25 November 2014

Dear Ms. I. Masiteng

PERMIT: Remove from its original position
Permit ID: 1101 with Case ID 4126

A permit was issued on 29 November 2013 to Mr. A. Pelser to remove unknown graves and graves older than 60 years from Wonderfontein farm.

During the exhumation process various constraints were experienced with the project, some are captured below:

- Political interference
- Families came forward after the issuance of the permit indicating that they have graves in the graveyards for which the permit was obtained, but do not want to identify the graves to separate the unknown from the known graves

To afford the families time to identify and claim graves in these graveyards, the exhumation process was stopped to ensure that all parties involved were accommodated.

As a result of the aforementioned, the mine therefore requires the permit issued to Mr. A. Pelser to be extended for the exhumation process to continue.

The contact person for the mine is Mrs. Annalise van Zyl, with contact number 071 689 1771 or e-mail annalise.vanzyl@shandukacoal.com.

Regards,

SUNIL MUNGAROO
