- The Mpumalanga Provincial Department of Health (Pending).

SOCIAL CONSULTATION

The cemetery is adversely impacted upon by the expansion of coal mining by Xstrata Coal. We have conducted an intensive process of social consultation in order to identify the buried individuals and to obtain requests for exhumation and re-interment from the affected families. This process commenced on Monday, 21 August 2013 with the erection of bilingual (English and isiZulu) site notices at all the cemeteries (Appendix F). Bilingual (isiZulu and English) newspaper notices were published in the Daily Sun on the 18 September 2013 and Witbank News on Friday, 6 September 2013 (Appendix G). Radio notices were aired on SABC Ligwalagwala FM for 7 days from the 19 -20 November 2013 (Appendix H)

The physical social consultation process commenced on Monday, 2 September 2013 and the methodology followed in terms of this consultative process comprised the following:

- Identification of persons who may have resided in the study area by speaking to elderly people who have lived within the surroundings of the study area all their lives.

- During conversations with these individuals leads may have been forthcoming of families or individuals who used to reside within the study area.
- Our social consultant followed up each of the leads, to ascertain whether these individuals could have graves buried within the study area. In some cases preliminary meetings could immediately take place, while in others a preliminary meeting date was scheduled.
- Once families with graves within the study area had been identified, a preliminary meeting took place to introduce the proposed relocation project to the families. This first meeting also aimed to establish where the graves of the particular family are located.
- Once the family representatives with whom the preliminary meeting had been held had discussed the proposed relocation with the remainder of their families, a date was scheduled on which the physical identification of the graves could be undertaken and if the family so wishes the proposed request forms could be signed (Appendix I).
- On the identification date the respective family representatives were physically taken to the cemeteries where their graves were buried. The representatives then identified their graves and the respective (unique) grave numbers were recorded by the social consultant. At this point those families willing to sign the request forms were then given the opportunity to do so (Appendix I).

As a result of the social consultation process the following results were achieved:

Of the 500 graves located in these three cemeteries, 213 graves have been positively identified by the affected families and a written request has been provided for their relocation. Of these graves a total of 392 are known to be older than 60 years and their corresponding request forms are attached. For the remaining 287 graves located in these three cemeteries, none of the graves have been positively identified or claimed by its next of kin. The low identification rate can be ascribed to the age of the affected cemeteries.

To clarify matters we have allocated the affected graves to the following categories:

Graves older than 100 years (Section 35 of Act 25 of 1999):	None
Graves older than 60 years (Section 36 of Act 25 of 1999):	41
Graves of victims of conflict (Section 36 of Act 25 of 1999):	None
Graves of individuals of royal decent (Section 36 of Act 25 of 1999):	None
Graves younger than 60 years that are located outside a registered cemetery (Ordinance 7 of 1925, Section 36 of Act 25 of 1999, Ordinance 12 of 1980):	108
Graves identified by the next of kin but of which the date of death is presently unknown	64
Presently unknown graves/possible graves (Section 36 of Act 25 of 1999):	287
Total	500

Dear Col. Oosthuizen,

NOTIFICATION OF THE INTENDED RELOCATION OF HUMAN REMAINS – TWEEFONTEIN OPTIMISATION PROJECT, XSTRATA COAL, TWEEFONTEIN COMPLEX.

PROJECT INFORMATION

This communication serves to inform you that our company has been appointed by Glencore South Africa (Pty) Ltd, to effect the relocation of approximately 600 graves affected by mining activities. The graves are located in 10 separate informal cemeteries spread across the farms listed below. We will be assisted on this project by Martins Funeral Undertakers. The public consultation process, to identify next of kin for the graves, commenced in August 2013 and the project is envisaged to be concluded by the end of 2015.

Please be advised that according to the newly promulgated health regulations (published in May 2013), a member of the SAPS must be on site during the exhumation of the remains. We will be in contact with your office to discuss the logistics of this.

LOCATION OF THE GRAVES

The graves, affected by the expansion of mining activities of the Tweefontein Optimisation Project, are located on the following properties that falls under your jurisdiction:

- Farm Boshmansfontein 12 IS
- Portion 1 and 2 of the farm Klipplaats 14 IS
