtige karp en baie gewild onder plaaslike hengelaars. Volgens Jacques is dit nie die eerste keer dat sy so 'n "bullejie" by Buffelspoort aan wal bring nie.

NORTH WEST GAMBLING BOARD

NOTICE IN TERMS OF SECTION 29 OF THE NORTH WEST GAMBLING ACT, 2001 (ACT NO. 2 OF 2001), AS AMENDED.

APPLICATIONS FOR CONSENT TO PROCURE 8.62% FINANCIAL INTEREST IN GOLDBUSH GAMING NORTH WEST (PTY) LTD, 8.62% FINANCIAL INTEREST IN SANTOSCAN (PTY) LTD AND 10% FINANCIAL INTEREST IN SANTOSAI (PTY) LTD BY GOLDBUSH GROUP (PTY) LTD

Notice is hereby given in terms of the provisions of section 29 of the North West Gambling Act, 2001 (Act No. 2 of 2001), as amended, that the North West Gambling Board ("the Board") received applications for consent to procure 8.62% financial interest in Goldbush Gaming North West (Pty) Ltd, 8.62% financial interest in Santoscan (Pty) Ltd and 10% financial interest in Santosai (Pty) Ltd by Goldbush Group (Pty) Ltd.

In terms of the provisions of section 27A(1) of the North West Gambling Amendment Act, 2005, (Act No. 5 of 2005), "any person who, directly or indirectly possesses a controlling interest or a financial interest of the parent or main, or any lesser percentage as may be prescribed, in the business to which a licence or a registration in terms of section 60 relates shall, within the prescribed period and in the manner prescribed or determined by the Board, apply for the consent of the Board to hold such interest".

Goldbush Gaming North West (Pty) Ltd is a company incorporated in the Republic of South Africa in terms of the Companies Act 71 of 2008, with the following Registration No: 2009/09011/07 and licensed as a Game Operator in the North West Province. The company's registered business address is No. 4 First Street, Industrial Site in Mafikeng.

Santoscan (Pty) Ltd is a company incorporated in the Republic of South Africa in terms of the Companies Act 71 of 2008, with the following Registration No: 2009/090362/07 and licensed to conduct Bingo operations in the North West Province. The company's registered business address is Shop 18, Platinum Square Mall in Rustenburg.

Santosai (Pty) Ltd is a company incorporated in the Republic of South Africa in terms of the Companies Act 71 of 2008, with the following Registration No: 2009/090417/07 and licensed to conduct Bingo operations in the North West Province. The company's registered business address is 787 De James Meerkla Avenue, West Blue Mall in Potchefstroom.

Goldbush Group (Pty) Ltd is a company incorporated in the Republic of South Africa in terms of the Companies Act 71 of 2008, with the following Registration No: 2009/013264/07. The company's registered business address is No. 44 Oestelkops Road, Westgate in Roodopstroom.

Please take note that these applications will be lying open for public inspection at the offices of the **North West Gambling Board** at 511 University Drive, Mmabatho, between 88h30 - 16h30, for a period of one (1) month, commencing on 01 November 2018 until 30 November 2018.

Persons wishing to make representations, be it either comments or objections, in relation to any application submitted to the Board, shall do so in writing and such representations shall contain the following information:

- a) the name of the applicant to which representations relate;
- b) the grounds on which representations are made;
- c) the name, address, telephone, and facsimile numbers of the person submitting representations; and
- d) whether or not the person making representations wish to make an oral presentation at the hearing of the application.

Written objections should be lodged with the **Chief Executive Officer, Mr. Nathan Mphahleli** by facsimile, email, hand delivery or post. Facsimile: 018 384 2290, Email: ceo@nwgwb.co.za, hand delivery or post, **North West Gambling Board, 511 University Drive, Mmabatho, 2735, Private Bag 234, Mmabatho, 2735, between 88h30 - 16h30, during the period 01 November 2018 until 30 November 2018.**

'Where is our land?' asks community

Rustenburg Herald - Rustenburg - A community here is waiting, not so patiently anymore, to get the land back that has been theirs for tens of decades.

"We bought this land in 1870 and we have lived on it ever since," says Kgosi Joshua Nape of the Thekwana community.

The title deed of the land was taken over by a missionary and when this man died in 1895, the executor of his estate transferred the deed to the minister of Native Affairs - without as much as a word to the Thekwana community. The community ever since battled to get their land back. The land in question currently forms part of the land owned by the Royal Bafokeng Nation. According to Nape, they went to court a few years ago to challenge the ownership of the Royal Bafokeng, but they lost the case. In 2017 the Thekwana community appealed the decision to the North West High Court.

This time they were successful and the court ordered that the land should be returned to the Thekwana community. "But we are struggling, hungry and poor because other people are using the resources that should be ours," says Kgosi Nape.

The community is now hoping that the minister of Land Affairs will step to ensure that their ownership is honoured.

Kgosi Joshua Nape of the Thekwana community.

Fight against drugs intensified in Oos-Einde

RUSTENBURG HERALD- RUSTENBURG- It goes without saying that drug dealing and drug abuse is rife in the area of Rustenburg East or Oos-Einde.

The Community Policing Forum Sector 1 on Monday, 22 October partnered with the police in Rustenburg to install a board at the former Bobby's Rugby Club that discourages people from supporting drug dealers and importantly to refrain from using drugs. The board was erected in an area notoriously known to be used by drug dealers to conduct their business. When the police arrived in the area to install the board, a group of alleged drug dealers of Nigerian origin ran off. The Rustenburg Herald observed a lot of used needles in the area which are suspected to have been used for drugs. Which is why CPF Sector 1 is encouraging community members to assist them in the fight against drugs. The Station commander in Rustenburg Brigadier Modise was also present and her main concern was that the area is supposed to be a recreational facility for the youth and now it has turned into a drug hotspot. CPF Sector 1 Chairperson, Mr Shash Erasmus said the fight against drugs is a community issue which can only be won if all members of the community work together. "This is the first of many boards that we would like to install in the area, but due to financial issues we are unable to do that, if there is anyone who would like to assist us they can call us and make the necessary contribution," Erasmus said.

For more information on how to get involve you can contact him on 060 968 9175.

International Peace Poster contest results

RUSTENBURG HERALD- RUSTENBURG- Ayanda Fono, a grade seven learner of Rutanang Primary Education Centre has taken the first step to becoming an internationally recognised artist by winning a local competition sponsored by Rustenburg Lions Club.

Fono's poster was among more than 600 000 entries submitted worldwide in the 31st annual Lions International Peace Poster Contest. Lions Club International is sponsoring the contest to emphasize the importance of world peace to young people everywhere. "A friend is showing kindness by giving a helping hand to a friend in need", the 12-year-old from Rustenburg said. The poster was selected by Nalaze Verter (Ginger Studio), Tshepang Maluanguwe (an artist from Bafokeng) and Jackie Carlsen (Kuns en Kwas) for its originality, artistic merit and portrayal of the contest theme, "Kindness matters". The judging was held on the 11th of October at the Rustenburg Library. Rustenburg Lions Club President Juan Mitchell said he was impressed by the expression and creativity of the learners in the local leg of this contest.

"It is obvious that these young people have strong ideas about what peace means to them. I'm so proud that we were able to provide them with the opportunity to share their visions," Mitchell said. Fono's and other top four entrants posters will advance to face stiff competition through the district, multiple district and international rounds of the competition if one of them is to be declared

In the picture above is Mr Mousalwe (chairperson of the governing body), Lillian Mosime (HOD), Mc Dumema (governing body financial manager), LP Juan Mitchell (Rustenburg Lions Club) and Mr Melato (Deputy Principal) with 1st prize winner Ayanda Fono.

the international grand prize winner. One grand prize winner and 23 merit award winners will be selected. The grand prize includes a cash award of US\$5,000, plus a trip for the winner and two family members to an award ceremony. The 23 merit award winners will each receive a certificate and a cash award of US\$500. Locally, Fono and 130 other students will be honoured for their participation by Rustenburg Lions Club. The international grand prize merit award winners can be viewed at www.lionsclubs.org.

Subject: Request for Information

ATTENTION: DISTRICT DIRECTOR - DEPARTMENT OF RURAL DEVELOPMENT AND LAND REFORM

Dear Mr Sedibe

EOH Coastal & Environmental Services has been appointed by K2015268783 (South Africa) (Pty) Ltd., to undertake an Environmental Assessment process for a prospecting right for mineral commodities such as copper, lead, zinc, nickel and cobalt (Base Metals) and gold and silver (Precious Metals) on the following properties 68 km south-west from the town of Thabazimbi within Magisterial District of Bojanala, North West Province:

- The Farm De Paarl 246 KP,
- The Farm Goedgedacht 255 KP,
- The Farm Bedford 254 KP and
- The Farm Syferbult 257 KP,

It is our understanding that the properties outlined above are under the custodianship of the Department of Rural Development and Land Reform and that all the farms with the exception of Syferbult 257 KP, were demarcated into manageable Agricultural Lease Units and allocated to previously disadvantaged farmers in terms of short term lease agreements.

