Figure 1: Site Notice Placement	5
---------------------------------------	---

1. INTRODUCTION AND BACKGROUND

The project involves the development of a new mining operation within eMalaheni (near Phola) in the Mpumalanga Province (refer to the locality map below). The mine will be located on Portions RE/2 and 19 of the Farm Wildebbeestfontein 327 JS and will occupy approximately 250 ha in total. It is anticipated that mining will involve removing around 9 Mt of coal for a life of 7 years.

The seams present are the No. 1, 2, 4 and very limited amounts of No. 5 seam. The overburden of the coal seams varies from 3.5m to 33m. with an average of 11.06m. The no 4# upper coal seam is on average 1.4m thick, the 4# lower is 4.1m thick, the 2# upper is 1.9m thick, the 2# lower is 2.5m thick and the 1# seam 1.5m is on average thick.

The coal resource will be mined using open pit methods due to the seemingly depth of the coal reserve below surface. Strip and Rollover Mining Techniques will be utilised considering the site layout and resources. Rollover Mining involves the development of an open pit through a series of benches at varying depths. Strip mining involves the movement of overburden laterally to an adjacent empty pit where the mineral has already been extracted. This further assist with the concurrent rehabilitation and is also proven to be the most effective way of handling materials. The proposed project will include one open pit.

Topsoil and subsoil will be stripped using an excavator and will be stored in separate stockpile areas on the mining area. Drilling and blasting will be employed for the hard overburden or bedrock to expose the coal seams. Once blasted, the hard overburden will be excavated and stockpiled separately for rehabilitation. The mined coal from the open pit will be transported via the haul roads and stored on the Run of Mine (RoM) stockpile area on the nearby Elandsfontein Colliery. Elandsfontein Colliery have an approved authorisation to accommodate this additional coal at its processing facilities. The coal will be processed at the Elandsfontein Colliery either through only Crushing and Screening or through the washing plant to develop sellable products that will be sold to either the local or export markets.

This document serves as the Proof of Public Participation Report and contains all documents related to the Public Participation Process.

Updated- 16/9/2019

2. SITE NOTICES

Site notices were placed around the proposed mining site in accordance with Regulation 41(2)(a), (3) and (4) of the Environmental Impact Assessment Regulations Published under Government Notice R982 in *Government Gazette* 38282 of 4 December 2014 (as amended)

