

NOTIFICATION OF BASIC ASSESSMENT PROCESS  
AND PUBLIC PARTICIPATION PROCESS:  
LANDOWNERS

Sent to all registered Landowners  
on project database

28 March 2019

Dear Landowner,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS**

**GRID CONNECTION INFRASTRUCTURE FOR THE NAMAS WIND FARM, KLEINSEE, NORTHERN CAPE PROVINCE**

**NOTICE OF BASIC ASSESSMENT PROCESS**

Genesis Namas Wind (Pty) Ltd received Environmental Authorisation (EA) for the Namas Wind Farm (DEA.Ref.No.: 14/12/16/3/3/1/1971) on 18 February 2019. The approved wind farm is located within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. In order to evacuate the generated power into the national grid the wind farm requires the development of a grid connection solution.

This letter serves to inform you that a Basic Assessment process is being undertaken for the grid connection solution associated with the wind farm. The infrastructure associated with the grid connection solution will include the construction of a double-circuit 132kV power line, a collector substation and associated infrastructure including access tracks/roads, administrative buildings and laydown areas.

The details of the project is as follows:

Double-circuit 132kV power line	The double-circuit power line will be known as the Rooivlei-Gromis 132kV double-circuit power line.
Corridor Width (for assessment purposes)	300m
Corridor Length	32km
Power Line Servitude Width	31m
Tower Height (pylons)	32m
Collector substation	Rooivlei Substation
Substation Footprint	100m x 200m
Substation Capacity	132kV
Affected Properties	Portions 1, 2 and 3 of the Farm Zonnekwa 328
	Remaining extent of the Farm Zonnekwa 326
	Remaining extent of the Farm Honde Vlei 325
	Remaining extent of the Farm Kannabieduin 324
	Remaining extent of the Farm Sand Kop 322
	Remaining extent of the Farm Mannels Vley 321
	Remaining extent of the Farm Dikgat 195
	Portion 15 of the Farm Dikgat 195
	Remaining Extent of Farm Rooivlei 327

The following two connection options exist within the 300m corridor for each grid connection solution, namely:

- » A direct connection from the proposed Rooivlei Substation to the existing Gromis Substation located ~26km from the northern boundary of the Namas Wind Farm project site. This is considered to be the preferred option from a technical perspective due to the fact that the Gromis Substation is already existing.
- » A direct connection from the Rooivlei Substation to the planned collector substation (known as the Strandveld Substation) which forms part of the Zonnequa Wind Farm grid connection solution. The Strandveld Substation is located ~6km from the northern boundary of the Namas Wind Farm project site. This option is only viable should the Zonnequa Wind Farm be developed.

## **BASIC ASSESSMENT PROCESS**

The development (i.e. construction and operation) of the grid connection infrastructure is subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. In terms of the EIA Regulations of 2014 (as amended on 07 April 2017) promulgated under Sections 24 and 24D of the NEMA, various aspects of the project are listed as activities that may have a detrimental impact on the environment. The main listed activity triggered by the proposed grid connection infrastructure is Activity 11(i) of Listing Notice 1 (GNR327 of the EIA Regulations, 2014 (as amended)), which relates to the development of facilities or infrastructure for the transmission and distribution of electricity outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts.

Due to the triggering of Activity 11(i) of Listing Notice 1, of the EIA Regulations, 2014 (as amended), a Basic Assessment process must be undertaken in order to obtain Environmental Authorisation for the construction and operation of the grid connection solutions for the Namas Wind Farm. The 300m corridor is also located within the northern corridor of the Strategic Transmission Corridors and the Springbok Renewable Energy Development Zone (REDZ), gazetted on 16 February 2018 (GNR113 and GNR114). This transmission corridor is considered to be of strategic importance for the rollout of the supporting large-scale electricity transmission and distribution infrastructure in terms of Strategic Integrated Project 10: Electricity Transmission and Distribution.

Genesis Namas Wind (Pty) Ltd appointed Savannah Environmental, as the independent environmental consultant, to undertake a Basic Assessment for the project to identify and assess all potential environmental impacts associated with the grid connection solution and recommend appropriate mitigation measures in an Environmental Management Programme (EMPr).

You, and/or the organisation which you represent, have been identified as a directly affected or adjacent property owner that could be impacted by the proposed project. The 2014 EIA Regulations, 2014, as amended, require that the owner or person in control of the land as well as occupiers of the affected and adjacent properties, which could be impacted by the project, are informed of the environmental assessment and authorisation process in writing. In this regard, please could you kindly **inform any other persons** (tenants, employees, farm managers and workers etc.) residing on your property of this BA process.