In terms of section 16 (4) of the Mineral and Petroleum Resources Development Act (MPRDA, Act 28 of 2002 as amended in 2013), as well as Regulation 41 (2) of the National Environmental Management Act (NEMA, Act 108 of 1998 as amended in 2014), and the amended EIA Regulations (2017), the applicant must consult with the landowners, occupiers, abutting landowners and the public and submit the results of such consultation to DMR for decision making.

Therefore in light of the above, we would formally like to request the following information from you:

- Relevant contact details, where possible, for the land owners and/or communities located on these properties;

- Contact details for any informal community leaders located within these properties;
- Any details on the number of informal communities and the population thereof; and
- Any current/previous land claims which are relevant to these properties.

In addition, we would like to obtain permission from the Department of Rural Development and Land Reform to visit the above mentioned properties in order to conduct an ecological assessment as well as to liaise with the current lawful occupiers of the site.

Please do not hesitate to contact us should you require any additional information relating to the proposed project.

Yours sincerely

Dr Chantel Bezuidenhout

Subject: RE: Request for Information

Dear Mr Sedibe,

I would like to enquire if there has been any progress in regards to the query below. If not is it at all possible for you to in the meantime provide us with permission to access the site? The DMR has extremely tight timeframes (in accordance with the National Environmental Management Act), as such we need to start the process as soon as is possible, in order to meet the relevant deadlines.

Thanks and Kind Regards
Chantel

Dear Mr Tovhowani

EOH Coastal & Environmental Services (EOH CES) has been appointed by K2015268783 (Pty) Ltd to conduct a Basic Assessment process for a Prospecting Right in terms of Section 16 of the MPRDA for cobalt, copper, gold, lead, nickel and zinc on the farms De Paarl 246 KP, Goedgedacht 255 KP, Bedford 254 KP and Syferbult 257 KP, district of Mankwe.

Attached please find a letter of notification regarding the project and the relevant legislative process.

Should you have any comments or queries, or if you would like any additional information, please do not hesitate to contact me.

Kind Regards
Dr Chantel Bezuidenhout
Principal Environmental Consultant

Tel: 041 5851715

PLEASE NOTE: The letter from the DMR accepting the prospecting right application (dated 3 September 2018) stated that public consultation needs to be conducted with Thatong Development Consulting CC. Please note that they have been notified of the development both via e-mail (as above) and registered mail (as included below). Thatong Development Consulting CC, was again notified of the development as well as the availability of the Draft BAR for public review on the 19th of October. To date no correspondence have been received.

Coastal & Environmental Services

August 2018

Dear Stakeholder or Interested and/or Affected Party

NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION: PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES SUCH AS COPPER, LEAD, ZINC, NICKEL AND COBALT (BASE METALS) AND GOLD AND SILVER (PRECIOUS METALS) ON THE FARM DE PAARL 246 KP, THE FARM GOEDGEDACHT 255 KP, THE FARM BEDFORD 254 KP AND THE FARM SYFERBULT 257 KP, MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE.

Notice is hereby given in terms of the National Environmental Management Act (NEMA) (Act No. 107 of 1998, as amended) of the proposed prospecting right application for mineral commodities such as copper, lead, zinc, nickel and cobalt (Base Metals) and gold and silver (Precious Metals) on The Farm De Paarl 246 KP, The Farm Goedgedacht 255 KP, The Farm Bedford 254 KP and The Farm Syferbult 257 KP, Magisterial District of Bojanala, North West Province. This process will be conducted as per the 2014 NEMA Environmental Impact Assessment (EIA) regulations (as amended in April 2017) and will trigger a Basic Assessment process, in accordance with regulation 21-23 as published in GN R 982 (as amended in GN R 326). The project will entail a one (1) year non-invasive geophysical survey period (Phase 1) and a four (4) year invasive drilling period (Phase 2 & 3). Phase 2 (24 months) will consist of approximately 20 drill holes approximately 200 m deep, soil geochemical survey (approximately 5,000 samples) and trenching (approximately 4,000 m). Phase 3 (24 months) will consist of approximately 50 drill holes 200 m deep.

It should be noted that this consultation process is required as part of the prospecting right application process and will serve as the inception public consultation process for the environmental authorisation that is legislated in the NEMA Amended EIA Regulations (2017). The process to obtain prospecting rights is prescribed in the Mineral and Petroleum Resources Development Act [MPRDA] (Act No. 28 of 2002, as amended). This should be read in conjunction with the National Environmental Management Act (Act 107 of 1998, as amended).

In terms of section 16 (4) of the Mineral and Petroleum Resources Development Act (MPRDA, Act 28 of 2002 as amended in 2013), as well as Regulation 41 (2) of the National Environmental Management Act (NEMA, Act 108 of 1998 as amended in 2014), and the amended EIA Regulations (2017), the applicant must consult with the landowners, occupiers, abutting landowners and the public and submit the results of such consultation to DMR for decision making.

Please take note of the following:

- A Background Information Document (BID) will be circulated to I&APs upon request to provide you with more project information;
- The Application will be submitted to the Department of Mineral Resources as the competent authority; and
- EOH CES would greatly appreciate it if you would confirm receipt of this notification via email, or post.

Dear Mr Sedile

Please note that our consultants will be visiting the site as indicated below, tomorrow, the 28th of September 2018. Unfortunately we are unable to wait any longer as we will not be able to meet the relevant DMR timeframes if we do so.

I trust that you find this in order and that you will notify the relevant communities.

Thank you and kind regards

Message NW Prospecting Letter of Notification.pdf (302 KB) NW Prospecting Background Information Document.pdf (234 KB)

Dear Interested and Affected Party

PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE

DMR REF: NW 30/5/1/1/3/2/1/(12380) EM

EOH Coastal & Environmental Services has been appointed by K2015268783 (South Africa) (Pty) Ltd., to undertake a Basic Assessment (BA) process for a prospecting right for mineral commodities such as copper, lead, zinc, nickel and cobalt (Base Metals) and gold and silver (Precious Metals) 68 km south-west from the town of Thabazimbi within Magisterial District of Bojanala, North West Province on the following properties:

- The Farm De Paarl 246 KP,
- The Farm Goedgedacht 255 KP,
- The Farm Bedford 254 KP and
- The Farm Syferbult 257 KP.

Notice is hereby given in terms of Regulation 41 (2) published in Government Notice No. 326 under Chapter 6 of the National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (as amended in 2017) of the submission of an application for the above mentioned proposed project.

All comments, queries and concerns received on / prior to the 26th of October 2018 will be included in the Public Participation Document which will be submitted to the DMR. In addition, the Draft Basic Assessment Report (DBAR) will undergo a 30 day public review period. As a registered I&AP you will be notified of the availability of the DBAR.

Dear Stakeholder or Interested and/or Affected Party

PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE

DMR REFERENCE: NW 30/5/1/1/3/2/1/(12380) EM

EOH Coastal & Environmental Services has been appointed by K2015268783 (South Africa) (Pty) Ltd. to undertake an Environmental Assessment process for a prospecting right for mineral commodities such as copper, lead, zinc, nickel and cobalt (Base Metals) and gold and silver (Precious Metals) on the following properties located 68km southwest from the town of Thabazimbi, within Magisterial District of Bojanala, North West Province:

- The Farm De Paarl 246 KP,
- The Farm Goedgedacht 255 KP,
- The Farm Bedford 254 KP and
- The Farm Syferbult 257 KP.

Notice is hereby given in terms of Regulation 41 (2) published in Government Notice No. 326 under Chapter 6 of the National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (as amended in 2017) of the submission of an application for the above mentioned proposed project.

The project will entail a one (1) year non-invasive geophysical survey period (Phase 1) and a four (4) year invasive drilling period (Phase 2 & 3). Phase 2 (24 months) will consist of approximately 20 drill holes approximately 200 m deep, soil geochemical survey (approximately 5,000 samples) and trenching (approximately 4,000 m). Phase 3 (24 months) will consist of approximately 50 drill holes 200 m deep.

It should be noted that this consultation process is required as part of the prospecting right application process and will serve as the inception public consultation process for the environmental authorisation that is legislated in the NEMA Amended EIA Regulations (2017). The process to obtain prospecting rights is prescribed in the Mineral and Petroleum Resources Development Act [MPRDA] (Act No. 28 of 2002, as amended). This should be read in conjunction with the National Environmental Management Act (Act 107 of 1998, as amended).