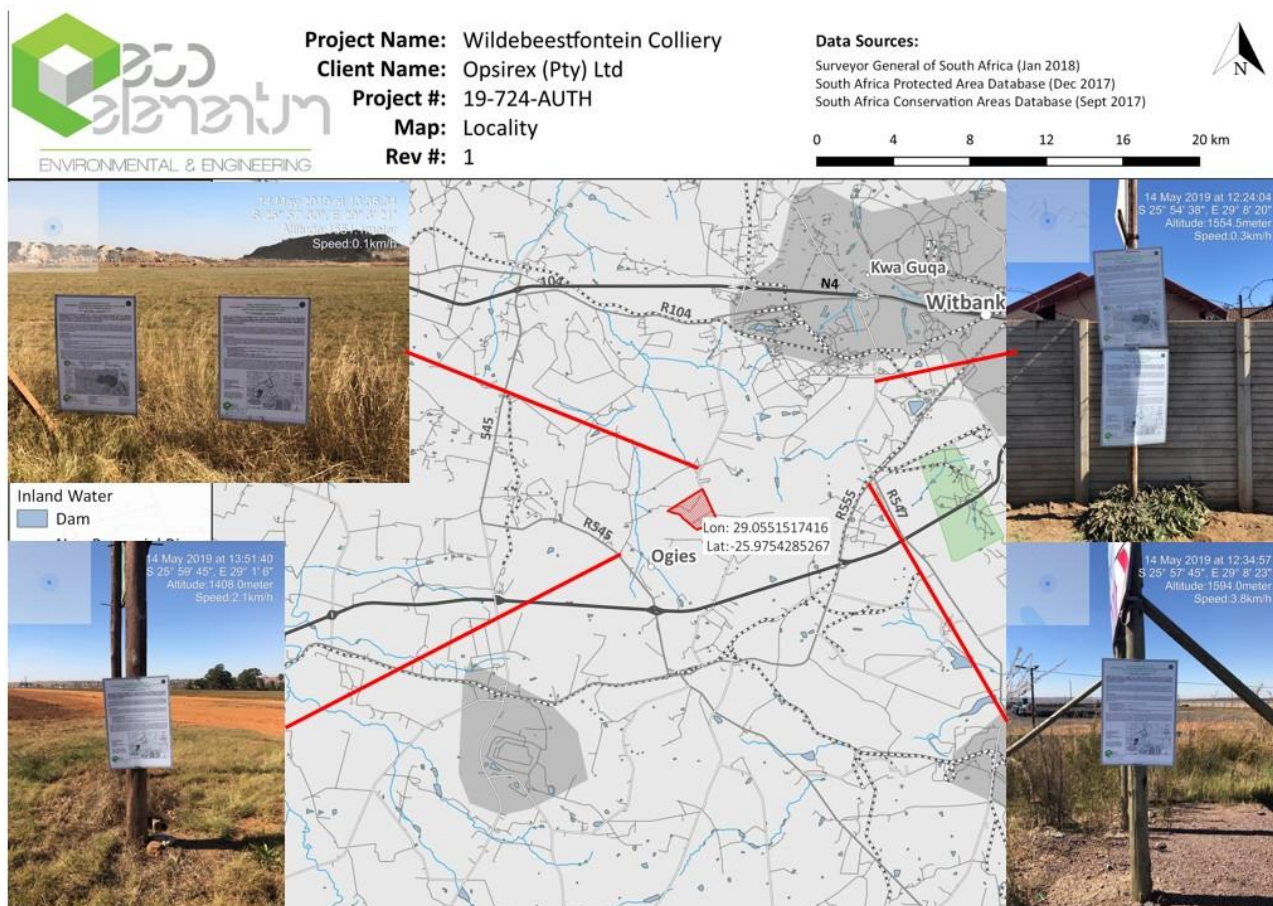

Figure 1: Site Notice Placement

PUBLIC PARTICIPATION NOTICE FOR ENVIRONMENTAL AUTHORISATION, MINING RIGHT AND WATER USE LICENSE APPLICATION: WILDEBEESTFONTEIN COLLIERY

DMR REF: MP 30/5/12/3/2/1 (10235) EM ECO ELEMENTUM REF: 19-724-AUTH
DATE OF PUBLICATION OF THIS NOTICE: 10 May 2019

NOTICE AND INVITATION TO COMMENT FOR A PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED ENVIRONMENTAL AUTHORISATION, MINING RIGHT AND WATER USE LICENSE APPLICATION FOR THE MINING OF COAL IN RESPECT OF WILDEBEESTFONTEIN 327 JS PTN 19 & RE OF PTN 2, NKANGALA DISTRICT, MPUMALANGA PROVINCE OF SOUTH AFRICA

Notice is hereby given in terms of the Minerals and Petroleum Resources Development Act (Act No.28 of 2002)(MPRDA), Section by 12(d) of The Minerals and Petroleum Resources Development Amendment Act, 2008 (Act No. 49 Of 2008) together with Regulation 3 (6) of the National Environmental Management Act (Act No 107 Of 1998): Environmental Impact Assessment Regulations 2014 (As Amended)(NEMA) and the National Water Act,1998 (At No. 36 of 1998)(NWA), that Opsirex (Pty) Ltd has applied for a Mining Right. Referenced MP 30/5/12/3/2/1 (10235) EM and Water Use Licence and would like to engage the local property owners, Interested and Affected Parties in respect of activities proposed on Wildebessfontein 327 JS ptn 19 & RE of ptn 2, Nkangala District, Mpumalanga Province of South Africa

PROPOSED PROJECT:

The coal resource will be mined using open pit methods due to the seemingly depth of the coal reserve below surface. Strip and Rollover Mining Techniques will be utilised considering the site layout and resources. Rollover Mining involves the development of an open pit through a series of benches at varying depths. Strip mining involves the movement of overburden laterally to an adjacent empty pit where the mineral has already been extracted. This further assist with the concurrent rehabilitation and is also proven to be the most effective way of handling materials. The proposed project will include one open pit. The project will be located within eMalahleni (near Phola) in the Mpumalanga Province

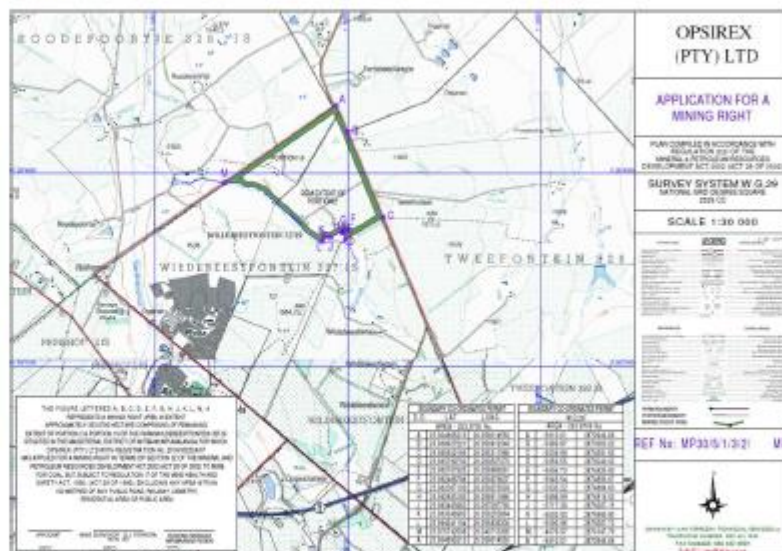

The intent to mine requires the following applications and subsequent approvals prior to commencement:

