TO A CHILD, 'UBUNTU' MEANS A LOVING HOME

Consider adoption as an option.

If you consider that ubuntu means 'I am what I am because of who we all are', what do all the orphaned, abandoned and vulnerable children in South Africa say about us?

Something very positive! But only if we take hands and spread the message that **adoption is ubuntu in action.** For there is no truer reflection of the spirit of ubuntu than a nation that takes care of its children.

Start by learning the facts with Add-option, South Africa's first national adoption resource centre.

"Adoption isn't well-known in the African context, but we had known for many years that one day we would offer a home to an abandoned baby. The irony is that it's actually very similar to what we are already doing in the African culture."