In terms of section 16 (4) of the Mineral and Petroleum Resources Development Act (MPRDA, Act 28 of 2002 as amended in 2013), as well as Regulation 41 (2) of the National Environmental Management Act (NEMA, Act 108 of 1998 as amended in 2014), and the amended EIA Regulations (2017), the applicant must consult with the landowners, occupiers, abutting landowners and the public and submit the results of such consultation to DMR for decision making.

Background Information Document Sent to All I&APs

BACKGROUND INFORMATION DOCUMENT (BID) & INVITATION TO COMMENT

APPLICATION FOR PROSPECTING RIGHT

AIM OF THIS DOCUMENT

The purpose of this document is to ensure people who are interested in or affected by the proposed project are provided with information about the potential project, the process being followed and that they are provided with an opportunity to be involved in the process for the Application for a prospecting right over various portions of land in the magisterial district of Boshana, North West Province. DMR ref: NW 30/5/11/32/11 (12380) EM.

Registering as an interested and/or Affected Party (I&AP) allows individuals or groups to contribute ideas, issues, and concerns relating to the project. I&APs also have an opportunity to review all of the reports and submit their comments on these reports. All of the comments that are received will be included in the final reports that are submitted to the relevant Competent Authority (DMR).

INTRODUCTION

EOH Coastal & Environmental Services has been appointed by R2015256783 (South Africa) (Pty) Ltd. to undertake an Environmental Assessment process for a prospecting right for mineral commodities such as copper, lead, zinc, nickel and cobalt (Base Metals) and gold and silver (Precious Metals) on the following properties 68 km southwest from the town of Tlokoeng within Magisterial District of Boshana, North West Province (Figure 1 overleaf):

- The Farm Co Paarl 246 KP,
- The Farm Goedgedacht 255 KP,
- The Farm Beddard 254 KP and
- The Farm Syferbult 257 KP.

According to the Minerals and Petroleum Resources Development Act (Act No. 28 of 2002, as amended in 2013), prospecting is defined as follows:

- "The intentional searching of any mineral by means of any method -
- Which disturbs the surface or the subsurface of the earth including any portion of earth that is under the sea or under water, or
 - In or on any machine, structure or machine deposit of any mineral to determine the extent and the economic value, or
 - In the sea or other water or on land."

PROJECT DESCRIPTION

The proponent intends to prospect mineral commodities such as Copper (Cu), Lead (Pb), Zinc (Zn), Nickel (Ni) and Cobalt (Co) (Base metals) and Gold (Au) and Silver (Ag) (Precious metals), over four (4) portions of land approximately 10,030 hectares in extent.

The project will entail a one (1) year non-invasive geophysical survey period (Phase 1) and a four (4) year invasive drilling period (Phase 2 & 3). Phase 2 (24 months) will consist of approximately 20 drill holes approximately 200 m deep, soil geochemical survey (approximately 5,000 samples) and trenching (approximately 4,000 m). Phase 3 (24 months) will consist of approximately 90 drill holes 250 m deep.

For drilling, Reverse Circulation and Diamond Core drilling methods will be used. Drilling rigs are mounted on a 4x4 truck or trailer. The hole diameter for Reverse Circulation holes is typically 60-120 mm and for diamond core 55-80 mm. The mineralisation is present from surface and will be targeted up to a depth of approximately 200 m. Drill hole sites will be GPS located and pegged. Drill sites are inspected and photographed prior to any disturbance.

After each drill hole is complete, logged and sampled, the borehole collar will be surveyed by an independent surveyor using a high-accuracy differential GPS. Thereafter the drill surface will be filled in, the drill area rehabilitated and photographed according to the procedures as stipulated in the Environmental Management Plan.

The boreholes will be logged and mineralised horizons sampled by qualified geologists. Samples will be submitted for analyses to determine the metal content. Each sample will be logged, holed, bagged and numbered at a central core yard by the geologist and field assistants. The bagged samples will then be dispatched to the contracted laboratory. The remaining core and other half sample will be stored for future test work. Analysis to determine the metal content (gold, silver, copper, lead, zinc and nickel) is conducted off site at an accredited independent Laboratory.

In terms of trenching, an excavator or similar equipment will be used at regular intervals and perpendicular to geophysical and geochemical anomalies. Trenches will typically be 1 m wide and from a few centimetres deep (where hard rock is near the surface) to 0.5 metres deep. The edges of the trenches will be geographically mapped and channel samples collected for laboratory analysis. Trenches will be GPS located and pegged. Rehabilitation of the trenches will be undertaken as soon as practical following surface disturbance. The soil and rock is returned to the hole before the report is replaced. The surface is left slightly mounded to allow for subsidence. Trenches will be inspected and photographed prior to and after excavation.

Soil samples are collected on a rectangular pattern, generally with closer spacing of sample sites (20-100 m apart) along more widely spaced sample lines (200 m to 500 m apart). The sampling lines are oriented normal, or at a high angle, to the expected longer dimension of the target. Samples are obtained by digging a small hole with a long handled pick, usually down to the "S" horizon, typically between 25 cm and 30 cm below surface. A 300-500 g sample is collected and placed in chemical-free paper (geochemical) bags suitable for air drying or drying in an oven. The sample hole is back-filled immediately after collection of the sample. Samples are submitted to an off-site laboratory for preparation (incl. sieving) and analysis.

It should be noted that no new access roads will be required. A camp site of approximately 100 m x 100 m (10,000 m²) will be established at a suitable location on site.

Figure 1: Locality map of the proposed Prospecting Right (delineated in green) in the North West Province.

APPLICABLE LEGISLATION

The prospecting right triggers activities 20, 22 and 27 contained in Listing Notice 1 (GNR 327) as well as activity 10 in Listing Notice 3 (GNR 324) of the Amended EIA Regulations (2017), which requires a Basic Assessment. The Competent Authority (CA) for the application of the prospecting right as well as the application for environmental authorisation is the Department of Mineral Resources (DMR) in the North West Province.

Other relevant legislation includes the following:

- National Environmental Management: Air Quality Act (Act 39 of 2004) with subsequent amendments and Regulations;
- National Environmental Management Act, (Act 107 of 1998), with subsequent amendments and Regulations;
- National Environmental Management: Biodiversity Act (Act 10 of 2004);
- National Heritage Resources Act, (Act 35 of 1999);
- National Veld and Forest Fire Act, (Act 101 of 1998);
- National Water Act, (Act 36 of 1998) with subsequent amendments and Regulations; and
- The Occupational Health and Safety Act (Act 85 of 1993).

It should be noted that this consultation process is required as part of the prospecting right application process and will serve as the inception public participation process (PPP) for the environmental authorisation that is legislated in the NEMA 2014 EIA Regulations and subsequent 2017 amendments. The process to obtain prospecting rights is prescribed in the Minerals and Petroleum Resources Development Act (MPRDA) (Act No. 28 of 2002, as amended). This should be read in conjunction with the National Environmental Management Act (Act 107 of 1998 and subsequent amendments).

In terms of section 16 (4) of the Mineral and Petroleum Resources Development Act (MPRDA, Act 28 of 2002 as amended in 2013), as well as Regulation 41 (2) of the National Environmental Management Act (NEMA, Act 107 of 1998 and subsequent amendments), the applicant must consult with the landowners, occupier, surrounding landowners as well as any other potential interested and affected party and submit the results of such consultation to DMR for decision making.

POTENTIAL IMPACTS

The following preliminary environmental issues have been identified and will be investigated during the prospecting right application process:

- Impact of the prospecting activities and infrastructures on the physical environment;
- Loss of sense of place by surrounding property owners;
- Surface and groundwater pollution, as a result of prospecting activities and construction equipment;
- Contamination of soils as a result of spillages or leakage; and
- Loss of biodiversity.

Prospecting operations are typically small-scale and disturbance to the environment and farming activities are minimal. It is also a requirement that the areas that are disturbed are rehabilitated to conditions as close as possible to their pre-prospecting condition.

HOW CAN YOU BE INVOLVED?

A Public Participation Process (PPP) is being conducted as part of the Prospecting Right Application. The purpose of the PPP is to enable land owners, lawful occupiers, directly affected individuals, and / or other interested and Affected Parties (I&APs) to raise any issues, concerns, and / or comments regarding the proposed prospecting activities.

The PPP includes, but is not limited to:

- On-site Signage.

- Circulation of the BID (this document) to all Registered I&APs;
- Comments periods; and
- Review of the reports by all registered I&APs.

A Proof of Consultation Report will be compiled and submitted to the Department of Mineral Resources (DMR). It should be noted that the Proof of Consultation Report does not include detailed verifications of issues of concern but provides recommendations with regard to any final flows that may restrict and / or limit any prospecting activities.