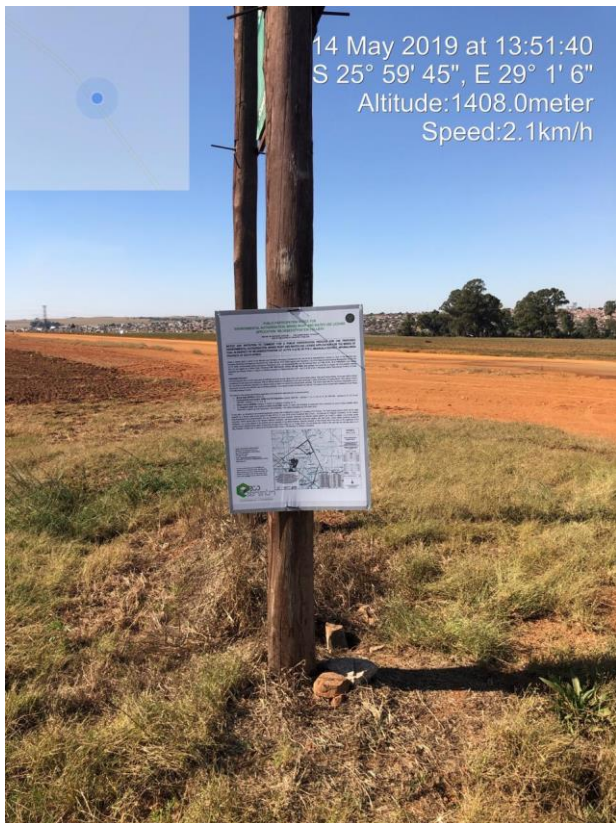

- **Mining Right (MPRDA):** Section 22
- **Environmental Authorisation (NEMA and EIA Regulations)** namely: GNR 983 – Activities 11, 12, 13, 22, 24, 27, 30; GNR 984 - Activities 6,15,17 & 19 and GNR 985 - Activities 2, 4, 10, 12 & 14)
- **Waste Licence (NEMWA Category A: Activity 14, Category B: Activity 10, 11)**
- **An Integrated Water Use Licence in terms of the NWA Section 21** water uses including (a) abstraction from a borehole (c) and (i) mining activities within 500m from a wetland (g) dust suppression, coal stockpiling, mine residue stockpiling and dirty water dams.

To this effect, an integrated environmental application process will be followed by means of a Scoping & EIA Process. The Draft Scoping Report (DSR) will be made available for a 30-day public review period (13 May 2019 to 12 June 2019) at the Emalahleni Main Library - 28 Hofmeyer St, Witbank, Emalahleni, on the website (<http://ecoelementum.co.za/downloads/>) and per download link (upon request). Interested and affected parties (I&APs) are invited to register and provide written comments. I&APs should refer to the relevant reference number(s), and must provide their comments together with their name, contact details (preferred method of notification, e.g. e-mail address or fax number) and an indication of any direct business, financial, personal or other interest which they have in the application to the contact person indicated below within 30 days from the date of this notice (i.e. by 10 May 2019). You are hereby also invited to the open day that will take place on 31 May (between 10:00am and 13:00pm) at the Emalahleni Main Library - 28 Hofmeyer St, Witbank, Emalahleni.

Queries regarding this matter should be referred to: Eco Elementum (Pty) Ltd
Mr. Vernon Siemlinski/Mrs. Riana Pansino
Office: 012 807 0383
Fax: 086 714 5399
Email: WildebeestfonteinRFP@ecoe.co.za
Project Ref: 19-724-AUTH Wildebessfontein Mining Right Application

In order to ensure that you are identified and registered as an interested and/or affected party, please submit your name, contact information and interest in the matter to the contact person given above within **30 days** from the date of this notice.

