Dear Ms Seetelo

**INTENDED RELOCATION OF THE REMAINS OF 84 GRAVES FROM THE FARMS TURFSPRUIT
241 KR, LIMPOPO**

BACKGROUND INFORMATION

PGS Heritage has been appointed by Ivanplats (Pty) Ltd to affect the relocation of all graves that are located in various cemeteries within the fenced project area on the farm Turfspruit 241 KR near Mokopane in Limpopo (Appendix A). The project area was fenced in February 2015. The graves within this fence will be adversely impacted by the planned infrastructure of the Ivanhoe Platreef Platinum Mine.

The initial heritage impact assessment was conducted by Digby Wells and submitted to SAHRA in October 2013. Within the project area a bulk sample area is where the first shaft is currently being sunk (Appendix A). The bulk sample area was walled in late 2013. A focussed impact study of the bulk sample area was conducted in October 2013 by Digby Wells. Since then, continual engagement with the surrounding community has been underway (Appendix B).

PERMITS AND PERMISSIONS

The farm Turfspruit 241 KR is state land under the management and control of the Department of Rural Development and Land Reform and is allocated to the Ndebele Vaaltyn Tribe in terms of Government notice no. LG16/1974. The Department of Rural Development and Land Reform have been informed of the intended relocation of graves and have no objection (Appendix E).

The Local Tribal Council has been met with over a series of meetings (Appendix B) to discuss the traditions to be respected as well as the logistics surrounding the exhumation and relocation process. The Honourable Kgoshi L.V. Kekana has agreed that he is aware of the process and has no objection to the proposed relocation of the graves (Appendix C and D).

The Local South African Police Services were informed of the proposed relocation, and the station commander is aware that the process is underway (Appendix F). According to the newly promulgated health regulations (published in May 2013), a member of the SAPS must be on site during the

exhumation of the remains. The Mahwelareng Police Station will be informed of the date of relocation at least 7 days in advance in order to avail a police officer.

We are in the process of applying for permits and permissions from the following institutions:

- The Mogalakwena Local Municipality
- The Waterberg District Municipality
- Department of Health and Social Development Limpopo
- The South African Heritage Resources Agency (SAHRA) as required by Section 36 of Act 25 of 1999. (Graves older than 60 years). Of the 84 graves included in this application 3 graves are known to be older than 60 years and the age of 80 of the graves are unknown.
- Limpopo Cooperative Governance, Human Settlements and Traditional Affairs (CoGHSTA)

UNDERTAKER APPOINTMENT

PGS Heritage will be assisted on the project by a local registered undertaker, BM Dynamic Funeral Service and Thomestones (Appendix G). The undertaker was appointed after a call for quotes was advertised to the service providers in the area. The undertaker is required to fill the following criteria:

- Registration with local municipality;
- Certificate of competence for funeral undertaker premises as stipulated in Regulation 363 of the National Health Act (61 of 2003);

SOCIAL CONSULTATION

The Ivanplats team has conducted an intensive process of social consultation in order to identify the buried individuals and to obtain requests for exhumation and re-interment from the affected families. The grave identification process on the Platreef project began in March 2014 (Appendix B). The local community were invited to the site to identify their graves and the Platreef community Liaison officers recorded their information. In some cases, where possible, the families were visited personally to register the graves their family had within the project area.

From this process 181 graves were registered of which 84 fell within the fenced project area (Appendix A). The families of these 84 graves were continually met with during the first half of 2015 as part of a focused social consultation process. Coupled with this, the Chief of the wider Mokopane region, the local headmen of the four affected villages as well as the graveyard committees were all met with and included in the focused social consultation process. Meetings were held with the families on an individual basis to record the details of their graves and to obtain signed consent to relocate each grave (Appendix H and I). Of the 84 graves included in this application 3 graves are known to be older than 60 years and the age of 80 of the graves are unknown. The entire social engagement process has been recorded in the attached social engagement register (Appendix B).

All the graves included in this application have been identified and claimed by corresponding next-of-kin who have given permission for PGS Heritage to relocate their graves (Appendix I).

Site Notices

At the request of the next of kin site notices were not placed at any of the graves or at the entrance to the property until consent for the relocation was received. Following the Heritage Act, Multi-lingual site notices (Appendix J) are required to be placed at the location for 60 days prior to the permit application being submitted. The details of when site notices were placed at each cemetery can be found in the cemetery descriptions below.

Newspaper Notices

This process commenced on Friday 18 September 2015 with the publication of multi-lingual (English, Sepedi and Xitsonga) newspaper notices in the Daily Sun, a national newspaper (Appendix K). A local newspaper Die Bosvelder published the notices in the 18-24 September 2015, edition as the recommendation of the client.