If you consider yourself an interested and/or affected person/party, it is important that you become and remain involved in the PPP, in order to do as please follow the steps below in order to ensure that you are continually informed of the project developments and will ensure your opportunity to raise issues and concerns pertaining to the project.

- STEP 1:** Please register by responding to our notification and invitation, with your name and contact details (details provided on cover page and below). As a registered I&AP you will be informed of all meetings, report reviews and project developments throughout the Basic Assessment process.
- STEP 2:** Register by returning the slip at the back of this document to EOH CES.
- STEP 3:** Attend any meetings that may be held during process.

EOH CES is required to engage with all private and public parties that may be interested and/or affected by the proposed project in order to distribute information for review and comment in a transparent manner.

In the same light, it is important for I&APs to note the following:

1. In order for EOH CES to continue engaging with you, please ENSURE that you register on our database by contacting the person below.
2. As the Basic Assessment process is regulated by specific review and comment timeframes, it is your responsibility to submit your comments within these timeframes.

Please send your Completed I&AP Registration Form, Enquiries and/or Comments to:

E-mail: ghazel.lesy@ecoh.co.za or stefan.vanrooy@ecoh.co.za
 Postal Address: 15 Starling Street, Rosemond Hill, Port Elizabeth, 6001
 Telephone number: 041 585 1715

All comments must be submitted no later than the 29th of October 2018.

To: Roberto Almanza <r.almanza@cesnet.co.za>
Subject: Notice of Public Review of Draft BAR

Dear Stakeholders and Interested and/or Affected Parties (I&APs),

**PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES WITHIN THE
MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE.**

DMR Reference No.: NW 30/5/1/1/3/2/1/ (12380) EM

EOH Coastal & Environmental Services (CES) has been appointed to undertake an application for Environmental Authorisation (EA) on behalf of K2015268783 (Pty) Ltd for the abovementioned project. K2015268783 (Pty) Ltd intends to conduct a prospecting programme to establish mineral resources, such as copper, lead, zinc, nickel and cobalt (base metals) as well as gold and silver (precious metals) on the following properties:

- De Paarl Farm 246 KP;
- Goedgedacht 255 KP;
- Bedford 254 KP; and
- Syferbult 257 KP.

The proposed project triggers National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (2014 and subsequent 2017 amendments) Listing Notice 1 and Listing Notice 3 activities. Due to the Listing Notice 1 and Listing Notice 3 listed activities and in accordance with the aforementioned regulations, a Basic Assessment is required.

You are hereby notified of the submission of the Draft Basic Assessment Report (BAR) to the Department of Mineral Resources (DMR) for comments. Please note that the Draft BAR is available for a thirty (30) day public review period, from the **19th of October 2018** (today) until the **19th of November 2018**. A hard copy of the Draft BAR is available at the Community Centre on site and a soft copy will be made available upon request.

Contact details for the submission of comments or to request a soft copy of the Draft BAR:

ATTENTION:	Dr Chantel Bezuidenhout Mr Roberto Almanza
TEL:	+27 (0)41 585 1715

PHYSICAL ADDRESS:	EOH Coastal & Environmental Services (Port Elizabeth Branch), 13 Stanley Street, Richmond Hill, Port Elizabeth, 6001

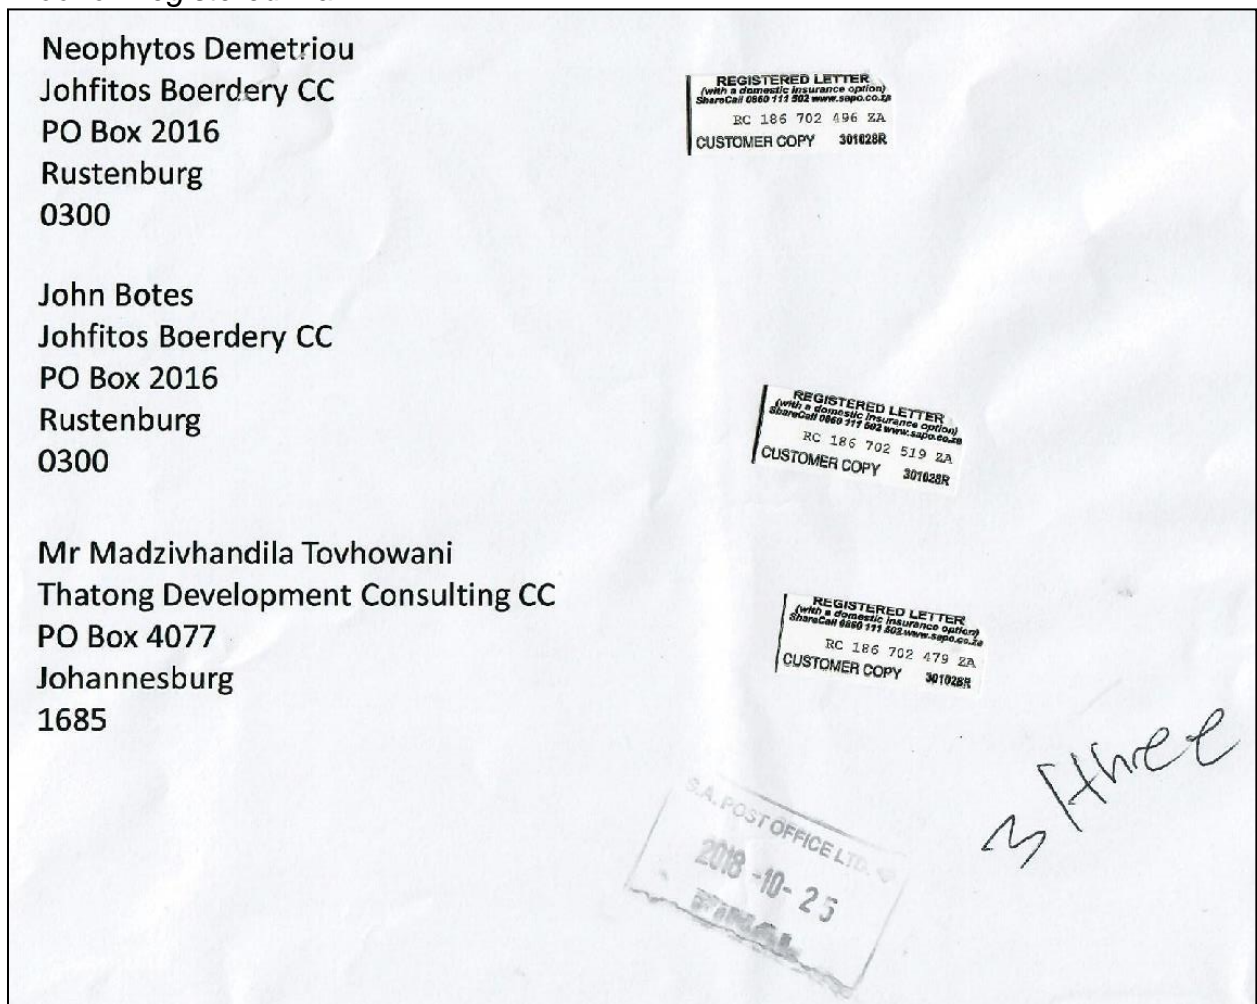

In addition, a **Public Meeting** will be held during the Draft BAR public review period. The details of this meeting will be circulated to all registered I&APs as soon as the venue has been secured.

Kind regards,
Dr Chantel Bezuidenhout

Public Meeting for the Draft Basic Assessment Report

Date	14 th of November 2018
Time	11:00 am
Venue	Nonceba Community Hall (Stand 10178, Nonceba, Bojanala Platinum District Municipality, North-West - 24°55'54.23"S, 26°42'58.99"E)

PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES WITHIN THE MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE

DMR REFERENCE: NW 30/5/1/1/3/2/1/(12380) EM

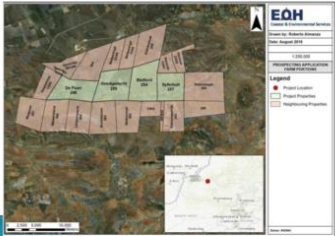

Environmental Impact Assessment
PUBLIC MEETING
14 November 2018
Nonceba Community Hall

Introduction

- Applicant: K2015268783 (Pty) Ltd
- Joint venture between Malmani Resources (SA based exploration company) and Zoloscope Investments (black-owned SA company).
- Environmental Consultant: EOH Coastal & Environmental Services (CES), established in 1990 as a specialist environmental consulting company and has considerable experience in all aspects of the Environmental Impact Assessment (EIA) processes. Offices in Johannesburg, East London, Grahamstown, Port Elizabeth and Cape Town.
- EOH CES has been appointed by K2015268783 (Pty) Ltd, to undertake an Environmental Impact Assessment (EIA) process for a prospecting right for mineral commodities.