2.1 ISSUES AND RESPONSES

2.1.1 I&APs

Name Surname	Involvement	Method of comment	Comment	EAP Response
J. Meyer, Gert F. Meyer	Nearby Landowner	Open Day 31 May 2019	The Meyer's are located on the catchment divide and therefore on the highest point in the immediate area. They are experiencing drawdown from the surrounding mines as the groundwater levels in their boreholes are lower than usual. Another mine will add to the drawdown effect and how will they be compensated for their loss in groundwater.	A detailed groundwater investigation is being undertaken and the impacts will be represented in the EIA. This will concur whether the drawdown from this mine will impact on the Meyer's boreholes.
			The Road that runs between Ogies and the Mine runs directly past their house. The traffic on this road will increase as more people are now going to travel from Ogies in the mines direction. The road is not made to carry so much traffic and the dust will increase. Will the road be upgraded to handle the traffic and minimise the dust? Does the mine know that South 23 wants to close and divert this road, they will be mining through it?	A detailed Traffic impact assessment will be undertaken for the EIA which will propose the correct mitigation measures to address the impacts.
			The wind blows in the direction of their farm and all the mine dust blows onto their farm. This mine will just add to the dust.	An Air Quality study is being undertaken to recommend mitigation measures to address these impacts.
Mr Nkkosinathi Mtsweni	Greater eMalahleni Youth Forum	Open Day 31 May 2019	GEYF is a non profit organisation that would like to join and participate in the SLP as they do community outreach programmes. The Mine needs to give the GEYF an opportunity and align the SLP/CSI projects to achieve goals and social objectives	Once the Mine starts with construction the SLP will be implemented and the communities will be approached regarding job opportunities.
			They face a high rate of youth unemployment in the country they think this is one of the positive ways to reduce the unemployment rate in eMalahleni. They want to create job	Once the Mine starts with construction the SLP will be implemented and the communities will be approached regarding job opportunities.

			opportunities and skills development and empower the young people and build their capacity.	

2.1.2 Commenting Authorities

Organisation	Name Surname	method of comment	Comment	EAP Response
Transnet	Thami Hadebe	email: official letter 15 May 2019	Transnet is not affected by the proposed development	Comment is noted
eMalahleni Local Municipality	H S Mayisela	email: official letter 31 May 2019	The proposed mine triggers activities of great magnitude and therefore is a serious threat to the environment in terms of general environmental degradation and elevated carbon footprint.	This comment is noted and therefore an application for an environmental authorisation has been submitted and an Environmental Management Plan will be compiled
			The portion of land specified is no longer natural, and other mining activities in close proximity will add to the cumulative impact on the environment and human health in terms of noise, air pollution and soil pollution.	This will be addressed as part of the cumulative impact assessment of the EIA.
			The proposed application is supported subject to the following: a. the applicant must submit a copy of a rezoning certificate; b. the municipality is informed about blasting periods every time blasting should be undertaken; c. the mine waste plan is in line with the municipality's waste management bylaws, especially in terms of waste transportation and disposal permits. d. Alien invasive species be controlled and managed by the applicant. e. replant/replace/relocate indigenous vegetation that may be of importance or that is protected in the province if such vegetation cannot be avoided.	a. The rezoning application will be dealt with separately to this application. B. The mine will inform all relevant parties of blasting. C. Waste contractors will be contracted D. An alien invasive species management plan will be compiled once the mine is operational. e. A vegetation management plan will be compiled once the mine is operational, as part of the rehabilitation plan.

3. SCOPING PHASE

3.1 ADVERTISEMENTS

Advertisements were placed in accordance with Regulation 41(2)(c) of the Environmental Impact Assessment Regulations Published under Government Notice R982 in *Government Gazette* 38282 of 4 December 2014 (as amended). One (1) advertisement was placed in the Witbank News on 10 May 2019.

PUBLIC PARTICIPATION NOTICE: WELTVEEDEN COAL MINING RIGHT APPLICATION
DMR REF: MP 30/5/1/2/3/2/1 (10235) EM ECO ELEMENTUM REF: 19-724-AUTH
DATE OF PUBLICATION: 10 MAY 2019

NOTICE OF PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED MINING RIGHT APPLICATION FOR COAL ON WILDEBESSTONTEIN 327 JS PTH 19 & RE OF PTN 2, NKANGALA DISTRICT, MPUMALANGA PROVINCE OF SOUTH AFRICA

Notice is hereby given in terms of the Minerals and Petroleum Resources Act (Act No.28 of 2002) (as amended) (MPRDA) and its associated Regulations, the National Environmental Management Act (Act No 107 Of 1998) (NEMA) including its associated Environmental Impact Assessment Regulations 2014 (as amended), the National Environmental Management Waste Act, 2008 (Act No 59 of 2008)(NEMWA) and the National Water Act (Act No. 36 of 1998 (NWA), that Opsirex (Pty) Ltd, has applied for a Mining Right on the above-mentioned farms.