Should you or any other occupier of your property have an interest in this project, please **register yourselves as I&APs** by completing and returning the attached stakeholder registration/comment form. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the BA process.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

NOTIFICATION OF BASIC ASSESSMENT PROCESS  
AND PUBLIC PARTICIPATION PROCESS:  
INTERESTED AND AFFECTED PARTIES  
(I&APS)

Sent to all registered I&APs on project database

27 March 2019

Dear Interested and Affected Party,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS**

**GRID CONNECTION INFRASTRUCTURE FOR THE NAMAS WIND FARM, KLEINSEE, NORTHERN CAPE PROVINCE**

---

**NOTICE OF BASIC ASSESSMENT PROCESS**

---

Genesis Namas Wind (Pty) Ltd received Environmental Authorisation (EA) for the Namas Wind Farm (DEA.Ref.No.: 14/12/16/3/3/1/1971) on 18 February 2019. The approved wind farm is located within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. In order to evacuate the generated power into the national grid the wind farm requires the development of a grid connection solution.

This letter serves to inform you that a Basic Assessment process is being undertaken for the grid connection solution associated with the wind farm. The infrastructure associated with the grid connection solution will include the construction of a double-circuit 132kV power line, a collector substation and associated infrastructure including access tracks/roads, administrative buildings and laydown areas.

The details of the project is as follows:

Double-circuit 132kV power line	The double-circuit power line will be known as the Rooivlei-Gromis 132kV double-circuit power line.
Corridor Width (for assessment purposes)	300m
Corridor Length	32km
Power Line Servitude Width	31m
Tower Height (pylons)	32m
Collector substation	Rooivlei Substation
Substation Footprint	100m x 200m
Substation Capacity	132kV
Affected Properties	Portions 1, 2 and 3 of the Farm Zonnekwa 328
	Remaining extent of the Farm Zonnekwa 326
	Remaining extent of the Farm Honde Vlei 325
	Remaining extent of the Farm Kannabieduin 324
	Remaining extent of the Farm Sand Kop 322
	Remaining extent of the Farm Mannels Vley 321
	Remaining extent of the Farm Dikgat 195
	Portion 15 of the Farm Dikgat 195
	Remaining Extent of Farm Rooivlei 327

The following two connection options exist within the 300m corridor for each grid connection solution, namely:

- » A direct connection from the proposed Rooivlei Substation to the existing Gromis Substation located ~26km from the northern boundary of the Namas Wind Farm project site. This is considered to be the preferred option from a technical perspective due to the fact that the Gromis Substation is already existing.
- » A direct connection from the Rooivlei Substation to the planned collector substation (known as the Strandveld Substation) which forms part of the Zonnequa Wind Farm grid connection solution. The Strandveld Substation is located ~6km from the northern boundary of the Namas Wind Farm project site. This option is only viable should the Zonnequa Wind Farm be developed.

## **BASIC ASSESSMENT PROCESS**

The development (i.e. construction and operation) of the grid connection infrastructure is subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. In terms of the EIA Regulations of 2014 (as amended on 07 April 2017) promulgated under Sections 24 and 24D of the NEMA, various aspects of the project are listed as activities that may have a detrimental impact on the environment. The main listed activity triggered by the proposed grid connection infrastructure is Activity 11(i) of Listing Notice 1 (GNR327 of the EIA Regulations, 2014 (as amended)), which relates to the development of facilities or infrastructure for the transmission and distribution of electricity outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts.

Due to the triggering of Activity 11(i) of Listing Notice 1, of the EIA Regulations, 2014 (as amended), a Basic Assessment process must be undertaken in order to obtain Environmental Authorisation for the construction and operation of the grid connection solutions for the Namas Wind Farm. The 300m corridor is also located within the northern corridor of the Strategic Transmission Corridors and the Springbok Renewable Energy Development Zone (REDZ), gazetted on 16 February 2018 (GNR113 and GNR114). These transmission corridors are considered to be of strategic importance for the rollout of the supporting large-scale electricity transmission and distribution infrastructure in terms of Strategic Integrated Project 10: Electricity Transmission and Distribution.

Genesis Namas Wind (Pty) Ltd has appointed Savannah Environmental, as the independent environmental consultant, to undertake a Basic Assessment for the project to identify and assess all potential environmental impacts associated with the grid connection solution and recommend appropriate mitigation measures in an Environmental Management Programme (EMPr).