Location

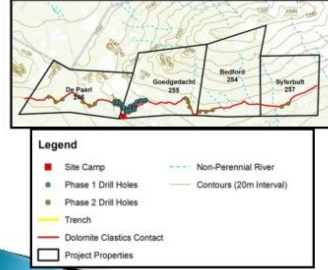

Project Description

- Prospecting: mineral commodities such as Copper, Lead, Zinc, Nickel (Ni) and Cobalt (Co) (Base metals) and, Gold and Silver (Precious metals)
- Prospecting timeframe: 3 years
- Phase 1: 3 month non-invasive geophysical survey period
- Phase 2: 1 year invasive drilling period consisting of 20 drill holes 200 m deep, soil geochemical survey (5,000 samples) and trenching (4,000 m).
- Phase 3: 1 year invasive drilling period consisting of 50 drill holes 200 m deep
- The 4 properties span 10,036 ha in extent, but only 1.65 ha is anticipated to be disturbed for the placement of drill pads, drill holes, trenches and the site camp.

Project Description

- Drilling: Reverse Circulation and Diamond Core drilling methods used.
- Drilling rigs are mounted on a 4 x 4 truck or trailer, samples collected up to 200m deep, and then surveyed.
- Trenches: 1 m wide x 0.5 m deep. The edges of the trenches will be geologically mapped and channel samples collected for laboratory analysis.
- Soil samples: small hole dug 20 cm and 30 cm deep, and 300-500g sample collected for laboratory analysis.

Rehabilitation will be undertaken as soon as practical following surface disturbance.

Legal Requirements

- **Applicable legislation:** Mineral and Petroleum Resources Development Act [MPRDA] (Act No. 28 of 2002, as amended) & National Environmental Management Act [NEMA] (Act 107 of 1998, as amended).
- **NEMA Listed Activities triggered:** Activities 20 and 27 contained in Listing Notice 1 (GNR. 327) as well as activity 12 in Listing Notice 3 (GNR. 224) of the Amended EA Regulations (2017), which requires a Basic Assessment.
- **The Competent Authority (CA):** Department of Mineral Resources (DMR) in the North West Province.
- **Public Participation Process:** Legal requirement of the MPRDA and NEMA. Therefore the applicant must consult with the landowners, occupiers, surrounding landowners as well as any other potential interested and affected party and submit the results of such consultation to DMR for decision making.

Description of the Environment

- **Hydrology:** Several non-perennial streams and wetlands occur throughout the site
- The initial layout has been revised to ensure that no drill pads, drill holes or trenches will be located within any of these identified features and regulatory buffers.

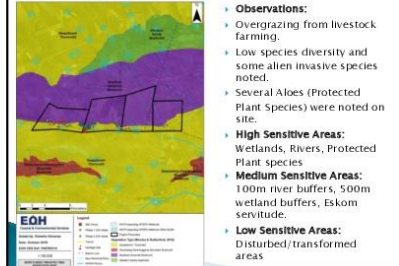

Description of the Environment

- Two distinct vegetation types - Makikwe Dolomite Bushveld and Dwaalboom Thornveld.
- These vegetation types area classified as Least Threatened by NEMBA.

Ecological Specialist study

- **Observations:**
 - Overgrazing from livestock farming.
 - Low species diversity and some alien invasive species noted.
 - Several Aloes (Protected Plant Species) were noted on site.
- **High Sensitive Areas:** Wetlands, Rivers, Protected Plant species
- **Medium Sensitive Areas:** 100m river buffers, 500m wetland buffers, Eskom servitude.
- **Low Sensitive Areas:** Disturbed/transformed areas

Heritage Specialist Study

Figure 17 included below indicates the position of these sites

Possible Impacts Identified

Construction Phase	Operational Phase	Decommissioning Phase
Loss of natural bushveld and/or Thonveld	Environmental trampling	Control of alien plant species
Loss of Species of Conservation Concern	Air quality - dust generation from vehicles & prospecting activities	Rehabilitation of disturbed areas
Loss of Aquatic Habitat	Noise Pollution	Land degradation - due to improper site clean-up
Control of Alien Plant Species	Water Pollution	
Rehabilitation of disturbed areas	Water pollution	
Dust emission due to vegetation clearance	Soil erosion and pollution	
Soil and Geomaterial Pollution	Loss of natural bushveld/Thonveld	
Environmental trampling	Loss of Species of Conservation Concern	
Noise Pollution	Loss of Aquatic Habitat	
Water Pollution	Control of Alien Plant Species	
Soil erosion and pollution	Rehabilitation of disturbed areas	
Risks	Risks	
Visual impact	Visual impact	
Cultural and Heritage Assets (including Palaeontology)	Cultural and Heritage Assets (including Palaeontology)	
Inventory disturbance	Inventory disturbance	

Mitigation Measures

- › Detailed mitigation measures for each of the potential impacts identified are detailed within the Draft Basic Assessment Report.
- › These mitigation measures are included within the Environmental Management Programme (EMPr) and must be adhered to during all phases of the prospecting project.
- › A copy of the Draft Basic Assessment Report is available here at the Nonceba Community Hall.

Impact Statement

- › Economic impacts: Limited (1–5 workers) temporary job opportunities during prospecting, and potential long term benefits should mining be viable. SLP/local procurement benefits and meaningful job creation.
- › It is unlikely that the proposed development will create any long-term negative impacts of high significance on the environment if mitigation measures are implemented and rehabilitation takes place.
- › The majority of the negative impacts identified can be mitigated to low significance.

Public Participation

- › In order to inform the public and to invite members of the public to register as I&APs, the proposed project was advertised in the Rustenburg Herald (10 October 2018). Background Information Documents (BIDs) were hand delivered on site (28 Sept 2018), posted or emailed, and site notices were placed on site (28 Sept 2018).
- › Presentation made by the Applicant to the Amahlubi Traditional Council on 5 November 2018 prior to this Public Meeting to notify and address iNkosi and the Traditional Council in order to abide by tribal law and customs.
- › Draft Basic Assessment Report (DBAR) was made available for public review – copy available at the Nonceba Community Hall.
- › Notifications were sent out notifying I&APs of the DBAR availability and Public Meeting.
- › Comments received will be included in the Final Report submitted to DMR.

Contact information

Ms. Caryn Clarke

Public Meeting Minutes:

**PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES
MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE
DMR REFERENCE: NW 30/5/1/1/3/2/1/(12380) EM**

**Notes from the Public Meeting for the Draft Basic Assessment Report (BAR) held at the
Nonceba Community Hall, on the 14th of November 2018, at 11am**

ATTENDEES:

- Ms. Caryn Clark, EAP Representative;
- Mr. Neels Hoek, Applicant Representative; and
- Various members of the community: please refer to the attendance register.

The community members began the public meeting by opening in prayer. Ms. Clarke from EOH CES then welcomed all attendees and circulated hard copies of the presentation as well as the attendance register. All correspondence was translated into isiXhosa by a member from the Office of the Premier.

Ms. Clarke proceeded with the presentation (refer to Appendix A for an overview of the contents of the presentation made). In summary, the following key topics were discussed:

- **Introduction** – the proposed prospecting application was introduced by providing attendees with a description of who the Applicant and Environmental Assessment Practitioner (EAP) were.
- **Location** – a map showing the applicable farms on which prospecting is proposed to take place on was discussed.
- **Project description** – an overview of the prospecting activities and proposed project timeframes were provided.
- **Legal Requirements** – an overview of the legal framework applicable to the proposed prospecting application was provided.
- **Description of the Environment** – a description of the findings contained in the Draft Basic Assessment Report (BAR) were discussed, namely aquatic features, vegetation, species of conservation concern, and heritage, cultural & archeological features present on site.
- **Impact Identification** – an overview of the potential impacts anticipated during all phases of prospecting were discussed.
- **Mitigation measures** – attendees were notified that a detailed list of all mitigation measures recommended for all potential impacts are contained in the Draft BAR, of which a hard copy was made available at the Nonceba Community Centre.
- **Impact Statement** – an overview of the anticipated social and economic benefits were discussed, highlighting the temporary nature of job opportunities during prospecting and potential long-term job opportunities during mining, should it be viable and approved.
- **Public Participation** – an overview of the public participation process undertaken to date for the proposed prospecting application was provided.

- **Conclusion** – Ms. Clarke concluded the presentation by providing all attendees with the relevant project teams’ contact details and thanked the attendees for their attendance. Ms. Clarke proceeded to open the floor up to questions.