PROJECT TITLE: Wildebessfontein Mining Right Application (19-724-AUTH)
PROPOSED PROJECT: The coal resource will be mined using open pit methods due to the seemingly depth of the coal reserve below surface. Strip and Rollover Mining Techniques will be utilised considering the site layout and resources. Rollover Mining involves the development of an open pit through a series of benches at varying depths. Strip mining involves the movement of overburden laterally to an adjacent empty pit where the mineral has already been extracted. This further assist with the concurrent rehabilitation and is also proven to be the most effective way of handling materials. The proposed project will include one open pit. The project will be located within eMalahleni (near Phola) in the Mpumalanga Province

The intent to mine requires the following applications and subsequent approvals prior to commencement:

- Mining Right (MPRDA): Section 22
- Environmental Authorisation (NEMA and EIA Regulations namely: GNR 983 – Activities 11, 12, 13, 22, 24, 27, 30; GNR 984 - Activities 6, 15, 17 & 19 and GNR 985 - Activities 2, 4, 10, 12 & 14)
- Waste Licence (NEMWA Category A: Activity 14, Category B: Activity 10, 11)
- An Integrated Water Use License License in terms of the NWA Section 21 water uses including (a) abstraction from a borehole (c) and (i) mining activities within 500m from a wetland (g) dust suppression, coal stockpiling, mine residue stockpiling and dirty water dams.

To this effect, an integrated environmental application process will be followed by means of a Scoping & EIA Process. The Draft Scoping Report (DSR) will be made available for a 30-day public review period (13 May 2019 to 12 June 2019) at the eMalahleni Main Library - 28 Hofmeyers St, Witbank, eMalahleni, on the website (<http://ecoelementum.co.za/downloads/>) and per download link (upon request). Interested and affected parties (I&APs) are invited to register and provide written comments. I&APs should refer to the relevant reference number(s), and must provide their comments together with their name, contact details (preferred method of notification, e.g. e-mail address or fax number) and an indication of any direct business, financial, personal or other interest which they have in the application to the contact person indicated below within 30 days from the date of this notice (i.e. by 10 June 2019). You are hereby also invited to the open day that will take place on 31 May (between 10:00am and 14:00pm) at the eMalahleni Main Library - 28 Hofmeyers St Witbank, eMalahleni.

Updated- 16/9/2019

3.2 BACKGROUND INFORMATION DOCUMENT

A Background Information Document (BID) was compiled and sent to interested and affected Parties (I&As) in accordance with Regulation 41(2)(b) and (3) of the Environmental Impact Assessment Regulations Published under Government Notice R982 in *Government Gazette* 38282 of 4 December 2014 (as amended)

**INTEGRATED ENVIRONMENTAL AUTHORISATION PROCESS
FOR THE PROPOSED WILDEBEESTFONTEIN MINING RIGHT
APPLICATION**

**BACKGROUND INFORMATION DOCUMENT (BID) AND
INVITATION TO COMMENT**

May 2019

DMR REF: MP 30/5/12/3/2/1 (10235) EM ECO ELEMENTUM REF: 19-724-AUTH

PURPOSE OF THIS DOCUMENT

The purpose of this document is to provide all interested and affected parties (I&As) with information about the proposed Wildebbeestfontein Mining Right Application Project. In addition, the document also aims to:

- Introduce and explain the Scoping and Environmental Impact Reporting (S&EIR) process, including the public participation process (PPP) that will be followed
- Invite all I&As to comment on the proposed project by raising issues of concern and/or suggestions for enhanced benefits/alternatives on any aspect related to the proposed development.
- Invite I&As to the open day at Emalahleni Main Library - 28 Hofmeyr St, Witbank, Emalahleni - on 31 May 2019, 10h00 to 13h00.

HOW TO REGISTER

To register, comment and/or obtain more information on the project please contact the following person(s):

Mr. Vernon Siemelink/Mrs Riana Panaino
Office: 012 807 0383
Fax: 086 714 5399
Email: WildebeestfonteinPPP@ecoe.co.za
Project Ref: 19-724-AUTH Wildebbeestfontein Mining Right Application

In order to ensure that you are identified and registered as an interested and/or affected party, please submit your name, contact information and interest / comment in the matter to the contact person given above within **30 days** from the date of this notice.

