**10. Brief description:**

○ *Cemetery D:*

Approximately 45 formal graves with headstones. Most of the headstones have inscriptions which identify the families (mostly Afrikaans) and date the graves. Families have been identified for most graves and 3 graves are unknown. 11 graves are definitely 60 years or older and 4 graves are of unknown date and are assumed to be 60 years or older.

○ *Cemetery M:*

Approximately 9-15 stone packed graves, 7 of which have been claimed by families and 2 which are unknown. The graves are aligned in several uneven lines along a north/south axis. Only 7 of the graves have a headstone with an inscription. The dates of death have been ascertained from the families. 1 grave is definitely older than 60 years and 2 are unknown and assumed to be 60 years or older. The remaining 6 graves are only possible graves, they have not been claimed.

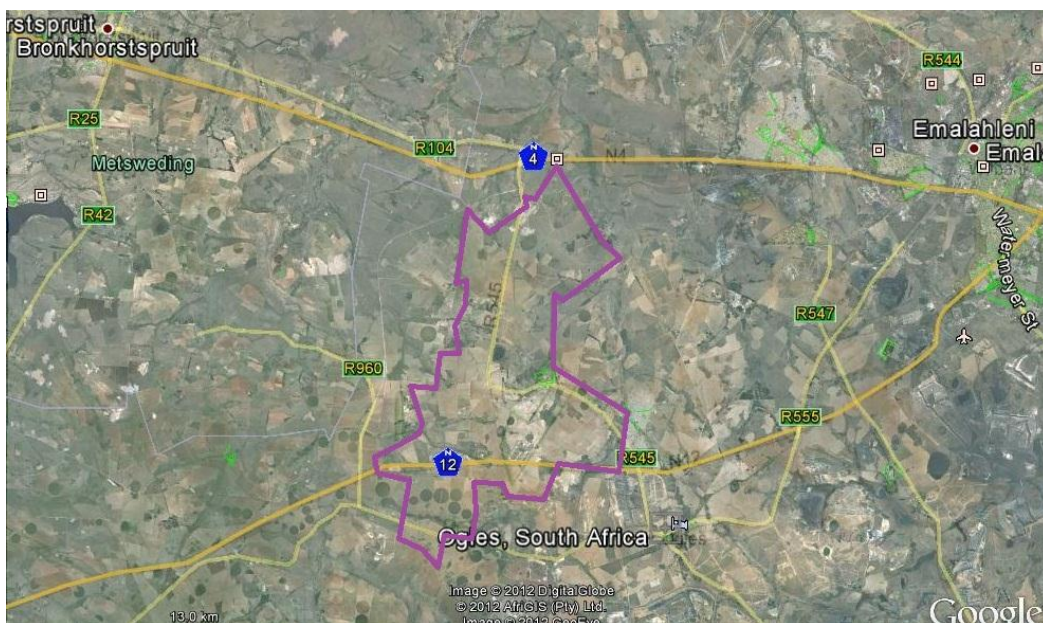

○ *Cemetery Eskom:*

Approximately 9 definite graves, 1 of which has been claimed by the family and 8 which are unknown. The graves are aligned in several uneven lines along a north/south axis. Only 2 of the graves have a headstone with an inscription. The remaining 7 graves are only possible graves. It is assumed that most of these are 60 years or older. The one grave which was claimed is younger than 60 years.

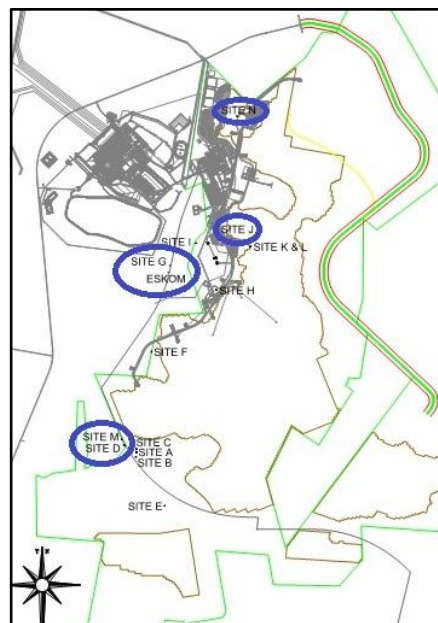

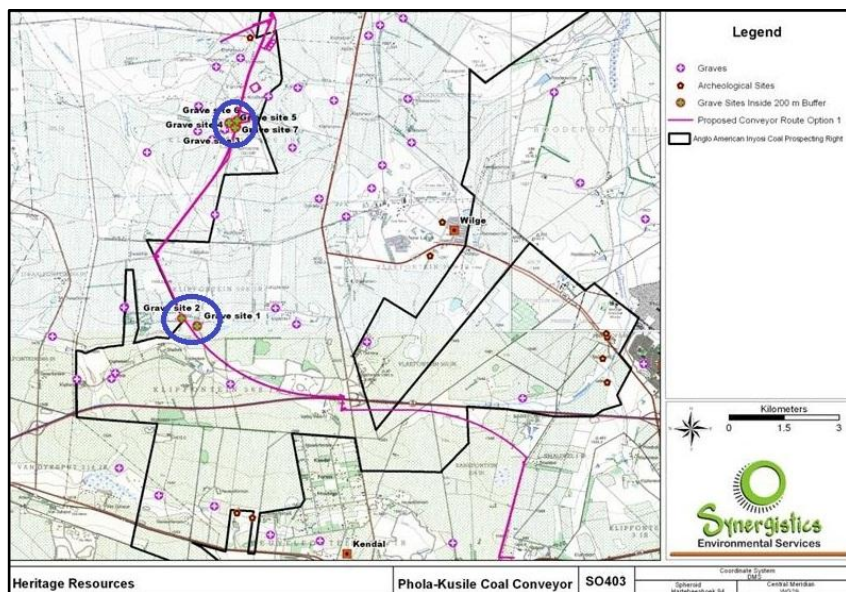

- *Cemetery G:*  
1 formal grave with an inscription. This grave belongs to the Van Onselen family but we have been unable to trace any next of kin. This grave is 60 years old.
- *Cemetery J:*  
Approximately 8 graves belonging to the Vorster family, 2 have headstones. However, so far we have been unable to trace the family. 4 graves are older than 60 years (3 are over 100 years) and 4 are of unknown date and assumed to be 60 years or older.
- *Cemetery N:*  
Approximately 4 formal graves, belonging to the Liebenberg family. All the graves have headstones with names. All 4 graves are younger than 60 years.

**Total number of graves = ±82; of which 34 graves are 60 years or older or unknown**

**11. Evidence for date of grave(s):**

Several of the graves have inscriptions with dates of death and others have been confirmed through consultation with the families. In the case of those that are unknown, it is assumed that they are likely to be 60 years or older (see Appendix C - Graves Register: pink = over 60 years; orange = unknown date).

**14. Purpose of and reasons for application:**

The purpose is to exhume and relocate the remains in the six affected cemeteries since the mine intends to construct a conveyor on the larger property. An HIA was undertaken in 2011, which identified the affected cemeteries, however, it seems that an HIA review comment has not yet been issued by SAHRA (apparently due to the HIA report not being included with the other documentation for the project received by SAHRA). The cemeteries are situated on the following farms: Portion 4 of the Farm Klipfontein 568 JR; Portions 44, 31, 13 and 59 of the farm Klipfontein 566 JR; RE of the Farm Hartbeesfontein 537 JR.