Questions and responses

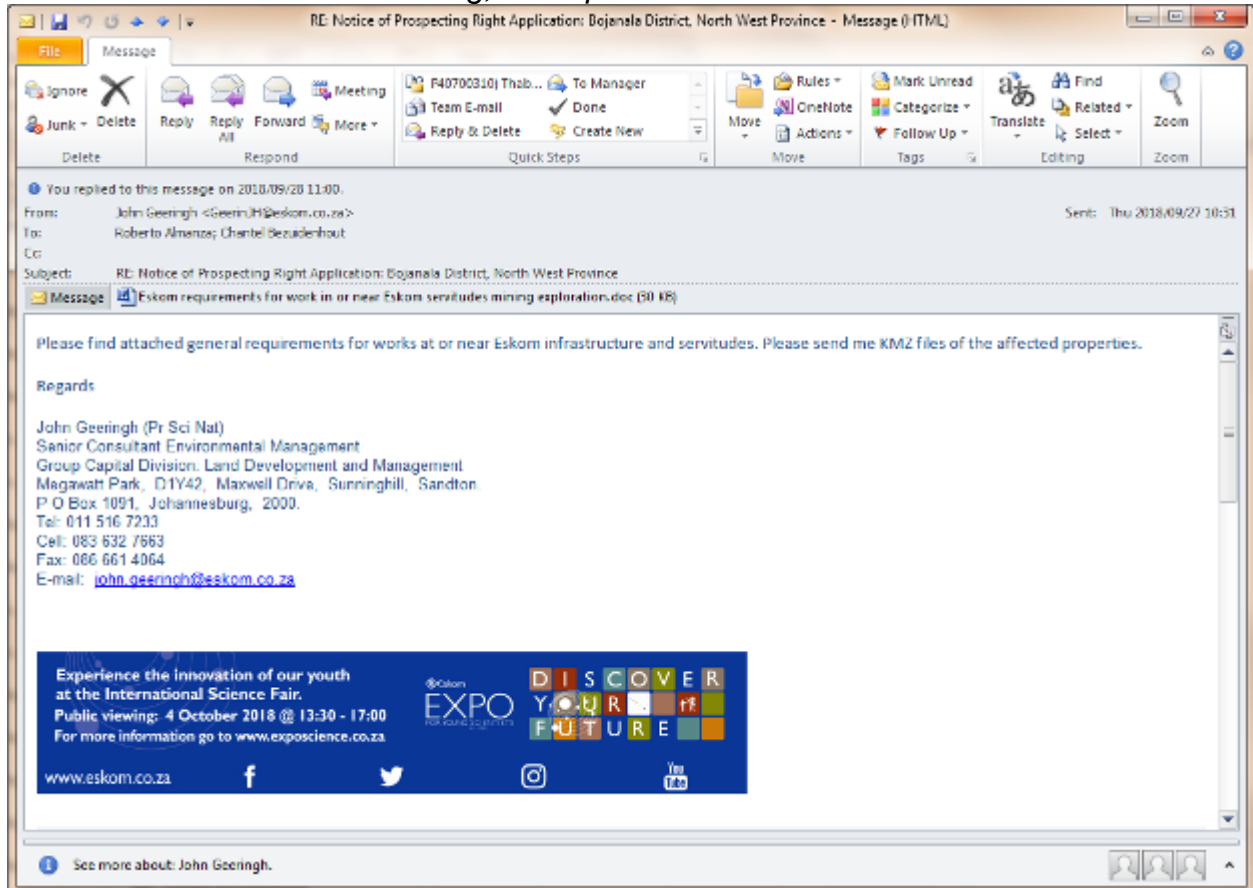

Question/comments raised	EOH CES/Applicant Responses
What will the criteria be for job selection?	This particular application is only concerned with prospecting, and therefore there will be limited temporary job opportunities, however should mining be viable and proceed, a Social Labour Plan (SLP) will be required to be submitted as part of the mining application. This SLP will detail how communities will benefit from the potential mining and how employment will take place. The SLP will focus on local employment
There is a land claim concerning one of the properties in question. It is requested that future consultative meetings held with the Amahlubi Traditional Council include the broader community members as well as there is a current land claim against them regarding one of the properties within the application area, namely Farm De Paarl.	Our public participation process aims to ensure that all members of the public are notified and consulted with. The meeting held with the Amahlubi Traditional Council was an additional meeting held, at their request, in response to the initial notification made for the prospecting application. This public meeting was held to ensure that all Interested & Affected Parties (I&APs), including the broader community and the council, are consulted with to all are aware of the proposed prospecting application. All correspondence had is included within the Final BAR to be submitted to the Department of Mineral Resources (DMR) to ensure that the public participation process to open and transparent.
I am concerned that the community wasn't invited to the meeting held with the Amahlubi Traditional Council, and secondly, the Amahlubi Traditional Council was not provided with a copy of the Draft BAR.	<p>The meeting requested by the Amahlubi Traditional Council was just one of the consultative meetings held as part of this public participation process, and this public meeting was an open invitation to all I&APs which aims to not exclude anyone from the process.</p> <p>The Draft BAR has been made available as a hard copy at the Welverdiend Community Centre, and notifications of its availability were sent to all registered I&APs, including the Amahlubi Traditional Council. Furthermore the all I&APs were informed that the draft BAR is electronically available. A copy of the Draft BAR however will be made available to the Amahlubi Traditional Council electronically after this meeting.</p>
Because a portion of the land is under claim, it is important that the whole community is included, and secondly, we are happy about the potential job opportunities in the future.	There are many stakeholders involved in this process, therefore this public meetings is one of the ways we aim to ensure that the broader community is notified and consulted with.

<p>I am thankful for the potential job opportunities. Secondly, some of the issues raised by the members present here are not related to this presentation and we must aim to keep questions and comments relevant to the presentation (Discussions were had amongst the attendees regarding the ownership of the land),</p>	<p>Thank you for your comment. We would like to reiterate that, today, we are presenting the findings of the EIA, however all issues and concerns raised today will be included in the Final BAR.</p>
<p>I am happy that there may be potential job opportunities that will benefit the community and just specific individuals.</p>	<p>Noted</p>
<p>This community seems to be divided. We have two sectors of the community, the Amahlubi and the Welverdiend Community. When there is an income generated, where and how will it be divided?</p>	<p>With regards to prospecting, income is not generated, as money is only spent during this process. However should mining be viable and proceed, we will ensure that the Department of Rural Development and Land Reform is engaged, who will then assist in the process regards how financial benefits are shared amongst the community.</p>
	<p>Thank you very much for attending today. The Draft BAR is available in the Welverdiend Community Centre should you wish to read it. In addition, should you have further questions/concerns/comments, please use the contact information provided today to get in touch with myself (EOH CES). Thank you.</p>

Comments and Responses following the Notification of Intent to Apply for Environmental Authorisation

Comments and Responses:

I&AP Comment: Mr John Geering, 27 September 2018:

Eskom requirements for work in or near Eskom servitudes.

1. Eskom's rights and services must be acknowledged and respected at all times.
2. Eskom shall at all times retain unobstructed access to and egress from its servitudes.
3. Eskom's consent does not relieve the developer from obtaining the necessary statutory, land owner or municipal approvals.
4. Any cost incurred by Eskom as a result of non-compliance to any relevant environmental legislation will be charged to the developer.
5. If Eskom has to incur any expenditure in order to comply with statutory clearances or other regulations as a result of the developer's activities or because of the presence of his equipment or installation within the servitude restriction area, the developer shall pay such costs to Eskom on demand.
6. The use of explosives of any type within 500 metres of Eskom's services shall only occur with Eskom's previous written permission. If such permission is granted the developer must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process. It is advisable to make application separately in this regard.
7. Changes in ground level may not infringe statutory ground to conductor clearances or statutory visibility clearances. After any changes in ground level, the surface shall be rehabilitated and stabilised so as to prevent erosion. The measures taken shall be to Eskom's satisfaction.
8. Eskom shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the developer, his/her agent, contractors, employees, successors in title, and assignees. The developer indemnifies Eskom against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom's services or apparatus or otherwise. Eskom will not be held responsible for damage to the developer's equipment.
9. No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom's apparatus and/or services, without prior written permission having been granted by Eskom. If such permission is granted the developer must give at least seven working days' notice prior to the commencement of work. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued by the relevant Eskom Manager

Note: Where and electrical outage is required, at least fourteen work days are required to arrange it.