INTRODUCTION AND BACKGROUND

Notice is hereby given in terms of the Minerals and Petroleum Resources Development Act (Act No.28 of 2002)(MPRDA), Section by 12(d) of The Minerals and Petroleum Resources Development Amendment Act, 2008 (Act No. 49 Of 2008) together with Regulation 3 (6) of the National Environmental Management Act (Act No 107 Of 1998); Environmental Impact Assessment Regulations 2014 (As Amended)(NEMA) and the National Water Act,1998 (Act No. 36 of 1998)(NWA), that Opsirex (Pty) Ltd, has applied for a Mining Right. Referenced **MP 30/5/12/3/2/1 (10235) EM and Water Use License** and would like to engage the local property owners, Interested and Affected Parties in respect of proposed activities on the farm Wildebbeestfontein 327 JS ptn 19 & Re of ptn 2, Nkangala District, Mpumalanga Province of South Africa

ACTIVITIES & INFRASTRUCTURE

- Access & Haul roads;
- Contractor's Yard with septic/chemical abjection facilities;
- Offices;
- Workshop and stores;
- Diesel facilities and hardstand;
- Electricity supply (transformers and local distribution);
- Potable Water supply and reticulation;
- Barricade for the start of mining;
- Stockpiles (topsoil, overburden, subsoil/sofs, ROM)
- Diversion berms and trenches;
- Primary pollution control dam (PCD).

SPECIALIST STUDIES

- Air Quality Assessment
- Heritage Impact Assessment
- Traffic Assessment
- Ecological (Aquatic, Wetlands, Terrestrial)
- Geo-hydrological
- Surface water (including SWMP)
- Soils, land use and land capability
- Visual Impact Assessment
- Social Impact Assessment
- Noise Assessment
- Blasting and Vibration

WHAT IS A S&EIA/EMP

The National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) and the Mineral and Petroleum Resource Development Act, 2002 (Act No. 28 of 2002) (MPRDA) prescribes the processes to be followed when compiling the Environmental Impact Assessment (EIA) and the Environmental Management Programme (EMP), in respect of listed activities and mining operations respectively, that forms the legal basis of this authorisation. The process aims to ensure that all relevant factors are considered when evaluating the potential environmental impacts of a project, as well as developing appropriate environmental management measures to mitigate these impacts.

The purpose of the EIA is to assess the current environment in which a proposed activity will take place and assess all potential impacts in terms of its extent, duration, intensity and significance relating to the specific activity. The EMP describes the goals and objectives for environmental management to minimise or eliminate the potential environmental impacts, the action plans to bring effect to those goals and objectives, the procedures to be implemented to ensure integration of environmental management into the daily operations, as well as a plan to raise awareness of employees and the surrounding community with regards to environmental management.

LEGAL REQUIREMENT

The mine requires the following approvals:

- Mining Right (MPRDA): Section 22
- Environmental Authorisation (NEMA and EIA Regulations):
 - GNR 983 – Activities 11, 12, 13, 22, 24, 27, 30;
 - GNR 984 – Activities 6,15,17 & 19 and
 - GNR 985 – Activities 2, 4,10, 12 and 14
- Waste Licence (NEMWA)
 - Category A: Activity 14
 - Category B: Activity 10, 11
- An Integrated Water Use License in terms of the NWA Section 21 water uses including
 - (a) abstraction from a borehole
 - (c) and (i) mining activities within 500m from a wetland
 - (g) dust suppression, coal stockpiling, mine residue stockpiling and dirty water dams.

LOCATION

Closest town: 17 km West of eMalahleni, 1.5km east of Phola, and approximately 3.5km north of Ogies

Farm Portions: Wildebbeestfontein 327 JS ptn 19 & Re of ptn 2

Local Municipality: eMalahleni LM

District Municipality: Nkangala DM

HOW CAN I GET INVOLVED?

Please send us your comments/views so that we can address them during the S&EIR process. Once you register (see attached registration form), Eco Elementum (Pty) Ltd will keep you informed of the availability of the reports.

The Draft Scoping Report (DSR) will be made available for a 30-day public review period (13 May 2019 to 12 June 2019) at the Emalahleni Main Library - 28 Hofmeyr St, Witbank, Emalahleni, on the website (<http://ecoelementum.co.za/downloads/>) and per download link (upon request).

A public open day will be held on 31 May 2019 at the Emalahleni Main Library (from 10:00am to 13:00pm)

To register and/or obtain more information on the project please contact the following person(s) or complete the attached registration form and return to:

Yes, I would like to participate in this public participation process	<input checked="" type="checkbox"/>
No, I am not interested in participating	<input type="checkbox"/>
I confirm that I received the BID	<input type="checkbox"/>

COMMENTS (additional comment documents can be attached)

As Siroto Emalahleni Youth Forum we register as interested and affected party that is located to WILDEBEESTPAN mining that is located to Nkhangale district in Emalahleni Municipality.

As registered Non Profit Organisation "Siroto Emalahleni Youth Development 193-056 NPO we would like to join and participate on Social lease Plan as we do community centered programs we can also be helped to be part of the Stakeholder as we are willing that the mine need to give our NPO a chance and also it with CSI/SLP projects and to achieve goals and social objectives.