Graves Identification	Mr L Bambo	11A/1	2015-05-12	The grave is located within a field which was ploughed over by a community member before the start of the mine. That was the only information we received from the NOK. The area was GPR scanned in her absence. It is difficult to engage her further as she is no cooperating. There are no surface features indicating the location of the grave.
Graves Identification	Mr L Bambo and Mr NV Moatshe	12A/1-3	2015-05-12	Mr Moatshe, Nkadibola Victor pointed out this location. There are not surface features indicating graves. His family was also staying on the area in the 1950s. He believes that his family has graves in the area and there are other affected families who has graves in the area that are also confirming his claims. One of the things that I have learnt through the grave identification process families who were residing on the mielie fields knows each other, since some of the locations were pointed out by them and guided us in locating the direct affected NOKs.
Graves Identification	Mr L Bambo, Mr J Makgeta and Ms J Lebelo	7A/1-3	2015-05-12	The location was pointed out on the 12th of May 2015 by the registered NOK through her relative Mr Joel Makgeta and labeled as IVN 7A/01-03. The NOK is Ms Jane Lebelo, her family was residing on the pointed out location back in the 1950s before they relocated to Magongoa current residential area. In most cases according to the explanation of the elders and some of the affected families every family clan was having their burial kraal next to their households at ±10m away from their households. In case of the children they laid them to rest right closer to their houses

Dear Col. Maleka

NOTIFICATION OF THE INTENDED RELOCATION OF HUMAN REMAINS – IVANPLATS

PROJECT INFORMATION

This communication serves to inform you that our company has been appointed by Ivanhoe Mines, to effect the relocation of all graves affected by mining activities within the IVANPLATS project area.

Currently, the focus is on graves within the project fenced area, located on the farm Turfspruit 241 KR which contains approximately no more than 100 graves, located in approximately 30 separate informal cemeteries spread across the farm. The effected graves are to be moved to existing formal cemeteries selected by the next-of-kin. We will be assisted on this project by a local undertaker and local grave digging committees. The Traditional Authority is also involved in the process and will be conducting the required cultural ceremony. The public consultation process, to identify the closest next of kin for the graves commenced in early 2014 and is currently underway. This first phase of the project, focused within the fenced area, is envisaged to be concluded before the end of 2015.

Please be advised that according to the newly promulgated health regulations (published in May 2013), a member of the SAPS must be on site during the exhumation of the remains. We will be in contact with your office to discuss the logistics of this.

LOCATION OF THE GRAVES

The graves, affected by mining infrastructure of the IVANPLATS Project, are located on the following property that falls under your jurisdiction:

- Turfspruit 241 KR
- Farm Rietfontein 2 KS

Testimony I Am Mrs. Mthembu from East London. Am also here to testify BABA CHAIWE for changing my life. I have been meeting with many sangomas trying to solve my financial problem but no lucky all I was putting myself in worse. Since I have been reading a testimony from Mrs Nothamba in the papers I also tried to borrowed MAFI EFUW that brings money in my house everyday. I was shocked to see the money come in my house. My things got changed and open up my own big spanza shop and buy my own car, they also gave me ICHI IRI for wozawoza for my business. My sister-in-law she is running a tavern but her business went down they also gave her ICHI IRI for wozawoza now her business has grown up again than before. My nephew was always worried about her husband left her with three kids for the past two years. I refer her to RAR R CHAIWE as well within 24hours her husband came back, as for now they are happy family again. Try your lucky again if you been played a lot am definitely sure you want regret just call BABA CHAIWE on 883 388 7887 Nothing is impossible

TESTIMONY OF RAR R CHAIWE. TRUE LIFE OF EXPERIENCE STORY I BET FOR BABA KASUPE TO ANYONE WHO WENT THROUGH THE SAME PROBLEMS LIKE ME. My name is RABA from Mafikeng my number is 0422484408. I'm currently living in Bloemfontein for my business. From year 2013 to 2014 I lost everything in my life, cars, job and my house. I tried to look for help from different sangomas, pastors and spiritual healers. I lost all the money that I had saved up. I was hopeless and did not trust anyone. Early this year I saw a testimony of Mafikeng 0282023882 testifying about the miracle that the magic wallet did for her after years of suffering. I was scared, but as a man I work up 1 day and called RABA. He explained to me about bringing back lost lover same day, clear all my debts and get loans same time, win court cases. Magic wallet, rat, ring and short boys. I was interested in short boys. Then he asked where do I live and how do I want the money. My wife came back we have a new life together, she wanted to have a business. I took her to Baba and she chose the magic wallet and gives her money every day. Call Baba now, for sure you will be happy too. MAFIKENG 0282023882 BELIEB CHAIWE MIAMI I CHAIWE EABA FOR CHAIWE LIFE FOR REFETZ 082 24 2481