10. Eskom's rights and duties in the servitude shall be accepted as having prior right at all times and shall not be obstructed or interfered with.
11. Under no circumstances shall rubble, earth or other material be dumped within the servitude restriction area. The developer shall maintain the area concerned to Eskom's satisfaction. The developer shall be liable to Eskom for the cost of any remedial action which has to be carried out by Eskom.
12. The clearances between Eskom's live electrical equipment and the proposed construction work shall be observed as stipulated by *Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)*.
13. Equipment shall be regarded electrically live and therefore dangerous at all times.
14. In spite of the restrictions stipulated by Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993), as an additional safety precaution, Eskom will not approve the erection of houses, or structures occupied or frequented by human beings, under the power lines or within the servitude restriction area.
15. Eskom may stipulate any additional requirements to highlight any possible exposure to Customers or Public to coming into contact or be exposed to any dangers of Eskom plant.
16. It is required of the developer to familiarise himself with all safety hazards related to Electrical plant.
17. Any third party servitudes encroaching on Eskom servitudes shall be registered against Eskom's title deed at the developer's own cost. If such a servitude is brought into being, its existence should be endorsed on the Eskom servitude deed concerned, while the third party's servitude deed must also include the rights of the affected Eskom servitude.

Subject: RE: Notice of Prospecting Right Application: Bojanala District, North West Province

Good afternoon,

Thank you for notifying SAHRA of the proposed development. Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <http://sahra.org.za/sahris/>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.

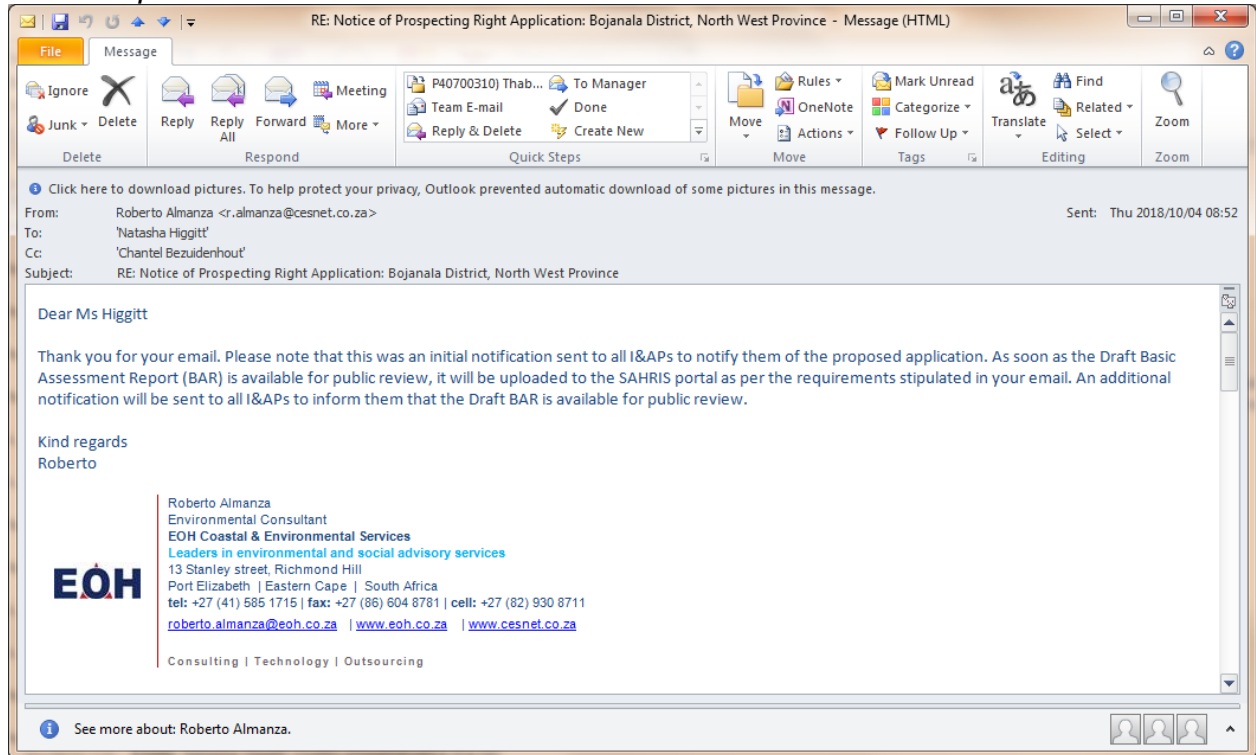

Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Application Process. As per section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA.

Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application, and are submitted to SAHRA at the beginning of the Public Review periods. Once all these documents have been uploaded, I will be able to issue an informed comment as per section 38(4) and 38(8) of the NHRA.

Kind regards,
Natasha Higgitt

Dear Roberto Almanza

LAND CLAIM ENQUIRY – THE FARM DE PAARL 246 KP

We refer to your letter dated 27 of September 2018.

We confirm that there is an existing land claim against the property above; however the claims were dismissed on the basis that it does not meet the requirements of Section 2 of Restitution of Land Rights Act No. 22 of 1994.

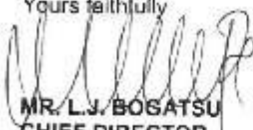

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have been lodged but not yet gazetted such as:

1. Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
2. Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation of claims it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do further search.

Yours faithfully

Dear Roberto Almanza

LAND CLAIM ENQUIRY – THE FARM BEDFORD 254 KP

We refer to your letter dated 27 of September 2018.

We confirm that as at the date of this letter no land claim appears on our database in respect of the above property. This includes the database for claims lodged by 31 December 1998; and those lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, 2014.

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have been lodged but not yet gazetted such as:

1. Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
2. Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

Dear Stakeholders and Interested and/or Affected Parties (I&APs),

PROPOSED PROSPECTING RIGHT APPLICATION FOR MINERAL COMMODITIES WITHIN THE MAGISTERIAL DISTRICT OF BOJANALA, NORTH WEST PROVINCE.
DMR Reference No.: NW 30/5/1/1/3/2/1/ (12380) EM

EOH Coastal & Environmental Services (CES) has been appointed to undertake an application for Environmental Authorisation (EA) on behalf of **K2015268783 (Pty) Ltd** for the abovementioned project. K2015268783 (Pty) Ltd intends to conduct a prospecting programme to establish mineral resources, such as copper, lead, zinc, nickel and cobalt (base metals) as well as gold and silver (precious metals) on the following properties:

- De Paarl Farm 246 KP;
- Goedgedacht 255 KP;
- Bedford 254 KP; and
- Syferbult 257 KP.

The proposed project triggers National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (2014 and subsequent 2017 amendments) Listing Notice 1 and Listing Notice 3 activities. Due to the Listing Notice 1 and Listing Notice 3 listed activities and in accordance with the aforementioned regulations, a Basic Assessment is required.

You are hereby notified of the submission of the Draft Basic Assessment Report (BAR) to the Department of Mineral Resources (DMR) for comments. Please note that the Draft BAR is available for a thirty (30) day public review period, from the **19th of October 2018** (today) until the **19th of November 2018**. A **hard copy** of the Draft BAR is available at the Community Centre on site and a **soft copy** will be made available upon request.

Contact details for the submission of comments or to request a soft copy of the Draft BAR:

ATTENTION:	Dr Chantel Bezuidenhout Mr Roberto Almanza
TEL:	+27 (0)41 585 1715

PHYSICAL ADDRESS:	EOH Coastal & Environmental Services (Port Elizabeth Branch), 13 Stanley Street, Richmond Hill, Port Elizabeth, 6001

In addition, a **Public Meeting** will be held during the Draft BAR public review period. The details of this meeting will be circulated to all registered I&APs as soon as the venue has been secured.

Kind regards,
Dr Chantel Bezuidenhout

RE: Notice of Public Review of Draft BAR

To Chantel Bezuidenhout; Roberto Almanza

Good afternoon,

Thank you for notifying SAHRA of the proposed development. Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <http://sahra.org.za/sahris/>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.

Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Pre-Application Process. As per section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA.

Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application, and are submitted to SAHRA at the beginning of the Public Review periods. Once all these documents have been uploaded, I will be able to issue an informed comment as per section 38(4) and 38(8) of the NHRA.

Kind regards,
Natasha Higgitt

Cc: mszibi@amahlubichairmansfoundation.co.za; info@amahlubichairmansfoundation.co.za
Subject: Proposed prospecting right application NW30/5/1/1/3/2/1/(12380)

Good day

The email bears reference:

Notice has been given by your company to affected and interested parties on an application by K2015268783 for prospecting on farms De Paarl 246KP, Goedgedacht 255KP in the magisterial district of Bojanala. As the affected Amahlubi community we therefore show interest in the application by urging for consultation with the respective authority and custodian of the said farms.

The Amahlubi Traditional Council under iNkosi M.S Zibi is the statutory body which these farms fall under their legal and social responsibility for the benefit of the community of Amahlubi for Agricultural purposes.

We therefore urge the applicant through your intervention to urgently contact the tribal offices in Khayakhulu and make an appointment to brief the council and introduce the concept so as to facilitate a community engagement process particularly with the community members in Welverdiend. If there's been any engagement prior to this email kindly note that the iNkosi and council which sits in Khayakhulu were the head office is based it was with rogue individuals or an unrecognized body as per the traditional leadership governance framework act.