As we facing high rate of youth unemployment in country we think this is one of the positive projects to reduce unemployment rate around emalahleni we need to create jobs opportunities and skill development and we want to empower young people and give them chance to build their capacity.

SEEF- "Chances secure the prepared minds"

PUBLIC PARTICIPATION NOTICE:
WILDEBEESTFONTEIN COAL MINING RIGHT APPLICATION

DMR REF: MP 30/5/12/3/2/1 (10235) EM ECO ELEMENTUM REF: 19-724-AUTH

NOTICE OF PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED MINING RIGHT APPLICATION FOR COAL ON WILDEBEESTFONTEIN 327 IS PTN 19 & RE OF PTN 2, NKANGALA DISTRICT, MPUMALANGA PROVINCE OF SOUTH AFRICA

Notice is hereby given in terms of the Minerals and Petroleum Resources Act (Act No.28 of 2002) (as amended) (MPRDA) and its associated Regulations, the National Environmental Management Act (Act No 107 Of 1998) (as amended) (NEMA) including its associated Environmental Impact Assessment Regulations 2014 (as amended), the National Environmental Management Waste Act, 2008 (Act No 59 of 2008)(NEMWA) and the National Water Act (Act No. 36 of 1998 (NWA), that Opsirex (Pty) Ltd, has applied for a Mining Right on the above-mentioned farms.

PROJECT TITLE: Wildebbeestfontein Mining Right Application (19-724-AUTH)

PROPOSED PROJECT: The coal resource will be mined using open pit methods due to the seemingly depth of the coal reserve below surface. Strip and Rollover Mining Techniques will be utilised considering the site layout and resources. Rollover Mining involves the development of an open pit through a series of benches at varying depths. Strip mining involves the movement of overburden laterally to an adjacent empty pit where the mineral has already been extracted. This further assist with the concurrent rehabilitation and is also proven to be the most effective way of handling materials. The proposed project will include one open pit. The project will be located within eMalahleni (near Phola) in the Mpumalanga Province

The intent to mine requires the following applications and subsequent approvals prior to commencement:

- The intent to mine requires the following applications and subsequent approvals prior to commencement:
- **Mining Right (MPRDA):** Section 22
- **Environmental Authorisation (NEMA and EIA Regulations namely: GNR 983 – Activities 11, 12, 13, 22, 24, 27, 30; GNR 984 - Activities 6, 15, 17 & 19 and GNR 985 - Activities 2, 4, 10, 12 & 14)**
- **Waste Licence (NEMWA Category A: Activity 14, Category B: Activity 10, 11)**
- **An Integrated Water Use License** in terms of the NWA Section 21 water uses including (a) abstraction from a borehole (c) and (i) mining activities within 500m from a wetland (g) dust suppression, coal stockpiling, mine residue stockpiling and dirty water dams.

The Draft Environmental Impact Assessment Report (DEIR) will be made available for a 30-day public review period (16 Sept 2019 to 16 Oct 2019) at the eMalahleni Main Library - 28 Hofmeyer St, Witbank, eMalahleni, on the website (<http://ecoelementum.co.za/downloads/>) and per download link (upon request). Interested and affected parties (I&APs) are invited to register and provide written comments. I&APs should refer to the relevant reference number(s), and must provide their comments together with their name, contact details (preferred method of notification, e.g. e-mail address or sms number) and an indication of any direct business, financial, personal or other interest which they have in the application to the contact person indicated below. You are hereby invited to the open day that will take place on 11 Oct (between 10:00am and 12:00pm) at the eMalahleni Main Library - 28 Hofmeyer St, Witbank, eMalahleni.