You and/or the organisation, which you represent, has been identified as an I&AP for the proposed project as described above. Should you have an interest in the project, please register yourself as an I&AP by completing and returning the attached registration and comment form. By registering on the project database, you will be kept informed of the BA process being undertaken for the project and will be provided with an opportunity to provide comment and input.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

NOTIFICATION OF AVAILABILITY OF SASIC ASSESSMENT  
REPORT FOR REVIEW AND COMMENT  
(Landowners and I&APs)

Sent to all registered I&APs on project  
database, including Landowners

28 May 2019

Dear Stakeholder and/or Interested and Affected Party,

## BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

### GRID CONNECTION INFRASTRUCTURE FOR THE NAMAS WIND FARM, KLEINSEE, NORTHERN CAPE PROVINCE

---

#### NOTICE OF AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

---

Genesis Namas Wind (Pty) Ltd received Environmental Authorisation (EA) for the Namas Wind Farm (DEA.Ref.No.: 14/12/16/3/3/1/1971) on 18 February 2019. The approved wind farm is located within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. In order to evacuate the generated power into the national grid the wind farm requires the development of a grid connection solution.

As per our notification letter dated 27 March 2019, a Basic Assessment process is being undertaken for the grid connection solution associated with the wind farm. The infrastructure associated with the grid connection solution will include the construction of a double-circuit 132kV power line, a collector substation and associated infrastructure including access tracks/roads, administrative buildings and laydown areas.

#### AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW

As a registered Interested and Affected Party (I&AP), you are hereby notified that the Basic Assessment Report (BAR) is available for review and comment. The BAR can be viewed at the Kleinsee Public Library (3<sup>rd</sup> Avenue, Kleinsee, from **Wednesday, 29 May 2019** to **Monday, 01 July 2019**. The report can also be downloaded from the Savannah Environmental's website: <http://www.savannahsa.com/public-documents/grid-infrastructure/>. A password will be required to access the download, and the password can be requested from our Public Participation Office (contact details below).

We kindly request that you submit your written comment(s) on the BAR before or by **Monday, 01 July 2019** via fax, post or email (contact details below). All comments received during this 30-day review period will be recorded and included in the Final Basic Assessment Report for submission to the Department of Environmental Affairs in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Body:

### **GRID CONNECTION INFRASTRUCUTRE FOR THE NAMAS WIND FARM**

Dear Stakeholder and/or Interested and Affected Party,

With reference to the attached notification letter sent on Tuesday, 28 May 2019, and e-mail below, this email serves to inform you that the comment period for the Basic Assessment Reports (BAR) is ending on Monday, 01 July 2019, As you may recall, the review period and comment period for the BAR was **Wednesday, 29 May 2019 to Monday, 01 July 2019**.

Thank you to those Stakeholder and Interested and Affected Parties who submitted their written comments and those who had not yet submitted written comments, we kindly request that you do so before or on **Monday, 01 July 2019**, by close of business day.

Dear Ms Weyers,

## **BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS**

### **GRID CONNECTION INFRASTRUCTURE FOR THE NAMAS WIND FARM, KLEINSEE, NORTHERN CAPE PROVINCE**

---

#### **NOTICE OF AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT**

---

Genesis Namas Wind (Pty) Ltd received Environmental Authorisation (EA) for the Namas Wind Farm (DEA.Ref.No.: 14/12/16/3/3/1/1971) on 18 February 2019. The approved wind farm is located within the Springbok Renewable Energy Development Zone (REDZ), approximately 20 km south-east of the town of Kleinsee in the Northern Cape. In order to evacuate the generated power into the national grid the wind farm requires the development of a grid connection solution.

This letter serves to request that the Basic Assessment Report (BAR) included in this envelope be made available at the Kleinsee Library. An advertisement has been placed informing the public that the Report is available at the Kleinsee Library for review and comment. Registered interested and affected parties on the projects' database has also been informed that they can have access to the hard copy of the Report at Kleinsee Library.

Please note that the BAR's review period is from **Wednesday, 29 May 2019** to **Monday, 01 July 2019**. The report can also be downloaded from the Savannah Environmental's website: <http://www.savannahsa.com/public-documents/grid-infrastructure/>. A password will be required to access the download, and the password can be requested from our Public Participation Office (contact details below).

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

**Nicolene Venter**

## Grid for Namas Wind Farm

### GRID CONNECTION INFRASTRUCTURE FOR THE NAMAS WIND FARM NEAR KLEINSEE, NORTHERN CAPE PROVINCE

**Project Name:** Grid Connection Infrastructure for the Namas Wind Farm, Northern Cape Province

**Applicant:** Genesis Namas Wind (Pty) Ltd

**Proposed Activity:** The development of a grid connection solution associated with the Namas Wind Farm. The grid connection infrastructure associated with the grid connection solution will include the construction of a collector substation (Rooivlei Substation), a double-circuit 132kV power line and associated infrastructure including access tracks/roads and laydown areas.