You may contact Ms S Semanya to arrange an appointment on 014 501 0020 or info@amahlubichairmansfoundation.co.za

Your cooperation in this regard will be appreciated

Kind regards

According to the Department of Rural Development and Land Reform, the proposed properties are under the mandate for the DRDLR (refer to e-mail correspondence below):

Subject: RE:

Dear Dr. Bezuidenhout

Thanks for your e-mail. We hereby confirm that the two mentioned farms, De Paarl 246 KP and Goedgedacht 255 KP are both State owned / registered in the name of the National Government of the Republic of South Africa. The Department of Rural Development and

Land Reform have/enjoy custodian of both farms. They are in fact closer to the administrative jurisdiction of the Amahlubi Traditional Community, but were never at any time included in their jurisdiction. Therefore, they are outside of their area of jurisdiction.

Trust you find the above helpful

Regards

Daniel Masina

Nevertheless, the proponent consequently met with the council and the community members on the 5th of November 2018 (please refer to the attendance register provided in Appendix 2). Following the meeting, the proponent responded directly to the Amahlubi Chairman's Foundation with the following response:

Subject: RE: Proposed prospecting right application NW30/5/1/1/3/2/1/(12380)

Dear iNkosi and Members of the Amahlubi Traditional Council

Thank you very much for meeting with me earlier today on such short notice and to allow me to make a presentation to the Council in respect of an application for a Prospecting Right which were lodged with the Department of Mineral Resources.

We have taken note of the legal dispute between the Traditional Council and the Welverdiend Community which dispute resolves around some of the farms that form part of this Prospecting Right Application.

During the meeting your informed me that the farms De Paarl 246 KP, Goedgedacht 255 KP, Bedford 254 KP and Syferbult 257 KP falls under the jurisdiction of the Traditional Council and thus your request that any correspondence and discussions be addressed to you first.

I further wish to thank you for agreeing to the public meeting to be held at the Nonceba Community Hall on 14 November 2018, and I confirm that members of the Traditional Council shall also attend the public meeting.

I attach hereto a copy of the presentation to be made at the public meeting of which 10 copies were also handed to the members earlier today.

I also attach hereto a copy of the attendance register of the meeting held earlier today.

Kind regards

Neels Hoek

Follow up. Completed on Friday, 16 November 2018.
 You replied to this message on 2018/11/15 11:24.
 This message was sent with High importance.

Good day Mr Almanza

In the interest of access to information so as to equitably share and make provision for preparation for the below stated meeting. On behalf of Nkosi and the Amahlubi Traditional Council as per agreement with the council that details of members of the community you've been engaged with thus far was agreed you'd provide details in the following manner:

- A comprehensive list of the attendees, venue and time (Attendance register)

As a cursory we also bring to your attention that the below email is a acknowledged but request your indulgence on reasons for blind copying recipients as this seems to pose a risk to the process and Nkosi given that all those who are to attend the said meeting should first be vetted/cleared and accordingly invited by their respective constituency/legally recognised body so as to ensure accountability in/of a conducive environment.

We hereby request and look forward to your full cooperation as usual

Yours sincerely

Dear Mr Zibi

Thank you for your email and apologies for the delayed response.

The list of Interested and/or Affected Parties (I&APs) who have been notified of the proposed prospecting application, as well as the associated public meeting, is available in the Draft Basic Assessment Report (BAR). A hardcopy of the Draft BAR is available at the Welverdiend Community Centre and a soft copy available via the following link - <https://www.dropbox.com/sh/bodicamprm1c6t3/AABdF5vk9w5-OoGnBPh4G18-a?dl=0>.

The attendance register and minutes from yesterday's public meeting can also be made available to the Traditional Council on request, and will also be included as an appendix to the Final BAR.

If you have any further queries or comments, please do not hesitate to contact me.

Kind regards
Roberto

COMMENTS ON A BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME SUBMITTED IN TERMS OF REGULATION 19 (1) OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO.107 OF 1998): ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 AS AMENDED IN SUPPORT OF APPLICATION FOR AN ENVIRONMENTAL AUTHORISATIONS IN RESPECT OF THE FARMS DE PAARL 246 KP, GOEDGEDAACHT 255 KP, BEDFORD 254 KP AND SYFERBULT 257 KP, SITUATED IN THE MAGISTERIAL DISTRICT OF MANKWE, NORTH WEST REGION.

1. We confirm having received your basic assessment report and environmental management programme report (BAR) on the 19th October 2018.

2. This letter serves to inform you that your BAR was reviewed by this office and found to be unacceptable since it does not contain and address the following:

2.1 A locality map which shows the nearest town and environmental features at a scale not smaller than 1:250 000.

2.2 Your BAR shows that the proposed prospecting operation will be conducted using drilling and trenching methods, however, the total number of trenches and their dimensions were not specified. It was noted that the surface area which will be disturbed per each borehole and the dimensions of the sumps associated with the drilling programme were also not provided.

2.3 Your BAR has also shown that the South African Heritage Resource Agency (SAHRA) has been notified regarding the proposed prospecting operation however, there is no proof as to how SAHRA was consulted.

2.4 Your BAR shows that the current land use within the proposed prospecting area is livestock farming, you are therefore required to provide specific mitigation measures related to such land use considering that part of proposed prospecting methods is trenching.

2.5 Your public participation process was also reviewed and found to be unacceptable due to the following:

a) Your draft BAR made a commitment to hold a meeting within the 30 days mandatory public participation period however, no minutes and attendance register was submitted to this office.

b) Your newspaper advertisement and site notice did not run for the period of 30 days as prescribed by regulation 3(8) of the Environmental Impact Assessment Regulations, 2014 as amended. Kindly also note that Appendix 2 of your BAR shows that advertisement on Rustenburg Herald was done on the 10th October 2018 while the actual newspaper advertisement was published on the 12th October 2018.

c) Your BAR does not show as to how other organs of states such as National Department of Agriculture, Forestry and Fisheries, Department of Rural, Environmental and Agricultural Development, Department of Water and Sanitation and North West: Provincial

Heritage Resources Agency/ South African Heritage Resource Agency have been consulted regarding the draft BAR.

- d) Your BAR has also specified that the BID was hand delivered to Mr Mandisi (Deputy Head of Community Trust) however, no proof to confirm that indeed such document was delivered to Mr Mandisi.
- e) Appendix 2 (table of comments and responses) first and third column does not show the organization/ individual who raise comments and how the EAP has respond to such comments.

2.6 Your BAR has also specified that part of the proposed prospecting area falls within Critical Biodiversity Area, you are therefore required to consult with the Department of Environmental Affairs in particular Biodiversity Section in order to obtain necessary mitigation measures.

2.7 Your Paleontological study attached to your BAR as Annexure C was also reviewed and found to be questionable considering that it was compiled based on the desktop information not fieldwork.

2.8 Item (d) (ii) of the BAR has specified that approximately 5000 litres of water will be required per day for the proposed prospecting activities. It was further stated that the required water may be abstracted from a borehole or other water sources on site. This statement is contradicting with the subsequent paragraph on (iii) which states that a water used Authorisation has not been applied for based on the limited amount of water required and the current uncertainty if water will be abstracted from a borehole and/or other water sources on site. Our view as the Department is that, if the applicant will or is intending to use water for proposed prospecting operation, the source of such water must be specified and a water used registration from the Department of Water and Sanitation and or water used agreement between the applicant and the water supplier must be submitted to this office.

2.9 This office has also noted that your BAR was not numbered.

2.10 Kindly also note that your quantum of financial provision for the rehabilitation and/or management of negative environmental impacts to the amount of **R226, 040.26** as projected by yourselves was evaluated however, this

Department is not in a position to confirm the adequacy of your proposed amount due to the following:

- a) The master rate which were used to calculate the proposed financial provision appears to be below the Consumer Price Index (CPI) average as published by the Statistics South Africa.
 - b) The dimensions and total number of trenches associated with the proposed prospecting activities was not specified on the BAR.
 - c) The area which will be disturbed per each borehole and sizes of the sumps associated with the drilling programmes was also not specified.
3. In order for this Department to efficiently evaluate your BAR, you are hereby required to revise your BAR of which two (2) copies must be submitted manually to this office. The revised BAR must contain all the comments specified on paragraph 2 above. The revised BAR and EMPr requested above must be submitted to this office **on or before the 05th December 2018.**
4. **It must be noted that if the EAP/applicant is unwilling or unable to comply with the prescribed timeframes and to adequately address the comments specified above, your application for Environmental Authorisation will be refused without any further communication to you.**
5. Further note that Department reserves the right to revise initial comments and request further information to you, based on the revised information.
6. Should you have any query regarding the contents of this letter kindly contact Mr. Christopher Tshisevhe on the number reflected above.

Yours faithfully