NOTICE OF PUBLIC PARTICIPATION NOTICE: WILDEBESSFONTEIN COAL MINING RIGHT APPLICATION
DMR REF: MP 19/9/2/2/1/162201 EN ECD ELEMENTUM REF: 19-724-AUTH
NOTICE OF PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED MINING RIGHT APPLICATION FOR COAL ON WILDEBESSFONTEIN 327 35 PFM 19 & BE OF PFM 2, NIKANGALA DISTRICT, MPUMALANGA PROVINCE OF SOUTH AFRICA
 Notice is hereby given in terms of the Minerals and Petroleum Resources Act (Act No.28 of 2002) (as amended) (MPRDA) and its associated Regulations, the National Environmental Management Act (Act No 107 of 1998) (as amended) (NEMA) including its associated Environmental Impact Assessment Regulations 2014 (as amended), the National Environmental Management Waste Act, 2008 (Act No 101 of 2008) (NEMWA) and the National Water Act (Act No. 36 of 1988) (NWA), that Synthe Coal (Pty) Ltd, has applied for a Mining Right on the above-mentioned farm.
PROJECT TITLE: Wildebessfontein Mining Right Application (19-724-AUTH)
PROPOSED PROJECT: The coal resource will be mined using open pit methods due to the severity depth of the coal reserve below surface. Strip and Follow Mining techniques will be utilized considering the site layout and resources. Follow Mining involves the development of an open pit through a series of benches at varying depths. Strip mining involves the movement of overburden laterally to an adjacent empty pit where the mineral has already been extracted. This further assist with the concurrent rehabilitation and it also prevents the most effective way of handling materials. The proposed project will include one open pit. The project will be located within eMalahleni local Phola in the Mpumalanga Province.
 The intent to mine requires the following applications and subsequent approvals prior to commencement:
 - Mining Right (MPRDA): Section 22
 - Environmental Authorisation (NEMA) and EIA Regulations namely: GR 905 – Activities 1, 10, 11, 12, 13, 14, 15, 24, GR 904 – Activities 4, 5, 17 & 19
 - Waste Disposal (NEMWA) Category B Activity 10
 - An Integrated Water Use License in terms of the NWA Section 27 water use including (a) abstraction from a freshwater (c) and (d) mining activities within 500m from a wetland (g) dust suppression, coal stockpiling, mine material stockpiling and dry-water dams.
 To the effect, an integrated environmental application process will be followed by means of a Scoping & EIA Process. The Draft Scoping Report (DSR) will be made available for a 30-day public review period (11 Sept 2019 to 11 Oct 2019) at the eMalahleni Main Library – 28 Hofmeyr St, Witbank, eMalahleni, on the website (http://www.environment.gov.za/download) and per download link (upon request). Interested and affected parties (I&AP) are invited to register and provide written comments. I&APs should refer to the relevant reference number(s), and must provide their comments together with their name, contact details (preferred method of notification, e.g. e-mail address or indication of any direct business, financial, personal or other interest which they have in the application to the contact person indicated below. You are hereby also invited to the open day that will take place on 03 Oct Between 10:00am and 12:00pm at the eMalahleni Main Library – 28 Hofmeyr St, Witbank, eMalahleni.

Project Ref: 19-724-AUTH Wildebessfontein Mining Right Application

NOTICE OF PUBLIC PARTICIPATION NOTICE: WILDEBESSFONTEIN COAL MINING RIGHT APPLICATION
DMR REF: MP 19/9/2/2/1/162201 EN ECD ELEMENTUM REF: 19-724-AUTH
NOTICE OF PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED MINING RIGHT APPLICATION FOR COAL ON WILDEBESSFONTEIN 327 35 PFM 19 & BE OF PFM 2, NIKANGALA DISTRICT, MPUMALANGA PROVINCE OF SOUTH AFRICA
 Notice is hereby given in terms of the Minerals and Petroleum Resources Act (Act No.28 of 2002) (as amended) (MPRDA) and its associated Regulations, the National Environmental Management Act (Act No 107 of 1998) (as amended) (NEMA) including its associated Environmental Impact Assessment Regulations 2014 (as amended), the National Environmental Management Waste Act, 2008 (Act No 101 of 2008) (NEMWA) and the National Water Act (Act No. 36 of 1988) (NWA), that Synthe Coal (Pty) Ltd, has applied for a Mining Right on the above-mentioned farm.
PROJECT TITLE: Wildebessfontein Mining Right Application (19-724-AUTH)
PROPOSED PROJECT: The coal resource will be mined using open pit methods due to the severity depth of the coal reserve below surface. Strip and Follow Mining techniques will be utilized considering the site layout and resources. Follow Mining involves the development of an open pit through a series of benches at varying depths. Strip mining involves the movement of overburden laterally to an adjacent empty pit where the mineral has already been extracted. This further assist with the concurrent rehabilitation and it also prevents the most effective way of handling materials. The proposed project will include one open pit. The project will be located within eMalahleni local Phola in the Mpumalanga Province.
 The intent to mine requires the following applications and subsequent approvals prior to commencement:
 - Mining Right (MPRDA): Section 22
 - Environmental Authorisation (NEMA) and EIA Regulations namely: GR 905 – Activities 1, 10, 11, 12, 13, 14, 15, 24, GR 904 – Activities 4, 5, 17 & 19
 - Waste Disposal (NEMWA) Category B Activity 10
 - An Integrated Water Use License in terms of the NWA Section 27 water use including (a) abstraction from a freshwater (c) and (d) mining activities within 500m from a wetland (g) dust suppression, coal stockpiling, mine material stockpiling and dry-water dams.
