Dear Sir/Madam

**Update on the Paul Kruger Street TRT & Beautification**

This serves to confirm that the above-mentioned report was discussed by the PHRA-G Heritage Impact Assessment (HIA) Committee on Wednesday, 31 July 2013.

After reviewing your report (Urban Design Principles for Paul Kruger Street – Draft 14.06.2013, by Mashabane Rose Associates), the Committee has made the following recommendations:

- The update report in terms of how the approved project will unfold was highly acknowledged.
- It was further noted that some of the artistic impression indicate that some historical structures might be changed or demolished. The applicant is therefore advised, if that is the case, to come back for PHRA-G's approval regarding each structure.
- For example, the committee has noted that the balustrade around the Church Square looks different or changed on the artistic drawings reviewed by the committee.

For further clarity, please do not hesitate to contact us at the above-mentioned details.

Kind Regards

Tebogo Molokomme