**Location:** A 300m wide and 32km long grid connection corridor, located between the authorised Namas Wind Farm and the Gromis Substation, is being assessed. The corridor is located near Kleinsee and within the Nama Khoi Local Municipality and the Namakwa District Municipality. The grid connection corridor is located within the northern corridor of the Strategic Transmission Corridors and the Springbok Renewable Energy Development Zone (REDZ), gazetted on 16 February 2018 (GNR113 and GNR114). The grid connection corridor traverses the following properties:

- » Portion 3 of the Farm Zonnekwa 328 » Remaining extent of the Farm Sand Kop 322
- » Portion 2 of the Farm Zonnekwa 328 » Remaining extent of the Farm Mannels Vley 321
- » Portion 1 of the Farm Zonnekwa 326 » Remaining extent of the Farm Dikgat 195
- » Remaining extent of the Farm Zonnekwa 326 » Portion 15 of the Farm Dikgat 195
- » Remaining extent of the Farm Honde Vlei 325 » Remaining Extent of Farm Rooivlei 327
- » Remaining extent of the Farm Kannableduin 324

**Basic Assessment Process:** The project is subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. Various aspects of the project are listed as activities in terms of the EIA Regulations, 2014 (as amended), that may have a detrimental impact on the environment. Savannah Environmental is undertaking the required environmental assessment and public participation process.

The process will also include the submission of Water Use License Applications to the Department of Water and Sanitation (DWS) as regulated by the National Water Act (Act No. 36 of 1998).

**Basic Assessment Report Available for Review and Comment:** The Basic Assessment Report is available for review and comment from Wednesday, 29 May 2019 to Monday, 01 July 2019 and can be viewed at the Kleinsee Public Library, 3rd Avenue, Kleinsee or downloaded from our website (see below). The due date for written comment is Monday, 01 July 2019.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

**Cc:** Nicolene Venter; Mabel Quinisile  
**Subject:** Namas & Zonnequa Kraglyn Projekte: Toegangskode tot Verslae op Savannah Environmental Webtuiste

Middag Dominic,

Met verysing na ons telefoniese gesprek vanoggend, hiermee die toegangskodes om die Basiese Evalueringsverslae van bogenoemde projekte af te laai:

- Namas: t5\BeBgs
- Zonnequa: \c[6rW"G

Net om ook te bevestig, die Omgewingsmagtiging vir die Namas en Zonnequa Windplase is toegestaan maar nog geen konstruksie begin nie. Daar is nog ander permitte waarvoor aansoek gedoen moet word en die projekte moet ook aan die Departement van Energie voorgele word. 'n Datum is nog nie deur die Departement van Energie gekommunikeer nie.

Hoop bogenoemde beantwoord jou vraag rakende die vrae wat aan jou gerig word dat die projekte "afskop".

Vriendelike groete

**Nicolene Venter**

**From:** Savannah Public Process  
**Sent:** Friday, June 28, 2019 2:54 AM  
**To:** Ruaan Fortuin  
**Subject:** Grid Connections: Namas WEF & Zonnequa WEF

Dear Ruaan,

Thank you for your interest in the Basic Assessment processes for the above-mentioned grid connection projects.

To obtain more information regarding the environmental process and studies undertaken for the Grid Connection for the Namas Wind Farm you can access the Report and Appendices on our website:

<https://www.savannahsa.com/public-documents/grid-infrastructure/grid-for-namas-wind-farm/>. The Release Code is: **t5\BeBgs**

And for the Grid Connection for the Zonnequa Wind Farm you can access the Report and Appendices on our website:

<https://www.savannahsa.com/public-documents/grid-infrastructure/grid-connection-for-zonnequa-wind-farm/>. The Release Code is: **\c[6rW"G**

Google is a good source for obtaining information on the renewable energy industry (i.e. wind, sun, water, etc) should you wish to obtain information regarding the generation of electricity using natural resources.

Hope you find above in order.

Kind regards,

**Nicolene Venter**

Hi Anton,

Did you receive the notification for Zonnequa WEF Grid Connection and if so, would you require the Release Code to download the Report and Appendices?

Kind regards,

**Nicolene Venter**

## **GRID CONNECTION INFRASTRUCUTRE FOR THE NAMAS WIND FARM**

Dear Stakeholder and/or Interested and Affected Party,

Please find attached letter notifying you of the availability of the Basic Assessment Report (BAR) for the above-mentioned project for your review and comment.

The BAR's review period is from **Wednesday, 29 May 2019** to **Monday, 01 July 2019**, and can be downloaded from the Savanna Environmental's website: <http://www.savannahsa.com/public-documents/grid-infrastructure/>.

Please do not hesitate to contact us should you require any additional information.

**Kind regards,**

**Nicolene Venter**
