Dear Sir/Madam

RE: UPDATE: CURATION OF ARTEFACTS FOR THE PLATREEF MITIGATION PROJECT, MOKOPANE

This is to inform you that Polokwane Municipality, Cultural Services, Museums Section, is committed to take responsibility for the archaeological material which will be excavated from the site of your choice as stated in your letter dating 3rd May 2016, wherein you stated the location of the site in the area around Mokopane.

Polokwane Museums, guided by the Three Tier Management System of operation, is committed to engage in the protection of heritage Resources in the Province of Limpopo, for the universal/holistic benefit inclusive of your intention thereof. We would also like to thank SAHRA and your institution for the trust that you vested on us for this kind of function. It is really appreciated that such kind of material will assist in further research by other academics in filling up research gaps in the heritage environment.

Polokwane Museums is still looking forward to working together with your company in the preservation of heritage material. You are therefore requested to inform Polokwane Municipality, Museums of the time when you will be commencing with your project so that proper record could be kept and also, if possible, to be on site for monitoring of the finds during the excavation process since we are going to be curators in this regard.

We hope that you will find this in order.

Yours Truly,

MANAGER
CULTURAL SERVICES
